PITTSBURGH FEMALE COLLEGE.—We have on our table the fifth annual catalogue of this excellent institution. The building stands, as is well known, on Hancock street between Penn street and Duquesne Way, and immediately in the rear of the Methodist Episcopal Church. We know of no more eligible site for such an institution. It is in a quiet and unquestioned spot, away from the bustle and uproar of the busy portions of the city, while the surrounding buildings are handsome, the neighborhood open and well ventilated, and a most delightful gale blowing generally from the Allegheny river. It is also within a few squares of the central parts of the city, so as to make it, with all its retirancy, quite convenient for such literations as have shopping to do. The yard is enveloped with an iron railing and adorned with shrubbery, and the interior of the building contains all the improvements which modern art could suggest. The exterior is of the Gothic style and quite handsome.

But it is of the condition of the College that we desire principally to speak. We have from time to time given short notices of its prosperity, as we were apprised of facts indicative of it. Letters have been sent to the Principal from various distant quarters of the country, making inquiry as to the terms and facilities of the institution for educating pupils, and promising to send daughters or relatives. By the catalogue we see that the college has no less than one hundred and seventy-five students. These hail from various localities. There are representatives of Virginia, Ohio, Iowa, New Jersey, Indiana and Louisiana. Nearly every portion of our own State, east and west, also sends a student. The summary shows that of these, 40 are in the Collegiate department, 119 in the Preparatory department, only 11 in the Primary, and 5 in the Musical and Painting departments not included in the other departments. In the collegiate department the studies are confined to the more abstruse branches of mathematics, the ancient classics and metaphysics. The number, therefore, may be considered very large, as there is not one young lady in forty that has not an aversion to those severer studies. The course of study is very extensive, there being few institutions for ladies having a similar one in the country. We should expect as much from our knowledge of the character of its principal. He is a ripe and thorough scholar, educated in the most celebrated college west of the mountains, where he obtained the first honor at once in his class and in his society—a conquest which few students have the energy or talent to make. The faculty is quite large, containing no less than twelve members, besides the principal. Five or six of these attend daily recitations, while the balance are occupied with Drawing, Painting, Piano music, Vocal music, Penmanship and Elocution, which are probably not regarded as regular chairs. The lowness of the terms is another inducement to parents and guardians to send their children and wards to the Female College. Forty dollars pays for *boarding, reading, light, room-rent and use of furniture*, per term. Tuition rates from $8 to $18 per term, according to the studies pursued. A comparison between these terms and those of any seminary of like pretensions will prove that they are extremely moderate. It is the desire of those having charge of the College to bring them within the means of any such of tolerable circumstances. The advantages for acquiring the ornamental branches are superior. Located in a community comprising one hundred and twenty-thousand members, it may reasonably be claimed that music and the fine arts will have more able professors than could be found in a village or borough. The members of the faculty who have charge of the ornamental branches are admirably qualified to give instruction in their departments, and the claims of the institution in this regard are strongly urged upon the public.

We need hardly advert to the healthy character of Pittsburgh. Though our city is sometimes dark and our streets dusky, the inestimable treasure of health is enjoyed by all in probably a greater degree than in any city of the Union. It would seem as if the sulphur in our atmosphere was a kind of a tonic for the system, the smoke being found to be rather of a beneficial than harmless character. The society of Pittsburgh is of a social, genial cast, the stiffness and formality of large cities not being felt in our more hospitable community. Our people resemble, in some respects, more those of a borough than a city, there being the same free and candid interchange of feeling and sentiment. Strangers are welcomed among us with a warm reception; and generally go away with an abiding remembrance of the time and associations formed during their stay in our midst. On the whole we feel strongly impressed with a belief in the superior character of our College for young ladies, and hope the observations we have thrown out in the preceding notice will not be entirely overlooked.

