ELECTROPATHY,

SOMETHING NEW

AND

SOMETHING TRUE.

ELECTROPATHY THE INVALID'S HOPE.

OFFICE HOURS, FROM 9 A. M. TO 9 P. M.

PROFESSOR A. S. GREGORY and J. F. STEVENS, M. D., Physician and Surgeon, of Buffalo, respectfully announce to the citizens of Pittsburgh, Allegheny, Manchester and the surrounding country, that they have located themselves permanently in Pittsburgh, for the treatment of all diseases, both functional and organic, by the application of ELECTRO-MAGNETISM, on a NEWLY discovered system.

From the triumphant and almost unparalleled success that has attended their practice, as electricians, and from their experience—one as a Homœopathic and the other an Allopathic physician—they feel warranted in saying to the afflicted, that they can cure all curable diseases, such as

Palsy or Paralyses, Incipient Consumption, Rheumatism, both Acute and Chronic, Neuralgia, Headache, Torpid Liver, Bronchitis, Catarrh, Asthma, Weakness and Curvature of the Spine, Scrofula, Dyspepsia, Deafness by Paralysis, Ringing in the Ears, Amaurosis, Cataracts, Weak Eyes, Erysipelas, Spasmodic Retention of the Urine, St. Vitus' Dance, Chalic, Salt Rheum, Prolapsus Ani or Piles, Female Weakness and Irregularities, General Debility, Derangements of the Nervous System, Stiff Joints and all Diseases of the Bowels.

While they rely chiefly on the proper application of ELECTRICITY, as a remedial agent, they do not reject the use of medicine in such cases as their experience has proved it to be beneficial.

Multitudes in every community are suffering and dying from the effects of disease, in spite of all the skill and the wonted faith of their physicians, who, without doubt, are doing the best they can for them; and yet, after weeks, months, or years of faithful and diligent toil, they are finally obliged to abandon them as incurable, although they are using electricity, but with no satisfactory result, owing to the patient or themselves. Not why do they so often fail, seeing they use the same agent that is used by the skilled electrician? Because they are unacquainted with the natural laws which govern the application in disease.

Physicians who have patients afflicted with disease of long standing, upon whom they have exhausted all known remedies, are particularly invited to give our system a trial.

Prof. GREGORY and Dr. STEVENS intend to make their stay in Pittsburgh permanent, and they assure all who may call upon them for consultation, that they will not be encouraged to hope for a cure unless there are good and sufficient ground for such encouragement.

CONSULTATIONS FREE. We cordially invite the afflicted to give us a call.

Instruction given to both ladies and gentlemen who desire a knowledge of our system of treating diseases.

Certificates of cures may be seen at our rooms, SCOTT HOUSE, PARLOR No. 1 and OFFICE No. 2. Private entrance for Ladies. 6-9-3mdAlmwtf

LOST.—A daguerreotype of a deceased friend, enclosed in a shell case, and which is prized very highly by the relatives, was lost some time ago, in the Fifth ward, or on Liberty-st., wrapped up in white paper. Any one knowing anything about it will be suitably rewarded by leaving it at this office, or at the Mansion House, near the Penn's Central Railroad station. The portrait is that of a gentleman, holding a small English terrier dog upon his knee, and is of no value to any one except the friends of deceased.

COCK FIGHTING.—This depraved amusement, it seems, is patronized to a considerable extent in our city. Yesterday morning the Mayor's police surrounded an establishment on the corner of Market and First streets, kept by a man named Gallagher, and surprised quite a number of persons who were standing around the cock-pit witnessing the mortal conflict going on between the feathered gladiators. When the police appeared a rush was made for the door and a large number escaped during the confusion of the moment. They had a great many birds packed up in carpet bags, baskets and other articles used to convey them concealedly to the pit, the squalling of which contributed not a little to the ludicrous character of the scene. Twenty-two individuals were, however, arrested, with several chickens in their possession, and taken to the watch house, where they were discharged upon the payment of ten dollars as a security for any fine that might be levied upon them. The Mayor is determined on the destruction, root and branch all houses of this description, and if resolute action, followed by prompt execution, can achieve success, we may rest assured that every shadow of vice and crime will meet with a sure and speedy supervision at his hands. Attached to the duties of his office, and aided by an energetic police, he must make an efficient chief magistrate.

