Ws have before referred to the great improvement in the denial art of substituting Corallic and Porcelain for metallic plate in the manufacture of artificial teeth. This is a want that has long been felt, and will be duly appreciated by the toothless. Our former opinion of the merits of these new styles of teeth is fully confirmed by all who have tried them. The Rev. Dr. Kerr speaks from personal experience as follows: Guzette. Pittsburgh WEDNESDAY MORNING, JULY 13, 1850. OPPICIAL PAPER OF THE CITY.

Sackville, N. B., July 12.—The steamship Canada, from Liverpool, with dates to 2d instant, passed Cape Ikoca to 5 a. n. on Sanday, and arrived at Hullian to-day. She was boarded off Cape Race, and a brief summary of her news procured, which was started from St. Johns yesterday, but only reached here this forencon.

The intelligence from the soat of war states that no fighting has occurred since the battle of Solferino. The allied troops continue to cross the river Mincio without molestation from the enamy.

Emperor Napoleon had removed his head-quarters from Vota to Vallegio.

We shall commence, this week, the publication of a tri-weekly edition of the Gazerra, which we will furnish to subscribers at \$3.00 per annum. As many of the daily mails have been out down to tri-weekly, this will afford our frends an opportunity of accommodating themselves to the change in their mail facilities.

The Passenger Railway question adapted its alow length along in the Quarter Sessions yesterday. Mr. Howard, in behalf of the borough of Lawrenceville, made a very long speech, in which he went into the matter in all its bearings. The borough asks that from eighteen to twenty two feet of Buller street be pared by the Company. It is claimed that this is no more than a fair compensation for the expenditure made to bring the street within the last year, and in the first of the trailway track without further grading. It is stated that \$1,466 have been expended on the street within the last year, and that this has given a good solid bottom. It is fluest within the last year, and that this has given a good solid bottom. It is fluest within the last year, and that this has given a good solid bottom. It is fluest within the last year, and that this has given a good solid bottom underneath; of that we are assured by those who know, which would stand the pressure of any amount of cars that could be placed on or run over the track.