OIL IN TAMBULL COUNTY, OHIO.—Accounts have been given from time to time in reference to the discovery of oil in this county. The presence of the fluid was reasonably to be expected, as Trumbull lies in the same line of counties with Warren and Venango, immediately across the Ohio line. It seems that operations have been progressing for a considerable period, so that now as many as a hundred wells are being excavated, four of which are yielding remunerative quantities of oil. Lowry, Dixon & Co., have reached a depth of 61 feet, and are raising 15 bbls per day. Able & Co. are down 51 feet, and their well yields ten barrels a day. Mills & Co., at a depth of 60 feet are obtaining 11 barrels per day. Benel, Jourdan & Co. have the deepest well that is pumping oil, having gone down 65 feet, and are getting 12 barrels per day. Of all the wells in progress, there is not one over a hundred feet. It is not yet in operation, but pumping is shortly to be commenced, and twenty barrels daily yield are expected. The pipe in use is from Utica, N. Y., with the exception of that employed by Lowry, Dixon & Co.—it was obtained from Spang & Co., of this city, and is considered superior to the other. The opinion is that oil exists in abundance in Bazetta, Champion and Southampton townships. A refinery is about being erected by the owners of the yielding wells on the ground. The intention is not to ship the raw field, but to prepare it *ready* for the market previous to transportation.

Two specimens of the oil obtained were exhibited to us. One was of a yellowish color and the other of a dark green. Both had the greasy feeling and genuine smell of barbon oil, the green sample being rather the best. It was taken from the well of Able & Co., which is only 51 feet deep.

A WIFE ABUSER.—Jas. Bealey was arrested yesterday for abusing his wife and family. He not only turned them out of doors, but pursued them with a knife, and when officer Flannegin attempted to arrest him, made a lunge at him with his weapon. Two or three well directed blows from the officer brought Bealey to the ground, but he still clung to the knife and Flannegin was obliged to rap him very severely on the knuckles before he would give it up. He was taken before Alderman Rogers and committed for 30 days.

UNNATURAL BEHAVIOUR.—Justice Hogan, of East Birmingham, yesterday committed John Leslie for disturbing some people in the house of a man named Harvey Hogan, engaged in laying out a deceased child of the latter. The brute knocked one or two down, (all were women) and might have been still more outrageous in his conduct if his course had not been arrested by some men who interfered and put him out. The only excuse for his unseemly behaviour was drunkenness. Justice Hogan gave 20 days in default of $10 fine.

ARRANGEMENTS TO RECEIVE THE CHICAGO ZOUAVES.—This remarkable military company has been the subject of comment all over the country. Wherever they have been their military evolutions have attracted the admiration and applause of all who thronged to see their celebrated drill. Frederick of Prussia, whom Carwin characterized as the "Drill Sergeant of Europe," would have been proud of such a corps in his army: and we are glad to see the Rattleting encouragement that has been given to such perfection in the military drill by all our large cities which the Zouaves have visited. Yesterday they were at Philadelphia, and the "Quaker City" no doubt had a gala day of General splendor during their stay. This morning they are to leave for Baltimore, and from that city it is expected they will go to Washington and from thence to Pittsburgh. Their arrival here is not looked for until the end of the present week or the beginning of the next. An interview occurred, by previous appointment, between General Negley, Captain Campbell and Mayor Wilson, to make arrangements to give them a handsome reception. The programme adopted is about as follows: It is probable they will arrive in the 1 o'clock p. m. train. There they will be met by an escort of the Duquesne Grays, under Capt. Campbell, who will conduct them to the armory. They will leave their arms at the armory and from that be conducted to the Monongahela House, where they will be publicly entertained during their stay. The balance of the afternoon and evening will be put at their own disposal to see friends, walk round the city, attend public amusements, &c. Next morning, in compliance with an order from head quarters, all the military of the city and vicinity, will be ordered out and a grand manœuver and drill will take place at the Fair Grounds. In the evening a grand banquet will be held at the Monongahela House, which will terminate the entertainment. A good time may be looked for if the Zouaves make their expected stay. If they should leave on the night following the day of their arrival, though the public will have the satisfaction of seeing them, the pomp and pleasure of the occasion will be considerably diminished.

