ALL THE VIRTUES OF ELECTRICITY AND WATER COMBINED.

DR. W. W. KARSHNER'S ELECTRIC BATHS PATENTED JAN 25 1859

Fig 2 Fig 1

THE above cut is a representation of DR. KARSHNER'S POSITIVE AND NEGATIVE ELECTRO THERAPEUTIC BATHS, for which he has obtained letters patent from the Patent Office of the United States. These Baths have been in successful operation for the last two years, in many of our principal cities and cities, during which time hundreds of patients have tested their astonishing powers with signal success. Dr. K. challenges the entire medical world to produce any one system or combined system, that will cure as many diseases, and in as short a time, as his Electric Baths are alone, when rightly administered. The scientific minds of all professions are cordially invited to call, examine and test for themselves.

The duration of each Bath, the temperature of the water, and the strength of the electric current, are varied according to the disease, the condition of the patient at the time, and the effects desired. The water is not a blood heat, and the electricity so graduated as to produce nothing but pleasurable sensations.

There is no class of Diseases, either Acute or Chronic, to which they are not adapted—which do not yield at once to their all pervading and health-restoring influence. Thousands and thousands have been led, voluntarily, to testify that they feel many years younger, and slept better than they had done for years. Others have been cured of a painful disease in a few Baths.

Nor do their beneficial effects seem to be confined solely to the physical man; they have an equally happy influence upon the mental faculties, making them a most efficient means in the treatment of Insanity and all abnormal mental conditions.

Among the diseases successfully treated by Dr. K.'s Baths are: Incipient Consumption, Scrofula, Paralysis, Epilepsy, (Fits,) Insanity, Delirium Tremens, St. Vitus' Dance, Chorea, Amaurosis, Nervousness, Spinal Affections, Rheumatism, Neuralgia, Headache, Torpid Liver, Bronchitis, Catarrh, Asthma, Weakness and Curvature of the Spine, Scrofula, Dyspepsia, Deafness by Paralysis, Ringing in the Ears, Amaurosis, Cataracts, Weak Eyes, Erysipelas, Spermatorrhœa, Retention of the Urine, St. Vitus' Dance, Chalic, Salt Rheum, Prolapsus Ani or Piles, Female Weakness and Irregularities, General Debility, Derangements of the Nervous System, Stiff Joints, and all Diseases of the Bowels.

OFFICE HOURS, FROM A. M. TO P. M.

DR. GREGORY will be in attendance to assist in treating Ladies.

MILKING BY MACHINERY.—The Philadelphia correspondent of the New York Tribune, in describing Mr. E. D. Kershow's great dairy near the former city, gives the following description of a machine for milking in one there, the invention of Mr. L. O. Colvin. This writer says:

Several cows were milked out clean, with entire satisfaction to all who saw the thing done, as well as to the cows themselves, who stood as if they rather liked it. Twelve quarts are drawn in two minutes, so that the whole herd can, by additional appliances, be milked in half an hour. The machine is so simple an affair that a child may work it. It consists of two distinct, single-acting pumps, made in the form of tin basins, placed with their bottoms a little distance apart. Each pump has a rubber head drawn over the end of the basin and turned in, and to each pump are attached two metallic tea cups by elastic joints, so as to fit the distance apart of teats in different cows. To the bottom of each pump is a single valve, which closes when the suction is produced and opens to discharge the milk into the pail, when the vacuum ceases. As the rubber heads are drawn out by the levers, a vacuum is produced which causes the milk to flow into the pump; when they return to their positions again, the milk passes out through the valves, and at pressure on the teats ceases, thus producing a remitting motion, in imitation of the natural motion of the calf.

THE POWER OF BIRDS TO COMMUNICATE INFORMATION TO EACH OTHER.—All birds are either daily or nightly employed in seeking out their food, and some, being at times more fortunate than others, undoubtedly possess the power of communicating their success to their own family. I have frequently observed three or four small birds in a newly sown field of oats, evidently local inhabitants; in a few days their numbers would be increased by hundreds of strangers from a distance. If one solitary jackdaw discovers your cherry tree he will most assuredly introduce all his acquaintances to the fruit. A rook will also, in some mysterious way, influence a large flock to share with him your early potatoes or corn when once he discovers the desired treasure. The alarm-note of the parent will instantly silence the noisy chirping of its young; and large birds, by a peculiar motion of the wing, and manner of flight when high up in the air, and too distant to be heard, signal danger to those upon the ground—occasions of the stealthy approach of an enemy. It is to the eyes, and not the nostrils, that they owe their safety upon such occasions; and it is a mistake to suppose that they either smell you or the powder in your gun.

EATING CORN.—A distinguished foreigner, who is stopping at one of our Boston hotels, yesterday found some boiled Indian corn on the table at dinner, a dish to which he was not accustomed. Following examples set around him, he ate of the corn, and liking it very much, he passed the cob to the waiter, and asked to have some more corn put on it. The waiter was waggish, and he took the cob and returned a fresh ear, as the traveler *knew* he had done just right. "Ignorance is bliss."—*Bost. Atlas.*

Quack Nostrums.

THE NEW YORK DAY BOOK says:

"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Gloss, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see paraded in show windows and on newspaper headings, are nothing but patent nostrums, are all humbugs of the first water, their real merit, when it exists, being very little, if any, and they do no harm. HOG'S LARD, WHALE OIL, LARD OIL, SWEET OIL, scented and colored, make up, when in beautiful wrappers and with fine glass bottles, the costliest character of tonics; and when thus costly, are baptized with some high-flown name, and sanctioned at by verdant young and old of both sexes, who is not the character of Professor Wood's Hair Restorative, fashion? Nonsubscription, or any other astounding and startling cant phrase at home; but simply attentions a *Hair Restorative*—what it expresses precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, spy your very brains, supply nothing else for it may be that you will get some nutritious substance that professes fact oil on your crenium. Remember, Wood's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process,

Restore Gray Hair to the Original Color,

Will make Hair Grow on Bald Heads,

Will restore the Natural Secretions,

Will remove at once all Itching,

Will remove all Dandruff,

Will cure all eruptions on the Bald Head,

Will make the Hair soft and Glossy,

Will make the old appear young again,

Will preserve the Color of Hair to old age,

Will always Fasten it and stop its Falling,

And is one of the best Toilet Articles for the Hair now in use.
