and all the other States yet to elect, get more than 16 States, and therefore cannot elect their candidate if the election should go to the House of the control of the nomination to the House of B. Rush Petrikers, by the Republicans of Clinton county. He is a stannch Republican and will make an excellent Representative. As he runu upon a popular issue—investigation into the Canal was sold to the Sunbury and Erie road, his election is certain.

We note, with equal pleasure, the nomination of Lewis W.-Hall, for Senator, by the combined opposition in the district composed of Blair, Clearfield and Cambria counties. This is Biglar's district, and a very close one, as indicated by last year's vote. Mr. Hall is a young gentleman whom we very much esteem for his many excellent qualities. He is an energetic, talented and popular man, a fine apeaker, and a good worker, and will make an excellent Senator. We regard his election as certain. The district was last represented by John Cresswell, locofoco.

"A good deal of interest is felt in the result of the election for State Senator in the Cambris, of the election for State Senator in the Cambris, of the election for State Senator in the Cambris being the district in which Senator Bigler resides. The opposition have nominated Lowis will be the district in which Senator Bigler resides. The opposition have nominated Lowis as dangerous man, because he so successfully elected and the senator bigler resides. He is a gentleman of fine abilities and high character, but he cannot be elected unless Senator Bigler should induce the Democratio Convention to put a candidate in nominating Convention to put a candidate in nomination Convention

The Sentinet, a paper published at Moundville, Marshall county, Va., has been suspected of free-soil tendencies, and in order to relieve itself from suspicion, its editor says:

"We do not like negroes, free or bond, and would rejoice to bear of every one being apported to Africa, or settled in a goloup somewhere by themselves. The South is becoming so 'mixed up,' that a man cannot feel safe any more in marrying there, for fear his wife will prove to have black blood in her veins. Negroes are so fully, kept in their 'aphere' by northern white men; that, as a role, persens can always find out 'negro blood' by tradition, and it is comparatively safe to marry dark complected women there, without dauger of the 'smallgamation' so very common in the South. The Texas Electron.—The Philadelphia Preus says that the regular Democratic Governition of Texas, which nominated Gov. Rudbuells for re-election, falled to pass a resolution endorsing the National Administration, and this omission, giving mortal offence to the President, when Gen. Houston came forward as a volunteer candidate for Governor, though he was a prominent member of the American party but a few years

Gen. Honston came for ward as a volunteer candidate for Governor, though he was a prominent member of the American party but a few. years since, and though, as he confessed in his speech, he did not vote for Mr. Buchanan in 1856, the officials of the National Administration in Texas warmly supported him. This accounts for the fact that after his election the official organ at Washington gloried in his triumph.

Bearn Courst.—The anti-Lecomptonites in Blair county were defeated at the locofeco Convention held on Monday last. Neff, Lecompton, was nominated for Assembly, by a vote of 24 to choose his own conferees; but as he is a Lecomptonite he is probably a mere tool of Bigler's, which will use his conference; the monitoring has been will be more than the power do choose his own conferees; but as he is a Lecomptonite he is probably a mere tool of Bigler's, which will use his conference; to secure the hominary has poposition members from Kentucky, warmly have poposition members will have agained for the purpose, when he fact that a first his sol, he was placing a piece of timber as a cili, upon which to errors a frame, when it was caught by a crank of the control of the cont
