THE PASSPORT SYSTEM IN RUSSIA.—A St. Petersburg letter gives some particulars concerning the new passport system just established in Russia:—To travel in Russia, it is not enough to be provided with a ticket for a railway or a mail, but the passport must be en regle. Hitherto the formalities for obtaining these documents and getting them vised were complicated, especially for foreigners; but several of these formalities have been abolished. The new regulations adopted, which, however, are only provisional, are these: Every foreigner, coming into Russia, by mail or railway, is relieved from the obligation of exhibiting his passport at his great towns through which he passes, but must do so on arrival at his destination. There, on the presentation of the document, which must bear the visa of a Russian legation or consulate, a permission to reside, valid for a year, and costing two rubles (6f.), is to be given to him. To return to his own country, he will have to present his permit at the office of the government of the province, accompanied by a certificate of the police, declaring that he has no debts, and that no legal obstacle to his departure exists, and then a new passport will be given to him. Persons coming by sea, on commercial business, and not staying for less than a fortnight, will not be required to obtain a Russian passport, but will have permission to reside inscribed on that they bring."

ARSENIC EATING.—Dr. Charles Heisch has recently been making investigations into the disputed question of arsenic eating in Syria, regarding which it is so difficult to obtain information, as the greatest secrecy is observed by the arsenic eaters. They obtain it in an illicit manner from the Tyrolese, as it is difficult to procure it otherwise, the law prohibiting its purchase without a Doctor's certificate. But Dr. Heisch has now settled beyond further dispute that arsenic is really eaten by the Styrian peasantry, and that, too, in most incredible quantities. One person who confessed to its use, commenced with three grains per diem, a dose we should consider fatal—and gradually increased it, till now, in his forty-fifth year, he takes twenty-three grains of pure white arsenic in his coffee daily. The complexion is said to be much improved, and the countenance made to appear exceedingly juvinile by the use of this potent drug. The woodmen and hunters of the Tyrole also take it to improve their wind and prevent fatigue. As a rule, the arsenic eaters are very long-lived, but invariably die suddenly at last. The effects of leaving it off, when one is once habituated to its use, almost equal in horror those which De Quincy narrates as the result of his leaving off opium.

GENERAL LAND OFFICE.—A proclamation has been issued by the President for the sale in June next, of about three and three-quarter millions of acres of public lands in the State of California. This proclamation embraces some of the best agricultural lands in the State, in the valleys of the San Joaquin and Sacramento rivers and their tributaries, with an ample supply of water and timber, soil of the best quality, and capable of producing almost every variety of crops. Tobacco, maize, rice, &c., flourish in the lateral valleys, while in the main valleys the cereals produce most extraordinary crops. The grasses are luxious and all, or nearly all, of the fruits and vegitables of the temperate zone thrive admirably.

A BAD MAN.—William E. Johnson, alias McNaire, convicted of bigamy in Nansemond county, Virginia, has been sentenced to four years in the State prison. It appears that the career of McNaire has been various. He had served two years in the same institution before his last conviction, for grand larceny in Lynchburg. He was set free fifteen months ago, since which time he has married two wives, stolen two horses in Bertie, North Carolina, attempted to commit a rape at Gatesville, in the same State, and received a lynching from the citizens, served a term in jail for assault and battery, and perpetrated various other offenses of minor nature.

THE FLOYD GUN.—The experiments at Old Point with this monster piece of ordnance have been most satisfactory. It is by far the largest ever cast in this or any country. It will cripple, hopelessly, at a single shot, any hostile ship, no matter how large or strongly built, that may venture within a mile of its enormous muzzle. It weighs independently of the carriage, 49,099 pounds, and its cost was something over $10,000. The bore is sixteen inches in diameter, and fifteen feet in depth. The solid shot weiging four hundred and fifty pounds.

A CITIZEN OF BERLIN, Prussia—a man in comfortable circumstances—is periodically attacked with a desire to knock off hats. He afterwards makes up the loss to the astonished victim of this strange fancy by the payment of three thalers. According to the calculation of his family, in the past year he has been obliged to make good the loss of two hundred and sixty-seven hats. At a recent musical festival, fifty-three hats were sacrificed to this curious frenzy, and, for the evening's entertainment, he paid a hundred and fifty-nine thalers.

A Gentleman from St. Louis has gone into the business of shipping cabbages to New Orleans by railroad. He is packing in hogsheads, which are well vetilated by holes cut in the sides. Each hogshead holds on an average, about one hundred and fifteen cabbages. We learn he intends to ship about 40,000 heads.

THE Metropolitan free drinking fountains of London are effecting much for temperance. One hundred have already been erected. These fountains are really a most admirable and benevolent device, and ought to be introduced into all our American cities without delay.

THE people of Windham, Vt., and the region there about, were in their sleighs on Monday last, the snow being five or six inches deep.

THERE is a movement at Mobile to erect a monument to Gen. Wm. Walker.

☞ TO ADVERTISERS.—The Pittsburgh DAILY GAZETTE has a large circulation among the business men in this and the surrounding cities—among those who BUY and who SELL—and among country farmers and producers. It may be found in nearly all the counting rooms, store houses, banking houses, hotels, factories and commission houses in the two cities, where it is read and considered home to the families for perusal. As a medium for advertising, therefore, it offers inducements which no other paper in Western Pennsylvania can offer, to sell who desire to reach the large class of our citizens. The WEEKLY GAZETTE of late time has a much larger circulation in Western Pennsylvania, Ohio and Virginia, among substantial farmers and merchants than any other secular paper in this section of the State.

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to the large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, FISTULAS, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY
DR. J. C. AYER & CO.
LOWELL, MASS.
Price, $1 per Bottle; 5 Bottles for $5.

Ayer's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; 5 Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.
