an advance of agains (i) is according to condition and qual-ity, over the last ellip price. The dealers have thus for operated vary continuity, ba-listing the relates the farmers asking too high, and not jest-fied by the properties of future trais. It is reported thus the wool of this cip is moving in botter condition these that of the preceding year. It seems reasonable that there will be first agreed theorem of uncould in the bands of

the fermers, under such circamitances. Policid wool has been comparitively quint during the pess month. Within the last for days, however, bolders have expressed more confidence in better prime, and a bolter do-made, colle because of the new rates being outbollabed for

the new clip. Trate wool of the new clip has already come forward, and is in good demand, the better class meeting with a ready asis at our quotations; but there will be less coming in this in previous years, because of insulfactures being catabilities a inst Biate. Merican wool has continued to good demusit, and good inde have somewhat recovered.

kinds have somewhat recovered. California wool in atock is much redu -d, yet continues in good request the demand is chiefly nor the quitilies and good modium, while he module and he with a set hery at even low privat. Fine foreign wool runnies about the sethed us at the date of our last circular. The sales during the moth of Jone here been rather hight. Low foreign wool, mostly for carpet parts, he been is lat demand, but there has been a little main of the rates. The same may be said of modium and here wonder.

demand, but there has been a little easing off in rates. The same may be said of medium and low modum (rate), wools, the prices of which are firmer, and is wone instances it $\frac{1}{2}$. Th higher show the hast settices from Nurope here been received. The markeds there are firmer, with a batter do made, and some improvement is all reaches smithely for army

mand, and some improvement in all works suitable for army and nary purpose. The London auction sales of Colonial fine wool (Antre-lian, Cape, Car) went of , and terminated spirited at the same reduction of prices as at the opening, bor withstanding the absence of many foreign purchases from the Continent The result is considered favorable; showing confidence in the future. The large sales, or wool fair at Breslau, of Silesian, and other very fine as well as the wool, tack junc in the begin ning of Jano, and was, well attended, and pract have been the same as inst year, with a tended, and pract have been in represented as ruperior to the other the same as inst year. The same confine of seme transite fairs on the Carling of the same simi-tar results.