ROGUES' GALLERY.—Another star has been added to that galaxy of criminals, the "Rogues' Gallery," at the Mayor's office, in the shape of a photograph of Mrs. Ann Lillis, who was caught by the police picking a lady's pocket in the Diamond Market a few days since.

Alderman Jones, of the Fifth Ward, yesterday held to bail in $300 a resident of Pike st., named Catharine Beyernwalter, on a charge of assault and battery, preferred against her by a neighbor, a young girl named Catharine Heck. The defendant caught the prosecutrix picking some grape leaves off of the vines covering the house they respectively occupied, and fanoying the girl encroached on her side of the grounds, she caught her and tore all of her clothes off of her.

The same magistrate held a resident of Liberty street, in the Fifth Ward, named Eckert Zimmerman, to bail in $200 to answer at court a charge of assault and battery, preferred against him by a neighbor of his, a Mrs. Magdalene Kasal.

The same magistrate held a resident of the Ninth ward, named Alton Pearson in $300 bail, to answer a charge of assault and battery preferred against him by a German named Joseph Allenbaugh.

Isaac Jones, a resident of "Pipetown," in the 8th ward, was held by the same magistrate in $300 bail, to answer at Court a charge of assault and battery preferred against him by Wm. McRibben.

Mayor Wilson yesterday held the inevitable five hundred dollars bail for throwing glass tumblers at and drawing a revolver on a *nymph du pave* named Lizzie Elles.

A NEW BOAT CLUB.—A party of gentlemen of the First Ward, Allegheny, have recently organized another Boat Club, which bids fair to rival some of the fine clubs already in existence. The membership already number twenty-six—The following officers were elected at the first organization: Wm. McKee, President; S. H. Curtis, Vice President; H. W. Oliver, Secretary; Samuel Riddle, Treasurer.

The club have purchased a fine eight oared barge, fully equipped, named "Allegheny," a metallic slooped rigged boat, with arrangements also for four oars, called the "Oriole," and have a floating boat-house one is the process of construction, to contain their boats etc.

The *"Allegheny Boat Club"* is the name of this new organization. Health and pleasure are the objects sought to be obtained.

On Saturday evening last, the large Allegheny was launched; and her crew, in the neat uniform of Blue, trimmed with Orange, as they first dipped their oars into the Allegheny, were saluted by cheers from the Undine and Volante Clubs, who had rowed across to witness the launch, as well as from the crowd on shore.—The three crews, escorted by the "Oriole," then proceeded up to the Belvidere where, after a pleasant evening, they returned together about 10 o'clock.

We are requested, on behalf of the Allegheny Club, to express their acknowledgment of kind favors received from the Undine and Volante Clubs, and also from Messrs. Morris & Collart.

PIC-NIC.—For the information of such of our colored readers as may wish to join in the festivities of the first of August and pass an agreeable day, we would inform them that a pleasant Pic Nic will be held on the ground immediately adjoining Loyd's Park, in Oakland. From the knowledge we have of the gentlemen having the arrangements in charge, we can assure our readers that everything will be gotten up with care and in "tip-top" order. There will be an excellent string and brass band in attendance, for the especial benefit of those wishing to join in the "many dance or giddy waltz while" on the green. The old fogies attending the regular celebration prohibit dancing, but the young ones are determined in separating from them for awhile and pass the day in their own way in social, innocent dancing. There will be also dinner and other refreshments on the ground, and we would earnestly invite all who are fond of enjoyment and a rich treat to attend. The street cars will run all day to the grounds. No intoxicating drinks will be allowed on the place.

