COMMON SENSE rules the mass of the people, whatever the misnamed and misanthrope philosophers may say to the contrary. Show them a good thing, let its merits be clearly demonstrated, and they will not hesitate to give it their most cordial patronage. The masses have already ratified the judgment of a physician concerning the virtues of HOSTETTER'S BITTERS, as may be seen in the immense quantities of this medicine that are annually sold in every section of the land. It is now recognized as greatly superior to all other remedies, yet decreed for diseases of the digestive organs, such as diarrhœa, dysentery, dyspepsia, and for the various fevers that arise from derangement of those portions of the system. Hostetter's name is becoming a household word from Maine to Texas, from the shores of the Atlantic to the Pacific. Try the article and be satisfied.

Sold by druggists and dealers generally, everywhere, and by HOSTETTER & SMITH, manufacturers and proprietors, 66 Water and 63 Front streets.

MORE TO BE ADMIRED THAN THE RICHEST DIADEM EVER WORN BY Kings or Emperors.

WHAT? A BEAUTIFUL HEAD OF HAIR.

THE article that will naturally restore the color of the hair, (the changing of which to gray being an indication of a lack of proper nourishment,) is truly a valuable medicine. Prof. WOOD'S HAIR TONIC is the only safe remedy for baldness, dryness, premature change of color, and the various scurfy, pimply, and humoral affections of the roots of the hair, which can be found. Quack preparations abound on "hair tonics" fill every "corner grocery" in the country. Avoid all "hair dressings" unless known to be the preparation of some man whose celebrity has become world-wide. Do not let any nostrum vender experiment upon your hair. Touch nothing you have not good reason to believe is all that it purports to be. Professor Wood has earned, by a life-long devotion to the duties of his preparation, his present fame. Over 150 certificates are believed of the value of this Hair Restorative, from parties who have tried it. Read the following:

"NEW YORK, April 19th, 1858.
"DR. WOOD:—Dear Sir: Permit me to express to you the obligations I am under for the restoration of the color of my hair to its original color. About the time of my arrival in the United States it was rapidly becoming gray, but, upon the application of your 'Hair Restorer,' it soon resumed its original hue. I consider your Restorative as a very wonderful article, and its effects, lasting as well as agreeable.
I am, dear sir, yours truly,
REV. C. W. RUTTER, Indianapolis, Ind., says he wore a wig for sixty years, but by the use of Wood's Hair Restorative he now has a fine head of hair.

