DR. R. A. WILSON'S

Tonic, Cathartic and Anti-Dyspeptic

PILLS.

WILSON'S PILLS have had a mere local existence for over twenty years, unsupported by advertising of any kind, and hold at double the price of what they are now sold at, yet with all these disadvantages, whatever good they have in no instance failed to render the utmost satisfaction to persons in all the requirements of a *valuable family medicine*, and as such are recommended by a some of the most worthy and respectable citizens of the land. Hear for instance what Col. William Hopkins, of Washington, Pa., says:

From the Hon. Wm. Hopkins, late Canal Commissioner of the State.

WASHINGTON, January 8, 1858.

DR. R. A. WILSON, Pittsburgh, Pa.—I have been using your Anti-Dyspeptic Pills, when occasion required, for many years, and can truthfully say that I have never found any medicine equal to them in relieving me from affections of the stomach and heart; they have never failed to relieve me from headache, and have always left my system in better condition than they found it. I most confidently commend your Pills as a safe and highly valuable medicine.

Yours, respectfully, WM. HOPKINS.

Hear Dr. Keyser.

MESSRS. B. L. FAHNESTOCK & Co.—I have had considerable experience in the use of the extraordinary Pill compounded by Dr. R. Adams Wilson, of which you are now the proprietors, and here cites his benign influence in my own case for Nervous Headache, arising from a disordered condition of the stomach. I have likewise prescribed them for others in cases of Amaurosis and other forms of headache depending on a deranged and irritable condition of the stomach and digestive organs, for which they seem peculiarly adapted, being entirely free from any griping tendency. I regard them as a very valuable Pill, and one that purges, without at all debilitating.

Yours, truly, GEO. H. KEYSER.

Prepared and sold by B. L. FAHNESTOCK & CO., Wholesale Druggists, and Proprietors of B. L. FAHNESTOCK'S VERMIFUGE, No 65, corner of Wood and Fourth streets, Pittsburgh, Pa. Sold at retail by Druggists everywhere. fe2-3ndkw-p

MOFFATT'S LIFE PILLS,

THE HIGH AND ENVIED celebrity which this Proprietary medicine has acquired for its invariable effects of all the diseases to which it professes to cure, has rendered the usual practice of unscrupulous persons selling worthless stuff under a similar name, but one necessary but unworthy of them. They are known by their form, their color, their remarkably low price, and they derive notoriety by the faith of the credulous. To all cases of Dyspepsia, bilious and liver affections, piles, their medicine, forces and agues, obstinate head aches, and all general derangements of health, these Pills have invariably proved a certain and speedy remedy. A single trial will place the Life Pills beyond the reach of competition in the estimation of every patient.

Dr. Moffatt's Phœnix Bitters will be found equally efficacious in all cases of nervous debility, dyspepsia, headache, the sickness incident to females, &c. to obtain health, and every kind of weakness of the digestive organs. For sale by DR. W. B. MOFFATT, 335 Broadway, New York, and by Medicine Dealers and Druggists generally throughout the country. fe9-1ydaw

Catarrot Wassing Machine.

CLOTHING, TIME AND LABOR SAVED.

Indispensable to Housekeepers.

THE MOST SIMPLE, ECONOMICAL and durable article ever offered to the public to alleviate the discomforts of wash day.

Description.

It consists of a metal cylinder, with the rim on the inside, and an interior cylinder of wood with ribs. There is a space of from 6 to 8 inches between the two cylinders. The crank turns both cylinders at the same time in opposite directions, rapidly creating a suds, forcing the water through the clothes, and effectively removing the dirt. The action of the water does the work quickly, dispenses entirely with rubbing, and thus saves the wear of clothes.

PITTSBURGH:

TUESDAY MORNING, JUNE 5.

Political Items.

What are they after?—No one can be deceived as to what are the objects of the Charleston Convention bolters. Listen what their men say:

I want "the Cotton States precipitated into a revolution."—*W. L. Yancey.*

"If I had the power, I would dissolve this government in two minutes."—*J. T. Morgan.*

"Let us break up this rotten stinking and oppressive government."—*Geo. Gayle.*

"Resistance! Resistance!! to death against the government is what we want now"—*David Hubbard*

"Break up and dissolve this rotten Yankee government.—*J. D. F. Williams*

"Let the Union rip."—*R. D. Gayle*

"My voice is for War!!"—*G. D. Johnson*

So we could go on throughout the whole catalogue, including "Tray, Blanche and Sweet Heart," but these are enough to convict this crowd of revolutionary intentions.—*Selma (Ala.) Sentinel.*

Death of Judge Daniel.—Peter V. Daniel, of the U. S Supreme Court, died on Thursday, at Richmond, Va., after a long illness. He was a Virginian by birth, and was seventy-five years of age. He graduated at Princeton, and studied law with Edmund Randolph, whose daughter he subsequently married. Afterwards, he served as a legislator and member of privy council in Virginia, and in 1840, he was appointed one of the Supreme Judges of the U. S by President Van Buren. His politics were ultra proslavery Democratic, and he fully coincided with Judge Taney in the Dred Scott decision.