DROWNED.—A lad about 8 years of age, named Wm. H. Smith, whose parents reside on Sixth street, was accidentally drowned on Tuesday morning, in the Monongahela river. The little fellow, in company with a younger brother, had been visiting some friends in Birmingham, and were on their way home, intending to cross on the boat. Just as they got to the wharf the boat began shoving out, and not wishing to be left behind, got his brother on and then attempted to jump on himself. He succeeded in getting on, but lost his balance and fell overboard. By this time the boat had got into deep water, and before assistance could be rendered the child was drowned. Coroner Bostwick held an inquest on the body, which was recovered about an hour after the accident, and a verdict of accidental drowning was rendered.

PASSING COUNTERFEIT MONEY.—A man called at the house of a Mrs. Ellen Wright, at the foot of Grant street, in the Second ward, yesterday, and asked her to give him change for a $5 bill, which he exhibited. Mrs. Wright said she only had $3 50 in the house. He answered he would take that and would call for the balance again. She gave him the change and took the bill, which was on the "York County Bank." In the afternoon she discovered that it was a counterfeit. Subsequently the man was arrested by Alderman Jones' police, of the Fifth ward, on an information made against him by Mrs. Wright, and proved to be a man named James Ramsey. After a preliminary hearing he was held in $500 bail for a further hearing Saturday.

WARREN COUNTY.—The Republicans of this county held a Convention on the 26th inst. and nominated the following ticket:

Assembly—E. Cowan.
Treasurer—Geo. H. Ames.
Register and Recorder—R. E. Russell.
Commissioner—A. McGill.
Auditor—S. P. Johnston, Esq., was recommended as the choice of Warren for President Judge.

Mr. Cowan, the nominee for Assembly, is editor of the Warren *Mail*, and a clever and deserving man. He was one of the transcribing clerks of the Senate last winter, and made a very efficient and obliging officer. He will be elected by a majority of several thousands.

CITY TAXES.—The Treasurer's office yesterday was a perfect jam, all day, the crowd being about the same from morning till night. Most of those who were thus kept waiting an hour or two to pay their taxes, might have called earlier, when the crowd was less, and saved themselves the annoyances to which they were subjected by putting it off to the last moment.

This is the *last day* for paying taxes subject to the abatement of 5 per cent., the law requiring the taxes to be paid "on or before the 1st of August" to entitle them to that discount.

EXPLANATION.—It is due to the Pittsburgh and East Liberty Passenger Railroad in view of the resolution introduced into Councils on Monday night, to say that the President of the road, after being notified by the Controller some ten days ago that the license on the cars of the road was due, waited shortly after wards on that officer and offered to pay them if insisted on, but asked as a favor to have the payment deferred until immediately after the meeting of the Board of Directors on Monday night last. The Controller consented to this arrangement, and the money was accordingly promptly paid yesterday.

SANFORD and his two companies are drawing crowded houses at the Pittsburgh Theatre. Last night it was a perfect jam. If any one wants to listen to good music and singing let him go and hear Sanford's double company, and if troubled with the "blues" the two stirring farces and side-splitting anecdotes which the above company get off, will prove a certain cure. They perform every night this week. On Saturday there will be a grand afternoon performance for families and children. Go, everybody.

SUIT AGAINST THE CITY.—Mr. Biddell, the City Solicitor, informs us that two suits have been brought by Mr. George B. Thomas against the city, on railroad bonds. The one suit is for a claim of over $6,000 in coupons, instituted in his own right. In the other suit he proceeds in behalf of his wards, as guardian of the minor children of Martha Dickson, dec'd, and the claim is $1,216. Our District Court is the tribunal this time, not the Federal Court. We are unable to state what railroad's the bonds were issued by.

A RUMOR was current in the city last evening that Prof. Wilson, (whose sudden and, unexpected aerial voyage from Allegheny on Saturday last led his friends to fear for his safety,) had arrived in town, having come in from Butler on horseback. We think the report is without foundation, as we could not find out where in the city he was, or any person who had seen him. He will probably arrive to-day.

