The Flood.—Quites throng of people crowded the pavements along the whartes of both rivers yesterday, to see the immense freshet which the late rains have produced. From the indications at that time it seemed the flood would rival that of '52 and perhaps even reach as high as that of '52 and perhaps even reach as high as that of '52 and perhaps even reach as high as that of '52. The rivers continued raing the whole day, during the morning the Allegheny at the rate of about 5 inches an hour. The short nongahela, we think, did not well so rapidly. The hull of the steamboats at the mouth of Wood street could be seen from almost any square between Water and Liberty streets, and it looked very much as if they were going to run up the-street and form a communication by water between some of our prominent business houses and the wharf. We believe, in the flood of £32, the water came as far perhaps as Second street, but subsequent pavings have no doubt mark Republican Campaign Documents for distribution.
