ALL THE VIRTUES OF ELECTRICITY AND WATER COMBINED.

DR. W. W. KARSHNER'S ELECTRIC BATHS

PATENTED JAN 25 1859

THE above cut is a representation of DR. KARSHNER'S POSITIVE AND NEGATIVE ELECTRO-THERAPEUTIC BATHS, for which he has obtained letters patent from the Patent Office of the United States. These Baths have been in successful operation for the last two years, in many of our principal towns and cities, during which time hundreds of patients have tested their astonishing powers with *signal success*. Dr. K. challenges the entire medical world to produce any *one system* of combined *act* of systems, that will cure as many diseases, and in so short a time, as his Electric Baths alone, when rightly administered. The scientific minds of all professions are cordially invited to call, examine and test for themselves.

The duration of each Bath, the temperature of the water, and the strength of the electric current, are varied according to the disease, the condition of the patient at the time, and the effects desired. The water is about blood heat, and the electricity so graduated as to produce nothing but pleasurable sensations.

There is no class of Diseases, either Acute or Chronic, to which they are not adapted---which do not yield at once to their all pervading and health-restoring influences. The aged and decrepit have been restored to activity, to testify that they felt many years younger, and slept better than they had done for years. Others have been cured of painful diseases in a few Baths.

Nor do their healthful effects seem to be confined solely to the physical man; they have an equally happy influence upon the mental faculties, making them a most efficient means in the treatment of Insanity and all abnormal mental conditions.

Among the diseases successfully treated by Dr K.'s Baths are: Incipient Consumption, Scrofula, Paralysis, Epilepsy, (Fits,) Insanity, Delirium Tremens, St. Vitus' Dance, Curvature of the Spine, Rheumatism, Mercurial Diseases, Weakness in the Back and Joints, Nervousness, Nervous Headache, Asthma, Bronchitis, Catarrh, Weak Eyes, Partial Deafness, Dyspepsia, Gravel and other Urinary and Genital Diseases, Falling of the Womb, Leucorrhea, and other Female Derangements, Fever, Fever and Ague, etc, etc.

These Baths are in successful operation at

No. 21 Fifth Street, Pittsburgh, Pa.,

relieving many of the afflicted, to whom is given a pamphlet.

CONSULTATIONS FREE.

Office Hours: from 7 to 12 A. M., and 2 to 9 P. M.

THE BEST IN THE WORLD.---"The Next Best Thing to Have a Watch of Your Own," was written in 1859, but now seen so long in use that I feel no hesitation in saying that it has proved to be all you represented, and more---the most unsurpassed article for cleanliness, correctness and brilliancy of tone, I cannot say that I have ever heard its superior, and I believe that it will become the most popular instrument of the day. A great number of persons have heard, and have uniformly expressed themselves highly gratified at its merits. As it has been introduced into the West, recently, if this testimonial will add to the number of your patrons, since you are agents for the sale of these instruments, you are at liberty to make use of it at your pleasure. H. M. VAN DEUSEN, D. D.,
Rector of St. Peter's Church."

Quack Nostrums.

THE NEW YORK DAY BOOK says:

"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Oils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see paraded in show windows cards, newspapers, pamphlets, as hair preparations, are all humbugs of the first water, their real merit, when they possess any, is, that they do no harm. HOG'S LARD, WHALE OIL, LARD OIL, SWEET OIL, are scented and colored, make up, when in beautiful wrappers and white flint glass bottles, the comfiest character of tonics and when long costly, are bottled with some triflingly known, and taught at by verdant young and old of both sexes. Such is not the character of Professor Woods' Hair Restorative. This gentleman comes before the world without any "high falutin" Xilophioforium, or any other astounding and startling catch penny terms; he simply advertises a *Hair Restorative*---what it expresses precisely---and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and you can raise your scalp, eye, your wry brains, apply nothing else; for it may be that you will get some worse substance than perfumed lard oil on your cranium. Remember, Wood's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process,

Restore Gray Hair to the Original Color,

Will make Hair Grow on Bald Heads,
Will restore the Natural Secretions,
Will remove at once all Dandruff,
Will prevent the Hair becoming---even Bald Head,
Will make the Hair Soft and Glossy,
Will make the old appear young again,
Will preserve the Color of Hair to old age,
Will always Fasten it and stop its Falling,
And is one of the best Toilet Articles for the Hair now in use.

Pittsburgh Gazette.

PUBLISHED DAILY AND WEEKLY BY

R. ERRETT & CO.,

FIFTH STREET: ABOVE SMITHFIELD.

PITTSBURGH:

TUESDAY MORNING, SEPT. 4.

BAPLES.

On the night of the 12th the steamer Veloce disembarked one battalion of Garebaldian volunteers in Calabria. The Neapolitans kept up a brisk fire during half an hour.

