THURSDAY MORNING, DEC. 1, 1859.

LATEST NEWS.

BY TELEGRAPH.

RECEIVED AT THE DAILY GAZETTE OFFICE.

THREE DAYS LATER FROM EUROPE.

Arrival of the Europa.

SACKVILLE, N. S., Nov. 30.—The Royal Mail steamship Europa, from Liverpool, on Saturday, the 19th inst., arrived at Halifax to-day. The Europa's advices, which are three days later than those furnished by the Bohemian, have been brought here by the horse express.

The treaty ratifications were to be exchanged at Zurich on the 21st inst. France had issued letters of invitation to the Congress to those powers that signed the Vienna treaty, and to those of the Italian rulers.

The attitude of the English and French press was daily becoming more warlike. The London Times calls on Napoleon to put an end to the suspense.

The Congress of powers on the Italian difficulties is expected to meet at Paris, but no date had yet been mentioned.

It is stated that the Emperor Napoleon opposes Chevalier Buoncompagni, in assuming the Regency of Central Italy.

It is reported that Garibaldi has resigned the command of Central Italy, and has joined the Sardinian army.

The London Society of Arts had inaugurated a movement for a great exhibition to be held at London in 1862.

Liverpool Cotton Market, Nov. 18.—The Brokers' circular reports the sales of the week to amount to 44,000 bales, including 1500 to speculators and 4000 to exporters. The sales of to-day, Friday, are estimated at 6000 bales, the market closing dull at the following quotations: Orleans fair 7¾, middling 7¼; Uplands fair 7⅜, middling 6¾. There is a stock of 414,000 bales now in port, of which 270,000 bales are American.

Advices from Manchester continue favorable. The markets are generally firm.

London Money Market.—Consols 96@96¼ for account, and 96@96¾ for money.

The bullion in the Bank of England has increased £30,000 during the week. The money market is unchanged.

LATER.—*Liverpool, Saturday.*—Cotton: estimated sales of to day 6000 bales; market dull. Breadstuffs dull, but prices firm. Provisions dull.

Further by the Bohemian.

NEW YORK, Nov. 30.—The following additional information from Europe is gleaned from the foreign papers.

The Daily News, Star and Post, of London, condemn the article in the Times on the war feeling in France. The Post regards it as a needless and wanton alarm, specially designed to put the blood of the nation up.

LATER FROM TURKEY.—The Marseilles papers state that instructions from the French Government have been received at Alexandria to prevent any act that could interfere with the Suez Canal Company, whose works continue.

La Press makes a crushing reply to the anti-English pamphlet of the editor of the Soleil.

The house of Viqueri, of Toulous, had failed, with liabilities amounting to eight millions of francs.

Wheat and Flour were higher in most of the French markets.

On the Paris Bourse rents closed at seventy francs.

ITALY.—Chevalier Buoncompagno enters immediately upon the discharge of the functions of Regent of Central Italy.

Rumors are current of a Ministerial crisis at Turin on the Regency question, but they are denied.

The Paris correspondent of the London Herald repeats that Austria, at the last hour, positively refused to sign the instrument of peace if Prince Carignan accepted the Regency.

There are 6000 Venetians in the army of Central Italy.

An address from the Priesthood of Lombardy had been presented to Victor Emanuel, urging him to repress by law the attempts of those who proclaim temporal power necessary to the Church.

Prince Carignan gave an audience, on the 14th inst., to a deputation appointed by the States of Central Italy, to request him to accept the Regency of Parma, Modena, Romagna and Tuscany.

The Prince said: "I am deeply moved by this offer, and tender my most grateful thanks to the assemblies and the people who have given me so great a proof of attachment. I believe that in making this offer you are influenced less by my personal merit than by your devotedness to the King, and by your feelings which are dear to your national, but are also those of order and respect for the constitutional institutions. Weighty representative reasons of personal propriety, and the approaching Congress, deter me, much to my regret, from responding to your appeal accepting the charge. Their forbearance on my part, and the sacrifice I am thus making, will prove more useful to the interests of our common country, than if I acted otherwise." He concluded by recommending Chevalier Buoncompagnis as Regent, and telling the people that their choice well deserves the sympathies of Europe; to reckon always on the King, who support their wishes, and who will never abandon those who trust their destinies to his loyalty.

