KEEPING SWEET POTATOES.—A correspondent of the Oskaloosa Herald gives his method of keeping sweet potatoes through the winter: "I use dry sand to put them up in—it don't matter how the sand is dried, in a kiln, in a log heap, or in the sun, so it is dry, that is all that is required. I prefer drying in a log heap, as it costs at least four times less, and is just as good. Any family that had a little room with a stove in it, may keep a box or two of eight or ten bushels without much inconvenience. The boxes must be raised six or eight inches from the floor, and they must not be nearer than four inches of the wall. Fill the box with potatoes, and then put in sand, cover the potatoes with sand. I have also known them kept well in buckwheat chaff. In order to keep potatoes with success, there must be a thermometer kept in the room. The mercury must not sink below 40 deg.; if it does, the potatoes will chill and rot; it also must not raise above 60 deg. or they will grow. I never lost any of my potatoes only by letting the room get too cold. A thermometer only costs a dollar, and every man ought to have one."

A CORRESPONDENT of the Observer relates some facts of interest in regard to John Brown. He says, "It was about ten years ago that he made his appearance as a farmer or a cattle breeder, in North Elba, one of the interior and most secluded towns of Essex County, and verging upon the vast wilderness of Northern New York. The humble farm of Brown is situated on an elevated and broad plateau, embraced in the giant arms of the Adirondacks. North Elba was the scene of Gerrit Smith's abortive attempts at negro colonization. Only two or three of the colonists remain. They have either abandoned their farms, or the lands have been sold for taxes. At the agricultural fair of Essex Co., for 1850, a sensation was created by the appearance on the grounds of a herd of Devon cattle. They were the first that had been exhibited at the county festival, and every one was surprised and delighted by the incident. It was understood that a certain John Brown was the owner, and that he resided in the town of North Elba. The writer of this article soon after opened a correspondence with Brown, in relation to these cattle. His reply is now before me. The letter is written in a strong and vigorous hand, and by its orthography, accurate punctuation, and careful arrangement of paragraphs, evinces far more than ordinary taste and scholarship. It considers it remarkable, not only for the force and precision of the language for a business letter, and for the distinctness of its statements, but equally for its sound sense and honesty of representation. Brown was at North Elba during a large part of the last Summer, engaged everywhere in disseminating his opinions. The remnant of his family while here escaped his fatal schemes, still remain on the farm at that place, clustering around the hearth that has become so fearfully bereaved and desolated."

THE NEGRO UNIFORM TO BE CHANGED.—The Charleston people are calling for a revival of the laws of 1740 and 1783 regulating negro costume, which have been allowed for so long a time to become obsolete that in matters of dress the distinction between master and slave is abolished. "It will not do," says a correspondent of the Charleston Courier, "to hoodwink our eyes to what vitally concerns the future peace and well being of the community. The love of dress in the negro may be considered as the parent of all the other vices, destroying the virtue of the females, and rendering both sexes insufferably impertinent. The most expensive fabrics in our dry goods stores are now sold to colored females, so that the only distinguishing mark between the lady and her maid, is that the latter flaunts the most elegant dresses upon the streets.

"Let us, then, return to the good old times when these dames neither preserved their complexions from a darker shade, by wearing 'uglies' and veils, nor swept the sidewalks with their rich brocades and silks, and where the dandy barber and tailor-boy did not sport his fancy switch,' or perfume the air with his fragrant weed."

For Sale.

FOR SALE,
The Star Nail Works,
IN IRONTON,
LAWRENCE COUNTY, OHIO.

IN consequence of the decease of two of the stockholders, the STAR NAIL WORKS are now offered for sale at a great bargain. These Nail Works are situated in the Iron Region, in the Southern part of Ohio, about 30 miles above Portsmouth, and 140 miles above Cincinnati. The main building is 250 feet in length, by 116 ft. in width, substantially built, and contains new and improved machinery, consisting of 5 steam engines, 20 nail machines, a machine for making nail kegs; also 10 boiling furnaces and 5 heating furnaces; together with the necessary rolls, and has a capacity to manufacture 250 kegs of nails every 12 hours. In addition to above, and to keep it with the Nail Works, do nine of Coal Lands, 6 miles distant by railroad, and delivering coal at the mills at a cost not exceeding one dollar per ton; and has peculiar advantages for shipping nails to various points at all seasons, as the Ohio river at this point and below is seldom obstructed. The location is regarded as the best in the country for supplies of pig iron and coal, as there are 6 blast furnaces within 20 miles, 9 of which bring their pig into town by the Iron Railroad; and the surrounding country, diverse service, and will enjoy open winter, and delightful climate, where fever and ague is utterly unknown. The result of the change upon those from the North has generally been to restore them to an excellent state of health.

In the way of building and fuel a dwelling house can be obtained at the mills at the rate of $10 to $15 per thousand brick from the yard opened in the place. Every article can be procured in the place, at 5 per cent. over Cincinnati, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be aware of the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements can be proved to be entitled to examine the land before purchasing. Parties are expected to pay for the land under cultivation, such is the extent of the settlement already made in the place, and there will soon come with a view to settle, by the improvements that can judge of the character of the population. If they come with a view to settle, they will be expected to pay a day or two and be ready to purchase, as locations cannot be held on reliance.