NEW AGRICULTURAL SETTLEMENT.
TO ALL WANTING FARMS,
A Rare opportunity in a delightful and healthy climate, twenty-five miles south-east of Philadelphia, on the Camden and Atlantic R. R., New Jersey.
An old estate consisting of several thousand acres of fine productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some fifteen hundred, from various parts of the middle States and New England, have settled there the past year, improved their places, and are highly pleased. Schools are established in the neighborhood, a low sum of from $15 to $20 per acre, the soil first rate quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from the—Congress, the enemy of the farmer—no Crops of grain, grass and fruit are now growing and can be seen. By examining the plans built, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,
as the reader may perceive from its location, is the
BEST IN THE UNION.
Persons bringing double the price than in locations away from the city, and more profitable the year round. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the cities of millions.
In locating here, the settler has many advantages. He is within a few hours sail of the great cities of Philadelphia and Middle States, he is near the old associations and conveniences of life, and the scarcity every improvement of comfort and convenience of life. He is not a stranger in a strange land, but in the midst of old friends, where efforts are entirely unknown. For residents of the Eastern States, this is the place to settle, for his children, decline service, and will enjoy open winter, and delightful climate, where efforts are entirely unknown. POPULAR ESSAY ON THE DISEASES INCIDENT TO TRADES AND OCCUPATIONS.
It is useful now to write, as kindly as possible, concerning the diseases and disorders that to everyone's knowledge, including their causes, symptoms and modes of cure. We shall in this or plain language, and in a manner to be understood by all. Our purpose is twofold—firstly, to give a concentration facts not generally known, and, secondly, to bring them before the world in such a form that all may read and understand. Many of the remedies we are taking in a business transacting manner to benefit both the public and ourselves.
The numerous openings from all parts of the globe, either from the very nature of the occupations, from the materials handled or used, or from the overwhelming heat, many of these parasites are necessarily unbreathed, but men will be imprudent in their haste so as to find a place to eat, and suffer for their neglect of precaution.
Let us look first at those who suffer from poisonous materials.
Copper-makers, Brass Founders, Engravers, and Printers, from their occupations are liable to complaints, like those who work with either the injurious dust of the ores or salts, or their fumes. The result is a copper disease, whose symptoms may vary more or less in violence, from a creeping slowly along the system to a most distressing one, or else opening at once in more apparent diseases. The vapors of the copper fumes enter, perhaps, on rising in the morning, a slightly acid taste in the mouth, which construction of the throat, the tongue dry and parched, and sometimes sickness at the stomach. He thinks he has caught cold, and generally, takes some physical exposure, and which, if cured him worse than before. At times there is also an attack of colic. If dysentery is of all complaints, he is very liable to be attacked with bad vomiting, and in some cases as the doctors call them, namely, by purging on the bowels and anxiety, is the continuing symptom, and soon after by intense. Cramps sometimes make their appearance in the limbs and stomach, either alone or accompanied by some of the symptoms previously enumerated. A headache at the close of work, or during the day, is quite common. A premature of these would be the use of a respirator, which checks the passage in the lungs or stomach of the dust or vapor, and gloves, to keep it from the pores of the skin. A generous diet should be used, the bowels kept open by moderate doses of RADWAY'S REGULATING PILLS; a dose should be taken in the morning and evening of RADWAY'S READY RELIEF, and for use of RADWAY'S RENOVATING RESOLVENT proceeded in until the system is rid of the poison.
Type-Founders, Printers, Painters, Plumbers and Glaziers, and *Workers in Manufactories of Shot, Gunpowder, Paper and Type Founders*,
are liable to neglect of the above symptoms. These workers are especially liable to derangement of the bladder
Painters and Type Founders,
from the constant handling of it repeated, contract the effects of ardency. This is shown by the temporary paralysis of the fingers and hands, rope-makers, sailors, especially those of strength, tenderness of stomach, bowels and throat. Sometimes, though drinking nothing but water, they feel a confused, sensationless sensation in the head. The best treatment here is gentle purging with RADWAY'S REGULATING PILLS, aided with the READY RELIEF as a drink. When the disease has become chronic, the RADWAY'S RESOLVENT must be used as an adjuvant to the RELIEF and PILLS.
Masons and Bricklayers' Assistants, and more especially Lumberyards and Blacksmiths
are constantly liable to vomiting, pains in limbs, or temporary paralysis of the whole system, which latter sometimes becomes permanent. Cramps, nauseating drinks, and the use of the READY RELIEF, will remove most of these symptoms, the RENOVATING RESOLVENT must be used as an adjuvant to the RELIEF and PILLS. Persons suffering from the above complaints are cautioned against using Sarsaparilla, Mercury, Iodide of Potash, or Nitrate of Silver, as they produce complications, which will yield to no specific medicine. Let the above trades and occupations be carefully studied, and the proportion of evil decrease every two hundred-fold, as the antidote is applied.
Coach Painters,
on those who use much vermilion, will have a tendency to diarrhœa; for, unlike copper, this shows its effects more in the small intestines; and the bladder and urinary passages will be seriously affected, sometimes merely producing painful urination, and at others, bloody or high colored urine. The REGULATING PILLS and the RESOLVENT must be liberally relied on, and the parties should never go to work on an empty stomach. For the more painful symptoms, the READY RELIEF will be found invaluable. Low or dark colored urine is the name. It should be used internally and externally. In painter's colic, the REGULATING PILLS should be used to produce a free evacuation, and afterward more moderately, to keep up regular action; and from the very start, the READY RELIEF given in full doses, in flannel or slippery-elm tea, or