SPAIN.—Nothing of moment has taken place relative to the war between Spain and Morocco. The Spaniards charge the English with supplying the Moors with weapons, and instructing them in their use. Active preparations for conducting the war were being made in Spain.

A telegraph line between Ceuta and Algiers was about to be constructed.

GERMANY.—In the Federal Diet on the 12th, the affair of the constitution of Herre Cassel was referred to a committee. In Prussia, the towns of Thuringen, Oldenburg, and Hanseatic had voted for the re-establishment of the constitution of 1831. The representatives of some of the other governments voted in favor of the constitution of 1852. Others abstained from voting. The committee has unanimously adopted the proposal concerning the re-organization of the Federal Military Constitution, and sent its report to the special military commission.

The London Post, in an editorial, expresses the opinion that the Herre Cassel question will be one of great interest, and the action of Russia in favor of restoring the constitution is a most emphatic recognition of her determination to support the popular government and national right in Germany.

RUSSIA.—Prince Gortschakoff addressed a circular to the Russian Diplomatic agents abroad, relative to the Breslau interview.

It appears certain that neither Prussia nor Russia will support the project of an Italian confederation.

The pressure in commercial circles at St. Petersburgh was intense. The rate of discounts had risen to 8½ per cent. The latest accounts say the pressure was diminishing, the rates of money having receded.

NEW ORLEANS, Nov. 30.—Intelligence from Brownsville states that Cortinas hung three Americans in revenge for the hanging of his officers at Brownsville.

The sugar crop of Texas had been injured by the frost.

Advices from the city of Mexico dating to the 19th have been received. The Constitutionalists had been beaten at Queretaro, losing 21 pieces of cannon. A large number of Prisoners were taken, including Col. Alvarez, Tapia, and an American officer. The latter was shot notwithstanding the remonstrances of two British Ministers.

In a battle fought at Tulancingo, the Liberals were victorious; 400 of the enemy was killed and half the town was burned.

It is reported that a compromise had been proposed between Juarez, Robles and Miramon, Juarez to be provisional President of Mexico, the constitution of Jalo to be restored, and the laws confiscating church property to be annulled.

NEW YORK, Nov. 30.—Biggins & Co.'s carpet factory, on Forty-third street, was destroyed by fire this morning. The loss is $100,000. Twelve hundred hands are thrown out of employment.

NEW YORK, Nov. 30.—The New York Tribune says that Gov. Wise has written to Mrs. Brown, enclosing an order for the safe conduct of her messenger to Charlestown, and the remains of Brown immediately be decently committed to his care.

WASHINGTON, Nov. 30.—There are now about 30 members of Congress in Washington. The caucus of the respective parties will be held on Saturday night.

Judge Douglas and wife design leaving the city on the 12th of December, for Florida, on the recommendation of their physicians.

Secretary Floyd says he is much better in health.

From the present indications it is probable the press will be supplied with copies of the President's message and accompanying documents as heretofore.

BOSTON, Nov. 30.—The Prudential Committee of the American Board of Foreign Missions publish a card deeply implicating the moral character of Dr. Pomeroy, the Secretary of the Board, and notifying the public of his dismissal.

Brown sympathy meetings will be held in this city and many other localities in the State on the day of the execution.

POINT SABLE, Canada, Nov. 30.—The propellor Milwaukee and the schooner J. H. Tiffany collided on Monday night in the straits of Mackinac. Both were sunk. All the hands on the Milwaukee took to the boats and were picked up by the propellor Free State. Four sailors and the cook on the schooner were lost. The rest were saved by the Free State, and brought here.

St. LOUIS, Nov. 30.—The steamer Lake City, from Arkansas River, sunk at Carondolet, six miles below here, last evening. The boat was valued at $15,000, and is insured at Pittsburgh for $11,000. The cargo is badly damaged.

CINCINNATI, Nov. 30.—River fallen 15 inches in the last 24 hours; now 15 feet 3 inches. Weather clear and mild.

PHILADELPHIA, Nov. 30.—The wool sale to-day, realized over $175,000. It is most satisfactory. Many of the bids equal the market prices.

LEAVENWORTH, Nov. 30.—Look out for hoaxes about an expedition from Kansas to rescue Brown.

LOUISVILLE, Nov. 30.—River falling slowly with 6 feet 5 inches water in the canal.

Hemp is dull, but prices are unchanged.

No change in land.

Nothing doing in provisions and prices nominal.

