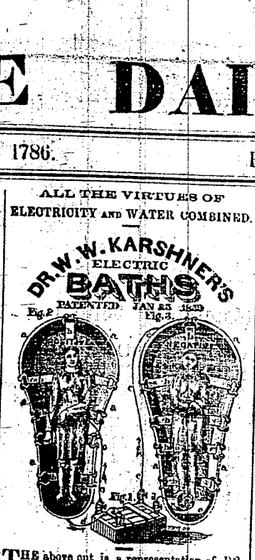
ALL THE VIRTUES OF
ELECTRICITY AND WATER COMBINED.

DR. W. W. KARSHNER'S
ELECTRIC
BATHS
PATENTED JAN 25 1859



THE above cut is a representation of DR. KARSHNER'S POSITIVE AND NEGATIVE ELECTRO-THERAPEUTIC BATHS, for which he has obtained letters patent from the Patent Office of the United states. These Baths have been in successful operation for the last two years, in many of our principal towns and cities, during which time hundreds of patients have tested their astonishing powers with *signal success*. Dr K. challenges the entire medical world to produce any one system or combined set of systems, that will cure as many diseases, and in as short a time, as his Electric Baths alone, when rightly administered. The scientific minds of all professions are cordially invited to call, examine and test for themselves!

The duration of each Bath, the temperature of the water, and the strength of the electric current, are varied according to the disease, the condition of the patient at the time, and the effects desired. The water is about blood heat, and the electricity so graduated as to produce nothing but pleasurable sensations.

There is no class of Diseases, either Acute or Chronic, to which they are not adapted---which do not yield at once to their all pervading and health-restoring influences. The aged and decrepid have been led, voluntarily, to testify that they felt many years younger, and slept better than they had done for years. Others have used cured of painful diseases in a few Baths.

Nor do their healthful effects seem to be confined solely to the physical man; they have an equally happy influence upon the mental faculties, making them a most efficient means in the treatment of Insanity and all abnormal mental conditions.

Among the diseases successfully treated by Dr. K.'s Baths are: Inflamed Rheumatism, Scrofula, Paralysis, Epilepsy, (Fits,) Insanity, Delirium Tremens, St. Vitus' Dance, Stricture of the Spine, Rheumatism, Mercurial Diseases, Weakness in the Back and Joints, Sprains, Bruises, Nervous Head Ache, Asthma, Bronchitis, Catarrh, Weak Eyes, Deafness, Dyspepsia, Gravel and other Urinary and Genital Diseases, Piles, Tumors, Neuralgia, and other Female Derangements, Fever, Fever and Ague, etc. etc.

Ladies and children are in successful operation at

relieving many of the afflicted daily. Call and get a pamphlet.

THE NEW YORK DAY BOOK says:

"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Oils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see paraded in show windows, and newspaper advertisements, as hair preparations, are all humbugs of the first grade, their real object, when they do not say, is, that they do no harm. HOFF'S LARD, WILLIS' OIL, LAIRD DU'S SWEET OIL, scented and colored, make up, when in beautiful wrappers and white flint glass bottles, the costliest character of trashy, and when thus costly, are baptized with names which seem to be caught at by verdant young and old of both sexes. Such is not the character of Professor Wood's Hair Restorative. This gentlemen comes before the world without any "high sounding titles, Xylophilorine, or any other astounding and startling catch-penny terms to supply advertisements. *Hair Restorative*---what it expresses precisely---and as a Restorative, Wood's Hair Restorative, will restore your hair as you value your scalp, save your locks, supply nourishing aliment, also, the Wakefield Cockers, for the same purpose. Fresh supplies of both just rec'd by J. L. READ, 78, 4th street.

It Will, by Nature's own Process,

ELECTROPATHY.