"WIDE AWAKES."—The streets were thronged with people last night to see the Pittsburgh "Wide Awakes" parade. The battalion turned out about 60 men, and was under command of Chief Marshal Brown. Their drill was almost perfect, and we doubt not but they would compare favorably with their Hartford brethren on a trial drill.

HORSE RACE.—A match race between John Watson's b. m., "Fanny Robinson," and James Verner's b. h., "Sam Keys," mile heats, best three in five, is to come off to-day, at Collins' Park, for a purse of $200.

[COMMUNICATED.]

MONONGAHELA CITY, Pa., July 30, 1860.

Messrs. Editors: I visited a patient above this place, with Prof. A. S. Gregory, that had run a snag two inches long and one eighth inch in diameter in his foot between the scaphid and internal cuniform bone, and was broken off half an inch below the surface. After I extracted the snag, it having remained there thirty-six hours and produced a great deal of inflammation, swelling tenderness and excruciating pains. The Doctor applied his mysterious, though effectual remedy, *electricity*. When he first began it produced a great deal of uneasiness to the boy, owing to the tenderness of parts; in ten minutes the patient was perfectly easy and calmly watched the operation. Doctor Gregory now told the boy that he could move the injured foot as easily as the other. The boy trying, at first cautiously, soon bore his entire weight on the foot, and has been using it in walking every day since. The case has terminated most favorable. Prof. Gregory is situated at No. 85 Grant street, where he has fitted up a suit of rooms with electro chemical baths, and is treating the different diseases with success. I have tested his baths in person and think they are all that he claims for them.

J. GOUCHER, M. D.

SHINGLES.—The shingle market is very dull just now, and prices have a declining tendency. This decline is attributed by a great many to the supply being more than equal to the demand, but the real cause may be found in the fact that the demand is not so great as in former years, shingle roofs not being thought of when "Greggon's celebrated Asphalt Roofing Felt" can be obtained. The agent for this excellent material can be found at his office, Laughlin's building, Canal bank, near the city Water Works.

REPUBLICAN CAMPAIGN DOCUMENTS.—Lives of Lincoln and Hamlin; in cloth and paper.
The new Republican Songster.
Barleigh's Campaign Songster.
Debates between Lincoln and Douglas.
The Republican Pocket Pistol, Nos. 1 and 2.

Tribune Campaign Tracts.
All of the above can be had in large or small quantities, at Hunt & Miner's.

THE LATEST NEWS.

BY TELEGRAPH.

RECEIVED AT THE DAILY GAZETTE OFFICE.

LATEST FROM EUROPE.

Arrival of the Prince Albert.

ST. JOHNS, N. F., July 31.—The steamer Prince Albert from Galway, arrived at this port at six o'clock this morning. Her news, though five days later, is not important.

The Anglo-Saxon, from Quebec, arrived at London on the 23d. The Adriatic, from New York, arrived at London on the 23d. The Adriatic, from New York, arrived at Southampton on the 24th.

Affairs in Syria were unchanged. There is no news of importance.

The Emperor of Austria and Prince of Prussia are about to hold a conference.

GREAT BRITAIN.—The transfer of the Galway contract to the Canadian line has been cancelled: The steamers of that line will henceforth leave Liverpool on Thursday, calling at Londonderry.

The Parliamentary proceedings are unimportant. The government had withdrawn the bank supply bill for lack of time to pass it.

It is said that the Galway electors are about to call on Mr. Lever to resign his seat in Parliament.

Lord Brougham, at the Statistical Congress, explained his remarks to Mr. Dallas relative to the presence of negro delegate, and disclaimed any intention of insult or disrespect.

SYRIA.—*Affairs in Syria* are unchanged. Matters continued to wear a very grave aspect.

FRANCE was actively preparing for a powerful intervention, and had notified the other governments in order to have concerted action.