Physicians,
who are frequently such exposed, should never be without the READY RELIEF, especially in visiting patients sick with contagious diseases. The head, hands and face thoroughly washed with it, and a full dose of it taken internally just previous to the visit, will effectually prevent contagion. The power of the REMEDY in the nature of contagious diseases is really wonderful. It is a sure preventive to Small Pox, and as a safeguard to disease among cattle, known as Black Tongue, depending, no doubt, upon some contagious virus, yields so readily to this remedy, that
Innocent and Cattle-Dealers,
through the South and West, look upon it as a specific, and unbelievers readily in all such cases. Hence to,
Hostlers, Farmers, and Farmers Dwelling in Low or occasionally Overflowed Grounds,
will find the READY a protection against Fever and Ague, and other malarious diseases.
Painters and Miners,
from their standing so much at the case, and the latter from the close cramped position in which they work, are frequently subject to local pains in the back, which, no doubt, by the use of RADWAY'S READY RELIEF, and RESOLVENT, will be relieved.
Rubbers
are liable to local pains in the back, from the stooping position they are compelled to assume, and also rheumatic affections, which the READY RELIEF will relieve.
Tanners
are sometimes affected in a manner similar to dyers, but in a less degree. Their attacks are rare. If persistently annoyed, they may take the RELIEF and RESOLVENT, and they will never know but one case of that kind. The acrid fumes of charcoal, in this and similar trades, sometimes produce symptoms of intoxication. Of the latter, when they may be observed, should be taken, and RADWAY'S RELIEF, applied externally and internally, is powerfully found sufficient, though chronic cases, or such as may be combined with a scrofulous habit, will not yield without the RENOVATING RESOLVENT, which utterly roots out the disease, and restores the system to the normal state.
Stevedores, Longshoremen, Porters, Quarrymen, and all Persons who lift Great Weights,
are exposed to attacks of pleurisy. The RELIEF will break the violence of this, and with the REGULATING PILLS effect a cure.
Boatmen, Deck Hands, Ditchers, Dock-Builders, Sea-faring Men, Boatmen, Physicians, Stage-Drivers, Truckmen,
and all exposed to sudden changes of weather, are liable to liver complaint and rheumatic affections, but more especially to spoken disease.
Seamen,
through long abstinence from vegetable diet, are subject to scurvy. The use of RADWAY'S REGULATING PILLS and RENOVATING RESOLVENT is a sure antidote for this distemper. In all cases of ship-fever, small-pox, cholera, or yellow fever, RADWAY'S READY RELIEF and REGULATING PILLS are positive preventives if taken before the attacks, and certain curatives if used after.
Stage-Drivers
are liable to suffer from diabetes, for which the REGULATING PILLS and RESOLVENT should be used

Bakers,
from the action of the acid of fermentation on the skin of their hands, and the almost constant exposure of the arms to the pores by the flour, are subject to a troublesome itch. For this the RENOVATING RESOLVENT is a sure remedy, but the READY, diluted as a wash, will aid in effecting the desired end sooner.
Occupations wherein sudden mental emotions or protracted mental labor forms a part, are not only productive of brain disease, but of a gradual *emaciation*, or softening of the substance of the brain, whose approach may be told by neuralgia, either just below the ear or above the eyebrow. Asthma and loss of sense, the latter the parent of piles, hernia and similar troublesome complaints, are often the result. Hence it is that
Lawyers, Authors, Editors, Teachers, Merchants and Clergymen,
are effected so much with neuralgia and costiveness. The treatment in these cases is RADWAY'S READY RELIEF—*internally and externally*—the pain *immediately ceases after its application*. RADWAY'S REGULATING PILLS will, in a few hours, restore regularity to the bowels and liver. In certain cases of neuralgia and other nervous affections, the RESOLVENT is requisite.
Exposure to heat characterizes some occupations, thus,
Iron-Founders, Furnace-Tenders, Cooks, and Kitchen Maids
are liable to asthma, costiveness, rheumatism, and inflammation of the spleen and liver. Enlargement of the liver is very common among all persons exposed to intense heat. Hence it is that liver complaints are so common in tropical climates. It need scarcely be said that the liver is a controlling organ, and that its derangement involves all the connecting viscera. The derangement of the viscus may be combated successfully by the proper use of the RELIEF and REGULATING PILLS; while in the spleen disease also act with speedy, good effect. For rheumatism, if acute, the READY RELIEF, applied both externally and internally, is generally found sufficient, though chronic cases, or such as may be combined with a scrofulous habit, will not yield without the RENOVATING RESOLVENT, which utterly roots out the disease, and restores the system to the normal state.
Stevedores, Longshoremen, Porters, Quarrymen, and all Persons who lift Great Weights,
are exposed to attacks of pleurisy. The RELIEF will break the violence of this, and with the REGULATING PILLS effect a cure.
