ALL THE VIRTUES OF

ELECTRICITY AND WATER COMBINED.

DR. W. W. KARSHNER'S ELECTRIC BATHS

PATENTED JAN 25 1859

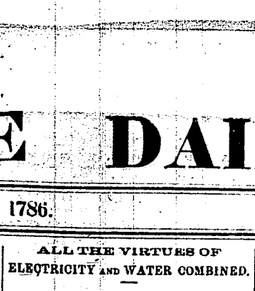

Fig. 2 Fig. 1

THE above cut is a representation of DR. KARSHNER'S POSITIVE AND NEGATIVE ELECTRO-THERAPEUTIC BATHS, for which he has obtained letters patent from the Patent Office of the United States. These Baths have been in successful operation for the last two years, in many of our principal towns and cities, during which time hundreds of patients are to-day their astonishing powers with *signal success.* Dr. K. challenges the entire medical world to produce any one system or combined set of systems, that will cure as many diseases, and in as short a time, as his Electric Baths alone, when rightly administered. The scientific minds of all professions are cordially invited to call, examine and test for themselves.

The duration of each Bath, the temperature of the water, and the strength of the electric current, are varied according to the disease, the condition of the patient at the time, and the effects desired. The water is about blood heat, and the electricity so graduated as to produce nothing but pleasurable sensations.

There is no class of Diseases, either Acute or Chronic, to which they are not adapted—which do not yield at once to their all pervading and health-restoring influences. The aged and debilitated have been fed, voluntarily, to testify that they felt many years younger, and slept better than they had done for years. Others have been cured of painful diseases in a few Baths.

Nor do their healthful effects seem to be confined solely to the physical man; they have an equally happy influence upon the mental faculties, making them a most efficient means in the treatment of insanity and all abnormal mental conditions.

Among the diseases successfully treated by Dr K.'s Baths are: Impotent Constitution, Scrofula, Paralysis, Epilepsy, Chlo, Hysteria, Dizziness, Nervousness, St. Vitus' Dance, Curvature of the Spine, Rheumatism, Mercurial Diseases, Weakness in the Back and Joints, Nervousness, Nervous Head Ache, Asthma, Bronchitis, Catarrh, Weak Eyes, Partial Deafness, Dyspepsia, Gravel and other Urinary and Genital Diseases, Falling of the Womb, Leucorrhœa, and other Female Derangements, Fever, Fever and Ague, etc. etc.

These Baths are in successful operation at

No. 21 Fifth Street, Pittsburgh, Pa.,

relieving many of the afflicted daily. Call and get a pamphlet.

CONSULTATIONS FREE.

Office Hours: From 7 to 12 A. M., and 1 to 9 P. M.

DR. KARSHNER is also receiving as physician and general agent for the sale of County and Individual Rights in Patent Privileges. L. W. BLAKE, Operator.

Quack Nostrums.

THE NEW YORK DAY BOOK says:

"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Oils, and the numberless preparations which fill the space before the public under such exhilarated, hyperbolical and fantastic titles as we see paraded in show cards, and newspaper headlines, as their preparations, are all humbugs and frauds of their most arrant kind, when they possess any, is, that they do no harm. BOGY'S LARD, WILLIS' OIL, LARD OIL, BURNETT OIL, scented and colored, make up, when in beautiful wrappers and with glass bottles, the costliest character of tonics; and when time costly, are inscribed with some triyllable term, and caught at by verdant young and old of both sexes. Such the character of Professor Wood's Hair Restorative This gentleman comes before the world without any "high falutin" Xilophisticism, or any other astounding and terrific catchpenny terms. He simply advertises a *Hair Restorative*—what it expresses precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and you value your money, your very hair's existence, simply nothing else for it may be that you will get some worse substance than perfidy to sell on your reunion. Remember, Wood's Restorative for any such monstrous doctrine as this. Hair is the best article extant."

