FRIDAY MORNING, DEC. 30, 1859.

SPECIAL MEETING OF COUNCILS.—The City Councils met last evening, in their Chambers.

In Select Council all the members present except Messrs. Bennett, Berger, Blair, Duncan, Herdman, Kammerer, Phillips and Tomer.

Minutes of last meeting read and approved.

The President stated that as it was near the end of the year, frequent meetings were necessary.

Bill of Isaac Morley, City Regulator, was submitted as follows:

For 555 days' work at $4.....$222 00
" 493 " for Assistant, at $3.....147 90

Making his bill since Sept. 26.....$372 25

A communication from Mr. Lambert, City Controller, was read and received... With this communication was submitted a resolution appropriating a sum for the payment of Mr. Morley's bill. Also, in connection the same, the following:

Resolved, That the Controller be authorized to transfer $400 from appropriation No. 17, 1858, to appropriation No. 16, 1859, and from same appropriation $442 69 to appropriation No. 12, 1859.

Resolved, That the Finance Committee be and they are hereby empowered to pay their chairman the expense of his mission to Philadelphia, and charge the same to contingent fund, provided the balance in said fund is sufficient therefor, after providing for discounts and exchange in funds to pay, January, 1860, interest in New York and Philadelphia.

Communication received and resolutions read three times and passed.

The Committee on Fire Engine and Hose reported that they had distributed the whole of appropriation No. 4, Fire Engines and Hose, $2,600, at the rate of $400 to each company.

They earnestly present to next Councils the pressing necessity for new hose to be procured for the various companies. They recommend an immediate sale of the steam fire engine "Citizen." Applications to the committee for hose, hooks and ladders, etc., have not been answered, owing to the state of the treasury. Report accepted.

The Water Committee reported in reference to a resolution referred to them for water pipes on Allegheny between Penn and Liberty streets, that the cost would be $357, and the revenue $55,50. Appropriation No. 6 will be entirely expended at the end of the year, and the committee recommend that the extension be provided for in next year's estimate. The report was adopted.

Committee on City Property, to which was referred the resolution in reference to an inquiry into the sale of the steam fire engine Citizen, made their report. The City Solicitor is of opinion that any sale of the said engine on execution is void, and as the Solicitor notified the purchaser from Sill of the claim of the city, he (the purchaser) will be precisely in Sill's place.

As it is the design of the Solicitor to take early measures to vindicate the rights of the city in this particular, they deem it unnecessary to ask the adoption of any resolution except the following:

Resolved, That the committee be discharged from the further consideration of the subject.

Report accepted and the resolution read three times and passed.

An ordinance relative to the duty of the City Controller, was reported. This ordinance related to the time at which the Controller makes his annual report. In the ordinance of Nov. 24, '57, he is to make it in December, and the ordinance changes the time of his report to the stated meeting of Councils in January. This ordinance was read three times and passed.

Mr. Ward submitted a communication from R. E. McGwin, stating that Mr. Jas. Mackrell is entitled to pay for paving on Wilkins st. The whole matter was referred to the Finance Committee.

The Committee on the Birmingham Railway, to inquire into the condition of Smithfield street and to report if the ordinance granting the right of way to the company had been complied with, reported that the weather has been such that the company has not completed their road, and it has not been accepted yet by the Recording Regulator. Report accepted and committee discharged.

In all action not otherwise noted, C. C. concurred. Adjourned.

Common Council—All the members present, except Barnhill, Birkhimer, Demler, Dickson, Fulton, Gildes, Hill, Oyer, Rees, Robbins, Ward.

Minutes of last meeting read and approved.

Mr. Ross presented a communication from several tavern keepers of the Diamond, praying to the leasing of stands in the market for furnishing refreshments. Read and referred to the Market Committee.

Mr. Coward—A petition for the passage of the ordinance fixing the grades of certain streets in the Eighth Ward. Read and ordered to be filed.

Mr. Campbell, from the Finance Committee, offered the following:

Resolved, That the Senators and Representatives in the Legislature from this county, are by the Select and Common Councils of the city of Pittsburgh respectfully requested to secure the passage at the earliest period possible, by the next Legislature, of a law authorizing said Councils to impose a tax or license fee on all vehicles using the streets of said city. Read three times and passed.

