ARSON.—Within the past three weeks no less than four attempts have been made to set fire to the buildings of the *Dispatch* newspaper, one of which was with much difficulty extinguished. On Tuesday evening a fire was discovered about half-past six. About 1 o'clock, Tuesday night, Francis Keigan, a boy employed in the press room, was found examining the spot where the fire had occurred in the afternoon, and as he had been the last person to go out of the room where the fire had occurred on each occasion, and as a watchman had been stationed to watch him, and considered his going straight to the place of the fire a suspicious circumstance, he was arrested. He confessed that he had been the cause of the last fire, but denied having anything to do with the preceding ones. He was confined in the tombs.

Mr. McCarthy, the first witness in the examination before Mayor Wilson, stated that he discovered the fire on Tuesday night a little after six; first saw a light which he supposed to be that of a fluid lamp; found, upon examination, that a lot of stuff was on fire. There was an ink barrel under the stairs in the folding room; behind the barrel was stuffed a lot of paper and a fluid can, nearly full. After some little water had been thrown, in putting out a former fire, I stopped Mr. Anderson from using any more water, and after wiping up what had been thrown on the floor, I removed the can and burning paper, and putting other paper of the same sort, partially burned, in its place, I returned the fluid can to its place, and also the ink barrel. My object in doing this was to lay a trap for the incendiary. I thought that he would come back to see why the fire had not taken.

Messrs. Fleeson, Carlin and Walker were called, but their testimony was not material. Mr. Stewart, the officer who apprehended Keigan, made the following statement: Last night, after 9, went under the folding bench in press room; laid there until between 11 and 12 o'clock; Keigan came down, went up to the boiler, came back, went under the stairs, looked over the head of the barrel; I asked him what he was looking for; he replied, a box; asked if he caused the fire; he said yes; gave as a reason that he was not able to stand the work; I used no persuasions to make him confess; did not warn him not to say anything to criminate himself; he did not or my appear frightened.

Wm. A. Lare—I am clerk of the *Dispatch*; the ink barrel was burnt down within six inches of the ground; came 10 minutes of 8 o'clock; found Mr. Foster under the table; I then went under the table until quarter of nine; went up stairs for a little while and came back, when the watchman relieved me; heard that R. had been arrested; R. was brought into the counting room before me, Foster and watchman; when asked why he set fire, he answered that he wanted easier work and his mother wouldn't let him quit; he said he had taken a piece of paper and, lighting it at the gas, set fire to the stuff behind the ink barrel; was not warned against committing himself.

Mr. Foster also made a statement, which did not contain any particulars not found in the foregoing testimony.

Judge Shannon made an eloquent appeal in behalf of the boy, saying that the confession was the main evidence of his guilt, and that it was inadmissible, inasmuch as he had not been warned against committing himself. Mr. Barton was also concerned for the boy, and cross-examined the witnesses. His Honor, Mayor Wilson, stated that he felt bound to commit him, regarding the evidence as strong enough to justify him in that course.

MOST CALAMITOUS FIRE!—At about half-past two o'clock on yesterday morning, a fire broke out in the Grocery Store of J. Boone & Sons, on Main street, in the Borough of Washington, Pa., which proved most destructive of property before the flames could be arrested. From the residence of Mr. Bausman, a brick building, which was saved by great efforts, the fire extended to the building occupied by the *Weekly Review* newspaper office—burning the west side of the street, the large brick dwelling house and drug store of Dr. Templeton, with his valuable contents; the store and residence of Mr. Hanson, [illegible] the residence of Richard Bells, the store of Messrs. Guines & Wilson, with its contents; the large brick store house of Mr. Jos. S. Spriggs' and also a building adjoining, occupied by Wm. Hall as a saddler shop. Mr. Spriggs' building was also occupied by Mr. Goldsmith as a clothing store. We learn that the ravage of the flames was stayed at the *Review* building. On the opposite side of the street the residence of John L. Gow, Esq., was either entirely consumed or so greatly injured as to be no longer tenantable. The extent of Mr. Gow's loss we could not learn satisfactorily. The dwelling of Mr. Bausman stayed the flames in that direction, though, we learn, almost superhuman efforts were required to preserve the property. The contents of all these buildings were principally all destroyed, as we learn. The families of Dr. Stewart and Wm. Spencer, a merchant, resided in the large brick building of Dr. Templeton.

This is the most disastrous visitation that has ever befallen the borough of Washington. The loss is variously estimated at from $25,000 to $50,000—a large sum for so small a town. It fortunately falls in a majority of instances upon individuals who are able to bear it. We did not learn the extent of the insurance—it is considerable, however, we have no doubt. The good people of Washington who have suffered this calamitious visitation, have our profoundest sympathy. Supposed to be the work of an incendiary.

Since writing the above, we learn that Mr. Gow had $2,000 insurance on his property. The south wing of Mr. G.'s building was occupied by Mr. Spencer as a dry goods store, and we fear he has suffered considerably. We exceedingly regret to learn further that Wm. S. Moore, Esq., editor of the *Reporter*, had just removed his household goods into the northern portion of Dr. Templeton's building, and that he lost all—no insurance. Sincerely do we sympathize with our good friend in this afflicting calamity. The *Review* types and presses were injured considerably, we are sorry to learn. The Washington papers of to-day will furnish us with full particulars of this disastrous conflagration.