Huge firm at 5½@5¾; very few arriving.

Eastern exchange scarce at 1@1¼ prem.

SIX PER CENTS.—The Louisville Journal says:—A sale of 600 bbd from the docks was reported at 56 bat. There was but little done in the produce coming down the river on the Guthrie goes to New Orleans and back, distributing coal at the various depots of Commodore Hyatt—Louisville Courier.

The Lucy Holcomb was sunk near Memphis recently. The papers say that the H. R. W. Hill coming down on Saturday morning, had in tow of all the steamboats and coal tows of cotton. When the Hill left the boat the sand was about 100 feet from the bar, low, and she was settling very fast. Capt. Bateman, the owner, and his wife were on board. The steamer J. C. Swan, bound down, went to her after the Hill left, but could not get her. She was insured for $24,000.

The Louisville Courier, of Monday, says:—The Grampus, a low boat, came in from Pittsburgh last evening with a fleet of barges of coal.

EYE AND EAR

DISPENSARY.

Office 93 Main St. (22 doors up stairs.) Buffalo, N.Y.

ESTABLISHED BY THE CELEBRATED DR. JOHNSON, late of London and England.

A great discovery in the science of medicine, being a certain and safe cure for restoring the sight and removing all diseases from the eye, by which the patient is immediately knowledged the only safe and sure remedy now known. Has been used with success by the most skillful physicians in Europe and America.

Patients in any part of the country can treat themselves successfully at a trifling expense, thereby avoiding the danger and expense of ballin to the city. Persons writing for medicine (sufficient to cure,) will be sent it by return express, with all necessary directions on receipt of Ten Dollars.

Dr. Johnson's Certain and Infallible Cure for Deafness and Singing Noises in the Ears, Nervous Head ache and Mind Complaints,

Affords instant relief to sufferers who have been troubled with deafness for many years. After using this remedy a few days the patient is surprised and almost miraculously cured to hear ordinary tones of conversation; in the course of a few weeks the most confirmed cases of deafness is effectually cured.

Certificates numerous to mention have been restored to hearing and entire health of body, after having been the cases of the numerous dangerous unqualified pretenders of the present day. Hospital and private testimonials and certificates to whose presence deaf persons have been cured, may be seen at the office of the patients cured can be seen or referred to. A case of this kind will be published in this paper, if desired by any part of the country for fifteen dollars. Address DR. JOHNSON,

500 BBLS. GREEN (Winter) APPLES for sale by (no18) J. B. CANFIELD & CO.

GENTIAN ROOT—500 lbs. for sale by
B. A. FAHNESTOCK & CO.,
Corner of First and Wood streets.

PRUNES—5 cases, in glass jars;
5 do in fancy boxes,
Just received and for sale by HEYNER & ANDERSON,
no19 No. 39 Wood st., opposite St. Charles Hotel.

NEW FIGS—500 drums Smyrna, this year's scrop,
Just rec'd and for sale by HEYNER & ANDERSON,
no19 No. 39 Wood st., opposite St. Charles Hotel.

CORN—1000 bUSH. EAR CORN to arrive and for sale by
no19 McDANE & ANJER,
No 124 Second street.

NO. 1 WINTER STRAINED LARD OIL for sale by
no15 JOS. FLEMING,
Corner of Market street and the Diamond.

HEMP SEED—25 bus. for sale by
no17 W. MACKEOWN, 107 Liberty st.

RUSSETT APPLES—50 bbls; Russetts received and for sale by HENRY H. COLLINS.

DOOR SPRINGS OF INDIA RUBBER—6 dozen just received by J. & H. PHILLIPS.

ONIONS.—500 bush large White Onions for sale by RIDDLE, WIRTS & CO.

500 BBLS. PRIME APPLES for sale by
no14 HITCHCOCK, McCREERY & CO.

SYRUP—12 bbls. Honey Extra for sale by
no26 WILLIAMS & JOHNSTON.

HICKORY NUTS.—50 bus. Shellbark Hickory Nuts for sale by HENRY H. COLLINS.

Medical.

POPULAR ESSAY ON THE DISEASES INCIDENT TO TRADES AND OCCUPATIONS.