Mr. Thompson—A report from the Market Committee relative (o extending the Fifth Ward market. Read, accepted and ordered to be filed.

Mr. Magee, from the committee to which was referred the grades of sundry streets in the Eighth Ward, presented a second report with the ordinance as before reported. Report accepted and ordinance read three times and passed.

Mr. Campbell offered the following:

Resolved, That the committee and the Wharf Master on the Monongahela wharf are hereby instructed to aid the City Solicitor in presenting at the present session of the Court, the proceedings commenced against the parties who obstructed the wharf by not removing wrecks of steamboats in May, 1859. Read three times and passed.

Mr. Magee offered the following:

Resolved, That the thanks of Councils be tendered to Russell Errett, Esq., for the becoming, impartial and faithful manner in which he has discharged the duties of our presiding officer during the past year. Unanimously adopted.

Adjourned.

A MEETING of Select Council was held on last Monday evening, which being kept as Christmas, none of the reporters of the city press were present, and therefore no account of the proceedings has been hitherto published. But little business was done. Wm. R. Brown, Esq., was elected a member of the Board of Trustees of the Gas Company, for the unexpired term of Robt. Galwey, deceased.

NEW AGRICULTURAL SETTLEMENT
TO ALL WANTING FARMS,
A Rare opportunity in a delightful and healthy climate, twenty-five miles south-east of Philadelphia, on the Camden and Atlantic R. R., New Jersey.
An old estate consisting of several thousand acres of productive land has been divided into Farms of various sizes to suit the purchaser. A population of some *fifteen hundred*, from various parts of the Middle States and New England have settled there the past year, improved their places, and *raised excellent crops*. The present the last three or four years, have been favorable for the fruit, and the quality for the production of Wheat, Corn, Potatoes, Grapes and Vegetables. IF 150 CROPS HAVE NEVER FRUIT ON THE PLACE. The place is perfectly secure from frosts—the destructive enemy of the farmer—Crops of grain, grass and fruit are now growing, and look well. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to the actual settler, and a title good, which is only sold for *actual improvement*. The result has been, that within the past year, *some three hundred houses*, large and small, two flour and one steam, four churches, extensive vineyards and Peach orchards planted, and a large number of other improvements, making it a desirable and active place of business.
THE MARKET.
as the reader can best perceive from its location, is the
BEST IN THE UNION,
Produce bringing double the price than in locations away from the city. It is known that the earliest and best fruits and vegetables in this latitude come from here. Jersey, and are usually exported to the Southern and Northern cities.
In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near the old friends and associations he is in a *settled country where every improvement of comfort and convenience* is at hand. He can visit his property at pleasure, see how it is improved, and add his profits for the highest, (in the West this is reversed,) he has schools for his children, churches near by, and the Canal will supply coal at reduced rates, where forests are entirely unknown. The result of the change upon those from the north has generally been to increase in an excellent degree their profits.
In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $16 per thousand—bricks from the brick yard opened on the place. Every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.
The reader will at once be struck with the advantages here presented, and ask how and why the property is offered on such favorable terms. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. Those all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will be taught, many of them their own neighboring, they will witness the improvements and can judge the character of the population. If they come with a *view to settle*, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.
There are two daily trains from Philadelphia, each to all settlers who inquire, *the Railroad Company gives a Free Ticket for six months, and a half price Ticket for three years.*
THE TOWN OF HAMMONTON,
In connection with the agricultural settlement, is now and thriving town less naturally arisen, *which presents inducements for any kind of business, particularly practical mechanics of all descriptions. The Shoe business* could be carried on in this place and market to good advantage, also cotton business, and manufactories of Agricultural Implements or Lumber, also for casting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business. There has been a good store, (we do not sell such ones, as it would effect the improvement of the place) can be had at from $100 and upwards.
The *Hammonton Farmer*, a monthly literary and agricultural sheet, containing full information of Hammonton can be obtained at 25 cents per annum.
The intelligent reader who desires deeds given, clear of all incumbrance when money is paid. Route to the land: leave Vine street wharf, Philadelphia, by Camden and Atlantic railroad, at 7½ A. M., or 4¾ P. M. Fare 90 cents. Which there, inquire for Mr. BYRNES. Boarding conveniences at hotel. Parties in the better way with Mr. Byrnes, a principal part of whom they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications can be addressed to LANDS & HOMES, Hammonton P. O., Atlantic county, New Jersey, or S. B. COUGHLIN, 202 South Fifth street, Philadelphia. Maps and information cheerfully furnished.
JOHN C. CAMPBELL,
Proprietor.
THE HAMMONTON FARMER—A newspaper devoted to Literature and Agriculture, also setting forth full accounts of the new settlement of Hammonton, in New Jersey, can be subscribed for at only 25 cents per annum.
Inclose postage stamps for the amount. Address to Editor of the Farmer, Hammonton P. O., Atlantic Co., New Jersey. Those wishing cheap land, of the best quality, in one of the healthiest and most delightful climates in the Union, and where crops are never cut down by the terrible scourge of the north, see advertisement of Hammonton lands.
jn15-dtf-om

