FOR GOVERNOR,

HON. ANDREW G. CURTIN,

OF CENTRE COUNTY.

FOR CONGRESS—XXIst DISTRICT,
JAMES K. MOORHEAD.

FOR CONGRESS—XXIId DISTRICT.
ROBERT M'KNIGHT.

THE TARIFF BILL.—It is as we feared it would be. The Tariff bill, to which we in Pennsylvania all looked with deep interest, is practically killed by the democratic majority of the Senate. The correspondent of the *Tribune* telegraphs that the Finance Committee of the Senate held a meeting on Tuesday morning, and a proposition to take up Mr. Morrill's Tariff bill was peremptorily declined by the democratic majority. Mr. Pearce declared against the bill, whose aid was expected. Mr. Hunter proposes no compromise at all. He agrees with Mr. Cobb entirely that no change is needed, and that the present law will furnish abundant revenue for the support of Government, although the experience of the last three years proves its utter inadequacy in this respect. His efforts will be directed for postponement and non-action, and as he has his committee with him in sentiment, he will most probably succeed in smothering action upon the bill until the close of the session, when it will be too late to accomplish any thing in its favor. For party purposes, a direct vote upon the bill will be avoided, if possible; but its defeat will none the less be the work of the democratic majority of that body.

THE BOND CASES IN THE SUPREME COURT.—The writs of attachment issued against the members of Councils, for not passing the ordinance levying the tax to pay interest on the Charlters Valley Railroad bonds, were not ordered upon *all* the members of Common Council, as was at first reported, but only upon those who did not vote for the ordinance. Judge Woodward, who is concerned in an Insurance Company which holds a number of our railroad bonds, was exceedingly keen for issuing writs against *all* the Councilmen, but he was overruled by his associates. We copy from the proceedings:

Mr. Harding asked that an attachment be issued against the majority of the Common and the minority of the Select Councils of the city of Pittsburgh.

Mr. Penney argued that the case was in no better position for final adjudication now than before. More time was wanted.

Judge Woodward held that the court could not make numerical distinctions in the issue of a writ of attachment. The judgment was against the city of Pittsburgh as a corporation, and the execution should issue against all the members of Councils as the agents. Judgment was not executed or the writ obeyed, until the corporation had levied the tax. The course of the court was plain, either to confess its inability to enforce its orders, or else force the Councilmen to obey. In dispensing criminal justice, it might be proper to make a distinction in favor of those minorities of Council, who have expressed their willingness to obey the writ, but for the execution of the orders, the court looks to every representative of the corporation.

Mr. Harding said that under this suggestion he would move that attachments for contempt be issued against all the members of both branches of the Councils of Pittsburgh.

Chief Justice Lowrie saw no necessity for this wholesale attachment, and differed from the views expressed by his colleague, Mr. Woodward. He would not endorse an attachment against those who had expressed their willingness to obey the order of the Court. Against the others an attachment was ordered.

Mr. Penny said the Common Council had acted in good faith in its effort to levy the tax. He recapitulated the history of the case.

The Court then refired.

After a consultation, the Court ordered an attachment for contempt to issue against all the accused members of both branches of Councils, viz: Messrs. William Ward, Richard Thompson, Samuel Morrow, John Quinn, Jackson Duncan, and Jacob Tomer, of Select Council; A. G. M'Candless, W. T. Taylor, A. B. Hayden, George Hill, John Lang, Wm. Bowbottom, and Aaron Floyd, of Common Council.

The writ was made returnable at Lancaster, on June 27th, at 9 o'clock a. m. The Sheriff was directed to have the men there at that time. The former writ as to the other members of the Common Council was continued until the same time."

