DR. R. A. WILSON'S
Tonic, Cathartic and Anti-Dyspeptic
PILLS.

WILSON'S PILLS have had a more local existence for over twenty years, unsupported by advertising of any kind, and hold at double the price of what they are now sold at; yet with all these disadvantages, wherever used they have in no instance failed to render the utmost satisfaction in performing all the requirements of a valuable family medicine, and as such are recommended by some of the most worthy and responsible citizens of the land. Hear for instance what Col. William Hopkins, of Washington, Pa., says:

From Col. Wm. Hopkins, late Canal Commissioner of the State
WASHINGTON, January 9, 1858.
DR. R. A. WILSON, Pittsburgh, Pa.—I have been using your Anti-Dyspeptic Pills, when occasion required, for many years, and can truthfully say that I have never found any medicine equal to them in relieving me from affections of the stomach and heart; they have never failed to relieve me from headache, and have always left my system in better condition than they found it. I must confidently commend your Pills as a safe and highly valuable medicine.
Yours, respectfully, WM. HOPKINS.

Hear Dr. Keyser
MESSRS. B. L. FAHNESTOCK & Co.—I have had considerable experience in the case of the extraordinary Pill compounded by Dr. R. Adams Wilson, of which you are now the proprietors, and have often felt their benign influence in my own case for Nervous Headache, arising from a disordered condition of the stomach. I have likewise prescribed them for others, in cases of Amaurosis and other forms of head ache depending on a deranged and irritable condition of the stomach and digestive organs, for which they seem peculiarly adapted, being entirely free from any griping tendency. I regard them as a very valuable Pill, and one that purges, without at all debilitating.
Yours, truly, GEO. H. KEYSER.

ELECTROPATHY,
SOMETHING NEW
AND
SOMETHING TRUE.
ELECTROPATHY THE INVALID'S HOPE.

PROFESSOR A. S. GREGORY and J. F. STEVENS, M. D., Physician and Surgeon, of Buffalo, respectfully announce to the citizens of Pittsburgh, Allegheny, Manchester and the surrounding country, that they have located themselves permanently in Pittsburgh, for the treatment of all diseases, both functional and organic, by the application of ELECTRO-MAGNETISM, on a newly discovered system.
From the triumphant and almost unparalleled success that has attended their practice, as electricians, and from their experience—one as a Homœopathic and the other Allopathic physician—they feel confident in saying to the afflicted, that *they can cure all curable diseases,* such as
Palsy or Paralysis, Incipient Consumption, Rheumatism, both Acute and Chronic; Neuralgia, Headache, Torpid Liver, Bronchitis, Catarrh, Asthma, Weakness and Curvature of the Spine, Scrofula, Dyspepsia, Deafness by Paralysis, Ringing in the Ears, Amaurosis, Cataracts, Weak Eyes, Spasmodic Retention of the Urine, St. Vitus' Dance, Cholic, Salt Rheum, Prolapsus Ani or Piles, Female Weakness and Irregularities, General Debility, Derangements of the Nervous System, Stiff Joints and all Diseases of the Bowels.
While they rely chiefly on the proper application of ELECTRICITY, as a curative agent, they do not reject the use of medicine in such cases as their experience has proved it to be beneficial.
Multitudes in every community are suffering and dying from the effects of disease, in spite of all the skill and untiring toils of their physicians, who, without doubt, are doing the best they can for them; and yet, after weeks or months or years of faithful and diligent toil, they are finally obliged to confess that as favorable, although they are using electricity, but with no satisfaction whatever to the patient or themselves. But why do they so often fail, seeing they use the same agent that is used by the skilful electrician? Because they are unacquainted with the great laws which govern its application in disease.
Physicians who have patients afflicted with diseases of long standing upon whom they have exhausted all known remedies, are particularly invited to give our system a trial.
Prof. GREGORY and Dr. STEVENS intend to make their stay in Pittsburgh permanent, and they assure all who may call upon them for consultation, that they will not (as encouraging) to hope for a cure unless there are good and sufficient ground for such encouragement.
CONSULTATIONS FREE. We cordially invite the afflicted to give us a call.
Instruction given to both ladies and gentlemen who desire a knowledge of our system of treating diseases
Certificates of cures may be seen at our rooms, No. 88 GRANT STREET, opposite the Court House.

