CURIOUS NOMENCLATURE.—They have in Connecticut a nomenclature of places which we believe is peculiar to that State. It is used, in some instances, when portions of two or more adjacent townships go to make up one locality; say a parish or a village. In such a case, the name is formed by a coalescence of syllables, taken from the names of the townships concerned. We give the following examples:—

Ridgebury is a locality formed by the union of portions of Ridgefield and Danbury.

Stamwich consists of a portion of Stamford and Greenwich.

Stratfield was made up from Stratford and Fairfield.

Torringford is a parish, partly in Torrington and partly in New Hartford.

Winsted is my village partly in Winchester and partly in Barkhamsteed.

Wintonbury, now the town of Bloomfield, was a parish composed of portions of Windsor Farmington and Simsbury.

Hodlyme was a parish formed from Hadlam and Lyme.

All the places, except the last, are on the west side of Connecticut river. This nomenclature may be worthy of adoption in parts of the country where such names are found as Skunk River, Sunken Hollow, Pine Grove, Sand Prairie, &c. It has at least one advantage—that of local memory.—[New England Historical and Genealogical Register.

THE LANDING OF EIGHT HUNDRED AND FIFTY AFRICANS ON THE ISLAND OF CUBA.—The New Orleans Delta of the 19th says: By the arrival of the steamship Magnolia, Capt. Orowell, from Havana, via the Florid ports, we are informed of the following facts:—The parcer of the Magnolia left Key West, a fishing smack brought into that port twelve or fifteen men, taken off from a Spanish schooner. These men report that their own vessel was burned at sea, but by reports received at Key West it was the general impression that they were part of the crew of an American bark, supposed to be the Saltana of New York, that had been engaged in the slave trade, and had just landed her cargo, consisting of 850 Africans, at Matanzas, on the Island of Cuba, and immediately burned their vessel to the water's edge, and then effected their escape. It was also reported at Key West that the United States steamer Crusader had received the information and had started on a cruise on the 9th or 10th inst. to overhaul this identical bark.

EFFECT OF TOBACCO.—Dr. Solly, an eminent English physiologist, and the author of an excellent work upon the brain, says at the close of one of his lectures, "I would caution you, as students, from excess in the use of tobacco and smoking, and I would advise you to disabuse your patients' minds of the idea that it is harmless. I have had a large experience of brain disease, and am satisfied that smoking is a most noxious habit. I know of no cause or agent that tends so much to bring on functional disease, and through this, in the end, lead to organic diseases of the brain, as excessive use of tobacco." No man in Great Britain is so competent to speak on this subject as Dr. Solly, and it is strange that so many young men at the present day should indulge in this pernicious habit of smoking tobacco.

AUTHENTIC ANECDOTE.—On one occasion Mr. Lincoln was splitting a rail in the parlor of Judge Douglas' residence, when the latter joined him, and thinking to make a good joke about our hero's extreme leanness, remarked: "Why, Abe, you are a rail, yourself."

Mr. Lincoln looked up from his work with that sublime glare which has often petrified a world, and gravely responded:

"You sir are the reverse of a rail."

Douglas immediately grasped his hat and carpet bag, went to Washington, and asked the President to explain what Lincoln meant by that.

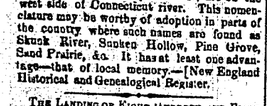
"Why," replied the President, "the reverse of rail is rail spelt backwards."

THE LOSS IN THE HUNGARIAN.—The Bangor Whig states that the company engaged in taking out goods from the wrecked steamer Hungarian obtain from five to six hundred dollars' worth per day. The wreck is full of bodies, some of which can be seen at low water, and the sight is represented as extremely distressing.

A Berlin paper affirms that the Chateau of Rosenhohen, the summer residence of the King of Bavaria, is being prepared for the reception of Francis II in case he should find it necessary to make a precipitate retreat from Naples.

Why is John Smith like a badly cooked buckwheat cake?—Because he isn't Brown.

McCORMICK'S REAPER AND MOWER.



20,000 Sold in the Last Five Years!