The Philadelphia *News*, which was the leading supporter of Fillmore in this State in 1856, has an article in Wednesday's issue which indicates pretty clearly that it will support LINCOLN and HAMLIN. Speaking of the ratification meeting on Saturday night last, it says:

"The Presidential canvass was gloriously inaugurated by the People's party of Philadelphia on Saturday evening last. The old ground dedicated so many years since to patriotism and love of country, has seldom been the theatre of an outpouring so great and so grand in all its surroundings as was this. From every quarter of the city, there came hundreds and thousands of men, bearing banners and lanterns on which were inscribed the watchwords of the campaign, and the preferences of those who bore them on. The weather was unpropitious, but seemed only to have served to mark the more distinctly the confidence and enthusiasm of the men who in such large numbers paraded the streets, regardless of the pelting of the rain."

Speaking of its own course in the premises, it says:

"Taking the action of the ratification meeting of Saturday night as an exposition for the People's party of our city, and of the State, there can be no difficulty as to the course which ought to be pursued by any and every man who sincerely desires the defeat of the Loco Foco party and the redemption of the country from its infamous corruptions, its tyranny and despotism sway; and standing by the flag of our country, so we have ever done, we shall have no difficulty in defining our own position."

THE HOMESTEAD BILL.—The Senate, on Tuesday, by the almost unanimous vote of the democratic members of that body, defeated the Home Homestead bill. Every Republican Senator voted aye and every Democratic Senator no, excepting Mr. RICE, of Minnesota. The friends of the Homestead bill will thus be enabled to see how parties stand on this question. The Republicans of the House pass a bill eminently just and proper, giving the public lands, in limited quantities to actual settlers, which the Democrats of the Senate defeat. Had the House bill passed it would have secured free homes to all who desired them upon the public lands, and put an end to the land speculations which have been a curse to the west. Let it not be forgotten that the country owes it to Democratic Senators that it is deprived of this beneficent law.

SQUATTER SOVEREIGNS.—The *Post* of yesterday publishes a long list of names for a Douglas meeting, to be held in Masonic Hall, on the 5th of June next. The following are specimen bricks of the signatures of these noble Roman citizens, who sympathise with popular sovereignty at home, and with the Pope in his difficulties in Italy:—

Pat M'Closkey,	Geo. Gallsweader,
Mick M'Cormick,	F. Gelshheimer,
Pat Oats,	W. Fressinger,
Ted Gallagher,	W. Koellenbeck,
Pat Malone,	H. Schoenfelder,
Jeremiah O'Connor,	James Kriegsel,
Pat Brown,	W. Schoenabeil,
Barney Matherson,	Philip Freiel,
Barney Shrougherty,	J. Brackmiller,
Dennis Shroughessy,	Doc. Fregevette,
Mike M'Govern,	Louis Anstaun,

And "one hundred and sixty others!"

HON. EDWARD M'PHERSON, from the Adams and Franklin district has been appointed the Pennsylvania member of the Republican National Committee.

THE INDICATIONS AT WASHINGTON.—The Washington correspondent of the New York *Courier and Enquirer* writes in the following encouraging strain:

"The members returning advise a pouring in upon members of Congress from their various districts, relative to the prospects of success for the Chicago ticket. Wigwams are in the course of erection all over the country, and in those sections where rails are easily procured the fronts are laid up with handsomely split rails. The prevailing opinion is that a repetition of the political scenes of 1840 is about to take place. The Democrats already aver that it is to be another hard cider campaign. Even Douglas himself begins to waver and intimates that he believes the chances of the Democracy are so slight that he has no desire for the nomination at Baltimore. He says that "Abe Lincoln is an honest man, and his personal friend," and adds that if they are both candidates, no matter which is successful, the other will be on the best of social terms at the White House, or else things must change very much in the future from what they have been in the past. As for the Southern Democrats, they give up the contest, and declare that Lincoln must be our next President, unless they can manage to throw the election into the House and Senate, of which they have but little hope. Some of Mr. Douglas' most sanguine friends have acknowledged that they see no chance for Douglas after the late speech of Benjamin. He certainly made out a very strong case against the Senator from Illinois of playing fast and loose."

SENATOR NUSHMACHER DEAD.—Senator Nushmacher died at his residence, near Shartlesville, Berks county, on Monday last, after a protracted illness.