A Straw.—A Washington letter writer says:

There is a good sign for Lincoln at the Departments. The clerks have nearly all discovered that he is not a sectional man, and that, after all, he will make a good President! Some go further still, and say that they have no doubt he will be elected. The very men who a month ago were fierce Douglas men now talk Lincoln and a modified form of Republicanism. It all means simply this: that to the office-holders, Abraham Lincoln *is the coming man!*

Mr. Lincoln is said to be an unwkward man, and of all the awkward men in the country were to vote for him, he would get a majority that the Democracy would find it rather an awkward thing to deal with. Mrs. Lincoln, however, is said to be a very graceful woman, with not much thing as awkwardness about her. She is graceful in virtue of her sex. That sagacious observer of woman, Mr. Anthony Weller, once sagely observed ——"A lady can't be hook'ered. Nature has otherwise purwided."—*Boston Traveller.*

A Republican ratification meeting was announced to be held at the court House in St. Joseph on Wednesday, at which Gen. Gardiner and Col Branch were to be the principal speakers. The Democratic pro slavery organs of that place do not like it, but will have to submit whether it suits them or not. Let the ball roll on, and Missouri will give an excellent account of herself.—*St. Louis Dem.*

The Fires Kindled.—Gentlemen who were at the Ratification Meeting at Syracuse last evening speak of it as one of the largest and most enthusiastic gatherings ever held in that city. The work of preparation is progressing gloriously, and New York will do her whole duty in the great work which is to result in the rescue of the Government from the hands of the Slave Power.—*Alb. Evc Jour.*

Mr. W. Lake proclaimed in a late Democratic meeting in Georgia, that he is "ready and anxious to march instantly against the Yankees, sword in hand." We wonder if that can be called Lake-Warmness.—*Lou Jour.*

Mr. Buchanan says, through his Washington Constitution, that he rejoices in the knowledge that "some Democrats true to their party principles *are still left*." We will be thought for some time, that all his consolation was "*over the left*."

The Douglas men denounce the Republicans as abolitionists, and the fire-eaters denounce the Douglas men as abolitionists, and now the fire-eaters are separating into two sections that denounce each other as abolitionists.—*Louisville Journal.*

The American Party and the Chicago Nominees.—The Steubenville *True American*, formerly the organ of the American party in Jefferson county, Ohio, and a supporter of Fillmore, hoists the names of Lincoln and Hamlin at its mast head.

The Germans for Lincoln.—The Burlington (Racine Co.) *Gazette* says that fifty Germans in that village, who have heretofore voted the Democratic ticket, have expressed their determination to vote for Lincoln next fall.

THE LIBERATION OF ALL ITALY.—A very little time only has elapsed since all Italy lay dormant, and apparently helpless, under the infamous Austrian and Bourbon despotisms. It is little more than a year since the first decided alarm was taken by Austria, on the occasion of an obscure reference to the subject by Napoleon, and while all the world supposed that the course demanded by every consideration of policy, as well as of justice, would be taken by both Austria and Rome—a course of decent concession to just and universal demands—it was suddenly disclosed that the most extreme coercion would be employed by all the rulers of Italy. From that hour it was certain that Italy would be free, from the Alps to the Adriatic, at a very early day. Napoleon destroyed Austrian power in the north of Italy in a very brief campaign, and before the pretended champions of constitutional government in Europe had time to catch their breath from executing him as a despot, he lifted the restraint hanging over central Italy at the same time, and permitted the great State now holding all north of Rome to become consolidated and powerful. Able now to confront Austria on any field, the addition of Venice to the liberated empire awaits only some accidental collision, and it cannot wait long.

The history of Sicily and Naples interested the world next to the great events in the north; and here again, all fate had ordered that the Bombs despotism should perish in the same grave with the Austrian, an insanity of courage on the rights of Sicilians began to mark every act of the government. Appeals were made to England to relieve the islands of her former care, and to these the great liberty which English forces upheld there at the beginning of this century; but no response was made. Now revolt has been thoroughly organized there, and the people are liberating themselves. Garibaldi has gone to their relief, and has electrified the whole Neapolitan kingdom by the presence of his invincible bands. His achievements in Lombardy are to be rehearsed where the enemy is contemptible in character and numbers in comparison with the horde of Austrians he met a year since. It is impossible to doubt his success. A single month will clear Sicily of the troops of the young Bomba, and transfer the conflict to the vicinity of Naples itself.

The history of Italy for a year past is almost a romance, as briefly told. It has developed several heroes, also, and it is hard to say which is chief when Garibaldi and Victor Emanuel are named. In energy, daring and triumphant success, no military operations ever won more from the world than those of last year in the north of Italy, and to the temperate bearing of the victors, as they have since organized and governed Italy, there has never been a parallel.

The same hands are proceeding with the conquest of the Neapolitan relict of Bourbon despotism and folly, and a few weeks will, we doubt not, carry this crowning work forward to complete success.