The party had a hearing on Saturday afternoon, and were fined $5 each, which they paid and were discharged.

GEN. MOORHEAD.—The Washington correspondent of the New York *Tribune*, in his notices of "the Merchants, Manufacturers and Business Men of the House," thus speaks of Gen. Moorhead, of Allegheny county:

Gen. Moorhead, of Pittsburgh, is another distinguished Pennsylvanian. In the earlier years of his life, he was a contractor on the public works of Pennsylvania, and his character exhibits the shrewdness, skill and energy which mark the class that has done much to influence the condition and develop the resources of that State, as well as of New York. Beginning the world with nothing but his fast and industry risen to affluence. He, together with some time engaged in cotton manufacturing, but his works having been destroyed by fire in 1840, he commenced the manufacture of locks, scales, and malleable castings of various kinds, which he and his partners are now carrying on extensively, employing from 400 to 500 hands. He is President of the Monongahela Navigation Company, which erected the necessary structures for, and now prosecutes, slackwater navigation for some miles above Pittsburgh, on the Monongahela River. His sound sense, and practical acquaintance with large business enterprises, make him a useful member of a body which deals with such vast material interests as does the House of Representatives."

ROW.—A general miscellaneous row occurred on Saturday evening, at the Athenæum, on Liberty-st., which created considerable excitement. It appears that a new company was announced to open dramatic performances there on Saturday, and after considerable waiting, the aforesaid artists not appearing, some of the audience, of a belligerent character may be judged from their actions, became riotous, and commenced demolishing the benches, chairs, &c., which, however, proved harmless to everything except the chairs and benches, which were thrown about in indiscriminate confusion. Mayor Wilson being apprised of the proceedings, sent his whole police force immediately to the scene, whose appearance seemed to have a great influence upon the disturbers of the peace, who forthwith desisted and dispersed, and no arrests were deemed necessary under the circumstances.

—We learn since that nearly all the chairs, benches, and other furniture, were demolished, and some of the windows broken. A man named Sparman, a member of the Relief Engine Company, had his leg broken by being struck with a chair.

BODY SNATCHER DISCOVERED.—The New Castle *Gazette* states that the father of a child, whose body was buried in a grave yard in Indiana county, visited the office of a physician named Sinclair, Indiana, (acting under information obtained from a dream of his wife,) and there found his apprehensions verified. The child's body had been taken from its resting place and opened with a view of ascertaining the disease with which it had died. In the first transports of his feelings, the father resolved to punish this unfeeling disturber of his little one's repose, but he subsequently altered his mind and the matter was dropped.

It is stated that the defective portion of the Pittsburgh, Fort Wayne & Chicago Railroad track, between the Pennsylvania line and Mansfield, is being rapidly replaced with new iron, so that in a couple of weeks the road will be in a fair condition from Fort Wayne to Pittsburgh. We also learn that the "Rochester junction contract," which has been quite unpopular among parties interested in the Province. Fresh contractors are to be employed on the 24th of last month, and that the Cleveland & Pittsburgh Company are now using the track between Rochester & Pittsburgh on terms agreed to by the receiver, acquentator and board of directors.

THE HOMICIDES SENTENCED.—On Saturday, in the Criminal Court, Richard Jones, convicted of manslaughter, in killing his wife, was sentenced by Judge M'Clure to six years imprisonment in the Penitentiary.

W. H. Kernan, convicted of murder in the second degree, in killing a man named Duffy, was sentenced also to six years in the same institution.

Both prisoners received their doom without scarcely any visible emotion, and were remanded to jail for the present, to be taken over to their new quarters shortly.