It is our purpose to write, as briefly as possible, concerning the diseases and ills more incident to certain occupations, indicating their causes, symptoms and mode of remedy. We shall do this in plain language, and in a straightforward way. Our purpose is twofold—firstly, to give such cautions as are not generally known, and, secondly, to bring more surely to their cure those who need it. Hence in RADWAY'S REMEDIES we freely avow that the trouble we are taking is a business transaction meant to benefit both the public and ourselves.

The diseases springing from various trades arise either from the very nature of the occupations, from the materials handled or used, or in both causes. Scarcely any of them are necessarily unhealthy, but men will be as much governed in their business as in their pleasure, and suffer for their neglect of precaution.

Let us look first at those who deal in fibrous materials.

Coppersmiths, Brass Founders, Brazers, and Pinmakers.

These men manipulate or copper and its compounds, take into their system either the impalpable dust of the metal for sale, or their fumes. The results a copper disease, whose symptoms may vary more or less in violence, sometimes creeping slowly along, until the whole system is seriously poisoned. Or, opening an avenue, to more apparent diseases. The victim to the copper disease notes, perhaps, on rising in the morning, a slightly sore throat, or tightness in the connection of the throat, the tongue dry and parched, and sometimes, sickness at the stomach. He thinks he has caught cold, and, probably, takes some spirituous liquor to relieve him. He leaves him worse than before. At times there comes an attack of cramp. It digestory is at all epidemic, he is the first one attacked, and his tormina and tenesmus are more violent. Often a thirst black stools, slightly streaked with blood, or an indefinable anxiety, is the commencing symptom, and is scarcely noticed. Cramps sometimes make their appearance in the limbs and stomach, either alone or accompanied by some of the symptoms previously enumerated. A headache at the close of the day, or after a few hours' work, they are very apt to be visited with many or all of the above symptoms in a greater degree. The REMEDY should be used, along with the REGULATING PILLS, at the first symptom of disease, and the RENOVATING RESOLVENT, taken according to directions, will effect a cure.

Bakers.

from the action of the acid of fermentation on the skin of their hands, and the almost constant exclusion of air from the pores by the flour, are subject to a troublesome form of skin disease. For this the RENOVATING RESOLVENT is a sure remedy, one RELIEF, diluted as a wash, will aid in effecting the desired end sooner.

Occupations wherein sudden mental emotions or protracted mental labor forms a part, are sure to bring prostrative of brain disease, but of a gradual *ramollissement*, or softening of the substance of the brain, whose approach may be told by neuralgia, either just below the eye or above the eyebrow. Asthma and convulsions, the latter the parent of *petit mal*, and similar troublesome complaints, are often the result. Hence it is that

Lawyers, Authors, Editors, Teachers, Merchants and Clergymen,

are effected so much with neuralgia and costiveness. The treatment in these cases is RADWAY'S READY RELIEF—*internally and externally*—the pain immediately ceases after its application. RADWAY'S REGULATING PILLS will in a few hours, restore regularity to the bowels and liver. In certain cases of neuralgia and other nervous affections, the RESOLVENT is requisite.

Engravers

are liable to asthma, costiveness, rheumatism, and inflammation of the spleen and liver. Enlargement of the liver is very common among all persons exposed to intense heat. Hence it is that liver complaints are so common in tropical climates. It need scarcely be said that the liver is a controlling organ, and that its derangement involves all the connecting viscera. The derangement of the viscus may be combated successfully by the proper use of the RELIEF and REGULATING PILLS, which in like spleen disease also act with speedy, good effect. For rheumatism, if acute, the READY RELIEF, applied both externally and internally, is generally found sufficient, though chronic cases, or such as may be combined with a scrofulous habit, will not yield without the RENOVATING RESOLVENT, which utterly roots out the disease, and restores the system to its normal state.

Stevedores, Longshoremen, Porters, Quarrymen, and all Persons who lift Great Weights,

are exposed to attacks of pleurisy. The RELIEF will break the violence of this, and with the REGULATING PILLS effect a cure.

Boatmen, Deck Hands, Ditchers, Dock-Builders, Seafaring Men, Railmen, Physicians, Stage-Drivers, Truckmen,

and all exposed to sudden changes of weather, are liable to liver complaint and rheumatic affections, but more especially to copious disease.

Seamen,

through long abstinence from vegetable diet, are subject to scurvy. The use of RADWAY'S REGULATING PILLS and RENOVATING RESOLVENT is a sure antidote for this distemper. In all cases of ship-fever, smallpox, cholera, or yellow-fever, RADWAY'S READY RELIEF and REGULATING PILLS are positive preventives if taken before the attacks, and certain curatives if used after.