THE CROPS.—The season has advanced sufficiently to enable us to arrive at a tolerably reliable conclusions as to the prospects of the growing wheat crop. In the South, where the season is considerably earlier than in this latitude, the harvest will unquestionably prove unfavorable. Things are now too far advanced to admit of the hope of any change for the better. If Kentucky produces half an average crop, it will be all that those who are pretty well informed anticipate. In Georgia, Alabama and Tennessee, the deficit will be still greater. In many portions of those States the crop is almost an entire failure, and in no section is the yield likely to reach one-half an average. In Ohio and Indiana there will be fair but not large crops. This State will probably be better than Indiana, but neither will reach an average. The aggregate product, however, will be larger than last year. Missouri will do badly. In Illinois, Iowa, Michigan and Minnesota very good crops are promised. Pennsylvania promises much better than last year, and in New York the prospects are fair. Upon the whole, therefore, we shall, no accident occurring between this time and harvest, have a larger yield of wheat in the Northern States than the last year or the year before: while in the South there will be a heavy deficiency. This deficit in the South will have to be made up mainly from the Central West. It has for a month past had a very decided influence upon prices in this market. It may be said, indeed, to have saved holders of flour here from heavy losses. Throughout the next month a market will be found in the South for a large amount of Ohio and Indiana flour. So much for wheat. As regards corn the farmers have done their part well. The foundation has been laid for a very full crop. It is safe to say that the amount of ground in large fields is up previous year. Two weeks, or even one week ago, the growing prospects were not flattering in many sections, owing to dry weather; but within the last week the drought has been effectually broken, and the plants are now looking thrifty. Some replanting had to be done, but this labor was not as heavy as the average of ordinary years. The yield of course will depend upon the character of the season hereafter. All that can be said now is that the prospects are decidedly favorable for a large crop. With reference to other grains we are not prepared to speak at present, further than to say we have not noticed any general complaint.—*Cin. Price Cur.*

GROWING WEATHER.—We have been treated to another dashing rain, Saturday evening, and a light shower, fell this morning, about five o'clock. Farmers and gardeners are in the merriest mood at these welcome visitations, and no longer croak their complaints about the drouth, and its withering effects on every green thing. The moistened earth rejoices in gladness, and the deep green masses of billowy verdure in the fields and forests bow and murmur a song of thankfulness for the refreshing drops sent in time to rescue the crops from a martyrdom of thirst. The clouds continue to look watery, the atmosphere is moist and warm, and every indication is favorable to a thrifty and rapid growth of vegetation. Gardeners say "you can almost see things grow," and even the forlorn faces of the chronic grumblers are cheerful as the drouth flees beyond the purple ramparts of bursting clouds that fringe the horizon, and distant pale picture of hard times is changed, as if by magic, into a perspective of green and golden plenty.—*St. Louis Ind.*

A TERRIBLE TRAGEDY was enacted in the California Assembly, a few days before its adjournment. A member of the House named John C. Bell was shot and stabbed to death, almost, in his seat, by one Dr. Stone. Stone was a lobby member, attempting to procure the passage of a bill for the division of the county represented by Bell, and to which the latter was opposed. Mr. Bell was in the act of consultation with another member beyond the bar of the Assembly, while Stone was in session, when Stone came up, denounced Bell as a liar, and immediately began shooting and stabbing him. The unfortunate man was carried away and died two days after. Stone was released on bail. As he is a rich man the crime will go unpunished. The Assembly took no notice of the murder. Bell was from Ohio, and was engaged in mining. Stone is from Kentucky. Several circumstances show the act to have been premeditated.

PRESBYTERIAN (O. S.) GENERAL ASSEMBLY.—*Rochester, May 29.*—The amount raised by subscription for Father Chiniqui was reported to be $270.

A correspondence was ordered to be opened with the Cumberland Presbyterians.

With regard to the subject of temperance, slavery, &c., it was voted unanimously that no further action was necessary.