PROFESSOR A. S. GREGORY and J. GOUCHER, M. D., have associated themselves together in the practice of their profession, thus uniting Electropathy and Hydropathy with a
MEDICAL DEPARTMENT.
They have their establishment supplied with a new set of ELECTRIC BATHS, which are superior to any now in use. The Water used is of such a temperature, and the electric currents are so regulated, that the patients, in receiving the benefits of these remedial agents, experience no unpleasant sensation. This system of treatment is among the safest, most effectual and least objectionable; it equalizes the circulation, controls nervous irritation, and restores a healthy balance to disordered functions. The medicine prescribed will be compounded and put up at their office, under the immediate care of DR. GOUCHER, who has had twenty years experience in treating diseases.
The following are some of the diseases that yield to their treatment:
Palsy or Paralysis, Incipient Consumption, Rheumatism, both Acute and Chronic; Neuralgia, Headache, Torpid Liver, Bronchitis, Catarrh, Asthma, Weakness and Curvature of the Spine, Scrofula, Dyspepsia, Deafness by Paralysis, Ringing in the Ears, Amaurosis, Cataracts, Week Eyes, Erysipelas, Spermatic Retention of the Urine, St. Vitus' Dance, Chlolic, Salt Rheum, Prolapsus Ani or Piles, Female Weakness and Irregularities, General Debility, Derangements of the Nervous System, Stiff Joints, all Diseases of the Bowels, Fever and Ague; and Fistula, invariably Cured without the knife.
In addition to their office business, they purpose attending to a GENERAL PRACTICE. All calls in the city and vicinity receive prompt attention. Letters containing stamp for postage will be attended to immediately, and if treatment is required, FIVE DOLLARS must be enclosed, for which they will send medicine to any part of the United States.

The Presidency---The Forlorn Hope of the Democracy.

The organs of the Democratic Party are doing their best to keep their courage up. They try to persuade themselves that, all, is not lost. They acknowledge the stunning character of the blow they have received, but console themselves with the thought that there is a month left in which they may recover. The Washington *Constitution* talks about reconquering Pennsylvania,---but most of the other organs confess that New York is their forlorn hope.

Much of this, however, is mere pretence. The sensible men of the party know and feel that they are beaten. The Pennsylvania election is not the only proof of coming defeat---it is only one more added to the many symptoms that have preceded it. All the elections of the Summer have indicated the same tendency in the public mind. The Maine election showed clearly enough how things were going down east. The Western States all show a similar increase of Republican strength; and now Pennsylvania, usually the stronghold of the Democracy, the State which has more than once saved the party when all seemed lost, has given the death-blow to their dying hopes.

It is utter folly to expect that a tide, which has thus been rolling in and rising higher and higher during the last year or two, is to stop in mid-ocean and flow back before it strikes the shore. Why should not the same influence which have affected other States, tell upon New York? This City, it is true, is mainly commercial, but so is Philadelphia. Our people are conservative, but so are those of Pennsylvania. The same causes must produce the same effects here as they have produced elsewhere. New York feels the same impulse which has roused every other State to an indignant and effective protest against the current character of our Federal rule. She will vote the same way, and we shall be very much surprised if Lincoln's plurality in this State does not very considerably exceed 50,000. The Fusion movement, on which reliance is place in certain quarters, never very well informed on political subjects, will do not the slightest good. Indeed we believe it has done, and is doing, the Opposition party very great hurt. If the Douglas Democrats had gone vigorously to work immediately after their Syracuse Convention, pushed their ticket, fought their enemies and sustained their fortunes on *principle*, and made no efforts for coalition or fusion with other parties, they would have cast a larger vote than they will now. They have disgusted thousands of their friends and have demoralized the whole Opposition movement.---*N.-Y. Times.*