The landing of Garibaldi in Sicily is deemed on all sides to be the finishing stroke to the whole case, at least for Sicily; and if Sicily is free, there will not be a moment lost in liberating Naples. It is fortunate that the Bourbon as well as the Austrian has not sense enough to be taught the policy of concession. In the north of Italy Austria might still have held possession if common sense had been permitted to rule her councils; but nothing less than abject weakness, and utter inability to make war, could compel Austria to peace. The same purposes animate the young King of Naples, and he will utterly destroy himself before yielding a single point to his people. We look for stirring news of Garibaldi in his new vocation of liberator of the south of Italy.—*Phil. N. American.*

THE CATTLE DISEASE IN ENGLAND.—The cattle disease now raging in Eastern Massachusetts prevailed in England from 1744 to 1746. In Nottinghamshire 40,000 head of cattle died in six months; in Cheshire 39,000. During the third year of the disease, £135,000 were paid out of the public treasury as a recompense for slaughtered cattle. In 1857, in forty-three villages in Holland, 14,000 head of cattle died or were killed.

SOUTHERN CROPS.—Crops appear to be doing well in most of the Southern States, and some varieties are fast approaching maturity. Corn is large enough for the table in some places, and wheat is beginning to ripen. The accounts in regard to both corn and cotton are good, with occasional exceptions. The most complaint respecting the crops comes from Virginia and Kentucky, where insects are doing much harm.

THE SLAVE TRADE IN NEW YORK.—The increase of the slave trade, and the fact that all the vessels engaged therein appear to have cleared out of the port of New York, begin to attract attention at Washington and in other quarters. It can hardly be conceived that if the officers of the law, charged with the duty of preventing the departure of all vessels bound on illegal errands, did their duty, our port would not be disgraced as it now is by being made to rank as the grand depot of the slave trade. That they have not done their duty in all cases has been lately proved; and that they have neglected their duty for corrupt considerations, has been put on record by the dismissal of two Deputy United States Marshals on proved charges to that effect. But we believe that we do not overstate the matter in announcing that an average of two vessels each week clear out of our harbor, bound for Africa and a human cargo; and we have received information, which we shall verify and publish as soon as possible, to the effect *that the price for the clearance of a slaver* is as well known to those in the trade as the price of a barrel of pork.—*New York Leader.*

PENNSYLVANIA OIL REGIONS.—We learn by the last Erie *Gazette* that oil has become a fixed fact along the French Creek. Three new wells have been opened which promise bountifully. They are in the vicinity of Franklin. One at the depth of 130 feet yielded 20 barrels with a hand pump in a day; another at the depth of 170 feet 20 barrels with a hand pump; and in another a vein was struck about the middle of May at the depth of 249 feet which commenced flowing spontaneously over the top of the conductor, and some 40 barrels of oil were gathered in buckets by the time the pump was arranged in the well. By the help of an engine 32 barrels were pumped out the first 24 hours.

EARLY SPRING IN THE NORTH WEST.—One would hardly suppose that the season is so forward in the Red River country of the North as along the chain of great Lakes, yet such is the fact. The Nor'-wester of April 28th, published at the Selkirk Settlement, states that the Red River is clear of ice, that the farmers are busy breaking up their lands for spring crops, and that "those harbingers of summer, the birds of southern climes, have again forced their way to the north.

The winter in the Red River country was an open one, and the fall of snow was unusually light.

IRISH EMIGRATION.—The Munster (Ireland) "News," of May 9th, says:—"In one day of the past week, twelve American letters were received in the post-office of one parish of West Clare. The letters contained remittances of money sent by relatives to pay the passages of residents of the parish; and since St. Patrick's day last; over one hundred of the best of the people in that single parish have left for America. This will afford an idea of the emigration."

THE library of the late Theodore Parker was bequeathed by him to the City of Boston, to be deposited in Free the Public Library. It is one of the largest and one of the most choice private collection of books in the country; it covers a wide range of subjects, and includes works in many languages. The books are generally in the best editions, and some of them are very old.

THE CROPS.—The crops in this county look well. Indeed, as was remarked by an old farmer to us the other day, the prospect of a good harvest has not been as fair for ten years. Wheat, rye, and oats will be abundant, if nothing providential interferes to prevent it. The corn, also, looks fair, looks well—*Bedford Inq*

ELECTION IN OREGON.—There will be an election in Oregon, on Monday, June 4th, for the Legislature, a member of Congress, and local officers. A warm contest is looked for, as two United Senators are to be chosen by the Legislature.

BOSTON is gorged with beef and veal at low prices. The fear of the spread of the cattle disease is supposed to have occasioned a general slaughter of calves, and such cattle as are in a condition for market.

We hear a rumor—though we have no reason of knowing whether it is true or false—that Bill Wood has sold his interests in *The Albany Evening Journal* to Mr. Van Dyck, and will spend the Summer in Europe.—*N. Y. Tri5*

THE New Orleans *Delta* says it is whispered in high political circles that should Edward Everitt be elected vice president, the public printing would be awarded to Bonner's Ledger.
