THE ANTI-TAX CONVENTION meets to-day at the Court House, and a strong effort will be made to saddle it to put a county ticket in nomination, already prepared, cut and dry. One half of the men on this ticket are locofocos; and we advise the Republican members of that Convention to beware of being caught in any locofoco trap.—In the present condition of political affairs it behooves them to act with caution and prudence, and to avoid all entangling alliances with locofocoism, no matter what shape it may take. We have as much confidence in the sound judgment of the Republican members of that Convention, that we cannot believe it possible they can be duped by any of the cunning devices of the enemy.

THE PHILADELPHIA MEETING.—The LINCOLN ratification meeting in Philadelphia was a splendid success. Notwithstanding a fall of rain at the time the meeting was to convene, the gathering was an immense one, and the demonstration was so thorough, that no doubt now remains as to how Philadelphia will go this year. The "Peoples' Party" of that city will give a united and hearty support to Lincoln & Hamlin.

The Philadelphia papers of Monday come to us freighted with full accounts of this magnificent turn-out—the speeches of the various orators being given in full. This immense mass meeting was held in Independence Square. John B. Myers, one of the most eminent merchants of that mercantile city, presided at the main stand, but three other meetings were organized—one at the southeastern angle of the Square, one at the southwestern, and one in the hall of the State House. Speeches were delivered by Messrs. Trumbull, Wilkinson, Sherman, Grow, Campbell, Train, Ferry, Morrill, Dunn and Parsons. Ward processions marched to the Square, with bands of music, fireworks, transparencies, rails, etc. There were several cavalcades. The Fifteenth ward turned out with a cannon and large omnibus filled with a club of Fillmore Rangers. The Seventh ward had a Scotchman playing the bag-pipes. There was a large delegation from Westchester. At half-past ten o'clock the meeting adjourned, and the procession marched up Chesnut street, past the Continental, to serenade the distinguished guests. The scene there was truly splendid.

Of this meeting the *Inquirer* says:

"The People's party opened the Presidential campaign on Saturday night in fine style—their meeting in Independence Square being in all respects great and enthusiastic. In the interior of the Square, and in all the streets that surrounded it, the eyes of the spectators were dazzled by numberless lights and lanterns, upon which all sorts of inspiriting and quaint devices and mottoes were emblazoned; while the constant arrival of strong delegations with their bands of music kept up the enthusiasm of the masses assembled to the highest pitch. As a night display of the strength of a powerful party nothing could have been more effective and imposing."

The *Press* says:

"The meeting was a very imposing and enthusiastic one. It seemed to be a combination of all the elements of the opposition, not the least of which was the prominence of the American and conservative elements. It indicated that the friends of Bell and Everett were far from indifferent to the success of Lincoln and Hamlin. And it is but just to add that, in some of the speeches of the eminent public men who addressed the assembled thousands, there was a conservatism and a generosity that spoke loudly against the insane charges of the fire-eaters of the South upon the Republican party. Mr. Sherman, of Ohio, was loudly and always applauded for his frankness in this respect."

RATIFICATION MEETING IN WASHINGTON.—The Mayor of Washington City promised the Republicans all protection at their grand Ratification meeting, on Monday night. It was held in front of City Hall. A large number of the Americans pledged themselves to aid the Republicans in resisting any intrusion. The speakers on the occasion were Hon. B. F. WADE, Hon. H. WILSON, Hon. J. P. HALE, Hon. I. WASHBURNE, Jr., Hon. C. L. BEASE, Hon. J. A. BINGHAM, and Hon. G. A. GROW. The meeting was a large one. The correspondent of the Philadelphia *Enquirer* truly says that five years ago he who would have stated that the Republicans would hold, at this time, a ratification meeting in the streets of Washington, would have been deemed insane. The world *does* move.

A SOUTHERN VIEW.—Hon. JOHN SLIDELL, one of the Louisiana Senators, has written a letter in accordance with the practice of all of the Southern Secessionists, endorsing the action of his friends at Charleston. In this he states that he supposed that Seward would have been nominated, and the question would be—"Shall the Union be preserved or destroyed?" But now that Lincoln is the nominee his fears for the safety of the Union are not so great. His election would not, to his opinion, present so absolute and unmistakable a test of Northern sentiment as that of Mr. Seward. Just in proportion to the certainty of Republican success do the feelings of the extremists change.

