addressed the Convention briefly as follows: Mr. Printeend and Contension of the Conventions: 18 is a contour of our party, and other political organizations, for the distant conditions to import their more movement compatible. This casion is right and proper, because it is the only mean of carrying ont our principies. We may di-gree as widely as we please before the southestime to be a ter the propie have decided, in the accessioned mode, that ter the propie have decided, in the accessioned mode, that ter the propie have decided, the the accessioned mode, that or others with the board procession. During the strength for the possible. During the strength of the normalistics in the late con-test, much has been and and down, on south sides; that norm or down constant in the.

go norward and units with my Espablican breakness is sup-port of my successful rival. Thate is an important election approaching, in which will principles are harving, and in organ to must cur copo-nents with any propert of success we must look over all matters of a personal character and footing only to prin-ciple, units all our strength to mest its encosy. There is but one course to purms is a political arguing-tions with any loope of success, in regard to supporting can-tilastic, such also is support these that shall be sominated according to the uses and curios of the party. In a low days we shall have a candidate for the Presi-dency in the field, and the campaign will be fairly opened; of this will be any players to go with your that its ficked of the will be any players to go with your that its ficked of the still start.

The Chairman, now announced the following as the result of the marking for delegates:

Mesers, Herbs, Baltin, Dravo and Salbenlok Were therafore elected delegates to the other