The Sultan had written to France and England an expression of his grief at the events which had transpired, and promising an effort to re-establish order.

It was reported that the Russian government had expressed a desire to act in harmony with France and England.

FRANCE.—The Paris Bourse was dull. Rentes closed at 68@70.

ITALY.—The Neapolitan Ministry withdrew their resignations. The King having taken decisive measures to secure the adherence of the troops to the constitution.

The Neapolitan Government had ordered the removal of the Royal Guard, the abolition of the punishment of the bastinada, and the suppression of secret dungeons.

AUSTRIA AND PRUSSIA.—The Emperor of Austria and Prince of Prussia were to have a conference at Topliets in a few days. Other German powers were expected to participate.

INDIA AND CHINA.—The Bombay mail of June 22d had reached England.

The Red Sea Cable had resumed working.

Hong Kong dates are to June 4th. Hostilities were about to commence. It was reported that 12,000 Russian soldiers were marching on Pekin, but the statement lacked confirmation.

London, 24th.—The telegraph from Sicily says that Garibaldi announces his intention of annexing Sicily to the kingdom of Sardinia.

Advices from Syria report the disturbances as not yet settled.

It is stated that French troops are to embark at Marseilles, Toulon and Algiers, without delay.

There has been no improvement in the funds which closed yesterday at 93@93¾. To the discount market the demand for money was moderate.

In the Paris Bourse rentes closed at 68f. 25c.

In the London corn market there was an advance of 2s per wheat.

Liverpool, July 20.—The Brokers' circular reports the sales of the week of cotton at 62,000 bales, of which 4000 were on speculation and 15,000 for export; the market opened firm, but closed quiet owing to holders exhibiting more desire to sell; sales on Friday of 8000 bales, of which 3000 were to speculators and exporters, the market closing quiet at the following quotations: Fair Orleans 7¾, do uplands 5¾; fair Mobile 7, middling 5¾.

In the Manchester market there is but little inquiry for goods; prices weak.

Breadstuffs.—The weather has been favorable for the crops. Richards & Co., and Wakefield, Nash & Co. quote Flour firm and in some cases 3d higher; *wheat* at 20s@20s. Wheat firm and 1d higher since Tuesday; red 10s 3d@11s 3d; white 11s @12s 6d.—Corn dull and 1s 6d lower, but steady at the close; yellow 30s@30s 6d; white 34s@34s 3d.

London Money Market.—Consols closed on Friday the 20th, at 93¾ for money and 93¾@93¾ for account. American securities were slow of sale, but unaltered in prices.

The following is the latest news by telegraph from Liverpool to Galway:

Saturday, 14.—In the House of Commons Lord Palmerston announced that the government had adopted the report of the Commissioners to fortify the dockyards and port defenses, for which £9,000,000 sterling are to be raised by annuities terminable after forty years. There will be only 1,000,000 required for the expenses of these defences for the current year.

HALIFAX, C. W., July 30.—The Prince of Wales landed here to-day at noon. The squadron was off the port yesterday. Royal salutes from the fleet and the batteries greeted him upon his arrival while the people turned out in immense numbers to give him a cordial reception. He was presented with an address at the Dock Yard. He wore the uniform of a Colonel of the army, and rode on horseback to the Government House. Emerging from the gates of the Dock Yard the procession passed through a double file of troops and volunteers to the Government House. There were a number of triumphal arches erected on the streets, including Cunard's arch, with a steamship on the top of it, the volunteer arch, built of military trophies, the Mayor's arch, the Archbishop's arch, a very handsome ecclesiastical arch, the Masonic Arch, and a number of other arches, all of which were beautifully decorated. On the parade the firemen turned out with a trophy fifty feet high, surmounted by a colossal figure holding a hose pipe. Thirty-five hundred children of the schools also turned out in white and blue, and sung "God Save the Queen!" All the public buildings, as well as private ones, schools, &c., were splendidly decorated with flags, banners, transparencies, and evergreens. The Mayor of Montreal, Mayor of Boston, and a considerable number of Americans were in attendance and were well received. A pouring rain to-night will postpone the intended fireworks.

