Cataract Washing Machine.

CLOTHING, TIME AND LABOR SAVED.

Indispensable to Housekeepers.

THE MOST SIMPLE, ECONOMICAL and durable article ever offered to the public to alleviate the discomforts of wash day.

Description.

It consists of a metal cylinder, with the ribs on the inside, and an interior cylinder of wood with ribs. There is a space of from 3 to 6 inches between the two cylinders. The crank turns both cylinders at the same time in opposite directions, rapidly creating a suds, forcing the water through the clothes, and effectually removing the dirt. The action of the water does the work quickly, dispenses entirely with rubbing, and thus relieves the weary housekeeper.

JAMES B. RODGERS,

PUBLISHED DAILY AND WEEKLY BY

R. ERRETT & CO.,

FIFTH STREET, ABOVE SMITHFIELD.

PITTSBURGH:

FRIDAY MORNING, MAY 25.

The Storm at Cincinnati.

The Cincinnati *Commercial* furnishes the following additional particulars:

MISCELLANEOUS DAMAGE IN THE CITY.

We learn that $15,000 will be required to restore St. Joseph's Church (Catholic) on the corner of Linn and Laurel streets.

It is said by eye witnesses, that the vibration of the spire on the big-fisted church, corner of Main and Fourth, was fearful. A gentleman said it appeared to him to vibrate at least two yards. The roof of the church was considerably damaged.

The roof of St. John's (Episcopal) Church, corner of Seventh and Plum, was damaged about $100.

The Carr Street Chapel, near Whitewater Canal, was unroofed.

National Hall, on Vine street, north of the canal, was damaged $1,000.

It will require $500 to restore the roof of A. M. Taylor's dwelling, on Sixth below Cutter.

W. & J. Shuptrine's three story brick, on Sixth below Elm, was unroofed and the walls were damaged. Loss $1,500.

Taylor & Faulkner's window-blind manufactory, on Freeman street, was damaged a thousand dollars worth.

We had not time to collect separate facts about the brick yards in West end. There are about thirty of them, and all are more or less damaged by brick-sheds being blown to fragments. The entire loss cannot fall short of $5,000 to $8,000.

Three two-story brick houses belonging to Israel Garrad, on Clark, below Freeman, just erected, were demolished. Loss about $3,000. A frame house opposite, and a brick house near there, on Freeman, was razed.

A house adjoining the First Intermediate School was damaged $1,000.

Resor's stove foundry, at the corner of Smith and Water, was unroofed.

The metallic roof of Mosely's bridge foundry, on Third below Stone street, was ripped up.

Mr. Graveson, stone cutter, had just erected a three-story brick on Freeman, near Clark, and it was demolished. Loss $2,500.

Part of the gable of a frame grocery, on the corner of Court and John streets, was ripped out.

Lane & Bodly's foundry, on Water, below John street, was damaged about $1,500.

G. W. Ball & Co's store, on Main, partially unroofed. Damage $100.

F. Rambo's three story brick, on the south side of Eighth st., between John and Mound, damaged $300

M. Work's candle factory, near Brighton, damaged $300.

A dwelling on Webster street, between Sycamore and Broadway, unroofed and otherwise injured. Will cost $300 to repair it.

The roof was ripped off Mt. Auburn Female College and landed on the ground.

A new three-story building on Milton street between Broadway and Sycamore, just topped off, had the two upper stories blown entirely away.

The roof and a portion of the gable of a double frame house in Corporation alley, between Young and Spencer streets, belonging to a Mr. Morgan, and occupied by several families, were blown away. The front was blown out of a house on Liberty street, between Main and Sycamore.

The roof of Ernst's paint shop, on Western Row, between Bank and Dayton streets, was blown off and struck against a shed opposite, under which were several carriages, which were partially demolished.

A new building on Richmond street, above Linn, was unroofed. The buildings adjoining suffered considerably from the falling timbers.

The front was blown out of a double cottage on Ninth street, below Linn.

The trees in the Catherine Street Cemetery are terribly twisted and shattered. This is of no consequence, however, as the bones of their dead are unhallowed to the holy managers of that concern. Several fine old trees in the Washington Park are also ruined.

