ALL THE VIRTUES OF ELECTRICITY AND WATER COMBINED.

THE above cut is a representation of DR. KARSHNER'S POSITIVE AND NEGATIVE ELECTRO-THERAPEUTIC BATHS, for which he has obtained Letters Patent from the Patent Office of the United States. These Baths have been in successful operation for the last two years, in many of our principal towns and cities, during which time hundreds of patients have tested their astonishing powers with *signal success*. Dr. K. challenges the entire medical world to produce any one system or combined set of systems, that will cure as many diseases, and in so short a time, as his Electric Baths alone, when rightly administered. The scientific minds of all professions are cordially invited to call, examine and test for themselves.

The duration of each Bath, the temperature of the water, and the strength of the electric current, are varied according to the disease, the condition of the patient at the time, and the effects desired. The water is also to blood heat, and the electricity so graduated as to produce nothing but pleasurable sensations.

There is no class of Diseases, either Acute or Chronic, to which they are not adapted—which do not yield at once to their all controlling and health-restoring influence. Thousands and decrepid have been led, voluntarily, to testify that they felt many years younger, and slept better than they had done for years. Others have been cured of painful diseases in a few Baths.

We do their healthful effects seem to be confined solely to the physical man; they have an equally happy influence upon the mental faculties, making them a most efficient means in the treatment of Insanity and all abnormal mental conditions.

Among the diseases successfully treated by Dr K's Baths are: Incipient Consumption, Scrofula, Paralysis, Epilepsy, (Fits,) Insanity, Delirium Tremens, St. Vitus' Dance, Curvature of the Spine, Rheumatism, Mercurial Diseases, Weak Ache, Asthma, Bronchitis, Catarrh, White Swellings, Partial Diseases, Falling of the Womb, Leucorrhœa, and other Female Derangements, Fever, Fever and Ague, etc., etc.

These Baths are in successful operation at

THE NEW YORK DAY BOOK SAYS:

"The majority of Hair Washes, like Hair Tonics, Hair Oils, and the usual-as-less preparations which are now before the public under extravagant, hyperbolical and fantastic titles as we see Lamplighters, Hair Restorers, and newspaper headlines, as hair preparations, they possess, to a greater or less degree, the power of moistening the hair, in that they do no harm. HOGG'S LABRADOR OIL, LYON'S KATHAIRON, SWEET OIL, scented and colored, make up, when in beautiful wrappers to the eye, a handsome bottle, the costliest character of tonics; and when thus costly, are baptized with some sprightlier term, and caught at by verdant young and old of both sexes. But there is not the character of Professor Wood's Hair Restorative. This gentleman comes before the world without any such high falutin' hyperbolorium, or any other assumption of *Restoration*—what it expresses perfectly—and that is simply advertises a *Hair Dressing*. Buy Professor Wood's Hair Restorative, and you will see for it may be that you will get some surprising assistance from perfumed lard oil in your cranium. Remember, Wood's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process,

Restore Gray Hair to the Original Color,

Will make Hair Grow on Bald Heads,

Will restore the Natural Secretions,

Will remove it once all itching,

Will remove all Dandruff,

In all cure all eruptions—even Scald Head,

Will make the Hair Soft and Glossy,

Will make the old appear young again,

Will prove the Color of Hair to old age,

Will always Fasten it and stop it from falling,

And is one of the best Toilet Articles for the Hair now in use.

ELECTROPATHY.

PROFESSOR A. S. GREGORY and J. GOUCHER, M. D., have associated themselves together in the practice of their profession, inaugurating Electropathy and H. dropathy with a

MEDICAL DEPARTMENT.

They have their establishment supplied with a new set of ELECTRO MAGNETIC BATHS, which are superior to any now in use. The water used is of such a temperature, and the electric currents are so regulated, that the patients, in receiving the benefits of these remedial agents, experience no unpleasant sensation. This system of treatment is among the safest, most effectual and least objectionable; it equalizes the circulation, soothes nervous irritation, and restores a healthy balance to disordered functions. The medicine prescribed will be compounded and put up at their office, under the immediate care of Dr. GOUCHER, who has had twenty years experience in treating disease.

The following are some of the diseases that yield to their treatment:

Palsy or Paralysis, Incipient Consumption, Rheumatism, both Acute and Chronic; Neuralgia, Headache, Torpid Liver, Bronchitis, Catarrh,

Asthma, Weakness and Curvature of the Spine, Scrofula, Dyspepsia, Deafness by Paralysis, Ringing in the Ears, Amaurosis, Characts, Weak Eyes,

Erysipelas, Spasmodic Retention of the Urine, St. Vitus' Dance, Cholic, Salt Rheum, Prolapsus Ani or Piles, Female Weakness and Irregularities, General Debility, Derangements of the Nervous System, Stiff Joints, all Diseases of the Bowels, Fever and Ague; and Fistula, invariably Cured without the knife.