LATEST FROM EUROPE.

ARRIVAL OF THE PERSIA.

NEW YORK, April 12.—The steamship Persia, from Liverpool on the 31st ult., via Queenstown on the 1st, arrived this morning. She brings one day's later advices. Her news is partially anticipated via St. John's.

A mixed commission is to determine what Savoy and Nice shall contribute to the public debt of Sardinia and to the execution of several public contracts. Sardinia reserves to herself to finish alone the boring of Mount Cenis. The treaty will become executive SAY AND SEAL—a new Novel, by the author of Wide Wide World. CASTILIANA CLYDE. HARPER'S GREEK AND LATIN TEXTS—Muslin Flex. at 40c. Æschylus and Horatius now ready. For sale by J. L. READ, 78 Fourth st. ap3 for Sardinia, after receiving the sanction of Parliament. The King of Sardinia had issued a proclamation releasing the people of Savoy and Nice from further allegiance.

The Patrie says the French regiments in returning from Italy, will stop successfully at Chambray and Nice, but that a military occupation will only take place.

The Persia brings no later commercial news.

LONDON, April 1.—Dispatches from Genoa say that the Piedmontese troops entered Florence on the 25th. Another division is on the march from Bologna toward Ravenna. The Piedmontese garrison at Nice is about returning to Genoa.

Dispatches from Florence say that Prince Carignani, in a proclamation to the Tuscans, tells them the King understands the object of annexation to be to unite their energies with those of the various states who had elevated him to the National Throne, and that his first resolution is to achieve their happiness to the fullest extent which their conduct had merited.

Dispatches from Vienna say that the Austrian Cabinet had addressed a note to the Cabinet at Turin severely protesting against the annexation of Tuscany, Parma and Modena to Piedmont; maintaining her incontestable rights thereto, and declaring the despoiling legitimate princes of the States granted them by European treaties, will also destroy others' rights to the succession which these same treaties secured to the House of Hapsburg.

The Brazilian March mails had reached Lisbon, but the news is meagre. M. Belado was chosen President of Montevideo.

The necessary formalities between France and Sardinia in regard to the cession of Savoy and Nice, had been fulfilled. Challais and Faucigny will previsionally receive no garrison.

The report addressed by the Swiss Federal Assembly protests against the annexation of the neutralized provinces of Savoy to France, and say that the Assembly should request the Council to continue to protect energetically the rights and interests of Switzerland in regard thereto, and to obtain that the status quo should be respected. The assembly will be again convoked in the event of its being necessary to call out troops, or should other circumstances require it.

GREAT BRITAIN.—The bill abolishing church rates and the income tax bill, had passed the House of Commons.

Sir Robert Peel had made a speech denouncing the aggressive policy of Napoleon, and calling on the government to take a dignified position in opposition to his schemes. The speech was received with considerable cheering.

Earl Elgin was to leave for China on April 4th.

The chief constable of the Isle of Ely, one of the chief resorts for prize fights, had obtained warrants for the apprehension of Heenan and Sayers, with a view to their being bound over to keep the peace for twelve months. It was believed in sporting circles that the originally named day for the fight would not be changed.

The English shareholders in the Grand Trunk Railway, in Canada, had agreed to the Directors' recommendation to raise £1,000,000 to pay off the liabilities, and provide a further rolling stock.

Queen Victoria is expected to visit Berlin about the end of June. The accouchement of her daughter, the Princess Frederick William, is looked for in July.

FRANCE.—Some French journals had recommenced their diatribes against England.

The Paris correspondence of the London Herald says that preparations were making for the campaigning outfit of an army of 250,000 men, and that officers and men, on furlough, had been ordered to join their corps.

A journal, under French protection, was shortly to come out at Geneva, to advocate the doctrine of natural frontiers to the fullest extent.