YANCEY'S MURDER OF DR. EARLE.---The fact that W. L. Yancey killed his uncle, Dr. Earle, of South Carolina, has been stated in general terms, but the details have not been given. Mr. Earle lived on a cotton and a half west of Greenville, where his widow still resides, if alive. A few hundred yards distant is an old field, sometimes used for practising on horseback, but more frequently resorted to as a muster-ground. This was the occasion of a drill-muster, when Dr. Earle's son, about ten years old, went on the ground, as all boys used to do, and during their wheeling and turning, the boy got in the way. Yancey ordered him to get out of the way, but the boy, in his confusion, got more and more in the way, whereupon Yancey lashed him most unmercifully with a horsewhip. Dr. Earle was not at home, but on returning home, through the town, a friend told him how cruelly Yancey had treated his son. Dr. Earle called on Yancey for an explanation---Yancey told him that the boy had been very insolent, and that he had slapped his jaws. Dr. Earle replied that he had served him right. When Dr. Earle reached home, and learned the facts, and found that Yancey had lied to him, he returned to Greenville in search of him. Yancey knowing the pluck of Dr. Earle, and that he would be detected in the falsehood, prepared himself for a fight. Dr. Earle found Yancey on Dr. Pelham's portico, and in marching upon him was shot down by Yancey with a pistol. These are the facts as we have them from one born and reared in that section. The fact that he was convicted upon trial, and subsequently, afterwards became the subject of Executive clemency, corroborates the truth of this version.---*Knox. Whig.*

SENSIBLE.---The Newborn (N. C.) Progress says:

"Let us defeat Lincoln if we can; but if we cannot, then let us stay in the Union, and make him toe the mark."

"At a recent political discussion in Shelbyville, Tenn., Col. Payton, one of the Opposition speakers, after a labored argument, to convict Mr. Breckinridge and his supporters of disunionism, closed his speech by saying that the government was safe even if Lincoln was elected, and that, with the Senate standing as it was, there was no danger.---*Wash. Constitution.*

The foregoing extracts exhibit some healthy signs of such reason as was expected, whenever the south became satisfied that Mr. Lincoln's election was inevitable. Newspapers and declaimers have threatened a good deal, while that result was doubtful. As it is now settled, they will soon become rational and look at the state of the country practically. We can assure our friend Col. Bailie Peyton, that there is for great safety for the government in the hands of Mr. Lincoln than in the protection of the democratic majority in the Senate which for six years past has been chiefly instrumental in fomenting all the sectional discords and in re-opening the wounds which had been closed by the efforts of both sides. And as he is a candid and true man we shall anticipate an acknowledgment of that fact at his hands, six months hence, when Mr. Lincoln's inaugural and cabinet shall have pacified the country and restored peace and confidence.---*Phil. N. Amer.*

FATAL EXTREMITY.---Bonner publishes that he has secured the services of James Buchanan President of the United States, as a contributor to the *Ledger!* Mr. B. is to furnish a series of biographies, for the adornment and illumination of the corruscating columns of the journal in question. Of course these contributions of Mr. B. will prove fatal to the *Ledger* (already enfeebled by the papers of Edward Everett,) and we desire to suggest the following subject for biography, which may be treated before the final catastrophe. Mr. B. is doubtless acquainted with all the facts in the case, and will present them in that happy style which has characterized his former writings:

I. Biographies (with parallel) of Gardner and Clark, the murderers of Barber, in Kansas. The first Mr. Buchanan made postmaster at Lawrence for his achievement; the second was distinguished by appointment to an Indian agency.

II. Biography of Murphy, who shot and scalped the Free State Clergyman, Hoppe, and whom Mr. Buchanan rewarded with an office.

III. Biography of Gibson, who chopped Frederick Brown to pieces with a hatchet, and was made an officer in Buchanan's government for that service.---*Ohio State Jour.*

KISSING THE HANDSOMEST GIRLS.---A distinguished candidate for an office of high trust in a certain State, who is "up to a thing or two," and has a keen appreciation of live beauty, when about to set off on an electioneering tour recently, said to his wife, who was to accompany him for prudential reasons:

"My dear, inasmuch as this election is complicated, and the canvass will be close, I am anxious my darling---undone that would promote my popularity, and so I have thought it would be a good plan for me to kiss a number of the handsomest girls in every place where I may be honored with a public reception. Don't you think that would be a good idea?"