On the 13th the Castiglia attempted, but without success, to capture a Neapolitan steamer. The Fulminante fired upon the Castiglia.

The Paris *Debats* affirms that the Neapolitan Home Secretary was cognizant of Garabaldi's late visit to Naples, and that he has accepted the post of Provisional Governor of Naples for King Victor Emmanuel. Lately 26,000 stand of arms, 700 Orsini shells, and a million and a half cartridges were secretly landed there.

A Calabrian who was arrested at Faro confessed to having received money from Count D' Aquilla to assassinate Garibaldi.

"We hear says the Malta Times, "that Colonel Carstares has collected 2,000 volunteers in Greece for Garibaldi, and that they are ready to sail for Messina."

Captain Styles, aide-de camp and agent in London of Garibaldi, states that Garibaldi's object is to raise an English battalion of 800 men. Five hundred names have already been received, many of the highest respectability and some of independent means His object was also to collect money to equip the battalion, as all the money and ammunition which Garibaldi had at his command he required for the troops he now has.

A Naples telegram of the 14th announces that the electoral committees had been dissolved.

Naples Aug 14th 3.35 P. M.---The city has just been declared in a state of seige; the proclamation is now being posted. The regular troops and the national guards are exhorted to do all in their power to maintain public order.

Turin, Aug. 15---The *Opinions* gives a denial to the reports published in the French papers of a note having been sent by Austria to Piedmont relative to an intervention in Italy in case Garibaldi should disembark in the kingdom of Naples.

The *Constitutionnel* publishes a letter from Turin, bearing the signature of M. Grandguillot, which commences as follows:---"Victor is now entering the most critical and most decisive period of her regeneration. Henceforth she stakes on a single card either her ruin or her salvation. Engaged as she is in the path upon which she has been thrown by the expedition of Garibaldi, she will, within two months, be either free and free matters in great order, or Austria will again reign, and this time from Messina to Turin."

The Messina correspondent of the Morning *Post*, writing on the 7th instant, says:

On the evening of the 5th August Garibaldi caused the Bishop of Messina to be put under arrest, in consequence of the intrigues and plots which the prelate, at the instigation of the Court of Rome, was carrying on against the Provisional Government. His house was at once searched for papers, and there was found a letter from Pius the Ninth, denouncing, with the greatest possible vehemence, the character and policy of Garibaldi. At present it is not known what course Garibaldi will pursue in the matter, but it seems probable that the Bishop will be exiled. Meanwhile, four Guides keep constant watch over him day and night, following the prelate by his bed, so that he cannot take a single step or perform a single act without their knowledge; he cannot move without being followed by them; he cannot open his lips without their hearing whatever he may wish to say. He is at perfect liberty to walk up and down in his suite of rooms and to receive visitors, but the eternal Guides are always there---a quadruple shadow of his own body. During the first night he did not sleep a wink, though he feigned to be sleeping soundly. The prelate is a man of 55 years of age, extremely astute, with the most perfect self-possession, and apparently not at all discomposed by his present unpleasant position. It is believed that he found time before his arrest to burn all the papers which might in any way tend to commit him, for on a second perquisition, nothing was found save the ashes of the letters which he had succeeded in destroying before his seizure.

The Naples correspondent of the London *Times* under date of August 11, writes:

"The Government was seriously alarmed on the 9th by hearing that many of the youth of Calabria, leaving their residences, had taken to the mountains and orders were given for the immediate departure of three battalions of Cassours under General Pancelli. At 4 P. M., however, the orders were countermanded. The troops sold themselves in readiness to leave. A large force has been concentrated in the Calabrias, amounting to nearly 40,000 men, and the recently *congedati* have been recalled with a promise of 25 grani a day, being about five times more than the ordinary pay. Vessels are leaving continually with provisions for the army, and it is evident that the Government is putting itself in a state of defence; but to what purpose---with what hope of success?

GARIBALDI'S PROCLAMATION.

"TO THE PEOPLE OF THE SEPOLITAN CONTINENT.

"The opposition of the foreigner, interested in our abasement, and internal factions, have prevented Italy from constituting herself a country. Now, however, it appears that Providence has put an end to so many misfortunes. The exemplary unanimity of all the provinces, and their voluntary sacrifices on the altar of the sons of liberty, are a proof that the sufferings of this land of genius are drawing near to their termination. Yet another step remains. That step I do not fear. If the alight means which have conducted us hitherto to victorious ends Straits are compared with the enormous means at our disposal at present, every eye will see that the enterprise is not difficult. I would that the shedding of blood, among Italians could be avoided, and therefore I address myself to you. Sons of the Neapolitan continent, I have proved that you are brave, but I desire not to make further proof of it. Our blood we will shed together on the bodies of the enemies of Italy. But between us let there be silence. Accept, generous men, the right hand which has never served a tyrant, but which is hardened in the service of liberty. I ask of you to constitute Italy without the slaughter of her sons, and wish you to serve her and die for her. G. GARIBALDI.