Rev. Dr. Palmer, of New Orleans, was elected to the Chair of Practical Theology, and Rev. C. Wister Hodge to the Chair of the New Testament Literature and Biblical Greek, in the Princeton Theological Seminary.

Rev. Wm. M. Paxton was elected to the Fifth Professorship in the Theological Seminary in Allegheny city.

THE crops in this county, as a general thing, look promising. The rains and warm weather have given the wheat, rye, grass, oats, &c., a fine start; and the farmers are either done planting corn, or are busy at it, in a soil well warmed and moistened. Fruit of all kinds will be abundant; for we may regard all danger from frost as over. Such frosts as we had last June are rare occurrences, such as none now living may ever see again.—*Ind. Register.*

In a letter from out in Mason county, enclosing us some subscribers, the writer speaks of knowing between fifty and seventy-five persons who are going to vote for LINCOLN and HAMLIN. Considering that no votes were cast for FREMONT in 1856 out there the present crop is not so bad and our correspondent think that it can be made much more abundant between this and November.—*Wheeling Intel.*

IMMIGRATION TO CANADA.—The Hamilton (C. W.) Times, comparing the large number of immigrants to the United States with the small number who seek the Canadas, expresses its regret that the emigrants from Europe use the St. Lawrence and Great Western Route only to get to the United States, and adds that the policy of the Province must be changed before any large additions can be made to the number of its people.

SLAUGHTER OF CATTLE.—The Worcester (Mass.) *Transcript* says that one thousand cattle have been slaughtered in North Brookfield and vicinity. Of the disease the paper remarks:

The disease is now much milder than it was a few weeks ago, and none of the cases killed recently exhibited it in so advanced and developed a state as the earlier reported.

NO FEEDING IN FREMONT'S MINES.—A San Francisco letter writer says: "The item is going the rounds, which I believe is true to the letter, that Fremont will not allow any man in his mines or mills to carry weapons; and hence the marvelous peace and quiet that, after such terrible threats of explosion, has settled down upon Bear Valley."

NEW ORLEANS TO SUPPLY THE NORTH WITH PEACHES.—It is expected that the peach crop of Louisiana this year will be so large that the New Orleans market will be overrun, and it is proposed to ship, by express, peaches to the North, where they will arrive several weeks in advance of the season here.

A FAMOUS DIVIDING LINE.—The little "Rubicon," immortalized in history by its connection with Cæsar's fortunes, now separates the dominions of the Pope from those of the King of Sardinia. Which of these two potentates will first "cross the Rubicon?"

NEWARK, Tuesday, May, 29.—A special election of an Alderman was held in the Fourth Ward to-day. There was a hard contest, and the Opposition candidate was elected by nine majority. Last Fall the Democrats carried the Ward.

WHEN the prospects for abundant crops are unusually cheering in all sections of the United States, we are gratified to learn that the grain and fruit crops of Canada give similar evidence of a bountiful harvest.

Humphrey's Specific Homœopathic Remedies

have now been before the public for five years, and have everywhere won golden opinions from the many thousands who have used them.

Simple, free from intricacy, lethal ability, or danger, they have become the ready resource and aid of the parent, traveler, nurse, or invalid, and have become the family physician and medical adviser of thousands of families. For where have they been tried without having been approved and their highest appreciation is among those who have known them longest and most intimately.

N. B.—A full set of HUMPHREY'S HOMŒOPATHIC SPECIFICS with Book of Directions, and twenty different Remedies, in large vials, morocco case, $5; ditto, in plain case, $4; case of fifteen boxes, and Book, $3. Single boxes, 25 cents and 10 cents.

