It is well known that the modicional effect of Protoxide of Iron is lost even by a brief appears to sir, and that to maintain a solution of Protoxide of Iron without nurther citidation, has been deemed impossible.

In the Peruvian Syrup, this desirable point has been at tained by construction in a way he/or scalanews; and this solution may replace all the procarbonates, citrates and strings of the Hateria Medica.

It is also contently adapted to take the place of any Protoxide of Iron, which physicians have used in scruy or sorbusic attacks, and to meet such cases the Syrup should be found in the modicine cheat of every ship.
