The Buckwheat crop is harvested, the corn matured, and the potatoes showing symptoms of the rot. Fire times the usual crop of Buckwheat are produce, and here we are buying of her, for gold, organize a wilds spread incurred in the potatoes extraordinary.—Butter twenty-two white men and negroes, on a public proper tariff. It is time that the country were twenty-two white men and negroes, on a public throughfare, easily accessible by telegraph and throughfare, easily accessible by telegraph and throughfare, easily accessible by telegraph and the country was gislatire District, the Opposition candidates, Messra. Gordon and Niobols are elected. This railroad to important and powerful military ald, these. is so wild and foolish as almost to defy belief. It was simply a purposeless and sonseless riot. the leader of which, well known as "Old Ossawatomie Brown," has been driven to frenzy by the persecutions he endured on the Kansas border. Ever since the death of his son Frederick, who was shot down at his own door in Kansas, by a Missouri mob tenfold more revengeful and

been a monomaniac. The Chicago Press says:

"He has supposed himself divinely appointed to free all American always by some violent and decisive movement, the nature of which we do not know that he ever revealed. Often, we are told, during the Kanens disturbances, he would retire to a scoluded place at a distance from his samp, and there, to use his own words, wreatle with the Almighty for hours, to wring from Him the aid which he demanded in the accomplishment of the work to which he thought himself appointed by heavenly favor. His talk for years to his friends and intimates has been of his commission scaled with the blood of the Savior, by which he was directed in the path that he was about to follow. He has entertained no doubt that his life was to be prolonged until he could about to follow. He has entertained no doubt that his life was to be prolonged until he could see the shackles stricken off from every slave in the land; nor has he had a doubt that by his agency, as the instrument of God, specially entrusted with the work, every bondman was to be freed. This delusion has been regarded as narmless, and, since he passed out of public view, it has, we suppose, been forgotten even by his friends. That he has acted upon the murderous impulse which the violation of his own fousehold registed within him—that his mania histover powered his reason, and forced him into the commission of a great crime—the hietery of Assembly Butler 2763 T. put down a few lunatics looks very much like loading a caunon to shoot a robin.

The first feeling excited by the telegraphic account of the affair, and the one which continues of the look are known in the telegraphic correct. During after all the facts are known, is sum or partial and facts are sum of the sum were & handful of such fanatics and fools as Brown and his men are represented to have been. A gang of escaped maniacs could not have stumbled upon a freak so horribly foolish The utter madness of their scheme -- the absolute certainty of their sudden destruction-does not seem to have occurred to them. They have naid for their oriminal folly with their lives, and it is to be hoped there are no more of the same sort. The attempt will be made, of course-nay, has already been made—to make political capital out of the affair. There will be a vast amount of political twaddle manufactured out of it. The fire eaters will be more fierce than ever. The whole North will be charged with the responsibility for the crack-brained doings of a handful of madmen. There are paltry politicians who seek to make capital out of it; by charging the Republican sentiment of the North with Commiscomplicity in it, but the common sense of the country will be proof against so far-fetched a

There is not a man in the Republican ranks who is at all connected with or has given any impathy to this silly movement. That it has had some north serin aid, is plain; but the men Mosic as a Medicina.—Eugene de Mirecouri, in his lively little biography of Felicien David, and are not now, identified in any way with the Republican party. Prederick Douglass and Gerrit Smith were never Republicans, but were leaders in a little party of their own, polling two or three thousand votes. They ran an electoral floket ngainst Fremont in New York in 1856, and last year Gerrit Smith ran as an independent candidate for Governor, and stumped pendent candidate for Governor, and etumped the State, against the Republican candidate.

This fact is worth receiving the attention of FAIR BARK STALES. They have always been the bitterest opponents of the Republican party, because it was not ulof the Republican party, because it was not ultra enough; and all attempts to hold our party responsible for their acts will fail. The Republican sileapprove, as heartily as any others can, all attempts to put an end to Siavery, by force.

It is no part of their mission to make war upon eliberty in the States, either through the powers of the government or by force of arms; and the powers of the government or by force of arms; and the responsibility for this silly set must rest solely upon the bends of the few wild zealots who conupon the heads of the few wild zealots who con-

the Western States have declared their preference for Gen. Carragoz for the Presidency, on the ground that his nomination would ensure success to the party in 1860. The feeling in his favor is spreading rapidly, not only in the West, but in New England. A correspondent of the New York Tribune, writing from Philadelphis, says that his nomination would secure beyond a doubt the electoral vote of Pennsylvania and New Jersey. Both of these States will declare for him, as their first choice, through their that the foundant in breath will often come in such a questionable clare for him, as their first choice, through their bread will often come in such a questionable shape as to have no temptations for his paists." delegates to the National Convention.