In addition to their office business, they purpose attending to a GENERAL PRACTICE. All calls in the city and vicinity receive prompt attention. Letters containing stamp must be enclosed, if an answer is required, five DOLLARS must be enclosed, for which they will send medicine to any part of the United States.

PUBLISHED DAILY AND WEEKLY BY

R. ERRETT & CO.,

FIFTH STREET, ABOVE SMITHFIELD.

PITTSBURGH:

MONDAY MORNING, OCT. 15.

THE LATE GALE.—We are indebted to Mr. Cook, of this city, for such information in regard to the effects of the storm in the parishes above the city, as he saw when on the plantations, and observed from the deck of steamer Dixie.

During the blow he was on the plantation of McCall and brothers. The injury inflicted them and at Richard McCall's he witnessed McCall & Brothers purgery, the largest in the State, was prostrated, the whole structure now lying a mass of ruins. Under the falling building six men were caught, but fortunately were rescued without any serious injury.

Richard McCall's purgery and cane shed are also in ruins. Under the ruins of these buildings three men were caught, but not killed.

Mr. Cook was informed by one who had been on the place that the sugar house of Mr. Loughborough, some fifty miles above the city, was entirely blown down.

Burnside's corn house was unroofed, and several other buildings were much injured.

Chopin's new sugar house was destroyed, and the old one much injured.

The greatest force of the storm is visible, says our informant, through the parishes of St. James and Ascention, all cane which was of any considerable size appearing to be blown down. Along the whole coast, all the bagasse chimneys were blown down.

It is generally believed that the crop is seriously injured, and the loss to planters in buildings and machinery is very large.

Yesterday the steamer Silver Heels sank at Carrollton. She was driven by the gale upon the bank, and her bow found a lodgment. Upon the recession of the her stern tilted down into the water, which ran in through the rudder-hole soon filling her so that her safety was impracticable, notwithstanding the constant use of the pumps.

The boat had been under seizure for four months for a debt of $2000; for which amount she was insured. She belonged to the Lafourche Navigation Company, but it has been found impracticable, to come at a responsible owner or parties who would answer her obligations. The boat is said to be worth $10,000. The insurance company, it is said, will pay the loss, leaving the boat to be raised, which can be done by any party who feels interested.—*N. O. Bull.*

FURTHER NEWS OF THE STORM.—We learn from a gentleman who arrived here yesterday that the storm was very severely felt at Grand Isle and Cheniers Camanada; those islands having been completely overflowed, the water rising, it is said, five feet in three quarters of an hour. Much damage was done to the small craft, and the crops and orange trees suffered greatly; but no loss of life or property occurred.

The Timballier Islands, we are informed by the same gentleman, were completely devasted and some thirty or forty fishing crafts, having on board some 50 or 60 men, who had started for the oyster beds previous to the storm, have not been heard of and are supposed to be lost.—*N. O. Pic.*

THE PARTY OF FORESIGHT.—We were in Honesdale, Pa., of Monday, when an extra edition of the Harrisburg *Patriot and Union* of Saturday last was freely distributed throughout that borough, as we presume it was all over the State. It was of course filled with electioneering matter, intended to secure the defeat of Col. Curtin and the Republican generally, but appealing especially to the prejudices and fears of adopted citizens. Among this matter, was what purports to be an extract from a speech at a Republican Mass Meeting by John M. Wilson, one of the Lincoln Electors for Massachusetts. Said extracts was made up of the most blackguard, beastly abuse of our German and Irish voters, representing them as brutish, idiotic, drunken, bleer-eyed, incapable of intelligence, judgment or decency, &c. How many votes were made by this Roorback, we cannot of course say; probably none in Honesdale where the fraud was promptly exposed in a large Republican meeting, by reading the list of Lincoln Electors for Massachusetts and showing that there was no John M. Wilson—no Wilson at all—on that list; while the careful abstinence from stating when and where this Lincoln speech was made combined with the manifest forgery in regard to its being the work of a Lincoln Elector, stamped it with indelible ear-marks of villainy. But in other sections, where the Republicans were not so wide-awake as in Honesdale, and where they had not at hand an unquestionable list of the Lincoln Electors of Massachusetts, it doubtless deceived thousands into voting the Fusion Ticket.

Ought such swindling to prosper?

