ALL THE VIRTUES OF ELECTRICITY AND WATER COMBINED.

DR. W. W. KARSHNER'S ELECTRIC BATHS.

PATENTED JAN 25 1859

Fig. 1. Fig. 2.

THE above cut is a representation of DR. KARSHNER'S POSITIVE AND NEGATIVE ELECTRO-THERAPEUTIC BATHS, for which he has obtained letters patent from the Patent Office of the United States. These Baths have been in successful operation for the last two years, in many of our principal towns and cities, during which time hundreds of patients have tested their astonishing powers with signal success. Dr. K. challenges the entire medical world to produce any one system or combined set of systems, that will cure as many diseases, and in as short a time, as his Electric Baths alone, when rightly administered. The scientific minds of all professions are cordially invited to call, examine and test for themselves.

The duration of each Bath, the temperature of the water, and the strength of the electric current, are varied according to the disease, the condition of the patient at the time, and the effects desired. The water is above blood heat, and the electricity so graduated as to produce nothing but pleasurable sensations.

There is no class of Diseases, either Acute or Chronic, to which they are not adapted—which do not yield at once to their all pervading and health-restoring influences. The aged and decrepid have been led, voluntarily, to testify their joy, in many years restored, and short letters than they had done for years. Others have been cured of painful diseases in a few Baths.

Nor do their healthful effects seem to be confined solely to the physical man; they have an equally happy influence upon the mental faculties, making them a most efficient means in the treatment of Insanity and all abnormal mental conditions.

Among the diseases successfully treated by Dr. K.'s Baths are: Impotent Consumption, Scrofula, Paralysis, Epilepsy, (Fits,) Neuralgia, Delirium Tremens, St. Vitus' Dance, Curvature of the Spine, Rheumatism, Mercurial Diseases, Weakness in the Back and Joints, Nervousness, Nervous Head Ache, Asthma, Bronchitis, Catarrh, Weak Eyes, Partial Blindness, Dyspepsia, Gravel and other Urinary and Genital Diseases, Falling of the Womb, Leucorrhœa, and other Female Complaints, Fever and Ague, &c., &c.

These Baths are in successful operation at

THE NEW YORK DAY BOOK says:

"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Oils, and the numberless preparations which are now before the public under such catchy, pretty, poetical and fantastic titles as we see paraded in show window cards, and newspaper headings for their preparations, are all humbugs of the first water; their real merit, from their possessory, is, that they do no harm. HOG'S LARD, WILLOW OIL, LARD OIL, and BEAR OIL, scented and colored, make up, when in beautiful wrappers and white flint glass bottles, the costliest character of tonics; and when thus costly, are beguiled with some delightful name, and caught at by verdant young and old of both sexes. Such is not the character of Professor Wood's Hair Restorative. This gentleman comes before the world without any "high falutin'," Xiophiliorium, or any other astounding and startling catchpenny name, but simply advertises a *Hair Restorative*—what it expresses precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you salute your scalp, eye, your very brains, hope, happiness, &c., &c., so may you be blessed with luxuriant hair, and ringlets that make the heart leap. Sold at No. 114 Fulton street, New York, and by all Druggists and Fancy Goods Dealers throughout the United States. A sample can be had gratis at the Office of this Paper.

ELECTROPATHY!

PROFESSOR A. S. GREGORY and J. GOUCHER, M. D., have associated themselves together in the practice of their profession, the curing Electropathy and Electricity with

MEDICAL DEPARTMENT.

They have their establishment supplied with a new set of ELECTRIC BATHS, which are superior to any now in use. The water used is of such a temperature, and the electric currents are so regulated, that the patients, in receiving the benefit of these remedial agents, experience no unpleasant sensation. This system of treatment is among the safest, most effectual and least objectionable; it equalizes the circulation, soothes nervous irritation, and restores a healthy balance to disordered functions. The medicine prescribed will be compounded and put up at their office, under the immediate care of Dr. GOUCHER, who has had twenty years experience in treating disease.