Sold by J. M. FULTON, Fifth street, second door from the Post Office, Agent for Pittsburgh. my1 6d&1m1

DIARRHŒA.—The most common causes of this complaint are, irritating matters in the stomach, such as worms, indigestible food, &c. The use of WILSON'S PILLS, in small doses, affords a safe and sure remedy. If caused by worms, the cause will at once be removed, by the use of B. L. FAHNESTOCK'S well known VERMIFUGE. These Pills are prepared and sold by B. L. FAHNESTOCK & CO., Wholesale Druggists, and Proprietors of B. L. FAHNESTOCK'S VERMIFUGE, No. 60, corner of Wood and Fourth streets, Pittsburgh, Pa. my31-d&w5

jel-2td WM. ROSEBURG, Treasurer

BLOOD FOOD! BLOOD FOOD!!

We have varied feelings in reading the advertisement of Dr. Bacon's Blood Food, in another column, but we think gratification predominates. At, though we regret to see so celebrated a man coming forward, even in appearance, under the same flag as quacks, we cannot help consenting to advertising,—yet we take exhaustion also in believing that there is now available preparation before the people for that most melancholy of fatal diseases, consumption, and other organic complaints.

Dr. Bacon is a lecturer in Medical Colleges, and his success in his speciality has been so wonderful that he has been selected, at variance with the prejudices of every regular practitioner, to do good to others, as he is doing, for the benefit of suffering humanity.

Dr. Bacon has started for Europe, however, a firm whose respectability separates entirely his preparations from all kinds of quackery. Messrs. CRUMB & DUNCAN are his sole managers, and they are also for a time the unvaluable or preparations. Dr. BACON'S INVISIBLE CARPET is another article could be one the great cure taken in putting up the article, which, with any other art is of the kind,—they would prefer it to all the money that has ever been offered them. For our own part, if we had a child, suffering, we would not hesitate to administer this preparation, knowing that such careful managers will not engage in anything that was not perfectly safe and effectual.—*Quaker Grocer.*

POISON! POISON!! POISON!!!—For destroying Rats, Mice, Roaches, and Vermin of all kinds, the Rat Pests prepared by JOS. FLEMING, corner of Market and Fourth, and the Diamond, is equal, if not superior to anything now in use. Being very palatable, the rats will readily eat it, and after eating will invariably seek the open air, never dying in their holes. This in itself is a great advantage over other poisons, as you avoid the disagreeable stench. Rats never eat poison two successive nights, therefore, give them plenty the first night, and you will in all probability entirely rid yourself of them.

Sold in any quantity to suit purchasers, at

JOS. FLEMING'S,
Corner Market st. and the Diamond.

101, 103 and 105 River St —107, 109 and 111 Dock.
W. V. CRAW, Inspector.

TEN THOUSAND PACKAGES of LAKE FISH on hand and receiving weekly fresh from the fisheries, consisting of

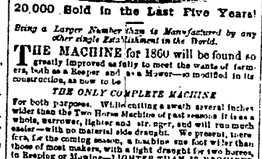
WHITE FISH, SISCAWIT,
PICKEREL, TROUT,
HERRING, CAT FISH,
SHAD, BAY FISH,
BASS PIKE & PERCH.

Besides a large portion of the time at the fisheries in the upper country, and having every facility for taking and shipping them to this port, with Mr. W. V. CRAW, Agent and Inspector at Cleveland, (with a experience of 20 years as one of the old houses of J. M. Craw & Son,) we are determined not to be undersold in price, quality or quantity. We call the attention of all former patrons of Messrs. J. M. Craw & Son, and all other dealers who want a good article of Fall or Spring caught Fish to our reasonable rates.

F. S. WILSON.

We would call your attention to those NORTH BAY WHITE FISH, they are superior to the Detroit River White Fish, both in size and flavor; are being caught, and taken in the deep pure cold water of the North. They are said by the Fish to be clear white, and fatter than any other White Fish caught on the Northern Lakes. They are very desirable for broiling and table use. my2:im W. V. CRAW.

M'CORMICK'S REAPER AND MOWER.



20,000 Sold in the Last Five Years!

Being a Larger Number than is Manufactured by any other single Establishment in the World.