We understand that the *Courrier des Etats Unis* has diffused this forgery among the French-speaking population of the whole country, to the extent of its circulation, and we cannot doubt that the German organs of Fusion have been equally busy in its dissemination.

As Gen. Henry Wilson was expected to speak in Honesdale on that evening, the more ignorant of the foreign born voters were privately assured that *he* was the Wilson who made this wife speech!

Can a good cause require the use of such means to uphold it.—*N. Y. Trib.*

ENTERTAINING "DEVILS" UNAWARES.—We scarcely open a paper in our numerous exchanges without finding a notice of an elopement—some girl running off with a married man—some destruction to the hopes and prospects of a poor young woman, and inconsolable grief to her family. Is it not time to ask ourselves whether all the blame should rest on the shoulders of the abducted? Is this country no female is carried off by violence. She goes with her own accord; persuaded, no doubt, to elope; but there is no violence used. Why will not parents in towns and villages be cautious in extending hospitality to itinerate strangers? The very worst consequences have resulted from this misplaced confidence in entire strangers, who came unknown, unheralded—single or married. A travelling dentist, mesmerizer, or singing master, is sure to be received with open arms, while the young men of the village, well known, are neglected and cast aside. It is from this cause that we see so many wives eloping and single girls ruined. A little caution, a little inquiry in regard to these persons inmates of families, would prevent many domestic calamities. Surely a young woman, properly and piously educated, need not be in such a hurry to marry the first man that asks her, or run away with the first fellow who is willing to carry her off. No honest man runs away with a girl, for he can marry her with her parent's consent, if his character is good.

EXTRAORDINARY SUICIDE.—The son of Mr. Bradbury, of the eldest firm of Bradbury & Evans, of London printers, and proprietors of Punch and other well known publications, has recently committed suicide in a remarkable manner. He went to Cremorne Gardens and spent the evening in the amusements of that celebrated place. Towards the close of the entertainment he procured silver for a ten pound note, and going to the front of the dancing platform, scattered it among the crowd. He then called for a glass of grog, and having emptied into it a phial of prussic acid, made a speech, proposed the health of the company, drank off his glass, and alas! fell dead in the midst of that scene of wild riot and confusion. He was a young man of great ability and promise, and very recently was presented with a gold watch by the Emperor of the French, in acknowledgement of the value of an improvement he had made in printing. It is lamentable to see a valuable life thus recklessly cast away.

DEMOCRATIC NOTE FOR THE BELL MEN TO CRACK

BRECKENRIDGE JOHNSON.

"And still the large number of young gentlemen who are engaged in enlightening the people upon the Constitution of the country by the ringing of bells, with tongues as long and heads as empty as the bells they ring, shout 'disunion.' (Prolonged laughter and cheers.)—*Lexington Speech, Sept. 5.*

THE TURKISH BATH.—The Turkish bath has been introduced into London with great success this season, it is thought its establishment will be permanent, as some of the very first men in the medical profession, including those who have made themselves most famous for the study of the skin, have zealously and unreservedly given in their adhesion to the principles on which it is administered. Some time since Mr. Ocean, the Turkish lecturer and author, was on the eve of introducing among us the steaming and shampooing process, by which his countrymen are delebrated and refreshed in the Eastern Summer. Our dog days are so enervating as those of the Orient, and a well conducted Turkish bath would speedily become popular. Has Mr. Ocean given up his design?

THE AGRICULTURAL DISTRICT OF NEW YORK.—The editor of the N. Y. *Journal of Commerce* gives the following pleasing picture of the agricultural condition of New York, as the result of observations made during a week's travel in the central, western and southern counties of the State:

"The agricultural districts of New York, if not actually flowing with milk and honey, are rich in nearly all the products of the soil, and we think, all things considered, will afford a larger return than in any one season for many years past. Not that there is such an enormous yield of any particular crop, but a uniformity in nearly all our staple products, which gives an aggregate above the average of previous years. There has been neither excessive wet nor excessive drouth in any part of the State; and the result has been a prosperous season and large returns for the labor expended upon agricultural pursuits. Wheat, for so many years practically a failure, has come to be again a staple product, especially in the Western counties; and the present year, with an increased breadth in acres, has yielded a large aggregate crop. Oats have been very heavy. Barley has done well. Potatoes are abundant. Corn is about an average; and grass, both meadows and pastures, is most abundant. Of fruit there is a bountiful crop, nearly all varieties have done well this year. Certain localities must be excepted from this remark, so far as peaches and the finer varieties of fruit are concerned, but these do not effect the general statement. On the whole, the season has been one of great prosperity among our farmers,