ITALY.—The Constitutionnel says that France will withdraw her troops from Italy [illegible] they are replaced by an army of an Italian power.

Letters from Rome confirm the statement that the allocution pronounced by the Pope in the secretion allotory to march 26th, included the excommunication of Victor Emanuel, without warning him. It specifies his acts, which it says had incurred the censure pronounced by the councils against plunderers of the church.

The Papal carbineers had taken off the escutcheon of Sardinia from the house of the Sardinian Vice Consul at Rome.

Garibaldi had been elected deputy from Nice.

The cause of major excommunication against those who have furnished to aid or consented rebellion, invasion or usurpation on the Romags, was published in Rome on the 29th.

Too ambassadors of the Western Powers at Naples had urged reforms upon the King. The Neapolitan Ministry had tendered their resignation, but it was not accepted.

Dispatches from Rome say that in case of the evacuation by the French, Rome will be occupied by the Pontifical and Neapolitan troops, and they will enter the marshes. Three thousand troops are concentrated at Ancona.

A new revolutionary demonstration was to have taken place at Rome, but did not take place, in consequence of a secret circular distributed among the people, intimating that such a demonstration might be a cause of annoyance to the French troops.

Prince Napoleon had arrived at Leghern, en route for Florence. His reception was most enthusiastic.

Prussia's reply to M. Thouvenal's note expresses disapprobation of the annexation of Savoy to France. It also intimates that the appeal of Switzerland to the powers, as to her rights, must be examined and those rights must be protected.

The Spanish loss in the battle of the 26th was 1267 killed and wounded.

The Bank of England has advanced its rate of interest to 4½ per cent.

A letter to the London Times gives full details of the massacre by the Papal gendarmes, from which it appears 147 persons were wounded; a number of ladies were injured. The American Vice Consul received a shot in the side, and several of the French military officials were wounded.

Money has been more in demand. Timely provision has been making by many from the apprehension that the financial wants of foreign governments may bring a foreign loan into our market, and that the rate of interest would be raised. It has been advanced already by ½ per cent, to 4½.

Lord John Russell's speech on the 26th seems to have caused rather less favorable relations between England and France. The substance of it is that the transfer of that territory to France was the subject of appeal from Switzerland to the great powers.

There was no doubt that the Emperor of the French had produced great distress in Europe, coupled as it was with the part taken by Garibaldi. He felt that however desirous, and he was most desirous to live on friendly terms with France, we should not withdraw from the relations with other countries, and should be ready to assert that the peace of Europe could not be maintained unless the rights and liberties of each power were respected.

WASHINGTON, April 12.—The Republican Senators have met in caucus this morning. The indications are that they will let the Nicaragua treaty pass, if amended. The Mexican treaty was not considered.

WASHINGTON CITY, April 12.—Soon after the colloquy in the House, yesterday, between Messrs. Potter and Pryor, Mr. Hindman called Mr. Potter out of the House, on behalf of Mr. Pryor, and it is believed delivered a message to go outside of the District. When this fact became known, various friends volunteered their services, but he had consulted none up to the time the House adjourned, and afterwards he went to his private residence to avoid arrest. The general feeling among the Republicans adverse to Potter's accepting any challenge for a duel. He will act upon prudent counsel.

Potter and Pryor, it is believed, have gone out to fight a duel. Neither were at home last night, and they were not in their seats to-day.

It is stated that the distance was fixed at 150 feet, but to this, or the description of the weapons, the friends of Pryor objected. Rumor says that thereupon Potter offered the choice of shotgun muskets or bowie knives, and here the matter rests.

The affair creates intense interest, and extravagant rumors are afloat; but it is generally believed that there has not been as yet a hostile meeting.

RICHMOND, Va., April 12.—The Henry Clay statue was inaugurated to-day. The ceremonies were very imposing, while the military display was the finest ever witnessed here. Mr. Barbour's oration was a masterly tribute to Mr. Clay.

The Central Botts Club to-day issued an address to the Opposition throughout the Union, urging the nomination of Mr. Botts as the most available candidate that can be selected by the National Union Convention at Baltimore. The address is signed by many prominent gentlemen, and will be extensively circulated.