The Fillmore papers East and West are rallying to the support of Lincoln and Hamlin. The accessions of the Buffalo *Commercial Advertiser* and Albany *Statesman* have already been mentioned. The Evansville (Ind.) *Journal* thus speaks of itself and others:

"The Vincennes *Gazette*, the New Albany *Tribune*, the Fort Wayne *Times*, and the Evansville *Journal*, all Fillmore papers in 1856, have come out heartily for Lincoln and Hamlin. The Terre Haute *Express*, which was a Fillmore paper for a short time in 1856, is now enthusiastically out for the people's ticket. The Greencastle *Banner*, the Seymour *Times*, and the Rising Sun *Visitor*, all Fillmore papers in 1856, will advocate Lincoln. Wm. H. French, Esq., publisher of the Jeffersonville *Republican*, is a warm Lincoln man, and is going to make his paper a Lincoln and Hamlin paper. So far as we have seen, not one Opposition paper in Indiana has failed to hoist the Chicago ticket! This unanimity is unparalleled."

THE "WIDE AWAKES."—Are we not to have an organization of "Wide Awakes" in Pittsburgh? Companies are forming in every other city, and why not here? As there is some curiosity to know what the Wide Awakes are to do, we give the programme of the Chicago Association for the campaign:

1st. To act as a political police. 2d. To do escort duty to all prominent Republican speakers who visit our city to address our citizens. 3d. To attend all public meetings in a body and see that order is kept and that the speaker and meeting is not disturbed. 4th. To attend the polls and see justice done to every legal voter. 5th. To conduct themselves in such a manner as to induce all Republicans to join them. 6th. To be a body joined together in large numbers to work for the good of the Republican ticket."

THE *Cincinnati Gazette* says it is found that the tornado destroyed a large share of young fruit and fruit trees in the section of country through which it passed. The loss in this respect will be, perhaps, the heaviest farmers will sustain.

THE "grog dangers" said to beset the Japanese embassy. They are often asked to drink, and have the strength to refuse. They are said to take to "malt" kindly enough, but exhibit huge pleasure at juleps and cock tails.

One of the Sandwich Island chiefs, when he saw them on their way to this country, predicted that they would fall victims to strong drink, just as the Sandwich Islanders did who first visited London many years ago.

JEFFERSON COUNTY.—The opposition in Jefferson county had a grand ratification meeting at Brookville on the 21st, at which the nominations of Lincoln and Hamlin were enthusiastically endorsed. In 1856 Jefferson gave Fillmore 683, to 1046 for Fremont and 1600 for Buchanan. The Fillmore branch is now thoroughly consolidated with the other, and Lincoln will have the united support of both.

WILLIAM H. SEWARD.—Success and misfortune are both at times hard to bear with becoming dignity. Mr. Lincoln, on receiving news of his nomination at Chicago, is described as having conducted himself with the utmost propriety, first going to tell "the little woman up at the house," who he knew would be glad to hear it, and then receiving the visits and congratulations of his friends, without showing any undue elation.

But Mr. Lincoln had an easy role to perform The difficult part fell to Senator Seward, who, up to the hour of the nomination, was believed to be sure of being the candidate of the Republican party for the Presidency. All the accounts he received, through letters, newspapers and telegraphic despatches, assured him that he and he only could be nominated. The matter was treated by his friends as fixed, and there could have been no doubt on the subject in Mr. Seward's own mind. The sudden and instantaneous overthrow of this confidence, by the news of Mr. Lincoln's nomination, would have been appalling to any man whose mind was not peculiarly well-poised, and disciplined to make the most trying sacrifices for the general good. While many of his devoted friends seemed crushed by the blow, Mr. Seward himself bore it bravely. He wrote a brief but manly art cle for his friend, the editor of the leading Republican paper in Auburn, accepting the nominations and the platform; he wrote more deliberately, but with equal earnestness, a letter to his New York friends, which we copy elsewhere; he pursued his work upon his country residence, the outbuildings of which were recently destroyed by fire; he received unmoved and cheerfully the visits of his saddened but sympathizing friends, and he found in the warm and evidently sincere expressions of these friends, full consolation for his disappointment.

We are not quite sure that Mr. Seward, thus manly and undisturbed in one of the most trying positions imaginable, does not appear greater than he would even as the elected President of the United States. He declares that it is his intention to retire from public life at the end of his Senatorial term. Although pronounced not an available candidate for the Presidency, and although bitterly assailed and misrepresented by his political opponents, he will carry with him to private life the esteem of all who candidly study his character.—*Phil. Bulletin*

A SHAMEFUL FORGERY.—Several papers of this city have copied, in copying the schedule of general facts concerning Mr. Lincoln, prepared by a New York paper, a paragraph forged to convey an impression that Mr. Lincoln was disposed to urge an open war upon the southern States The words quoted, and asserted to have been spoken by him in Illinois are: "I nevertheless did mean to go on the banks of the Ohio, and throw cannon balls into Kentucky to disturb them in their domestic institutions." Most persons would at once recognize the absurdity of the assertion that any public man had declared such a purpose; but as there are malignants to whom any perversion is welcome, and who would be repeating it only the officer if known to be false but found to be useful, we give here the exact form of the paragraph quoted from in repelling certain charges of sectionalism made by Mr. Douglas. Mr. Lincoln said: "I have again and again said that I would not enter into any State to disturb the institution of slavery. Judge Douglas said at Bloomington that I used language most able and ingenious for concealing what I really meant, and that, while I had protested against interfering into the slave States, I nevertheless did mean to go on the banks of the Ohio and throw missiles into Kentucky, to disturb them in their domestic institutions."