It Will, by Nature's own Process,

Restore Gray Hair to the Original Color,

Will make Hair Grow on Bald Heads,

Will restore the Natural Secretions,

Will prevent one cent of Itching,

Will remove all Dandruff,

Will cure all eruptions—even Scald Head,

Will make the Hair Soft and Glossy,

Will make the old appear young again,

Will preserve the Hair to Old Age,

Will always Restore it and stop its Falling.

And is one of the best Toilet Articles for the Hair now in use.

Manufactured by O. J. WOOD & CO., and sold Wholesale and Retail, at 444 Broadway, New York, and 114 Market st., St. Louis, Mo.

Sold in Pittsburgh by Dr. GEO. H. KEYSER, R. L. FAHNESTOCK & CO., and all Druggists. [au29-d1y]

PUBLISHED DAILY AND WEEKLY BY

R. ERRETT & CO.,

FIFTH STREET, ABOVE SMITHFIELD.

PITTSBURGH,

FRIDAY MORNING, OCT. 19.

WHAT THE SOUTH FEARS.—We publish this morning a curious and instructive article, from the Charleston *Mercury*, upon the results of Southern submission to Mr. Lincoln's election. It sets forth the manner in which a Republican administration of the general government may be expected to operate injuriously upon Southern interests. It is important, because it treats of an important subject, and comes from a quarter entitled to respect. The *Mercury* is a steady frank and able advocate of secession;—it is worth while, therefore, to ascertain what such an organ regards as justifiable occasions for such a movement.

The *Mercury* enumerates quite a number of anticipated dangers, which are, in our judgment, wholly imaginary. We think it entirely mistaken in looking for an increase of the Abolition party at the North;—on the contrary we believe that when the Federal Government shall cease to support the aggressions of Slavery, Abolitionism will lack the fuel which has hitherto kept it alive and will grow weaker and weaker every day. We think it entirely wrong in anticipating more invasions of the Southern States,—more organized attempts to run off Southern slaves,—and less regard for the rights and interests of the Southern people. On the contrary we believe, that, when the Federal Government is made responsible for the execution of the laws, and the preservation of the peace, it will find its interest and its safety, as well as its duty, in the full and effective discharge of those obligations. Upon all these topics, when it is once seen and felt that the extension and increase of Slavery are no longer threatened, we think the public mind will enjoy a rest to which it has been an utter stranger for the past fifteen years.

These are not the main points of the *Mercury's* apprehensions. Its strongest point is, that the moral influence of a Republican Administration will build up an Emancipation party at the South. It says:

"*They will have an Abolition Party in the South, of Southern men. The contest for Slavery will no longer be one between the North and South. It will be in the South, between the people of the South.* Now in all candor, we ask the *Mercury* where that contest should be, if not in the South? That journal has always insisted that Slavery concerned the Southern States alone,—that the North had nothing whatever to do with it,—and that Northern men should cease to make war upon it, or in any way concern themselves about it. In common with its party and the people of its section, it has always demanded that each Southern State should be left to the management of its own affairs. Is not that precise result which it now fears from a Republican Government? "The contest will no longer be one between the North and South." Why should it be? The North has nothing to do with it. It is quite time this sectional controversy should cease,—the Slavery question be removed from the halls of Congress, and left to the free and unconstrolled action of the people of the Southern States.

What the *Mercury* evidently apprehends is that the people of the South will not agree among themselves, that a portion of them will be in favor of secession. Suppose this to be so, ought not the people of those States to be left to form and regulate their own institutions in their own way? Should the power of the Federal Government be used to coerce a unanimity that does not exist? Certainly the *Mercury* cannot contend for any such monstrous doctrine as this. The Federal Administration cannot be held responsible for differences of opinion that may arise at the South on the subject of Slavery, any more than upon any other subject. That institution, like every other, must abide by the legal action of the community in which it exists. And the incoming Republican Administration will render a substantial and lasting service to the whole country, if it shall so far justify the *Mercury's* apprehensions as to silence the sectional controversy concerning Slavery, and leave it wholly and exclusively where it belongs—to the people of the South themselves.

STEERS, COVODE AND COFFEE.—In the Greensburg *Democrat* of a recent date the name of Josiah Copley, of Armstrong county, was mentioned as a recipient of a "bribe" from Mr. Covode; and in another article it was alleged that Mr. Covode had loaned that gentleman one hundred dollars. This is true; and the transaction was alike honorable to both parties.