The following are some of the diseases that yield to their treatment:

Palsy or Paralysis, Incipient Consumption, Rheumatism, Sores, Such Acute and Chronic; Neuralgia, Headache, Torpid Liver, Bronchitis, Catarrh, Asthma, Weakness and Curvature of the Spine, Sarbulus, Dyspepsia, Deafness by Paralysis, Ringing in the Ears, Amaurosis, Cataracts, Weak Eyes, Erysipelas, Spasmodic Retention of the Urine, St. Vitus' Dance, Chalic, Sick Rheum, Prolapsus Ani or Piles, Female Weakness and Irregularities, General Debility, Derangements of the Nervous System, Stiff Joints, all Diseases of the Bowels, Fever and Ague, and Fistules, invariably Cured without the knife.

In addition to their office business, they purpose attending to a GENERAL PRACTICE. All calls in the city and vicinity receive prompt attention. Letters containing stamps for postage will be attended to immediately, and if treatment is required, FIVE DOLLARS must be enclosed, for which they will send medicine to any part of the United States.

FRIDAY MORNING, NOV. 2.

A REMARKABLE ARTICLE.

Read, Douglas Men Read!

[From the St. Paul Pioneer and Democrat.]

We are daily in receipt of letters from political friends, filled with anxious inquiries concerning the present state of the Presidential question, and desiring an expression of our views to the probable influence of the election of the Ninth upon the prospects of candidates, and with reference to the various platforms of principles really at issue before the people, and which are to be practically decided at the polls. We do not hesitate to respond to these inquiries, and the less so because it is a part of our duty to treat of such matters, candidly and frankly, even in the absence of friendly solicitation.

In the first place, then, we think the result of the elections in Pennsylvania, Ohio and Indiana, demonstrate beyond all reasonable ground for doubt, that those States, will go for Lincoln in November, *and by vastly increased majorities.* The disgusting corrupt schemes of fusion which was entered into, partially in Ohio and Indiana, and completely in Pennsylvania, has been repudiated by the people of those States, emphatically and justly. Is cannot be assumed that the people of other States in which the canvass has been made up accordingly to the fusion programme, will act with any less honesty and intelligence, when the time comes for them to vote. We think therefore, that New York will follow in the wake of her sister Middle States, with a majority of from *one to two hundred thousand* against the fusion contrage; and we think, further, that the people of that State will vindicate their reputation for moral honesty and political decency by such a note. And, inasmuch as the poisonous influences of this Fusion Upas has been extended beyond the States in which it was planted, demoralizing the Democracy, destroying their hopes and paralyzing their efforts, we cannot believe otherwise than that the *whole North* will go for Lincoln—rendering the vote of the free States, for the first time in our history, purely sectional in its character.

In the second place, we think the influence of the elections of the Ninth will be to sectionalize the vote of the South. The South must view the results in Pennsylvania, Ohio, and Indiana, as determining the election of Lincoln. The natural impulse of the Southern mind will be to meet Northern radicalism with the radicalism of its own section. There is not time enough left to organize a new conservative movement in the South of sufficient strength to combat and conquer the sectional passions, which, already excited, will be inflamed to madness by the elections of the Ninth. The friends of Douglas will not work there with any heart, because they cannot look for a Northern response in a solitary, electoral vote. The South cannot unite on Bell, because running on no distinctive platform, support of him would mean nothing and determine nothing. We may therefore look to see *every Slave State go for Breckinridge.*

If these premises are correct, Douglas, and the principles which he represents, are, practically speaking, *no longer at issue* in this campaign. The canvass is reduced, by indications which are prophetic both in their tenor and force, to a contest between *Lincoln and a Free Code* on the one hand, and *Breckinridge and a Slave Code* on the other. This is a result which all who cherish the peace and harmony of the Union must deplore, but, deplorable or not, it is a plain fact, which cannot be gainsaid or obliterated, and which should, therefore, be looked at and acted upon as such, frankly and unflinchingly. It is being a fool, the voice of the North, in the expression of its sentiments at the polls, will neither be feeble nor uncertain. *A million majority* will show the fidelity of the Northern masses to the instincts of their section, when these are appealed to by an issue which cannot be avoided or delayed.

