(Written for the Daily Pittsburgh Gazette.)

WORLDWARD.

A SERIES—NO. IV.

From house and its appurtenances, and thy friends,
Thou goest, worldward! thy gaining fain seemeth
For all thy losing!——Daylight of To-day!
That wist, those carpet to answer show! The ends
Of the earth, and its, and time, must all betray
Their secrets, ere such answer could be given!
I exercised, therefore, only that I might
The better, turn point up from earth to heaven—
Point out of darkness up the paths of light;
Meanwhile take thy purpose to delay?
Delay! Far from it! Our most frequent words
Of faithful counsel are—but life stands
Back! Has enough to live, without delay!
If, then, thou hast not thy race to go—and will—
Hurry, 'tis better—yes, 21st say, 'tis best—
To go at once—and take the nearest way
To find the ground whereon is to be built
Thy work in life. For wherefore should I say
Ev'n one diametric word, to take the zeal
From action with the cameras of delay?
Vanish! How need I even find a word,
Or try to find one, to command delay?
For such a purpose—no, not ev'n a word!
Pittsburgh, 1850. (J. H. MAGATH.

RELIGIOUS INTELLIGENCE.

—We learn from the fourteenth annual report of the American Missionary Association that the cash receipts have been $56,092 33, and the expenditures $57,338 13. Six thousand acres of land have been received as part of a legacy. Rev. Mr. Green, from the Sandwich Islands, Mr. Rankin, from Africa, and Messrs. Worth and Rogers took part in the discussions. The following resolution was passed:

Resolved, That a committee be appointed to investigate and report at the next annual meeting as to the propriety and possibility of sending families into different parts of the evangelized world, in the expectation that, by their own labors, they will support themselves, while by their words and lives they may do much to elevate and Christianize the people.

—Rev. Mr. Fische, of Paris, at the meeting of the Managers of the American Bible Society, held at New York, in behalf of the French and Foreign Bible Society, made an interesting statement concerning the demand for the Holy Scriptures in France, and facilities for circulating there.

—The London News of the Churches contains the following statement of theological faculties in Prussia:

"The theological faculties of Prussia of the six universities had, during the last session, fifteen hundred and forty-two students under training; this number, reported by German journals, includes, we suppose, Roman Catholics."

—Six missionaries left Boston for India, to reinforce the Methodist missions in that country, in the ship Sea King, on the 30th ult.

—On Sunday, the 14th ult., the Rev. Mr. M'Neal, a Presbyterian minister, fell dead while preaching in the Brick Church, near Statesboro', in the southern portion of Dallas county, Alabama. It is supposed it was from a disease of the heart.

—The "American Baptist" says that of the thirty-one Baptist Associations in England, not one has suffered a decrease the past year, and all but one have had an increase. In 1,024 churches, there has been a gross increase of 17,651 members.

—The South Western Presbyterian Church in Philadelphia, with their pastor, Rev. James McCaskie, obtained a dismission from the (O. S.) Presbytery, and united with (N. S.) Presbytery of Philadelphia.

—Rev. C. W. Hodge was inaugurated Professor of New Testament Literature and Biblical Greek in the Princeton (Presbyterian) Theological Seminary, New Jersey, on the 1st instant, made vacant by the death of Dr. J. A. Alexander.

—The anniversary of the Missionary Society of the M. E. Church will be held in Cincinnati, Ohio, on the 16th of December. The General Missionary Committee, composed of the Board of Bishops, ministerial representatives from the Church at large, and representatives (lay and clerical) from the local Board of the Parent Society at New York, met in that city, on the 16th, for the purpose of making the annual appropriation for the support of the Foreign and Domestic Missions of the Church.

—The assistant editor of the *Landmark Banner and Cherokee Baptist*, maintains that the washing of feet was designed to be a religious observance, and ought to be practiced *now*.

—The Oregon Conference of the United Brethren Church took action on the subject of divorce, requiring that all cases of divorce and re-marriage of church members unto accordance with the Word of God, will be regarded as sufficient cause for disciplinary action.

—The Centennial Anniversary of St. Paul's Episcopal Church, Philadelphia, was observed on the 4th inst., in the most solemn and appropriate manner.

—The *Scottish Guardian* says that intelligence has been received of the sudden and unexpected death of the Rev. Dr. Ewart, a distinguished Indian missionary of the Free Church of Scotland, at Calcutta.

—Rev. H. Grattan Guinness, Scotch Presbyterian, of Liverpool, England, recently joined the Baptists and was immersed. He was married on the 2d inst., to Miss Fitzgerald, a neice of Lord Fitzgerald. This minister held a series of religious meetings in the First Presbyterian Church about a year ago.

—The *Churchman*, the organ of the High Church Episcopalians, says *Zion's Herald*, has a severe article upon Rev. Dr. Tyng, for having assisted in laying the corner stone of a Methodist Church, and for having appeared in the pulpit of a Presbyterian Church as a participant in the proceedings of the Evangelical Alliance. It calls upon Bishop Potter to enforce the laws of the Episcopal Church against him.