"Capital," exclaimed the devoted wife, "and to make your election a sure thing, while you are kissing the handsomest girls, I will kiss an equal number of the handsomest young men!"

The distinguished young candidate, we believe, has not since referred to this pleasing means of popularity.

FATHER GIOVANNI, Garibaldi's soldier monk, displayed great courage at the battle of Melazzo. Unarmed, only bearing his cross in his hand, he ran along the ranks, cheering and animating the volunteers to the fight, constantly shouting to them, "Be not! God is on our side! Mark, I, his minister, am the foremost to expose myself to the grape-shot and the volley of musketry---yet I remain unscathed. Charge, Italians, charge!" And still, as he shouted, he waved aloft the cross. Seeing them this example, and repeating aloud passages from the Scriptures, he cheered on the soldiers ---to some purpose it must be owned---as by their indomitable courage they carried the strong position of Melazzo.

A SHORT LYRIC.---The following brief poetic effusion is to be sung to the tune of "Blow the winds of morning:"

There was a man in our town
His name was STEPHEN A.
He scorned not for his motto
To Pass-by-Traitor.

THE POTATO CROP IN IRELAND.---The latest Irish papers which have come to hand are unfavorable to the potato harvest. A Limerick paper says the accounts from every district are blighteraining, and the price persons for sound potatoes has nearly doubled within the last few days. Another paper says:

"The accounts from the potato fields increase in their alarming character. The description given of the crop in all quarters is that it is fast going. The market rates of the article to-day will best show the apprehension as to its scarcity, 11d. per stone being the price paid. The extensive failure in potatoes this year ought to act as a warning upon farmers, not lightly to be treated, of the folly of their trusting to such an extent to the successful growth of so precarious an esculent."

In connexion with the expected deficiency in the staple food of the people, it is stated that the Commissioners of the Poor Law Board have sent circulars to the different boards of guardians requesting them (the guardians) to report on the state of the above crop in the various electoral divisions which they represent, stating the progress or otherwise of disease, and the probable loss per cent, likely to be sustained.---*Boston Trav.*

THE Paris correspondent of the London *Times* alludes to the constant fear of his life in which the Emperor of the French lives, of the Corbonari. During his late trip to his new dominions, every care was taken to get suspicious characters out of the way. One very curious means of ensuring his safety was resorted to; it was that of forcing the owners of houses within a certain distance of the imperial residence to give up the keys of their cellar to the police. These individuals were forced, during the whole visit, and for some days before, to ask for their keys every time they needed a bottle of wine; and on such occasions a policeman was sent with them to fetch it. A certain house in the Place Victoire, in Nice, was emptied of all its inhabitants whilst the imperial visit lasted, nobody knew for precisely what reason; but the proprietors, for-casing it, received from the authorities the sum of 50,000 francs; the house, it is supposed, having been in some way useful to the police.

MR. FARNHAM, about whom, as the only survivor of the Bunker hill patriots, so much has lately been published, has been called forth from the respose of his honorable old age, and induced to revisit Boston, and the scenes of his revolutionary struggles. He arrived in that city at 2 o'clock on Saturday, P. M., by the Boston and Maine Railroad, accompanied by his son John, who was 63 years old last June, and by his daughter Joanna, who is 65, and has been for eighteen years a domestic at the American House. Mr. Farnham is himself in his 105th year. While all the rest of the party were completely fatigued, he said he was not very much tired. He arose at 4 o'clock Sunday morning, and was busied at his customary devotions before any others of his party were up. He is very decrepid, and quite deaf; but is still able to converse intelligently, and seems quite proud of the attention shown him. His quarters are at the Revere House, where he received the citizens of Boston on Monday.
