ELECTROPATHY.
PROFESSOR A. S. GREGORY and J. S. GREGORY, M.D., have discovered a new and powerful method of treating all diseases of the nervous system, such as Paralysis, Insanity, Epilepsy, &c., by the application of electric currents to the affected parts of the body. This method is simple, safe, and infallible, and has been successfully used in many cases where all other remedies have failed. The following are some of the diseases that can be cured by this method: Paralysis of the face, arms, and legs; Insanity; Epilepsy; Hysteria; Rheumatism; Neuralgia; &c. The treatment is performed in the following manner: The patient lies on a table, and the electric current is applied to the affected parts of the body. The current is gradually increased until it produces a tingling sensation, and then it is continued for a few minutes. This treatment is repeated several times a day, and the patient is kept in bed for a few days after each treatment. The following are some of the testimonials of patients who have been cured by this method: "I have been cured of my Paralysis of the face, arms, and legs, and I am now able to walk and do my usual work." "I have been cured of my Insanity, and I am now a sane and happy man." "I have been cured of my Epilepsy, and I have not had a seizure since I was cured." "I have been cured of my Hysteria, and I am now a healthy and happy woman." "I have been cured of my Rheumatism, and I am now able to walk and do my usual work." "I have been cured of my Neuralgia, and I am now free from all pain." These testimonials show that this method is a powerful and reliable one, and it is well worth trying in all cases of disease of the nervous system. The following are the names of the patients who have been cured by this method: J. S. GREGORY, M.D., and A. S. GREGORY, M.D., are the authors of this method, and they can be consulted at their office, No. 100 North Second Street, Pittsburgh, Pa.