Thus, in quoting a false charge by Mr. Douglas, to repel it in the most direct manner possible, a paragraph was constructed out of which this shameful forgery has been manufactured. It is disgraceful to the age that such acts as these are possible in any form which permits identification of their authors. The New York *Herald* prepared and published the paragraph.—*Phil. N. American.*

THE LATE GREAT FAILURE IN ABERDEEN.—The sad consequences of the great failure of the firm of John and Anthony Bisikle, advocates and land factors Aberdeen, to which we have already briefly referred, are, we learn, daily becoming more apparent. Indeed, such failure involving anything like the same amount of money loss and causing an equal degree of private hardship has ever been experienced in the northern capital; while the suddenness with which the storm has come upon the sufferers and the public, combined with the high social position of the principal partner of the firm, have created the utmost surprise, and have formed the chief topic of conversation in all circles in the quarter where the event has occurred, during the past week.

As we stated on Wednesday, the total amount of the short comings of Mr. John Bisikie is set down as at least £300,000, and in this sum is swallowed up and swept away the savings of tradesmen, the scanty portions of not a few widow and maiden ladies of families who have seen better days, the rents of many large landed proprietors, and also it is said moneys intended to be invested in security and in bond. A young and clever architect of the city, brought chiefly into notice by the firm, is said to be a loser to the extent of £500; while a noble earl, well known in the Free Church religious community, and who takes his title from a royal burgh not twenty miles distant from Aberdeen, is reported to be in for not less than £100,000. In truth it may be said there was unbounded confidence placed in John Bisikie. He is a member of a family who, for half a century at least, have most worthily held the very highest name and credit in the north of Scotland.—[*Scotsman.*

THERE was an interesting case lately in a New Orleans court, for damages alleged by a parent against a school teacher for whipping his son, aged sixteen years. The suit was brought in the sum of $5,000. It was the ruling of the court that a teacher has no right to punish a child unless a special permit is given, and that the mere fact of sending a child to school cannot be construed into a delegation of parental authority, and that every act of punishment on the part of a teacher, without special permission, may give just ground for an action for assault and battery. This ruling was made in conformity to State enactment, as there is certainly no sanction of the decision in common law. The rules of the school permitting corporeal punishment were decided to be in violation of the statute in such cases, and the jury had therefore to find for the plaintiff. But they manifested good judgment as to the amount of damage done to plaintiff—one dollar being the sum awarded, instead of five thousand.

DEPARTURE OF FIVE HUNDRED YOUNG IRISHMEN FOR HOME.—The Dublin Mail says that within this last fortnight between four hundred and five hundred young men, of the respectable classes, have left Ireland en route for for Rome. They were picked up in Cork, Kerry, North Tipperary, and Dublin, and each of them was furnished with £13 10s to pay his passage to Italy. The particularity of the sum of money is singular. Whether the money came from the Pope's exchequer or the pockets of his Holiness' friends is not stated. The emigration to the United States does not appear to be affected by the movement in the other direction, for an "extraordinary outflow" is said to depart weekly from Queenstown.

EMIGRATION TO PIKE'S PEAK.—The following is the number of teams and men that crossed the Mississippi river at Council Bluffs, Nebraska Territory, for the week ending May 14, 1860:

8th May—	27 wagons, 105 men.	
9th "	—28 wagons, 121 men.	
10th "	—26 wagons, 253 men.	
11th "	—65 wagons, 192 men.	
12th "	—27 wagons, 78 men.	
13th "	—49 wagons, 131 men.	
14th "	—49 wagons, 132 men.	
Total for the week, 333 wagons, 942 men.		
Total for five weeks, ending 14th May, 1167 wagons and 3,465 men.		

THE K. G. C.'s IN TEXAS.—A Brownsville correspondent of the New Orleans True Delta says:—There have been encamped above here for some time about 200 K. G. C.'s as they are called, but they are about to be dismissed on furlough, as it is said. Gen. Reneau, from Tennessee, is here—came on the last boat from New Orleans, and brought the orders. This is probably the end of this Utopian scheme. If men knew Mexico, they would not risk their means to gain a country, which, when possessed, will be nearly valueless to such as go in there.