FARM LANDS FOR SALE 25 MILES from Philadelphia by railroad, in the State of New Jersey. Soil among the best for Agricultural purposes being a good loam soil, with a clay bottom. The land is a large tract, divided into small farms, and handsome sum all parts of the country are now settling and building. The crops produced are large and can be seen growing. The climate is delightful, and secure from storms. Terms, from $15 to $20 per acre, payable within four years by instalments. To visit the place—Leave Vine Street Wharf at Philadelphia at 7½ A. M. by Railroad for Hammonton, or address H. J. Byrnes, by letter, Hammonton Post Office, Atlantic county, New Jersey. See full advertisement in another column.

POPULAR ESSAY ON THE Sexual Incident to Trades and Occupations.
To all men in search of health, as far as possible, concentrated information is necessary, to enable them to escape those disastrous consequences which, springing from causes, sometimes trifling in themselves, and made of easy removal in the incipient stage, and in a straightforward manner, frequently baffle the skill of the most eminent medical practitioner, and will by no means leave its name. It should be read literally and externally by all those who have reason to fear the result of indiscretion, or who are conscious that they have already become victims to the destructive habit of self-pollution. Many persons are laboring under the impression that a few doses of Mercury, or a course of Sarsaparilla, will cure the Secret Disease, when, in reality, the system is only prepared by such means for the more permanent establishment of the virus, which will then break out in a more malignant form, perhaps twenty years after the exposure. Under the influence of Mercury, the bones become affected, the glands of the throat ulcerate, and the victim of this pernicious practice falls a miserable wreck, a horrible example of the effects of an unskilful treatment of a terrible disease. Many persons, who have committed an indiscretion, are not aware of the dangerous character of the symptoms which first appear in the form of a simple gonorrhœa, or slight local affection. Gleets, Strictures, Inflammation of the Bladder, Seminal Weakness, Affections of the Kidneys, Dropsy, Stone in the Bladder, Nervous Irritability, Derangement of the Digestive Functions, Disease of the Heart, Affections of the Liver, Lungs, Skin, Throat, Nose and Limbs, Pains in the Head, Dimness of Sight, Premature Old Age, and many other distressing symptoms, which arise from the Secret Habit, are but the sequence of the above. It is a melancholy fact that thousands fall victims to this destructive habit, through the ignorance of those to whom they have confided the management of their case, when a proper course of medicine would have restored them to perfect health. Such persons cannot be too cautious in selecting a physician, as many unprincipled pretenders, who copy the practice of regular physicians, without the advantage of a liberal education, are daily advertising their ignorance and disgusting the community with their nostrums. Many syphilitic affections are improperly treated by Mercury, which, instead of curing the disease, only changes its character, and renders it more intractable than before. Others are drenched with Sarsaparilla, in the hope that the Mercury will be expelled from the system, when, in fact, not a particle of the latter mineral has been taken. Others, again, are salivated, in the hope that the Sarsaparilla will be purified, when, in fact, the Mercury has not been touched. Thousands of cases of this description have been submitted to the writer, many of which had been under the care of some of the most eminent physicians in the city, who had exhausted their skill upon them without effecting a cure, and who had pronounced their cases hopeless, or incurable. Many of these cases had been reported to the writer as cases of stricture, and had been treated with the bougie, when, in fact, no stricture existed, the irritation complained of being entirely caused by the application of the bougie. Many persons, laboring under the effects of this pernicious practice, have applied to the writer, and, by a few months' judicious treatment, have been restored to perfect health