ALONG the lines of business at a Quarterly Conference of the Smithfield M. E. Church, some days ago, resolutions were adopted declaring the the office of Presiding Elder unnecessary and expensive, and instructing the stewards not to pay more than $50 for services of the Elder during the coming year. The following was also adopted:

Resolved, That we are in favor of so altering our discipline as to prohibit all slaveholders from communion in the church.

ACKNOWLEDGMENT.—We are requested by Mr. Samuel Riddle, on behalf of the Ladies' Relief Association of Allegheny City, to acknowledge the receipt of fifty dollars from Geo. W. Evans, being the amount of his very liberal donation to the society.

Mr. Evans will exhibit his extraordinary beef at his stall in the market, on Tuesday morning, and fill the orders in the afternoon. We are pleased to learn that the public appreciate his enterprise and his benevolence.

THE following persons have petitioned for divorces before Judge McClure:

Mary Robin from Hypoly Robin, Mary Rohde from Henry Rohde, Justine Cooper from Daniel H. Cooper and Mrs. Porter from John Porter. Drunkenness and neglect is assigned as a reason for the application in the case of Mrs. Rohde, and desertion in those of the others.

MILITARY SUPPER.—A complimentary banquet to Gen. J. S. Negley was given at Shakspeare Gardens, Friday evening last, by some of our military companies. About 150 gentlemen were present, and spent a pleasant time. The usual amount of speechifying was done by various officers, Lieut. Roberts, Captain Campbell, Gen. Negley, Capt. Bahl, and others.

THE man identified by Mrs. Bell as one of the parties concerned in the robbery on Fayette st., and committed by Mayor Wilson, as stated in yesterday's paper, turns out to be a convict, having served a term in the Penitentiary. The reformatory influences of the institution seem to have produced no beneficial result in his case.

OIL IN BEAVER COUNTY.—An Oil Spring has been discovered, says the *Star*, at Smith's Ferry, twelve miles below Beaver. The oil flows out from upon the water and is obtained by skimming it from the surface. The oil is so pure that it will burn, without any refining, in an ordinary lamp, affording a clear light.

BOLD, BUT SINGULAR BURGLARY AT NEW CASTLE.—On Tuesday evening last, between the hours of 8 and 9 o'clock, the residence of Mr. G. P. Shaw, New Castle, Pa., was entered during the temporary absence of Mr. S. and his wife, and five dollars stolen. The most singular feature of the robbery is that, although the bureau drawers were all opened, the locks of two trunks broken and their contents scattered over the floor, including a gold watch, jewelry, and other valuable articles, nothing more than the five dollars, in coin, was taken. Says the New Castle *Gazette*, from which we clip this information, "considering the early hour of the night, a person sleeping in an adjoining room, the fire and gas burning brightly, we may consider it a bold act." Burglars seem lately to have changed their tactics. Instead of a midnight assault upon their victim's dwelling, as of old, "when sleep has disarmed the owner and rendered his castle defenceless," they now choose an hour that always suspicion and at which their villainy would hardly be apprehended.

WE think we can confidently promise our friends in Washington a visit from the troupe of Bell Ringers who have been delighting our citizens at the Apollo for the three evenings of the past week. The agent called to say as much to us on Saturday night. They will also visit Wheeling, Steubenville, &c. They will no doubt be well received in all the towns which they may determine to visit. They are a deserving troupe and we wish them all possible success in their peregrinations throughout the country.

POLICE AFFAIRS.—Andrew Tiernan, imprisoned in default of payment of a fine for illegal liquor selling, was released on Saturday, his sentence having expired.

Washington Lane was committed by Mayor Morrison, on a charge of affiliation, on oath of Mary Jane Derr.

Christoph Dean Clismartin was committed on a capias from the District Court.

PENNA. RAILROAD.—It seems that the coal trade of this road is now extremely large and yearly increasing. Last year, 936,991 tons were carried over it, being 190,000 tons more than the amount carried last year. This exceeds the entire product of the Cumberland coal region.