THE MACHINE for 1860 will be found so greatly improved as fully to meet the wants of farmers, both as a Reaper and as a Mower—so modified in its construction, as now to be

THE ONLY COMPLETE MACHINE

for both purposes. While cutting a swath several inches wider than the Two Horse Machine of past seasons it is as a whole, narrower, lighter and str. ger, and will run much lighter, for the coming season, as a machine one foot wider than those of most makers, with a light draught for two horses, will be found to compare favorably with the wheel frame. The cutting apparatus is the same as that which has given such universal satisfaction during the past three years, and which, by the simple operation of changing the position of a single pin, can be changed from a Reaper to a Mower, or from a Mower to a Reaper, in a few minutes, by any one of ordinary capacity, without the addition of any new parts. The driving wheels are 4 feet 6 inches high, with broad tires, and the main frame is so arranged that the weight of the driver is in the centre of gravity, thus preventing the side draft which is so objectionable in many other machines. The Two Horse Machine, though cutting about two feet wider than the Two Horse Machine of last season, is not materially heavier, and those who once try it rarely ever after use any other. Although the Two Horse Machine is the first introduction into this country, the demand is enormous and constantly increasing. Our arrangements are such as to ensure the quality of the Wire being manufactured for it of the finest kind. The Prince Imperial is imported by us, and PAY for the use of the name.

For further particulars, as also for patent claims under which the machine is built, see circulars, to be had on application, which will be furnished on application to us, at Chicago, Ill., or either of our many agents.

A couple machines will be seen at all prominent points.

Price at machines in Chicago, St. Louis, Indianapolis, Cincinnati, Louisville, Pittsburgh, Cleveland and Baltimore—charges following from these points:

For Four Horse, complete	$155
For Two Horse, "	140
For forms, see pamphlets and bills

GREATEST INVENTION

OF THE AGE SKIRT MANUFACTURE.

THOMSON'S PATENT

CORRUGATED STEEL SPRINGS.

Reducing the Weight and increasing the Strength of Skirts nearly one-half.

W. S. & C. H. THOMSON & CO. offer the above, as the latest novelty, and the most important improvement in Skirts since Hoops were invented—giving to this favorite garment a lightness, flexibility and strength never before known. Every Lady in America who values comfort, health, and true elegance in dress, should have one of these admirable garments, in lieu of

Thomson's Corrugated Skirts.

These beautiful Goods, owned and manufactured solely by us, now form a part of

W. S. & C. H. THOMSON'S CELEBRATED CROWN SKIRTS

Which are offered this season in improved styles, shapes and manufacture, as follows:

THE DOUBLE TRAIN SKIRT,
THE PARISIAN BELLE SKIRT,
THE GOSSAMER SKIRT,
THE INDESTRUCTIBLE SKIRT,
THE WOVEN SKIRT
THE EXPANSION SKIRT.

Forsale, throughout the Union, by the principal Jobbers and Retailers. See that both *our name and the crown* are stamped on every skirt. No others are genuine.

Save Your Carpets!

THE great enquiry has been made for a number of years by housekeepers, What shall we put under the carpets to protect them from wear and moth? This grand and valuable article has been found and patented April 1st, 1856, by J. R. HARRINGTON, and is called

Harrington's Patent Carpet Lining.

This article having proved its utility has now come into general use, so much so that scarcely a carpet is laid down with out it, and its cheapness puts it within the reach of every family. It is warranted to add fifty per cent. to the durability of Carpets, all Cloths and Oil Cloths. The details of its merits are too numerous to mention. It can be obtained at any of the principal Carpet Stores throughout the United States and is manufactured only by the NEW YORK CARPET LINING COMPANY.

Also, extensive manufacturers of HAIRMOTH COTTON BATTING AND COMPOSITABLES, the best and cheapest that have ever been introduced to the market.

Office 11 Dey St., Salesroom 440 Pearl Street NEW YORK

All orders or information by mail promptly attended to with promptness and dispatch.

Under the supervision of the patentee.

J. R. HARRINGTON, Agent.