—It is said the change from Idolatry to Christianity in the Sandwich Islands is so great that the King (whose father was a savage heathen) never saw an idol until he saw one in the museum of the Mission House in Boston.

SAVING AND USING ROUGH FODDER.—The last issue of the Rural Register thus remarks upon this timely topic:

The coarse material which every farm supplies, in greater or less quantities, may, by proper management, be turned to good account.—Coarse hay, made from swamp grass, and straw, the buts of cornstalks, and various other articles which nearly every farm produces, contain more or less nutritious properties, and are available for food. The practice of foddering cattle with these articles in their crude state, or scattering them on the ground from the stack-yard, compelling the animals to eat them or starve, is wretched policy. They would answer an indifferent better purpose for bedding or manure. The best and only true plan of rendering the above named articles valuable as fodder is to pass them through a straw-cutter; cutting them as finely as possible, and then mixing a small quantity of Indian meal with cut feed, by which means nearly the whole of it will be eaten; the coarse parts giving bulk to the feed and the finer parts furnishing nourishment. The process of steaming or boiling this sort of food will make it still better, by softening the coarse, hard stalks and straw, and enabling the animals to digest them more readily. The steaming of food is becoming a more common practice among farmers than formerly, the advantages arising from it having been clearly demonstrated. A little attention to the preparation of the odds and ends of the farm, while it lengthens out and saves the winter's supply of fodder, also turns to a useful account many a coarse article which has been annually wasted, even among what are denominated good farmers.

When meal is not to be had, and the steaming apparatus, or a large boiling kettle is not available, it answers a good purpose to mix sliced roots, turnips, carrots, beets, parsnips, &c., with the short, cut fodder. This mixture is highly relished by cattle; and they will thrive on it if the root and straw-cutters have thoroughly performed their work.

There are several advantages to be derived from an observance of the above hints. The additional fodder which is thus secured enables the farmer to keep his stabled animals full fed from the setting in of winter till the commencement of the grazing season in the spring; and the system will materially increase the size of the manure heap, and thus add to the value of the farm.

To Advertisers.—The Pittsburgh Daily Gazette has a large circulation among the business men in this and the surrounding cities—among those who are and who will soon—among manufacturers and producers. It may be found in nearly all the counting rooms, store houses, banking houses, hotels, factories and commission houses in the Atlantic cities, where it is read and carried home as the families for perusal. As a medium for advertising, therefore, it offers fundamental which no other paper in Western Pennsylvania, Ohio and Virginia can offer, to all who desire to reach this large class of our citizens. The WEEKLY GAZETTE of this kind has a steady, large circulation in Western Pennsylvania, Ohio and Virginia. Advertisers will find it to their interest to advertise in one or both of these papers.

FLOUR—Choice brands for Family use, at 114 Second st. GRAFF & VAN GORDER.

Executors of Charles Brewer, Deceased.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, purify, cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints*, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DOLLAR SAVINGS BANK

No. 65 Fourth Street.

CHARTERED IN 1855.

OPEN DAILY FROM 9 TO 2 O'CLOCK, also on Wednesday and Saturday evenings, from May first to November first, from 7 to 9 o'clock; and from November first to May first, from 6 to 8 o'clock.

Deposits received of all sums not less than one Dollar, and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually, in June and December, since the Bank was organized, at the rate of six per cent. a year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year with out requiring the depositor to call or even present his pass book. At this rate, money will double in less than 12 years, making in the aggregate EIGHT AND ONE HALF PER CENT a year.

Books containing the Charter, By-Laws, Rules and Regulations furnished gratis, as applied for at the office.

President—GEORGE ALBERT.

Monetary.

DOLLAR SAVINGS BANK

No. 65 Fourth Street.

CHARTERED IN 1855.

OPEN DAILY FROM 9 TO 2 O'CLOCK, also on Wednesday and Saturday evenings, from May first to November first, from 7 to 9 o'clock; and from November first to May first, from 6 to 8 o'clock.

Deposits received of all sums not less than one Dollar, and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually, in June and December, since the Bank was organized, at the rate of six per cent. a year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year with out requiring the depositor to call or even present his pass book. At this rate, money will double in less than 12 years, making in the aggregate EIGHT AND ONE HALF PER CENT a year.

Books containing the Charter, By-Laws, Rules and Regulations furnished gratis, as applied for at the office.

President—GEORGE ALBERT.

VICE PRESIDENTS:

Hopewell Hopkins, James Shields, James D. Kelley, Robert Robb, Isaac M. Fenlock, Gill Darragh,

John H. Shoenberger, Alexander Bradley, James Hailman, A. H. Childs, M. D. William S. Lovaley, William Eichbaum.

TREASURER:

John R. McFadden, J. S. Hadden, John H. Mellor, James M. D. Steele, James McAnulty, Walter P. Marshall, Wilson Douglass, John Orr, Henry L. Hogsett, John D. Scully, William B. Schmertz, Alexander Thode, Thomas Bakewell.

Secretary and Treasurer—CHARLES A. COLTON
