The Democracy in 1856, succeeded in electing Buchanan by dividing the strength of those who were opposed to their party. Through the corrupt use of government money, they enlisted the efforts of trading politicians for this purpose. The result is before the world. Buchanan continued the line of policy which had been inaugurated by Pierce. Douglas and the other Democratic leaders, of forcing slavery upon the Territories, and of keeping up the slavery agitation, and consequently all intercourse but the slave interest have been neglected. Now that the free laborers of the country have greatly suffered in consequence. They are at the same old game again. This time they try to draw off votes from Lincoln, so that the election may go to Congress, where they well know old Joe Lane—a man perfectly devoted to the slave interest—will be selected. The leading Locos well understand that this is the only policy that gives them the least hope of continuing their rule, and consequently they are willing to play "fast and loose" with those who dislike their party, but who are green enough to be made their catspaws to pull the chestnuts out of the fire for the benefit of the Locofoco monkeys. Of course they laugh in their sleeves at those who are verdant enough to be caught by this dodge, but in presence of the "gudgeons" who are to be caught, they play their part with great apparent sincerity. There was excuse for those who were cheated out of their votes by this trick in 1856, for it was then the first time it had been tried, and people had not experienced the result of it; but whoever allows the trick to be repeated on him, does it with his eyes open, and cannot escape the responsibility of knowingly aiding the disunion, free-trade, slandering Locofocos to keep in power.—Lebanon Courier.

Texas is now growing in the gardens of Moorsend, near Cheltenham, England, an extraordinary rose tree, 30 feet in height. It is a perfect picture, and is estimated to have between 18,000 and 20,000 blossoms upon it, being literally smothered in bloom, besides having cast off a whole heap of petals, which lie in a cluster round it, and present the appearance of a bed of snow.

The New York Day Book says:

"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Oils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see in the shape of bills, side cards, and newspaper headings, as hair preparations, are all humbugs of the most transparent character. Some may, perhaps, do no harm. Such are BAY RUM, MACASSAR OIL, LARD OIL, SWEET OIL, scented and colored, with pink up, when in beautiful wrappers and white flint glass bottles, the costliest character of tonics; and when thus costly, are baptized with some triyllable term, and caught at by verdant young and old of both sexes. Such is not the character of Professor Wood's Hair Restorative. This gentleman comes before the world without any 'Magnetic Balsamic' Alkaliferium, or any other scientific and startling catchpenny terms: he simply advertises a *Hair Restorative*, as he has it in process yearly—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, save your very brains, apply nothing else for it may be that you will get some very valuable stones than perfumed lard oil on your cranium. Remember Wood's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process,

Restore Gray Hair to the Original Color,

Will make Hair Grow on Bald Heads,
Will restore the Natural Secretions,
Will remove at once all itching,
Will remove all Dandruff,
Will cure all eruptions—even Scald Head,
Will make the Hair Soft and Glossy,
Will make the most sparse young again,
Will preserve the Color of Hair to old age,
Will always Fasten it and stop its Falling,
And is one of the best Toilet Articles for the Hair now in use.

D^R MOTT'S
CHALYBEATE
RESTORATIVE
PILLS & IRON.

A APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combination in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Issue now in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, incipient Consumption, Scrofula, Skin Eruptions, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaint, Chronic Headache, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the combined influence of climate and atmosphere from chronic complaints, the trial of this restorative has proved successful to an extent which no description can fully express: stimulation would ensue, but it would be long before so safe to have become forgotten in Medicine, even by neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, wasted victims of apparent consumption, sanguineous exhaustion, critical changes, and final completion of nervous and dyspeptic aversion to air and sunshine for which the physician had no remedy.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of Iron is peculiarly beneficial; for, while the tone of the system is vigorously tonic, without being exciting and overexcitant and, quickly, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gentle purgative, or inducing a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably efficient and permanently a remedy for Piles. Without it also appears to exert a distinct and specific action by dispersing the local tendency which forms them. In Dysentery, Diarrhœa, Intermittents as are its cause, a single dose of these Chalybeate Pills has often suffered for the most inveterate and obstinate Cholera Morbus, even when advanced to Dysentery, hardened, exacting, and apparently malignant, the latter has very speedily decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has alleged the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had also made those the good effect of the most cautiously administered preparations of Iodine, without any of their well known inconveniences.

The attention of families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably found imported, both an alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high and lasting usefulness.

No remedy has ever been discovered in the whole history of Medicine, which exerts such prompt, happy, and fully reparative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for sound and cheerful exercise, immediately follow its use.

For up to send flat metal boxes containing 50 pills; price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, &c., should be addressed to