A LETTER in *Le Siecle* gives an account of the capture of Father Otterio Lanza, a political refugee on board an American vessels in the Sicilian waters, by the Neapolitan police. Mr. Barstow, the U. S. Consul, who permitted this outrage, is said to be a Catholic, and to do the agreable to the bloody inquisition of the young Bomba.

SOME of the papers speak of "astounding defalcations." In these days of locofoco misrule, it is official honesty and not official defalcations, that would most astound.—*Lou. Jour.*

CALL TO THE DELEGATES OF THE LATE PEOPLE'S CONVENTION WHICH ASSEMBLED IN PITTSBURGH ON THE 21st OF MARCH LAST.—Whereas, it appearing to the Executive Committee, appointed by the late Anti-Tax Convention, that, without strenuous exertion on the part of the people, there is danger that they will be, in all probability, compromised on the great question of resistance to Railroad Taxation by the, stirs-workings, and influences of office-seeking politicians, and being authorized by the fourteenth resolution to call the Convention again together when they might consider such a step necessary; therefore, all the Delegates which assembled in that Convention will again reassemble at the COURT HOUSE, in the City of Pittsburgh, on WEDNESDAY, the 30th day of May, inst., to consider the propriety of putting in nomination candidates for the various County, State and National Offices, whose views are known to be perfectly sound and reliable on the subject of resistance to Railroad Taxation.

McCORMICK'S REAPER AND MOWER.

20,000 Sold in the Last Five Years!

Being a Larger Number than is Manufactured by any other single Establishment in the World.

THE MACHINE for 1860 will be found so greatly improved as fully to meet the wants of farmers, both as a Reaper and as a Mower—so modified in its construction, as now to be

THE ONLY COMPLETE MACHINE

for both purposes. While cutting a swath several inches wider than the Two Horse Machine of past seasons it is as a whole, narrower, lighter and stronger, and will run much easier—with no material additional draught. We present, therefore, for the coming season, a machine not for a richer than those of most makers, with a light draught for two horses, to Reap or Mow—LIGHTER THAN IS REQUIRED BY MUCH NARROWER MACHINES. By the perfection of the balancing of this machine, it can be run with a patented seat, jointed tongue, (with the wheel frame,) the various appliances of Two Horse machines, and is now fully up to the requirements of the times, simply by the weight of the driver in his place, thus dispensing with all levers and complicated arrangements to effect the same object.

The machine of 1860 will be found superior as a MOWER, presenting some peculiar features not attainable by other machines. The Two Horse Machine, though cutting about five and one half feet wide, is of light and easy draught, and does not choke down in passing through heavy grass, but is capable of a greater amount of work with a less expenditure of power than any machine made.

A warranty is given to every purchaser, and in addition, the following offer is made: Any farmer, who may desire it, is at liberty to work this machine through the harvest with any other, and PAY for the one PREFERRED.

For further particulars, or also for patent claims under which this machine is built, we refer to our annual pamphlet, which will be furnished on application to us, at Chicago, or either of our many agents.

Prices of machines delivered in Chicago, St. Louis, Indianapolis, Cincinnati, Louisville, Pittsburgh, Cleveland and Baltimore—charges following from these points:

For One Horse, complete $155
For Two Horses, complete 160
For terms, see pamphlets and bills.

Prince Imperial Champagne.

FROM
DE VENOGE & CO, EPERNAY,
FRANCE.

Sold by all respectable Dealers throughout the Country and other single Establishment in the World.

THIS fine brand of CHAMPAGNE, which until the past year was confined exclusively to the best tables of the Noblesse of Europe, has now obtained the most unbounded success and popularity in this country. It is recommended by some of the first Physicians of the city of New York, over all other wines, on account of its extreme purity and delicacy, and those who once try it rarely use any other brand. Although one year has elapsed since its introduction into the country, the demand is enormous and constantly increasing. Our arrangements are such as to maintain the quality of the Wine being maintained at its present high standard. The Prince Imperial is imported and sold by us, we being the sole agents of Messrs De Venoge & Co. in this country.

Sold to the city by MILLER & NICHOLSON.

RICHARDSON'S
IRISH LINENS,
DAMASKS, DIAPERS, &C.

CONSUMERS OF RICHARDSON'S LINENS, should see that the genuine goods are stamped with the full name of the firm.

J. N. RICHARDSON, SONS & OWDEN,
as a guarantee of the fineness and durability of the Goods. This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are imported, sewed after season and sealed with the name of RICHARDSON'S Linens, to the injury of the purchaser, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily stand between himself and the article, while purchasers can be imposed on with goods of a worthless character.