The Cincinnati *Enquirer*, of Thursday, says: "A desk hand, said to be from Pittsburgh, named David Riley, fell into the river from the ferry landing, at the foot of Central avenue, last evening, and was drowned. His body has not been recovered."

THE morning express train on the Pennsylvania Railroad, last week ran over and killed a farmer named Nicholas Peighstel, about a mile above Huntingdon. He was partially deaf, and doubtless did not hear the approaching train.

A MAN named J. Cheffey was terribly cut at a singing school, near Wellsburg, last week, by an acquaintance named Burns. The parties had some difficulty about a young lady. The offender made his escape.

MR. FIELD'S ninth lecture this evening, Lafayette Hall, (second story.) Subject: The true meaning and import of the Flood, the Ark, the Animals, etc.; as also the End of the World. To commence at 7½ o'clock.

A TRUNK, valued, with its contents, at some $200, was stolen from the boot of the West Greenville hack the other day. It was owned by Charles Curtis, of Sharon.

RICHELIEU, who prized the pen so highly, doubtless kept huge flocks of geese for their benefit. He lived in our day he could have supplied himself with his favorite weapon with much less trouble and expense, by buying Hunt & Miner's Amalgam Pen. These pens, for smoothness of point, durability, freedom and elasticity in writing, are not to be surpassed.

TEMPERANCE MOVEMENTS IN SALEM, O.—For some weeks past a growing interest has been developing in Salem, Ohio, in the Temperance enterprise. The Town Hall has been crowded night after night, the people intensely listening to discussions and speeches by Revs. Mr. Lynch, Miller and Hardman and Messrs. John R. Williams, Tecumseh, Heaton, Lapham, Lupton, Folsze, Stillwell, Hole, Kuhn and others.

Prohibitory law petitions are being extensively signed, and a general determination exists to eradicate the evils of tippling houses in this city.

[For the Daily Pittsburgh Gazette.]

Messrs. Editors:—Will you oblige me by making the following facts known through the columns. In the *Post* of Friday last an article appeared in which the bad policy of our County Commissioners in regard to the A. V. R. R stock was clearly shown and deservedly censured, but no discrimination was made between the innocent and guilty. Now in justice to Zacheus Patterson I will state that the course pursued was strongly opposed by him, and that he did all in his power to save the county from the loss and shame of the last sale, and is now anxious to prevent the repetition of similar misconduct.

AMERICUS.

IRISH.—Catharine Smith, aged fifty years, was found dead in the house of Peter Smith, Slippery-rock township, Lawrence county, on the 11th inst. The Coroner's Jury returned a verdict that she came to her death by hanging, the result of insanity.....A woman, named M'Connell, of Cherry township, Indiana county, was badly burned by her clothes taking fire, while sitting near the grate. Her recovery is doubtful. An Illinois correspondent of the Wayne *Sentinel* says some of his potatoes weighed three and three quarter pounds each.....The Commissioners of Green county, paid $23,88 for for scalps during the year 1859. The race of Reynard cannot yet be exterminated in that virtuous county.

LATEST FROM EUROPE.

Arrival of the Arabia.

NEW YORK, Feb. 18.—The steamer Arabia, with Liverpool dates to the 4th inst., via Queenstown, arrived here this morning.

The most important portion of the proceedings of the English Parliament of the 2d and 3d inst., has been published, viz: the refusal of Lord John Russell to lay before the House the correspondence touching Savoy and the defeat of the government on a minor question.

Lord John Russell defended the British Consul at Tangiers from the charges of having aided the Moors, and asserted that he had pursued a strictly neutral policy. In response to an inquiry, Lord John Russell said the government had no reason to suppose that warlike preparations were going forward on an extraordinary scale in France.

The government had endeavored to prevent a renewal of hostilities, now that the Congress was not likely to meet, and had received the most satisfactory assurances.

The ratification of the new commercial treaty would be exchanged at Paris on the 4th.

Dr. Tedd, the eminent physician and physiologist, is dead.