There are two daily trains to Philadelphia, and to all points of the Pennsylvania Railroad company grant a Free Ticket for six months, and a half price Ticket for three years.

THE TOWN OF HAMMONTON.

In connection with the agricultural settlement, active and thriving town has gained a place, which presents advantages for any kind of business, particularly cores and manufactories. The Cores business could be carried on to this place and market to good advantage. Also, machine and manufactories of Agricultural Implements or Founderies for casting the same. The improvement has been so rapid as to insure a constant and permanent increase of population. Town lots of a good size, (we do not sell small ones, as it would effect the improvement of the place) can be had at from $100 and upwards.

The Hammonton Farmer, a monthly literary and agricultural sheet, circulating full information as Hammonton can be obtained at 25 cents per annum.

This indisputable—warranties deeds given, clear of all incumbrance when money is paid. Rods to the lands leave Vine street wharf, Philadelphia for Hammonton daily—inquire for Mr. BYRNES. Fare 90 cents. When there, parties had better stop with Mr. Byrnes, a principal, until they have decided as to purchase, as he will show them over the land in his carriage, free of charge. Cards of application can be addressed to LANDS & BYRNES, Hammonton P. O., Atlantic county, New Jersey, or S. S. COUGHLIN, 222 South Fifth street, Philadelphia. Maps and information cheerfully furnished. jul4-eodlm

THE HAMMONTON FARMER—A newspaper devoted to Literature and Agriculture, also setting forth full accounts of the new settlement at Hammonton, in New Jersey, can be subscribed for at only 25 cents per annum.

Inclose postage stamps for the amount. Address to Editor of the Farmer, Hammonton P. O, Atlantic Co., New Jersey. Those wishing cheap land, of the best quality, in one of the healthiest and most delightful situations in the Union, and where crops are never cut down by frosts, the terrible scourge of the south, can advertisement of Hammonton Lands.

FARM LANDS FOR SALE 25 miles from Philadelphia, by Railroad, in the State of New Jersey. Soil among the best for all kinds of Agricultural purposes being a red loam, divided into small farms, and hundreds from all parts of the country are now settling and building. The crops produced are large and can be seen growing. The climate is delightful, and society is free from frosts. Terms from $15 to $30 per acre, payable within four years by instalments. To visit the place—leave Vine Street Wharf at 8 o'clock A. M. by Railroad for Hammonton, or address J. Symes, by letter, Hammonton Post Office, Atlantic county, New Jersey. See full advertisement in another column. jul4eodlm

ALL WANTING FARMS in a delightful climate, twenty-five miles south-east of Philadelphia, on the Camden and Atlantic R. R., New Jersey.

An old estate consisting of several thousands of acres of productive and fine land, divided into farms of various sizes to suit the purchaser. A population of 2,000 souls are settled around, from whom parts of the middle States and New England have settled there in the past year, highly pleased with the land and raised excellent crops. The purpose of the land is at the low sum of from $15 to $20 per acre, as the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the fruit crops of grain, grass and fruits are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy in order to secure a good improvement of the land, which is only sold for actual improvement. The land, as it is, that within the past year, some three hundred houses have been erected, together with churches, stores, flour stores, some forty vineyards and Peach orchards planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET.

As the reader may perceive from its location, is the Produce bringing double the price than inducements away from the city, and more than double the price than the West. It is known that the markets are best for fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, and is near the old friends and associations, he is to a settled country. After every convenience of comfort and civilization is at hand. He can buy every article he wants at the cheapest rate, and sell his produce for the highest, (to the West this is reversed,) has the best of churches, diverse service, and will enjoy open winter, and delightful climate, where fever and ague is utterly unknown. The result of the change upon those from the North has generally been to restore them to an excellent state of health.

In the way of building and fuel a dwelling house can be obtained at the mills at the rate of $10 to $15 per thousand brick from the yard opened in the place. EYE AND EAR
DISPENSARY.
Office 95 Main St., (2d door, up stairs,) Buffalo, N. Y.

ESTABLISHED BY THE CELEBRATED DR. JOHNSON, late of London, England.

A great discovery in the science of medicines, being a certain and speedy cure, and restoring the sight and removing all diseases peculiar to the eyes, ears, throat and head, acknowledged the only safe and sure remedy now known, and has been dealt with great success by the most skilful physicians in Europe and America.

Fail not in any part of the country can treat themselves successfully at a great saving of time, expense and trouble, and danger and expense of failing into the hands of ignorant physicians. This medicine (sufficient to cure,) will be sent by mail or Express, with all necessary directions on receipt of Ten Dollars.

Dr. Johnson's Certain and Infallible Cure for Deafness and Singing Noises in the Ears; Nervous Head and Mind Complaints,

Affording instant relief to sufferers who have been troubled with deafness for many years. After taking this remedy a few days the patient is suddenly and unexpectedly gratified to hear ordinary tones of conversation; in the course of a few weeks the most obstinate case of deafness is effectually cured.