*Being a Larger Number than is Manufactured by any other single Establishment in the World.*

THE MACHINE for 1860 will be found so greatly improved as fully to meet the wants of farmers, both as a Reaper and as a Mower—so modified in its construction, as how to be

*THE ONLY COMPLETE MACHINE*

for both purposes. While cutting a swath several inches wider than the Two Horse Machine of past seasons it is as a whole, narrower, lighter and str. ger, and will run much easier—with no material side draught. At present, there are, for the coming season, a machine one foot wider than those of most makers, with a light draught for two horses, in Reaping or Mowing—LIGHTER THAN IS REQUIRED BY MOST NARROWER MACHINES by the perfection of balancing of this machine, in connection with a patented seat, just to the tongue, (with the wheel frame,) the cutting apparatus when mowing, is now easily thrown over obstructions while in motion, simply by the weight of the driver in his place, thus dispensing with all levers and complicated arrangements to effect the same object.

The finished of 1860 will be found superior as a MOWER, presenting some peculiar features not *attainable by other machines*. The Two Horse Machine, through cutting six feet and one inch feet wide, is of light and easy draught, according a *greater amount of work with a less expenditure of power* than any machine made.

A warrantee is given to every purchaser, and in addition, the following offer is made: Any farmer, who may do it in at 12 acres of work, this machine through the harvest with any other, and fail for the one PREFERRED.

For further particulars, also for patent claims under which this machine is built, we refer to our annual pamphlet, which will be furnished on application to us, at Chicago, or either of our many agents.

Sample machines can be seen at all prominent points.

Price of machines delivered in Chicago, St. Louis, Indianapolis, Cincinnati, Louisville, Pittsburgh, Cleveland and Baltimore—charges following from these points:

For Four Horse, complete.....$155
For Two Horse, complete.....140

## Quack Nostrums.

THE NEW YORK DAY BOOK says:

"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Oils, and the numberless preparations which are now before the public under such attractive names, hyperbolled and fantastic titles as we see paraded in show windows, daily and weekly newspaper headlines, as hair preparations, are all humbugs of the first water, their real merit, when they possess any, is, that they do no harm. HOG'S LARD, WHALE OIL, LARD OIL, SWEET OIL, scented and colored, make up, when in beautiful wrappers and white flint glass bottles, the cool'est character of tonics, and when thus neatly, and tastefully done, command a ready sale, and get at by verdant young and old at 5 th apiece. Such is not the character of Professor Wood's Hair Restorative. This gentleman comes before the world as liberal as any high falutin' Rhodomontade, or any other astounding and startling bill board, may be; he simply advertises a *Hair Restorative*—what it restores you find out for yourself and at the price it sells. Buy Professor Wood's Hair Restorative, and if you value your scalp, eye, your very brains, apply both long before it may be that you will get some worse substance than perfumed lard on your cranium. Remember, Wood's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process,

Restore Gray Hair to the Original Color,
Will make Hair Grow on Bald Heads,
Will restore the Natural Secretions,
Will remove at once all itching,
Will remove all Dandruff,
Will cure all eruptions—even Scald Head,
Will make the Hair Soft and Glossy,
Will make the old appear young again,
Will prevent the Color of Hair to cold age,
Will always Excite it and keep it Full of Life,
And is one of the best Toilet Articles for the Hair now in use.

DR. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Favorably known to the Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Imurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. INDIGESTION in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Hypercrisis, Constipation, Diarrhœa, Dysentary, Pain in the Stomach, Indigestion, Ulcerations Tuberculosis, Salt Rheum, Stomach-ache, Whites, Chlorosis, Liver Complaints, Chronic Headache, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, the effect of this remedy has proved successful to an extent which no pen can describe nor written attestation would render credible—it will so long look children as to have become fond of it—their own relish therefore, have suddenly re-appeared in the most wasted Limbs returned from protracted travel in a distant land. Some very aginal instances of this kind are adduced of females sufferers, emaciated victims of apparent pulmonary consumption—anæmia, critical chances, and that complication of nervous and dyspeptic ailments for which the physician has no search.

In Nervous Affections of all kinds, and for evasive familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old cordials, it is vigorously tonic without being exciting and overbearing; and gently, regularly aperient, even in the most obstinate cases of Costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this balance property, among others, which makes it so remarkably effectual and permanent a remedy for PILES, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspeptic Innumerable as are its causes, a single dose of these Chalybeate Pills has often suffered for the most habitual cases, including the attendant Costiveness.

In unchecked Diarhœa, even when advanced to Dysentary, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remitting fever, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculous, this medicated iron has had for more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and in progress in the case still remains of the War, will probably be one of high esteem and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully realizes efforts. Good upon the complete digestion, rapid acquisition of strength, with an natural disposition for active and chee ful exercise, immediately follow its use.

Put up in neat flat metal cases containing 40 pills; price 25 cents per box; for sale by Druggists and Dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to