Stage-Drivers

are liable to suffer from diabetes, for which the REGULATING PILLS and RESOLVENT should be used

Physicians,

who are frequently much exposed, should never be without the READY RELIEF, especially in visiting patients sick with contagious diseases. Two or three drops in a wineglass of water, washed with it, and a few drops of it when internally just previous to the visit, will effectually prevent infection. The power of the RELIEF in the matter of counteracting diseases is truly wonderful. It is a sure preventive of cholera, small-pox, and fever and ague, depending, as it does, upon some combustive virtue, yields as readily to this remedy, that

Brewers and Cattle-Dealers,

through the South and West, look upon it as a necessity and

Boatmen, Pioneers, or Farmers Residing in Low or occasionally Overflowed Grounds,

will find the RELIEF a protection against fever and Ague, and other malarious diseases.

Plumbers and Miners,

are liable to the worst forms of lead poisoning. Those who use the RELIEF and RESOLVENT may set at defiance the insidious enemy. Let the daily meal have more or less of RADWAY'S REGULATING PILLS, and the joints occasionally. The RELIEF may be used externally in all such cases. Hence, in

Painters and Glaziers,

who are frequently much exposed, should never be without the READY RELIEF, especially in visiting patients sick with contagious diseases. Two or three drops in a wineglass of water washed with it, and a few drops of it when internally just previous to the visit, will effectually prevent infection. The power of the RELIEF in the matter of counteracting diseases is truly wonderful. It is a sure preventive of cholera, small-pox, and fever and ague, depending, as it does, upon some combustive virtue, yields as readily to this remedy, that

Brewers and Cattle-Dealers,

throughout the South and West, look upon it as a necessity and

Boatmen, Pioneers, or Farmers Residing in Low or occasionally Overflowed Grounds,

will find the RELIEF a protection against fever and Ague, and other malarious diseases.

Printers and Engravers,

are liable to the ill effects of lead, and other mineral poisons, from the constant handling of type. The RELIEF and RESOLVENT will prevent the worst results of this poisoning.

Butchers

occasionally have the fingers or hands pushed or cut by a scratch or an animal too hard killed. Should any of these wounds assume a malignant character, the RELIEF and RESOLVENT will prevent the ill effects.

Printers

are sometimes affected in a manner similar to dyers, but in a less degree. Their attacks are rare. If peculiarly susceptible, they may take the same precautions from the soldier, but we never know but one case of the kind. The RELIEF and RESOLVENT in this and similar trades, sometimes produce inflammation of the skin, which may be effectually combated by the RELIEF and REGULATING PILLS.

Paper Stainers and Sand-rubbers

occasionally suffer some lung difficulties. Among symptoms—the former from the dust; the latter from the fatal habit of breathing through the mouth instead of the nose. The latter is liable to attacks of bronchitis, and is certainly prone to consumption. The principles of these diseases are the same as the patient will bear. As soon as the lungs are affected the RELIEF and RESOLVENT will be found invaluable. Even if there is but a slight cough, and a feeling of weakness in the breast, a few days' use of the RELIEF and RESOLVENT will check the disease, and restore the system to health.

Bakers.

Farmers, Hostlers, Grooms, and all who Handle Hay

are liable to the distressing, though rarely fatal, complaint, asthma. The famous of asthma produce the same disease, and hence bakers, and especially those who use flour, are subject to it. Asthmatic people are proverbially long-lived, yet this complaint is by no means agreeable. The READY RELIEF will relieve them at once, and the RESOLVENT, in the course of a few weeks, will materially assist in subduing the inflammation.

Powder-Makers

are subject to heart-throbbing and heart-disease, with loss of breath, and both these and the

Wearers of Lace Pass Matches

are liable to a very troublesome skin disease, developing it on the scalp, and sometimes in the palms of the hands, on the soles of the thumbs or fore-fingers, or at the lower extremity of the spine. Itchiness, attended with flushing, and scaling of the cuticle, is the former case the RESOLVENT will be found sufficient. Sores, combined with the RELIEF, in the latter, the RESOLVENT internally, with the RELIEF externally, diluted as a wash, but gradually increased to its full power, will effect a cure. In all external applications the palm of the hand is the best thing to rub with, and a female hand, from its softness