In 1857 Mr. Copley was obliged through stress of circumstances, to give up a business which he had prosecuted for ten years, and found himself unable, by several hundred dollars, to meet his notes and other liabilities. He made the best arrangements he could; and by strict economy, and through the kindness of friends, he has managed to save his endorsers from damage, and is likely in a short time to make all right.

Near the close of that year Mr. Copley was very desirous of accomplishing a little enterprise which he hoped would help to mend his broken fortunes; but not wishing to draw further upon those friends who were already involved more or less in his misfortunes, he applied for assistance to three friends outside of that circle—one gentleman (a Democrat) in Kittanning, one in Pittsburgh, and one in Westmoreland county, Mr. Covode, with all of whom he was on terms of intimate personal friendship. He frankly told them that if the enterprise proved successful they would be repaid,—if not he could make no promises. All three responded favorably; the thing was done; Mr. Copley was enabled to give to the world a book which, amid an overwhelming crowd of competitors, is steadily winning its way to public favor, and the enterprise is yet likely to prove a pecuniary success. If that book, (*"Thoughts of Favored Hours,"*) has afforded pleasure or profit to its readers, they may thank Hon. John Covode, Hon. Thos. M. Howe, and Thomas M'Connell, Esq., for its publication.

And this was arranged before the Congressional nomination of 1858 was even talked of, and had no more connection with it than it had with the nomination of Abraham Lincoln.

There now, you assassins of private character you have the whole story. If that was bribery make the most of it. This explanation is made in justice to both the gentlemen whose names stand at the head of the articles. Knowing that the slander would do Mr. Covode no harm, we let it pass until after the election.—*Greensburg Herald*

A MOST interesting search, says the London Court Journal, is about to take place, that will draw all lovers of invention to the tombs of the Beaufort family. It seems that the first Earl of Worcester, of the day of Henry VIII., invented an engine the original model of which has never to the present moment, been discovered. Through the deepest researches, Mr. Woodcroft obtained undeniable proof that the Earl of Worcester desired in his will that this model should be interred with him, and actually in his coffin. Therefore Mr. Woodcroft's next step was to obtain permission to have the coffin opened; but before that could be done, the whereabouts had to be discovered, and no one knew anything about it. It was not till the other day that, coming across an old manuscript, he found an allusion made to the coffin of Charles Somerset, first Earl of Worcester, and that it was buried in a vault which had fallen in, and, as the writer observed, was never likely to be beheld by mortal eyes again. This manuscript is upwards of one hundred and fifty years old, therefore it may be imagined that to find the spot where the Earls is buried was difficult enough; that, however, has been accomplished, and Mr. Woodcroft, having obtained the Duke of Beaufort's permission to open the coffin, is only waiting the necessary permission of the bishop to do so. The Duchess has signified her desire to be present.

THE LATE STORMS AND THE COTTON CROP.—*Mobile Oct.* 18.—The rumors and conjectures with reference to the amount of damage to the cotton crop by the late storms, are still the subject of much discussion.

Estimates of damage to the amount of 200,000 bales have been put forth, but they find few believers. Is well informed quarters it is believed that the only loss the crop will sustain will be confined mainly to the quality of the cotton, which, in many localities, will be found to be considerably impregnated with sand—a mishap that will render good cotton scarce. The actual yield of the crop is put down in close calculating quarters at not far from four and a quarter million bales.

SPANISH DESIGNS ON DOMINICA.—Reliable intelligence has been received in Washington that the Queen of Spain has sent out regular officials to take possession of the Dominican Government. Spanish war steamers have been sent, large corps of military officers and political engineers, including professors and artizans, to the number of one hundred, to take charge of the army, the schools, the pulpits, the manufacturing privileges, and the mines of the Republic. A press has been established to advocate the glory of the Spanish rule. Spain flushed by her success in her recent wars, is extending her dominions wherever there is an inch of territory open to her insatiable grasp.
