...at the post. ...ent that was imprisoned for the murder trials attended the execution of Wood and of Singleton Mercer, on the ground of insanity, shows how ready and how subtle were his powers, and how strongly he could lay hold of the sympathies of the public to aid him, when the law was against the conclusions which he wished to reach. In his earlier life, Col. Browne was an active and enterprising citizen, who took particular pride in projects to advance the interests or promote the growth of Philadelphia. The present Arcade building was one of his projects. A Chinese pagoda near Fairmount was another. Latterly he was deeply interested in promoting among agriculturalists a greater attention to the growth of wool, and the finest and best collection of specimens of the various growths of this article in this country and Europe is now in his cabinet. In his scientific investigations into this subject, he made several important discoveries respecting the physiological differences between wool and hair, which were announced to the public at the time, and elicited much discussion from the practical bearing which he proposed to give them.—*Phil. Ledger.*

HARPER'S FERRY—ANOTHER ACT—Two more of the prisoners arrested on account of the Harper's Ferry affair — Aaron Dwight Stevens and Mr. Hazlit—are awaiting their trials. In regard to the trial of Stevens, his counsel, in Boston, has received the following letter from District-Attorney Hunter:

Charleston, Dec. 24, 1859.

GEORGE SEWALL, Esq.—*Dear Sir:* I have yours of the 20th inst.

The authorities of Virginia have definitely settled that Stevens is to be tried here; and, as previously requested by Mr. Buchanan, I have so informed him.

When the trial will come off, I am unable to say at present—but presume it will be some time during the winter, probably during the next month; but this is by no means certain.

When it is ascertained, I will with pleasure cause you to be notified.

Very respectfully, your ob't serv't,

ANDREW HUNTER.

Stevens is an intelligent and powerful-built young man of 28 years, who formerly belonged in Norwich, Conn. He was badly wounded during the attack on the Armory, when he was dangerously shot, receiving five balls in his body, three of which the surgeons could not extract. He was next in command under Capt. John Brown, and acted as drill-master that I am permanently cured of Col. Forbes. He is to be tried on the same charges as Brown, and their mutual confidential relations were such that, at Brown's request, Stevens occupied the same cell with him during his imprisonment.

THE FACTIOUS DEMOCRACY.—The delay in organizing the House of Representatives has been produced by the factious obstinacy of the Democrats. This is now admitted by their prints. The Washington States in an article disapproving of their having voted for Maynard, says:

"In tactics, it must be confessed that we are no match for our opponents. They have purpose, while we resort to make-shifts. Their candidate is just as fresh in the esteem of his supporters now as when he entered the arena. Orare, eminent as was his qualifications, was forced to retire, in order that inconsiderable experiments might be tested. South American diplomacy was at the bottom of it, and South American diplomacy has succeeded in getting the Democracy into such confusion that there is but little hope that it will ever regain the position which it attained on the first day of the session. There were perhaps not less than twenty Democratic members who believed that they could be elected by the odds and ends which Mr. Bocock had failed to unite. Delusive expectation! But it had the effect to influence the over-sensitive Virginian to voluntarily withdraw his weighty name from the contest. All has been chaos since in our ranks, and so will likely remain until the plurality rule shall be adopted, when John Sherman will speedily be conducted to the speaker's chair. But when will that occur, our anxious readers will inquire? Ah! that question we cannot answer. It must be weeks—it may be months: But, alas! it is inevitable."

A CONGRESSMAN ILL.—The Hon. John M. Landrum, member of Congress from Louisiana, has been detained from his seat by illness since the opening of the session. It is stated that besides being sick in body, he is laboring under severe mental affliction in the loss of his wife and four children. It is feared that he may not get up again.

HISTORICAL QUESTION.—Question—Who settled Virginia?

Answer—John Smith.