Patients too numerous to mention have been restored to perfect hearing and sight forever rescued from the snares of the numerous dangerous unqualified pretenders, even in the hospital and private testimonials and certificates from the most eminent physicians are surgeons in England, in whose presence deaf persons have been cured, and many families in this country.

A case of the most inveterate (enough to effect a cure,) will be forwarded to any part of the country for Fifteen Dollars. Address

TARRANT'S EFFERVESCENT and Seltzer Aperient constantly on hand and for sale by
oct28 (Cor. FLEMING.

Medical.

POPULAR ESSAY ON THE DISEASES INCIDENT TO TRADES AND OCCUPATIONS.

It is not our purpose to write, as briefly as possible, concerning the diseases and disorders incident to certain occupations, including their causes, symptoms and mode of cure. We shall do this in plain language, and in a straight forward way. Our purpose is twofold—briefly, to give some curious facts not generally known; and, secondly, to bring more forcibly to view the ready relief at hand in RADWAY'S REMEDIES. We frankly avow that the trouble we are taking is a business transaction meant to benefit both the public and ourselves.

The diseases springing from various trades arise either from the very nature of the occupations, from the materials handled or dealt, or from both causes. Scarcely any of these pursuits are necessarily unhealthy, but such will be as independent in their business as in their pleasure, and suffer for their neglect of precaution.

Let us look first at those who suffer from poisonous materials.

Oppersmiths, Brass Founders, Braziers, and Pinmakers, from their manipulation of copper and its compounds, take into their system either the impalpable dust of its oxides or salts, or their fumes. The results are a copper disease, whose symptoms may vary more or less in violence, sometimes creeping slowly along until the system is utterly destroyed, or else coming on so severe in more apparent forms. The victim to the copper disease notices, perhaps, on rising in the morning, a slightly acrid taste in the mouth, a slight constriction of the throat, the tongue dry and parched, and sometimes sickness at the stomach. He thinks he has caught cold, and, probably, takes some advertised expectorant, which relieves him worse than before. At times there comes an attack of colic. If dysentery is at all epidemic, he is very liable to be attacked, and his terminal sensations are the doctors call them, namely, his pale in the bowels and disposition to stool, are exceedingly violent. Often a thirst which no amount can relieve for a distended abdomen, or black stools, slightly streaked with blood, or an indefinable anxiety, is the commencing symptom, and is scarcely noticed. Orange sometimes takes the appearance in the limbs and stomach, either alone or accompanied by some of the symptoms previously enumerated. A headache at the close of work, or during the day, is not uncommon. A preventive of these would be the use of a respirator, which checks the passage to the lungs or stomach of the dust or vapor, and gloves, to keep it from the pores of the skin. A generous diet should be used, the bowels kept open by moderate doses of RADWAY'S REGULATING PILLS; a dose should be taken in the morning and evening of RADWAY'S READY RELIEF, and in the use of RADWAY'S RESOLVENT; persevered in will in time subdue the poison.

Type-Founders, Pasteurs, Painters, Plumbers and Glaziers.

And *Workers in Manufactories or Shot-Towers*, are exposed to the same poisons. The copper disease, may produce a series of insidious but scarcely noticed symptoms, ending sometimes in paralysis, or, more especially with painters and white lead makers, in the dreadful disease called painter's colic. These all, at times, will notice in their mouth more particularly at night, a coppery and slightly astringent taste, sometimes with a nausea, or wind and weakness in the region of the stomach, and occasionally nausea, followed sometimes by vomiting.

Grocers and Tea Dealers,

or those who use much vermillion, will have a tendency to diarrhœa; for, unlike copper, this shows its effects more in the small intestines; and the bladder and urinary passages will be seriously affected, sometimes merely producing pain, but irritation, and at others, bloody or high-colored urine. The REGULATING PILLS and the RESOLVENT must be used to produce confluctivity, and the READY RELIEF applied to the part of complex pith and water, into which the READY RELIEF is put, (a dose to a pint of water,) or a wash of the same, repeated frequently to tea drops. Adhere to the REGULATING PILLS will materially assist in subduing the inflammation.

Fender-Makers

are subject to heart-throbbing and heart-disease, with losses of bowels; and both these and

The Makers of Lucifer Matches

are liable to a very troublesome disease, developing itself on the scalp, and a decline in little patches on the face, of the thumbs or fore-fingers, or at the lower extremity of the spine, sometimes with itching, and sometimes of the cuticle, in the former cases the REGULATING PILLS will be found efficient, and in the latter, the RADWAY'S RESOLVENT in connection with the READY RELIEF, in the latter, the RADWAY'S RESOLVENT, which in the simple disease also act with speedy, good effect. For rheumatism, if acute, the READY RELIEF, applied both externally and internally, is generally found sufficient; though chronic cases, or such as may be combined with a scrofulous habit, will not yield without the RESOLVENT, which utterly roots out the disease, and restores the system to its normal state.

*Stevedores, Longshoremen, Porters, Quar
