Why, we may ask, should Mexico be punished for the offences of CONTIANS. The Mexican analon has been for a year or two distracted by rival factions, each claiming to be the true got, true al arrangements. In this state of anxiety it can hardly be appeted that either of the rival government will be able to suppress such border distributions as to some such border distribution be appeted that either of the rival government will be able to suppress such border distributions as to only and it would be far more rational on our part to defend our own border, which we can easily do, than to seize upon the territory of an unforthmate and