REMOVAL.—The Citizens' Insurance Company of Pittsburgh have removed their office to the corner of Market and Water streets. At a meeting of the Board of Directors, held on Tuesday last, Mr. Samuel Rea was elected Secretary, made vacant by the death of Samuel L. Marshall. The Board were peculiarly fortunate in their selection of Mr. R. to fill this important post, so he is a gentleman of much experience in the business, and have no doubt he will discharge the duties of his office with credit to himself and advantage to the Company.

ATTENTION is called to the advertisement headed "Notice to Business Men," to be found in another column of to-day's paper. We are personally acquainted with the advertiser—who is a young gentleman of this city—and do not hesitate in saying that he is well qualified to discharge the duties of bookkeeper or clerk, with credit to himself and satisfaction to those who may desire him to act in that capacity.

THE extensive sale of elegant Household Furniture, at the residence of Rev. T. B. Lyman, Oakland, will take place at 10 o'clock this morning. At 3 o'clock, P. M., will be sold the family carriage, horses, etc. For particulars, see advertisement.

THE Board of Agriculture met yesterday, at its rooms, No. 68 Fifth street. Present, Messrs Young, Reed, M'Kelvy, Cornelius, Bissell, Hodgson, M'Farland, [illegible], Oliver, Knox, [illegible]; last meeting approved.

[illegible] before the Legislature.

The Secretary and Treasurer were instructed to take active measures against delinquent tenants.

The Crops.—Mr. John Hodgson, of Chartiers tp., stated that the prospects for the wheat crop were extraordinary good in one field. The late sown wheat does not make a good appearance. The prospect for fruit is good, and the late frost did no damage.

Mr. John McKelvy, from Wilkins tp., stated that the wheat in his neighborhood did not look so well as it had in previous years.

Mr. Samuel Chadwick, from Collins township, said that the wheat looks very well—better than for ten or fifteen years. From the hills, the fields look green and well. The prospect for fruit is also very good. Had heard from the east that the frost had injured the fruit in Jersey.

Mr. Wm. Oliver, of Port Perry, said that the drilled wheat looks worse than for years. The fruit, except peaches, along the river, was in fine condition. Peaches, on the river, were winter killed; on the hills they appeared favorable.

Mr. McFarland, from North Fayette, spoke very encouragingly of early wheat, which had been planted in season. The late wheat looked badly. No complaint about the fruit.

Rev. J. Knox stated that the wheat in his neighborhood looked well. There was a fine prospect for good fruit. Peaches, only, were slightly injured. The late varieties of peaches were injured, because the wood matured earlier and afforded better protection. The early fruits bid fair to yield enormously.

Mr. John Murdoch, jr., Peebles tp., exhibited buds of peach, plum, cherry and apple trees, which were pronounced good by the members of the Board.

Capt. Young, Robinson tp., said that wheat prospects were never before so flattering. The late crop will, in a month, be in fine condition. Along the Juniata and Susquehanna the wheat was very fine. The fruit in his neighborhood was all safe.

On motion, adjourned to meet on the last Wednesday in April.

A MAN living in the Fifth ward, near Faber's engine house, named Hughes, was summoned by Mayor Wilson to appear before him on the 30th of this month and answer for a violation of one of our city ordinances. Mr. Hughes has put up a frame stable, and thus incurred a penalty of $500; rather a severe punishment, if enforced. We understand that it has been usual in previous instances to remit this fine upon the payment of the costs and removing the unlawful building. This renders about half the ordinance a cypher. If the penalty were reduced to $50, it would be a more reasonable amount and within the means of most trangressors. It is payable every three months as long as the unlawful building is suffered to remain, so that repeated fining, even if the sums were small, would bring the most refractory person to terms.

His Honor has also fined several for neglect of their vault gratings and pavements. These proceedings promote cleanliness and the safety of citizens, and our chief magistrate deserves applause for his promptness, and efficiency in carrying them out.

THE Council of East Birmingham met on last Tuesday and made the following appointments: Treasurer, John P. Hogan; Clerk of Council, James Beck; Tax Collector, Augustus Ammor; Board Measurers, A. H. Rapp and David Searing; High Constable, Augustus Ammon; Street Commissioner, Sam'l Thomas.

"LARDS AND GROW FAT."—Physiologists and physicians tell us that laughter and good humor are conducive to health, and we believe it, for it is seldom we see a good natured, jolly individual, be he a lean youth or "fat and forty," who does not enjoy good health. Therefore, we recommend all who wish to enjoy a long life, to "drive dull care away," and as a means of so doing we suggest a call upon Messrs. Hunt & Miner, who will sell them all the humorous illustrated works in the country, the price of which is 38 and 25 cts. per volume, at 10 cts., and 75 and 50 cent books at 20 cts., as they are disposing of their stock in this manner preparatory to moving to their new building, Fifth street, next door to the Postoffice.

Cayetano Washing Machine.
CLOTHING, TIME AND LABOR SAVED.
Indispensable to Housekeepers.
THE MOST SIMPLE, ECONOMICAL and durable machine ever offered to the public to alleviate the discomforts of wash day.

Description.
It consists of a metal cylinder, with the ribs on the inside, and an interior cylinder of wood with ribs. There is a space of from 6 to 8 inches between the two cylinders. One crank turns both cylinders at the same time in opposite directions, rapidly creating a suds, forcing the water through the clothes, and effectively removing the dirt. The action of the water does the work quickly, dispenses entirely with rubbing, and thus saves the wear of clothes.