INDIANAPOLIS, April 12.—The representatives of the Constitutional Union party of Indiana assembled here to-day and appointed delegates to Baltimore. They also selected a Central Executive Committee, and unanimously adopted the following resolution:

Resolved, That John McLean, of Ohio, and John Bell, of Tenn., be presented as our choice for President and Vice President; that we will cordially support any conservative national man who may be nominated by the Baltimore Convention.

LEAVENWORTH, April 12.—The Republican Territorial Convention met at Lawrence, on the 11th. Delegates were appointed to the Chicago Convention. The Convention passed, unanimously, a resolution declaring Seward their first choice for the Presidency.

Thirty-Sixth Congress—First Session.

WASHINGTON, April 11, 1860.

SENATE.—The bill to amend the Patent Laws was taken up and rejected by a vote of 19 yeas to 19 nays—the Vice President voting in the negative.

Mr. Hale, (N. H.,) introduced a bill for the protection of witnesses in criminal cases, in the District of Columbia.

HOUSE.—The House resumed the consideration of the bill for the admission of Kansas into the Union.

Mr. Maynard, (Tenn.,) said that this subject came before the House under different circumstances than it did two years ago, when the contest was between border ruffians and emigrant aid societies; between Sharp's rifles and bowie knives. Blood was then flowing from the wounds of Kansas, and her virgin soil was desecrated. Now, all was peaceful. He was satisfied, from the argument yesterday, of Mr. Parrott, delegate from KANSAS,—not his expression of opinion—that Kansas has not the population required for a representative in the House.

He moved that the bill be recommitted to the Committee on Territories, with instructions to limit the boundaries so as to exclude all the lands belonging to the Cherokee Indians. This we owe to the American character of our treaty faith with this tribe.

WASHINGTON CITY, April 12.

HOUSE.—The House passed the Senate bill to settle the title to the lands along the boundary of Georgia and Florida.

The Speaker laid before the House an executive communication, in compliance with a resolution, transmitting a result of the Coast Survey, showing the practicability of making Harlem River fit for navigable purposes.

Mr. Gilmer, from the Committee on Elections, reported the following:

WHEREAS, It is claimed that a portion of the territory of Minnesota, not included in the State of Minnesota, still remains an unorganized territory, and that the residents thereof are entitled to have a delegate to Congress; therefore,

Resolved, That the President communicate, if not incompatible with the public interests, all such information as he may have in his possession as to the existence of any such territory.

The preamble was rejected and the resolution was adopted.

Twenty-five thousand copies of the President's protest, and the replies of the Committee on the Judiciary on the subject, were ordered to be printed.

The consideration of the report of the Committee on Public Expenditures, proposing a reform in public printing and the French Spoliation bill, were postponed, the former till the 25th of April, and the latter till the 9th of May.

The Senate bill for a telegraph to the Pacific, came up. Mr. Colfax explained the amendments proposed by the Committee on Post Roads and Post-Offices as reducing the amount annually to be paid by the government to $40,000. If the messages exceed this amount, the government is to pay the additional rates. The price of ten words is to be reduced to $1.

Mr. Stanton regretted that the Committee had thought it necessary to reduce the amount from that dictated in regard to the route of Savoy and Nice, had been fulfilled. Challais and Faucigny will previsionally receive no garrison.

The report addressed by the Swiss Federal Assembly protests against the annexation of the neutralized provinces of Savoy to France, and say that the Assembly should request the Council to continue to protect energetically the rights and interests of Switzerland in regard thereto, and to obtain that the status quo should be respected. The assembly will be again convoked in the event of its being necessary to call out troops, or should other circumstances require it.

GREAT BRITAIN.—The bill abolishing church rates and the income tax bill, had passed the House of Commons.

Sir Robert Peel had made a speech denouncing the aggressive policy of Napoleon, and calling on the government to take a dignified position in opposition to his schemes. The speech was received with considerable cheering.

Earl Elgin was to leave for China on April 4th.