FRANCE.—Rumors were current that the Chalons' Camp would soon be re-established.

The Patrie pronounces as false the statement of an approaching departure of the French troops from Rome. The same journal says it appears certain that the question of annexation to central Italy will be subordinate to the result of universal suffrage. All the powers are agreed as to the propriety of that measure, the early application of which will positively make known the state of public opinion in Italy.

SOUTH AMERICA.—The Brazilian mail of January had reached London. There is no political news of importance. The exportation of Coffee from Rio to the United States since the departure of the previous mail had been 115,529 bags. The stock on hand was 130,000 bags. The price of good firsts was 6-100@6 3-100 reis.

London Money Market.—In the open market the rates were generally above the banks' minimum, under the impression that at the weekly court of the Directors on Thursday this minimum might be further advanced. The expansion was not realized, as the court broke up without making any change, owing, it was supposed, to the bullion drain showing symptoms of abatement. When it was found that there was to be no further advance in the rates of discount at the bank, a more cheerful tone sprung up and consols improved ¼ per cent on the 3d. The improved tone continued and consols closed at 94½@94¾ for both money and account. The weekly returns of the Bank of England show a decrease in bullion of £616,934, the amount held being £149,042,502. Messrs. Barring & Brothers quote bar silver at 5s 4½d. Mexican dollars are nominally 5s 2½d. Eagles 76s 4d, nominal.

LATEST.—The Daily News' city article, dated Monday, says that the recovery on the Stock Exchange made further progress during the day. The check to the drain of gold was attested by the fact that none came from the bank for exportation. The demand for silver for the east likewise diminished, and the continental exchanges were firmer. The agitation in the discount market has been succeeded by comparative calmness, and it is moreover placed beyond doubt that the public confidence as ever in the general stability of trade, have availed themselves of the late decline to invest in good securities. At the Bank of England, on Friday, there was a good but not pressing demand for money, partially in anticipation of the payments for the fourth dividend; establishments continued reluctant to enter into fresh transactions, but nevertheless a fair amount of business was done in good bills at 4 per cent. and a fraction above that rate.

The London Morning Post, which has the credit of being the organ of Lord Palmerston, has a conspicuous editorial upon the policy of England and France for the Italian question. It says: It is announced at the beginning of the year, that virtual alliance had been effected between England and France for the settlement of Italian affairs. We expressly stated that the two governments had bound themselves by no treaties, but that their agreement was the result of the force of circumstances and the dictation of public opinion. This alliance every day drawn closer together, already begins to produce evident and tangible consequences. It is now formally determined that no intervention shall take place in Italy, that the people shall be left to their own devices. It is therefore declared that the States of Central Italy shall dispose of themselves. Fresh elections are to be held and the assemblies resulting from the popular choice are to decree the annexation of their constituents to the Sardinian kingdom. The French troops are to be withdrawn from North Italy and from Rome at an early opportunity. It is no secret that Austria, having regard to the Western alliance and her own serious difficulties, has given up all hopes of retrieving her position and influence in Italy, and not only abeathe her sword but puts it aside. An attempt will be made to reduce her to great reforms in Venetia, of which she is still left mistress.

The Post adds that the strict line of duty is no foreign intervention, but Italy for the Italians.

The Tribune says the agreement between Commodore Vanderbilt and the Mail Company had not been actually signed at a late hour this afternoon, but there were only a few unimportant details to arrange, and little doubt was felt but that the signatures of both parties will be attached to-night. The only question, we believe, unsettled, was that of the division of treasure freights between the Atlantic and Pacific companies. Commodore Vanderbilt demands 36 per cent. This, however, only involves the question of some $15,000 per annum, and is not likely to break up the negotiations. The scheme of the arrangement, as far as made public, is substantially as stated. The Pacific Mail Company buy the Vanderbilt boats on the Pacific with the exception of the Champion, for $750,000, of which $500,000 is paid in Pacific Mail stock, at par, and $250,000 in cash. The Champion is either to be taken by the Pacific Mail Company in exchange for
