Amusement a Preventive to Crime

A very sensible enterprise has lately been originated in New-York, which has for its object the attracting of the lower classes of the German population to more profitable places of amusement than the dance houses. Some of the wealthier Germans, who until lately have employed themselves merely in making money, shocked at the number of young German girls who are drawn into vice—and understanding well that at first the most of them seek comparatively innocent places of resort, simply for amusement, and to get away from dismal homes determined to raise up an institution that would supply the place of the dance house. Accordingly a "Social and Industrial School" was opened in the eastern part of Grand-street, amid the densest mass of the German population. Here, in pleasant, comfortable rooms they can meet and enjoy socially, and by the help of books and innocent games find that agreeable relaxation from labor which they crave.

The enterprise has proved quite successful. For those ambitious to improve their minds, regular school instructions has been provided. For the rest, songs and games have been the attraction.

One of the most sensible features of the plan is the devoting Saturday evening—that leisure time when this class is most exposed to temptation—entirely to games and other amusements. It is pleasant to see business men employing that common sense which they make such extensive use of in their mercantile affairs in the work of checking vice. Here, again, we find illustrated that great truth which is conveyed in the fable which relates the successive endeavors of the wind and the sun to make a man take his cloak off. It is nonsense to try to drive people into right courses when you can attract them into their right channel much easier.

The most hopeful signs of these times are not those attempts at reform which embody any compulsory processes, but those which induce spontaneous action in the right direction. Our Puritan fathers tried the compulsory style, and it did very well for a while. But it is evident men show their approach toward a normal condition only in so far as they show themselves to be doing right for the love of it. We care not how proper courses are made attractive to the multitude so that the thing is done. It is always hard enough to adhere to the path of rectitude—there will always be opportunity enough for the exercise of self denial and all heroisms no matter how pleasant the path of duty may be made; and we may be sure that it has got to be made much more attractive to the class mentioned than it has been before the majority of them will cleave to it. What nobler work then can any one engage in, than the endeavor to make duty and labor attractive? We force evil disposed persons into penitentiaries, and they usually come out folly determined to follow their old ways. But if we can show them a right life that has infinitely more pleasure connected with it than any wrong life, they will gladly seek.

Observe the fact above stated with regard to the mode of spending Saturday evening that is adopted in the "Social and Industrial School." However some might repine at the idea of letting such an opportunity of promoting the eternal welfare of immortal souls slip, the idea of spending the evening in a round social game is certainly the best that could be adopted. All the most sumptuous parlors should be furnished for these poor souls, with the proviso that they should sit there decorously and listen to any kind of instruction; they would sicken of the whole affair.

The same course should be pursued with all sorts and classes of those prone to evil habits. Try, by all means, at first, to win them over by advice, tracts and preaching; but if these are only partially successful, by no means omit to try the effect of a slight coat of sugar on the pill, before concluding that the patient will not swallow it.—[Phila. Bulletin.

☞ To Advertisers.—The Pittsburgh DAILY GAZETTE has a large circulation among the business men in this and the surrounding cities—among those who BUY and who SELL—and among manufacturers and producers. It may be found in nearly all the counting rooms, store rooms, banking houses, hotels, factories and commission houses in the two cities, where it is read and carried home to the families for perusal. As a medium for advertising, therefore, it offers inducements which no other paper in Western Pennsylvania can offer, to all who desire to reach this large class of customers. The WEEKLY GAZETTE at this time has a much larger circulation in Western Pennsylvania, Ohio and Virginia, among substantial farmers and merchants than any other secular paper in this section of the State.

☞ THE DAILY GAZETTE is the oldest Newspaper in the West, and having an extensive circulation amongst the business men, and reaching all classes, it is the best medium to advertisers at the best and lowest through which to reach the public.

☞ THE WEEKLY GAZETTE is issued every Wednesday and Saturday, on a large blanket sheet, and contains in addition to the news of the week, a carefully prepared and reliable report of the Markets, commercial and monetary affairs—making it the best Commercial Newspaper in the West

TERMS:

DAILY—Six Dollars per annum, payable in advance, or 12½ cents per week, payable to the Carriers.

WEEKLY—One Dollar per annum, payable in advance.

A copy sent free to persons who get up a club exceeding ten.

☞ Advance payments are strictly required, and no paper will be sent after the time is up to which it was paid.

D R. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by Combination in Hydrogen. Prescribed by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and other sickly complexions indicate its necessity in almost every conceivable case. Labor, one in all casualties in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Rheumatism, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have been forgotten by their own neighborhoods, have suddenly re-appeared in the busy world like if just return from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, retinal change, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and no remedy familiar to medical men, the operation of this preparation of iron may necessarily be salutary, for, unlike the old calomel, it is vigorously tonic, without being exciting and vermifuge; and gently, regularly aperient, even in the most confirmed cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably efficient and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In dyspepsia, insomnia so are its causes, a single box of these Chalybeate Pills has often suffered for the most habitual cases, imitating the stimulant Costiveness.

In unchecked Diarrhœa, even when attended to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and exudation of hectic, which generally indicate Incipient Consumption, this remedy has alleged the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known inhibitions.

The attention of families cannot be too confidently invited to this remedy and restorative, in cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—as the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it cannot necessarily be a great remedy and sanative restorative, and its progress in the new settlements of the West, will probably be one of high success and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

For sale by all druggists, in small boxes, containing 50 pills; price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood by which this fluid becomes tainted, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing sices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To eradicate it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the fosente of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Erupitve and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pustule, Pimples, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis to American Almanacs containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and various kindred complaints*, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
