

The Last Election.—The New York papers received yesterday have no doubt upon the mind that the Republicans have made a clean sweep in that State. The attempt of the disaffected Americans to elect a part of the democratic ticket was abandoned...

Mr. Bates does not believe that African slavery is a beneficial institution. It is a political question, and not a moral or religious one. It is a question of policy, and not of principle.

The whole passage of the State has therefore been in alien hand for four years, although the Republicans have had an undoubted majority there at all times. The party which was elected in 1856...

In New Jersey the struggle was a severe one. The democratic ticket was elected in 1856, and the Republican ticket in 1859. The former was re-elected by a large majority...

Wisconsin also has done so. Two years ago Gen. Randall was elected by the majority of 47, and the most of the Republican State ticket was defeated. The Governor is now re-elected by a large majority...

It is a question of policy, and not of principle. It is a question of expediency, and not of right. It is a question of expediency, and not of right. It is a question of expediency, and not of right.

Philadelphia.—The Press contains that the anti-administration men have elected 10 delegates to the State Convention, in that city, not having followed upon the heels of the Harper's Pennsylvania delegates but one. The truth appears to be that the state of anti-administration men and ten administration men will not be collected; and that in the other two districts double sets have been chosen and will have been their claims before the Convention.

Edward Bates on Slavery.—We give an abstract, to-day, of the views of Hon. Edward Bates, of Missouri, on the slavery question, as set forth by the St. Louis Evening News. The views are published there as coming from Mr. Bates himself; but it is not clear they were said by him.