THE EAGLE SLATE COMPANY
BEING prepared to receive orders for their SUPERIOR GREEN AND PURPLE ROOFING SLATES, delivered after the opening of navigation, would call attention to the low cost of this PIRE-PROOF ROOFING, its great purity of rain-water collected from slate roofs, not being impregnated with taint of decaying shingles or the poisonous qualities of painted metals. The roof would also caution the public against parties *falsely* representing themselves as Agents, they having furnishing quarries in our name,—the only agency established by the Company being in the City of New York. DISCHARGES FROM THE EAR WITH DEAFNESS.
—Letter from Mr. C. E. Sargent.
BOSTON, *Nov.* 13, 1858.
MESSRS. N. L. CLARK & CO.—*Gentlemen*:—I have been troubled for upwards of eighteen years with running sores in my head, discharging at my left ear, as often as twice a week, a thick, slimy matter of the most offensive smell, also impeding my hearing so that I could not hear a watch tick. I have been doing more or less for six years to purify my blood, and thus remove the sores or boils, but without any change, except seemingly for the worse. About two months since I commenced taking the "Peruvian Syrup." In less than two weeks I began to improve. The discharges became less frequent, with an entire change in their appearance, being thin and watery. In one week more the discharges ceased altogether, and I have not been troubled with them since; My hearing is also improving, so that I can hear a watch tick plainly. My general health is much better, and I shall continue the use of the Syrup in the confident expectation of deriving further benefit from it. Yours, most gratefully, CYRUS E. SARGENT.
BOSTON, Dec. 1, 1858.
This is to certify that Mr. C. E. Sargent has been in our employ for several years, and we feel assured that any statement he may make in regard to the infirmity with which he has been afflicted can be relied upon as truthful and correct.

I have not taken any of the Syrup for several months past, and I have no doubt that I am permanently cured of the infirmity with which I was for so many years afflicted. Yours, respectfully, CYRUS E. A BLOODLESS VICTORY!!!
1,000,000 BOXES SOLD OF
MAGNETIC PLASTER
This enormous quantity of this Invaluable Remedy has been purchased by citizens of the United States during the short time it has been before the public. The reason for this extraordinary success is simply in the actual truth and value of the article. No one buys the MAGNETIC PLASTER without becoming its friend. It performs all that is promised, and carries with it its own recommendation. Only this a victory—peaceful and bloodless—but no less glorious than the triumphs of war, with its carnage and desolation.
The MAGNETIC PLASTER is undoubtedly the Greatest Strengthener and Pain Destroyer that Science has yet discovered. If you put this Plaster anywhere, if pain is there this Plaster will stick there until the pain has vanished—the Plaster magnetizes the pain away, and
PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.
Rheumatism, Lameness, Stiffness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs, and Colds, Pains and Aches of every kind, down even to Corns, are *immediately relieved* and, with a little patience, *permanently cured*, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman, and the feeble infant—to each and all it will prove a Balm and a Blessing. Its use is agreeable, and without annoyance or trouble. Its price is within the reach of all—rich or poor; all may have it who are sick and suffering in any way.
FARMERS should be always supplied with this favorite PLASTER. It will be the Good Physician in any household, ready at all times, and at instant notice.
Put up in air-tight tin boxes. Each box will make six to eight plasters, and any child can spread them. Price 25 cents a box, with full and plain directions.
Dr. C. MOREHEAD, M. D.,
Inventor and Proprietor, 19 Walker st., New York.
MOREHEAD'S MAGNETIC PLASTER is sold by all drug gists in every city, town and village of the United States.

Downer's Prolific Seedling Strawberry.
"EQUAL TO M'AVOY'S, SUPERIOR to Hovey's Seedling in *size*, equal to Burr's New Pine in flavor, and from *six* to *ten* times as productive as any other of these kinds now in cultivation." So says Mr. Downer of his new Seedling. A gentleman with whom I have been acquainted and done business with for years, and in all of my transactions have had reason to misdoubt his word or honorable dealing, which induces me to accept the agency for his wonderfully prolific berry.—Send for circulars of myself and Horticultural Committee.