"Messina, Aug. 6."

SARDINIA.

According to an extract from the Turin Military Gazette, France has sold to Piedmont, at a reduced rate, 50,000 rifles, and is to let her have a further quantity; also a certain number of heavy guns, and a quantity of powder and ammunition. A number of foreign foundries and manufactories of arms, English, Belgian, Swedish, &c., are at work for the Piedmontese government. Enormous orders have been given to the best Piedmontese foundries. Cart and gun cartridges are building in Lombardy, and in the government arsenals the number of workmen has been nearly doubled. The artillery is almost complete in all the material on the new model. Three new pontoon trains have been constructed; the artillery numbers 48 batteries, divided into 8 regiments. Bologna is a strong fortress; new works have been thrown up at Piacenza, and the second class fortresses are in a sufficient state of defence. Cartridges and percussion caps are making by millions, both in the government establishments and those of private individuals; all the old muskets in store are to be sent at once to Turin to be converted at once into rifles; and plans have been drawn up for the establishment of new manufactories of arms at Florence and Lucca. In the valley of Brescia, inhabited chiefly by the workers in metal, all hands are employed in similar preparations. Before winter closes the Baltic vessels are to be sent to Sweden to fetch the greater part of the artillery which is being cast there for account of Piedmont.

CONSIDERING the state of the thermometer our readers will sympathise with the politicians of the South. Mr. Yancey is particularly unfortunate in his relations with his opponents. He thus attacks Mr. Seward, of Georgia in a recent letter:

"The particular misrepresentation uttered by him in his speech at Columbus is second-hand, one picked up by him out of the filth of a political sewer, where it had been left by its author under the public branding of him at Petersburg as an infamous calumniator. I allude to Mr. Seward, of Georgia."

Mr. Seward of Georgia, thus returns the compliments of the season to Mr. Yancey:

"I have carefully put around to avoid person alities yet I shall not be deterred from reviewing the public opinions and acts of others, by the dirty language of a foul mouthed conspirator against the government; whose heart, throat, and tongue are inflamed with a libellous and slanderous intent against every man who may differ with him in opinion. I mean Mr. William L. Yancey of Alabama."

GRAPHIC.---The other day's boy came tearing round a corner with his rags fluttering in the wind, his face smeared with molasses, and a shingle flourishing in his hand, while he was shouting to another boy, about the size of a pepper box, who stood nearly a quarter of a mile down the street. O! Bill, Bill, Bill,---get as many boys as ever you can, and as many shingles as ever you can, and come up to the street round the corner as fast as ever you can, for there's a big large hogsit of lumber busted on the pavement, busted all to smash.

THEY have a queer way of doing things in New Orleans. A grocer, through the aid of a neighboring variety dealer, detected a clerk in pilfering articles from the grocery store. The grocer told the clerk to leave quietly, as he did not wish to expose him. The clerk sued for back wages, and the grocer offered half the sum claimed, which was refused, and the grocer proved the thefts, and the clerk had to pay the costs. Clerk then challenged grocer to a duel with broadswords, but grocer declined to fight with a thief. The nephew of clerk, who bore the challenge, then challenged grocer, who accepted his offer. Meanwhile said nephew met and savagely cuned the variety man, who had testified to his uncle's dishonesty. The duel was to have come off on the 10th, and about one hundred persons had assembled at the place appointed to see the fight---but it seems the duellists did not "come to time," having either been stopped by the police or gone to another field.

BENJAMIN FRANKLIN.---Hon. George Bancroft once delivered an address before the New York Historical Society, in which he said:

"Not the half of Franklin's merits have been told. He was the father of the American Union. It was he who went forth to lay the foundation of that great design at Albany; and in New York he lifted up his voice. Here among us he appeared as the apostle of the Union. It was Franklin who suggested the Congress of 1774; and but for his wisdom, and the confidence that wisdom inspired, it is a matter of doubt whether that Congress would have taken effect. It was Franklin who suggested the bond of this Union which binds these States from Florida to Maine. Franklin was the greatest diplomatist of the eighteenth century. *He never spoke a word too soon; he never spoke a word too late; he never spoke a word too much; he never failed to speak the right word at the right season."*

In the last number of Fraser's Magazine the word "fast," as applicable to the fair sex, is defined as "a combination of the less intellectual pursuits of man with the less desirable attributes of woman." The writer proceeds in his definition to say that "a fast girl can ride across country, smoke, shoot, play billiards, bet and talk about dogs and horses in a very edifying manner. She uses strong terms freely, and is defiant in manner