SAN FRANCISCO, July 19.—The news received by the Pony Express, of the double Democratic nominations at Baltimore, perplexes the Democrats. The party organs hesitate to support either ticket for fear the other may prove the stronger one. The Federal officials nearly all support Breckinridge. Salutes have been fired for Douglas, and then for Breckinridge, by the partizans of each in every principal town in the State. The probabilities favor the nomination of two separate electoral tickets by the two wings of the party.

A Douglas ratification meeting has been called for this evening in this city, and Ex-Governor Weller, Archibald C. Peachey, Gen. McDowell and others of this State, supporters of the Administration, are announced as speakers.

The San Francisco Herald gave its support to Mr. Douglas the day after the nomination was received, but orders from the Custom House, whence its main support is derived, seems to have forced it into silence, at least for the present.

BALTIMORE, July 31.—Flour is firm at $5 25 for superfine. Wheat unsteady; red $1 26@1 30; white $1 30@1 40. Corn is active and weaker; yellow 70c, no sales of white. Provisions dull. Mess Pork $20; lump $19. Bacon hams 10c. Whisky firmer at 21c.

PHILADELPHIA, July 31.—Flour is dull and declined 12½c. Wheat quiet at $1 25@1 27; red $1 11@1 20. Corn easier, and yellow in demand at 67c. Oats declined. Whisky dull at 21½ cents.

DIED:

At St. Paul, Minnesota, July 24th, of Meningitis of the Brain, PHILIP ROSE, only son of Col. John Rose, of Pittsburgh.

Notice to Builders and Contractors.

THE UNDERSIGNED (formerly Foreman for ROWLAND PAREY,) would respectfully inform those for whom he has done work, and the public generally, that he is now prepared to furnish SLATE of different colors, (green, blue and purple,) or put on SLATE ROOFS in the most approved manner. Orders for Roofing or Repairing of Slate Roofs (if left at the office of ALEX. LAUGHLIN, near the Water Works,) will be promptly attended to. my15-3md THOMAS PAREY.

New-York Advertisements.

J. N. RICHARDSON, SONS & OWDEN,

as a guarantee of the fineness and durability of the Goods. This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury they inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a system so profitable, while purchasers can be imposed on with Goods of a worthless character.

IRON AS MEDICINE—PERUVIAN SYRUP—A CURE NEAR HOME.—I publish below an extract of a letter from David Boyd, of Kuhlmintz Station of the Allegheny Valley Railroad, who was cured of a bad form of dyspepsia by the use of the Peruvian Syrup. Mr. Boyd is a hotel keeper, and is well known, and he has suffered for the last eight years. He informs me that he gained eight pounds in flesh by the use of one bottle of the syrup, and has authorized me to publish his letter, which is append-d. I refer to the long advertisement of the Peruvian Syrup in another column, for particulars of its curative powers.

DR. GEO. H. KEYSER, 140 Wood street, Sole Agent.

JANUARY 23d, 1860.

DR. GEO. H. KEYSER.—SIR—Enclosed I send you three dollars for two bottles of the Peruvian Syrup. I got one bottle from you about three weeks ago. If you recollect me, I told you that I had something like dyspepsia. The symptoms were wind and pains in the bowels, and pains in the back of the neck, and at times dizziness. You recommended the Peruvian Syrup, and it has done me more good than any medicine that I have tried yet, and I have been taking medicine for the last eight years. You told me if I would take three bottles at one time, you would give it for five dollars, but not knowing whether it would do any good, I thought I would first try one bottle. Now that I am sending the balance of the money in so short a time, you will send me the other three bottles. DAVID BOYD.
