years, unblemished integrity; military educa-tion and excellent business capacities eminently LET EVERY TAX PAYER READ! Our readers will remember that in 1857 the County Commissioners levied a tax of 8 mills on the dollar, one-half of which, according to the current belief, was for county purposes and the

other half to pay interest on railroad bonds; that prior to October, 1857, a considerable portion of this 8 mill tax was paid to the Collectors, principally in and around the two cities; and that after the election of Mr. McElhinny, (the democratiq candidate for Commissioner,) in October of that your, the two democratic Commiscloners, Messrs. McElhinny and Tomer, recalled plicates, reduced the assessment to 4 mills, and instructed the Collectors to collect

a year ago, we took occasion to inquire of these democratic Commissioners, in an editorial article visit the Republican meeting in the Fifth ward of some length, what had become of the excess for the purpose of electioneering. He says that over 4 mills collected prior to the election in Ogtober, 1857. It was plain, even then, that of the

as it was most certainly collected, to whom was it paid? We got no satisfactory answer to our queries, then; and although we showed, conclusively, that the Collectors in Birmingham and Manchester had collected, between them, over \$800, in excess of the 4 mills assessment, and had been exonerated by the democratic Commissioners from the money thus collected and never paid into the treasury, no explanation was given by the locofoco majority of the board. Reform were freely circulated that the money thus collected had been paid to these Commissioners, and been policited had been paid to these Commissioners, and been policited by them; but they still kept silence, and left the public to suspect what they chose.

The inquiries then put forward have been on record for a year; and are as yet unanswered by those to whom they were addressed; but fortunately we have an answer before us in the A. All this looks as if the congress would ultimately, be called upon to do that which the contact its progress and its proper foods and directively those to whom they were addressed; but fortunately be called upon to do that which the contactive manaly be exceeded by the control of the congress and rective manaly be called upon to do that which the contactive materials. those to whom they were addressed but fortunately we have an answer before us in the Auditor's Report of the County Accounts for the year 1858. This report was completed and filed in Court on Monday last, and we embrace the first opportunity of making public the exposure therein contained of this whole matter.

It appears, then, from the facts contained in this report and from other evidence that the Cotlectors of 1857 who had collected what is technically known as "the railroad tax" were induced by the democratic majority of the board not to pay the money into the treasury, but to the Commissioners; that it was so paid; that these democratic Commissioners then notified such taxpayers as had paid the "railroad tax" to call at the Commissioners office and the money that the tax refunded to the "railroad tax" to call at the Commissioners office and the money would be refunded to the "railroad tax" to call at the Commissioners office and the money would be refunded to the "railroad tax" to call at the Commissioners office and the money but, in courte of draws bearing. "I write to you in the midst of the great agintation which now pervades the town on account of news from Rimin. It is said that a corps of the entire half thereof, including the money thus collected and paid over.

To sum up, then, it seems that the Democratic Commissioners exonerated the collectors from "the railroad tax" of collected, as well as that uncollected; that "the railroad tax" thus collected was paid to the Commissioners in person, instead of refunding it to those who had originally paid it, fur it into their pookers, and drew warrants upon the county treasury to refund money which had never been paid into it. We say, this seems to be the case. If the Commissioners did not pooker this money, what did they do with it?

How much of this "railroad tax" was collected and so paid in it is impossible now to tell; much of this "railroad tax" was collected and so paid in it is impossible now to tell; much of this "railroad tax" was collected and so paid in it is impossible now to tell; much of this areal to take the case. If the Commissioners did not pooket this money, what did they do with it?

How much of this "railroad tax" was collected and so paid in it is impossible now to tell; much of this areal to a tell the too construct the county treasury or refund money which had back, and all that can now be ascertained is the total amount refunded. From the Auditor's report we learn that the sums following were refunded to tax payers residing in the districts named, by warrants drawn upon the county treasury, viz:

It is enough for us and those, who act with us politically to know that the democratic commissioners had the entire coultrol of every thing in their hands; and the tresponsible parties in the whole transaction; and that the political party which elected and has upheld them is fairly answerable for the responsible parties in the whole transaction; and that the political party which elected and has upheld them is fairly answerable for the responsible parties in the whole transaction; and that the political party which elected and has upheld them is fairly answerable for the responsible parties in the whole transaction; and that the political party which elected and has upheld them is fairly answerable for the responsible parties in the whole transaction; and that the political party which elected and has upheld them is fairly answerable for the results of their conduct.

At the time Maj. McElbiany was elected, we would introduce into county affairs and the great county. Behold the accomplishment! Will not these facts satisfy the people of the folly of entrusing the control of county affairs to locofocce? Have they not had enough of this kind of work! Then let them beware, when templed to vote for a locofoco colleague for the redoubtable McElbianey. Burnt children dread the fire. It is not likely, therefore, that the people of this county will contribute in any way to the ascendancy of will contribute in any way to the accendancy of a party which has given us such representatives as MoElblany and Tomer.

It is for Messrs. McElbindy and Tomer to clear their skirts, if they can. We submit the facts and to harrass the traffic in the fairway of such a facts, and leave the public to judge.

THALBER of args—They are beyond comparison As set.

I have ever seen in the United States, and will compare facorably with any I have ever known.

GUSTAVE SATTER says—The opinion which I express

it three years ago, has been unor than confirmed to me, by

the continued use of them, wir. That for wonder on the

property of the continued of the continued on the property of the continued and pere

paulity of ton, with nicety of artitulation, they are un

"They can safely bear comparison with instruments and part of the world, in point of tone, strongth and elicity of touch." [From the New Griesna Picayuna.]

any are unequalled."

[From the Family Journal.]

"The peculiar mutical qualities belonging to the Ohlchering instruments, are a full, musical, rich and powerful tone, free from any woods no lock, includes of second, so disagreeable to the sendiffre mutical car. They have also an easy, swen and pleasant touch, and will keep in tune better than any Planos known."