The Northern Democrasy are not responsible for the sectional character which the canvass has assumed. It has been precipitated by the circulars of the South. Taking its birth in the jealousies of Southern politicians against the manliest statesman of our times, the movement has grown up from its ignoble beginnings in personal hate to its present proportions of warfare upon civilization and treason against the State. They who have thus sown the wind must reap the whirlwind. The circulars of the South must be extirpated. Until this is done there can be neither national peace nor national posterity. We had hoped this might be achieved through the agency of Douglas, in the present campaign. *That hope has vanished.* Yet, regarding it as the first great act needful to be done, we shall greet its accomplishment with satisfaction through *any agency* that Providence may appoint.

"PETER'S PENCE"—Among the foreign news brought by the Asia is the statement that the Pope is claiming "Peter's pence" from all the faithful, having already expended the 1,600,000 crowns contributed by the faithful throughout the world. The "Peter's pence" is not a voluntary contribution, but a direct tax levied on every household throughout the country placed under contribution. It is supposed to have first originated in England, and was for centuries paid as tribute money from a subject province to the Central Roman Catholic power at Rome. At one time it amounted to a penny on every house and an another to a penny in every family power owned by the head of the family. It was recognized by the Norman laws of William the Conqueror was discontinued by Edward III, but afterwards revived, and only terminated by the rupture of Henry VIII with the See of Rome. "Peter's pence" were paid by France, Poland, and other realms, but for a long period the tribute has not been claimed. Its attempted renewal at the present time is the assertion of claims that were disputed even during the mediæval ages, and it will be curious to see how the Roman Catholics in this country will act in the matter. Will they virtually renounce their citizenship in the United States, by paying a tax imposed on them by a foreign potentate or will they meet this' arrogant demand with the answer of Louis of France. "Am I Rome's slave?" —*Chron. Her.*

PERSIAN PARABLE.—In the Bostan of the famous Persian poet Saadi, there is a story which seems an echo of the evangelical history. Jesus, while on earth, was once entertained in the cell of a monk of eminent reputation for sanctity; in the same city dwelt a youth sunk in every sin, "whose heart was so black that Satan himself shrank back from it in horror." This last presently appeared before the cell of the monk and said, as smitten by the very presence of the Divine Prophet, began to lament with tears his sins of his past life, and to implore pardon and grace. The monk indignantly interrupted him, demanding how he dared to appear in his presence and in that of God's holy prophet; assured him that for him it was in vain to seek forgiveness; and in proof how inexorably he considered his lot was fixed for hell, exclaimed, "My God, grant me but one thing: that I may stand far from this man on the judgment day." On this, Jesus spoke: "It shall be even so: the prayer of both is granted. This sinner has sought mercy and grace, and has not sought them in vain—he sins are forgiven—his place shall be in Paradise at the last day. But this monk has prayed that he may never stand near this sinner—this prayer too is granted: hell shall be his place; for there this sinner shall never come.—*Transl.*

THE Louisville Democrat says that "as Yancey was coming down in the cars from Frankfort, a collection of four or five wags had assembled at one of the depots, who cried [costly] Yancey! Yancey! Yancey! A satisfied smirk spread the visage of the arch-agitator at the demonstration, and a gentleman who had been seated with him arose and stepped out to the platform, not to speak, but to listen. He was mistaken for Yancey, and a negro-trader, like the one denounced bellowing of a park of artillery, bawled out, 'Here he is, boys; bring along the rope to hang him.' The gentleman, rather amazed at the mistake, but not desirous of having it corrected any further, retired into the car."

THE *Evening Post* thinks Rome must necessarily be the capital of United Italy, from the fact that it is the only city the selection of which will give rise to no jealousies. The people of all parts of Italy look to Rome with love and veneration. It is a curious fact—and one which we have seen noticed in no book of Italian travels—that almost all the towns of Italy, from the Lombard city to the little Tuscan village, have a "Roma gate," that entrance to the place which looks towards the Eternal City being known as the "Porta Romana." This is practicle and at the same time a poetical proof of the allegiance which all Italians have for the "lone Mother of dead empires."

THE census takers are calculating it up all hands. In 1850, Columbus polled 1858 votes, and had a population of 17,882. In 1860, the city polled 3246 votes, and has a population of 18,658. Increase in votes 1392; increase in population 756. During the ten years, 770 new buildings have been erected. This discrepancy is easy enough accounted for; all the boys of 1850 have grown up to be voters, got married and moved into their own houses, while nobody has been born there since!
