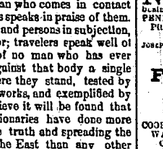
MISTAKES OF PHYSICIANS.—Oliver W. Holmes, (physician, philosopher and poet,) in a lecture upon physicians, gives the following account of some mistakes which have been made in medicine:

Sooner or later, everybody is tripped in forming a diagnosis. I saw Velpeau tie one of the carotid arteries for a supposed aneurism, which was only a little harmless tumor, and kill his patient Mr. Dease, of Dublin, was more fortunate in a case he boldly declared an abscess, while others thought it an aneurism. He thrust a lancet into it, and proved himself in the right. Soon after, he made a similar diagnosis. He thrust in his lancet as before; and out gushed the patient's blood, and his life with it. The next morning Mr. Dease was found dead, and floating in his blood. He had divided the femoral artery. I have doomed people, and seen others doom them, over and over again, on the strength of physical signs, and they have lived in the most contumacious and scientifically unjustifiable manner as long as they lived, and some of them are living still. I see two men in the street very often, who were both as good as dead in the opinion of all who saw them in their extremity. People will insist on living sometimes through manifestly moribund.

In Dr. Elder's life of Kane you will find a story of this sort told by Dr. Kane himself. The captain of a ship was dying with scurvy, but the crew mutinied, and he gave up dying for the present to take care of them. An old lady in this city, near her end, got a little vexed about a proposed change in her will; ordered a coach; was driven twenty miles to the house of a relative, and lived for four years longer. Cotton Mather tells some good stories which he picked up in his experience, or out of his books, showing the unstable equilibrium of prognosis. Simon Stone was shot in nice places, and as he lay for dead the Indians made two backs with a hatchet to cut his head off. He got well, however, and was a trusty fellow in Cotton Mather's times. Jabez Negrave was shot with a bullet that went in at his ear and out of his eye on the other side. A couple of bullets went through his body also. Jabez got well, however, and lived many years. Per Centra, Col. Rossiter, cracking a plum stone with his teeth, broke a tooth, and lost his life. We have seen physicians dying, like Spiggelius, from a scratch; and a man who had a crowbar shot through his head is still alive and well. These extreme cases are warnings. But you can never be too cautious in your prognosis, in the view of great uncertainty of the course of any disease not long watched, and the many unexpected turns it may take.

At one of the late anniversaries in London, the Earle of Shaftsbury spoke as follows touching this matter:—"I do not believe that in the whole history of missions, I do not believe in the history of diplomacy, or in the history of any negotiations carried on between man and man, we can find anything to equal the wisdom, the soundness and the pure evangelical truth of the body of men who constitute the American Mission. I have said it twenty times before, and I will say it again—for the expressive appropriately conveys my meaning, that they are a marvelous combination of common sense and piety. Every man who comes in contact with these missionaries speaks in praise of them. Persons in authority, and persons in subjection, all speak in their favor; travelers speak well of them; and I know of no man who has ever been able to bring against that body a single valid objection. There they stand, tested by years, tried by their works, and exemplified by their fruits; and I believe it will be found that these American missionaries have done more towards upholding the truth and spreading the Gospel of Christ in the East than any other body of men in this or any other age."

M'CORMICK'S REAPER AND MOWER.



20,000 Sold in the Last Five Years!

Being a Larger Number than is Manufactured by any other single Establishment in the World.

THE MACHINE for 1860 will be found so greatly improved as fully to meet the wants of farmers, both as a Reaper and as a Mower—so modified in its construction, as now to be

THE ONLY COMPLETE MACHINE

for both purposes. While cutting a swath several inches wider than the Two Horse Machine of past seasons it is as a whole, narrower, lighter and str-ager, and will run much easier—with no material side draught. We present, therefore, for the coming season, a machine one foot wider than those of most makers, with a light draught for two horses, in Reaping or Mowing—LIGHTER THAN IS REQUIRED BY MUCH NARROWER MACHINES. By the perfection of balancing of this new blade, in connection with a patented semi-jointed tongue, (with the wheel frame,) the cutting apparatus, when mowing, is now easily thrown over obstructions while in motion, simply by the weight of the driver in his place, thus dispensing with all levers and complicated arrangements to effect the same object.

The machine of 1860 will be found superior as a MOWER, presenting some peculiar features *not attainable by other machines*. The Two Horse Machine, through cutting short fire and one half feet wide, is of light and very draught, accomplishing *a greater amount of work with a less expenditure of power* than any machine made.

A warrantee is given to every purchaser, and in addition, the following offer is made: Any farmer, who may *desire* it, is at liberty to work this machine *through the harvest* with any other, and PAY for the one PREFERRED.

For further particulars, as also for printed claims under which this machine is built, we refer to our annual pamphlet, which will be furnished on application to us, at Chicago, or either of our many agents.

Sample machines can be seen at all prominent points.

Price of machines delivered in Chicago, St. Louis, Indianapolis, Cincinnati, Louisville, Pittsburgh, Cleveland and Baltimore—charges following from these points:

For One Horse, complete.....$155
For Two Horse, complete.....140

Quack Nostrums.

THE NEW YORK DAY BOOK says:
"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Restoratives and nondescript preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we are paraded in show window cards, and newspaper headings, as hair preparations, are all humbugs of the first water, their real merit, when they possess any, is, that they do no harm. DOD'S LAND, WILDE OIL, LAND OIL, SWEET OIL, scented and colored, make up, when in beautiful wrappers and white flint glass bottles, the costliest character of tonics; and when thus costly, are bapticed with some trisyllable term, and certainly at by verdant young and old of both sexes. Such is not the character of Professor Wood's Hair Restorative. This gentleman comes before the world without any "high falutin" Xilophonian, or any other astounding and startling catchpenny terms; he simply advertises a *Hair Restorative*—what it expresses precisely—and as a fisetor as you value your scalp, ask your very brains, apply both long and short, if you will get some worse substance than perfumed lard oil on your cranium. Remember, Wood's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process,
Restore Gray Hair to the Original Color,
Will make Hair Grow on Bald Heads,
Will prevent the Hair from falling off,
Will restore the Natural Secretions,
Will remove at once all itching,
Will remove all Dandruff,
Will cure all eruptions—even Scald Head,
Will make the Hair soft and Glossy,
Will make the old appear young again,
Will preserve the Color of Hair to old age,
Will always Fasten it and stop its Falling,
And is one of the best Toilet Articles for the Hair now in use.
