Conseptation of the Dolly Rindson's Gastial

Harmyran, Feb. 7, 1800.

Ed. BRRTT & CO.

FINISHAY MORNING, PER 9, 1800.

The Princes of Propertions of the Dolly Rindson's to Combine of the Combine of the

by a two-thirds majority. The railroads and merchants of Arp Fork City oppose the bill. Doubless the came parties will oppose the siniter bill in our own State. In the Philadelphia Pennsylvania Bailroad Company and to the mirrhants of Philadelphia, "For which we make the following extracts, which ecen to enforce our own views, as expressed in the foractive of Monday:

"In criticioning extracts, which ecen to enforce our own views, as expressed in the foractive of Monday:

"In criticioning the action of the Pennsylvania Bailroad Company to worth the merchants of Philadelphia and the farmers of the State, it is innecessary to look into some of the connections of that Gompany to see the nature of the policy which govern it. One of the first estate the policy which govern it. One of the first estate the state of the most important of its connections. It is evident, from an examination of the facts, that the Pennsylvania Bailroad would have been beined for letter, if it had not extracted the pernangant basiness which it would have established for letter, if it had not contain the pernangant basiness which it would have established for letter, if it had not contain the pernangant basiness which it would have established for letter, if it had not contain the pernangant basiness which it would have established for letter, if it had not contain the pernangant basiness which it would have established for letter, if it had not contain the pernangant basiness which it would have established for letter, if it had not contain the pernangant basiness which it would have established for letter, if it had not contain the pernangant basiness which it would have established for letter, if it had not contain the pernangant basiness which it would have established in the pernangant basiness which it would have established in the pernangant basiness which it would have established in the pernangant basiness which it would have established in the pernangant basiness which it would have established in the pernangant basiness which it

country—which the road now draws from It would have given it the advantage of all the river navigation of the Ohio and its tributaries. (the cheapest of all kinds of carriage.) thrown upon the road an immense amount of trade, every pound of which would have paid its fair prefit to the stockholders, and so reduced the cost of transportation to the farmers of Pennsylvania and the merchants of Philadelphia, that in the sale of their produces and goods they would always have an advantage over any other market. How far this would have developed the interests of the State and those of this city, dray discerning business man can judge for himself.

But the policy of the Pennsylvania Railroad had been just the reverse of this. It had made unjust discriminations against our local traffe, with a view of encouraging traffic upon certain unproductive railroads west of Pittsburgh, which come in compelition with the cheaper water carriage of the Ohlo river. To do this it has had to earry freight at a rate that would not pay upon these western connections, and charge more than donble the natural and fair rates upon the business of the Collor river. To do this it has had to tarry freight at a rate that would not pay upon these western connections, and charge more than donble the natural and fair rates upon the business of the Collor river. To do this it has had to tarry freight at a rate that would not pay upon these restern connections, and charge more than donble the natural and fair rates upon the business of the Collor river. To do this it has had to carry freight at a rate that would not pay upon these restern connections, and charge more than donble the natural and fair rates upon the business of the Collor river. To do this it has had to carry freight at a rate that would not pay upon these western connections, and charge the collor river. To do this it has had to carry freight at a rate that would not pay upon these western connections, and charge the collor river. To do this it has had to carry freight at a rate that

STOVES:

What is it? How Cured?

DYERFSIA is our National Disease—weak
tomach, febb digetion, distress after eating, conting
habit, billous condition. How many anter with it and its
attendant symptoms of low spirits, hadeasta, constet once
obstroption bead and attacks of headsichel Yet how few

constipated, resort is had to cathartics, or laxatives. But such a condition was never cured by cathartics, whose only tine anure assimitative system.

But BUMPHREY'S HOMEOPATHIC PILLS—a simple melicated angar pill—have cured hundreds of the worst and most obtilizate essen. This is done simply by improving the toos and restoring the integrity of the dispettive organs, from which result good appetite, regular habits, a clear head and houyant spirits. Such a medicine is a gom, and only requires to be known to be appreciated.