Tony Brazeyro's roof, at No. 969 Central Avenue, was torn off. Loss $500.

In addition to the foregoing we might write till daylight and not finish our list of injuries in amounts varying from $50 to $500 done to property in this city. We do not, however, deem it of sufficient interest to extend the record further. Those in yesterday's paper, and the foregoing comprise the most serious. We will not undertake to estimate the amount of damage. We may say in conclusion, that the loss in awnings alone will amount to a formidable sum. None outhanging weathered the tempest.

DOWN THE RIVER ROAD.

The ravages of the storm down the river road were not so generally serious as in other sections. There were some serious individual losses, however.

T. H. Yeamen estimates his losses at $1,000. Those fine trees which occupied his fine avenue were thoroughly shattered, and his orchard badly injured. The wind was so strong that pickets were blown from a picket fence.

G. W. Goodhue regrets the loss of a splendid grove of forest trees, which time nor money can replace.

Several tenements were unroofed in that vicinity, but $1,000 dollars will cover the loss therebouts.

St. Mary's College on the hill top, Sharp township, looking down into West End, was unroofed and otherwise damaged. Will cost $1,000 to repair it.

MAKING SHOES BY STEAM.—The Haverhill (Mass.) Publisher gives an account of a steam shoe factory in that place, for sewing the seams and pegging shoes. The machinery is all worked by a small five horse power engine. In the basement of the building are the machines for cutting, stripping, rolling and shaping the soles. These are then passed to the story above, where the shoes are lasted, and the outer sole tacked on by hand, which process prepares them for pegging. The pegging machines are simple in their construction and mode of operation, but perform the work with great despatch and accuracy, driving the pegs at the rate of 14 a second. One of the most curious operations of the machine is the manner in which it manufactures the peg for its own use. A strip of wood of the required width, and neatly laid in a coil one hundred feet in length, is put into the machine, and at every revolution it is moved forward, and a peg cut off and driven into the shoe. The rapidity and unerring accuracy with which these machines perform their work is truly astonishing. After being pegged, the shoes are passed up to the third story, where the bottoms are smoothed, scoured and brushed. The fourth story is occupied by the stitching machines, attended by females, but run by steam, which saves a laborious and fatiguing operation.

THE GREAT JULY ECLIPSE.—The first of the American expeditions for observing the solar eclipse of July 18th, left New York for Washington Territory; the others will follow for Labrador and the Hudson's Bay Territory at later dates. The party for Washington Territory will consist of an astronomer and two assistants; together with a sufficient number of *voyageurs*—old employees of the Hudson's Company—to cut through the forest and properly take care of the pack animals. They expect to be twenty days absent from Steilacoom, where the party will land. The Moon's shadow will cross from the West to the East coast, to about 30 minutes, and as the difference of local time is about three hours, the observers who will go to Labrador next month will visit the phenomena under the most favorable circumstances. The party for Washington Territory goes out under care of Lieut. J. M. Gillis, of the U. S. Navy, an officer with whose success as a practical astronomer, both in Chili and in connection with the National Observatory and United States Coast Survey, the public are familiar.

A VOICE FROM MICHIGAN.—The Detroit *Advertiser* of the 21st inst., says:

"Mr. Lincoln is now the regularly nominated candidate of the Republican party for the Presidency of the United States. No truer patriot, or orthodox Republican, exists in the country. He represents to the fullest extent the spirit and sentiment of our great cause. Michigan, which was the first to effect a Republican organization, will be among the first in the roll-call of next November to respond to the demands of the country. TWENTY-FIVE THOUSAND is the figure at which we must set our majority for LINCOLN and HAMLIN! So no more regrets, Republicans, but let us go to work with a will."

THE Hartford *Times* says:—The pastures are all dried up, no spring butter can be made, and apprehensions are felt for the grass crop of this year—this is or should be the time for it to 'set.' —Planting operations with the farmers have been interfered with, and the early vegetable crops are beginning to suffer.

Or the 1588 population in Valley Falls, R. I., the census of which has just been taken, 740 are foreigners.
