ELECTROPATHY

PROFESSOR A. S. GREGORY and J. GOUCHER, M. D., have associated themselves together in the practice of their profession, thus uniting Electropathy and Hydropathy with a

MEDICAL DEPARTMENT.

They have their establishment supplied with a new set of ELECTRO BATHS, with ice supplied at any hour in the day. The water used is of such a temperature, and the electric currents are so regulated, that the patients, in receiving the benefit of the treatment, are not subjected to any unpleasant sensation. This system of treatment is among the safest, most effectual and least objectionable; it equalizes the circulation, soothes nervous irritation, and restores a healthy balance to disordered functions. The medicine prescribed will be compounded and put up at their office, under the immediate care of Dr. GOUCHER, who has had twenty years experience in treating diseases.

The following are some of the diseases that yield to their treatment:

Palsy or Paralysis, Incipient Consumption, Rheumatism, both Acute and Chronic; Neuralgia, Headache, Torpid Liver, Bronchitis, Catarrh, Asthma, Weakness and Curvature of the Spine, Scrofula, Dyspepsia, Deafness by Paralysis, Ringing in the Ears, Amaurosis, Cataract, Weak Eyes, Erysipelas, Spermatic Retention of the Urine, St. Vitus' Dance, Colic, Salt Rheum, Prolapsus Ani or Piles, Female Weakness and Irregularities, General Debility, Derangements of the Nervous System, Stiff Joints, all Diseases of the Bowels, Fever and Ague, and Fistula, Scarlet Gout without the Rash.

In addition to their office business, they propose attending to a GENERAL PRACTICE. All calls in the city and vicinity receive prompt attention. Letters containing stamp for postage will be attended to immediately, and if treatment is required, PILL BOXES must be sent, and, for which they will send medicine to any part of the United States.

OFFICE HOURS, FROM 7 A. M. TO 9 P. M.

OFFICE—No. 85 GRANT STREET,

se17-3dawtf opposite Court House, Pittsburgh, Pa.

Quack Nostrums.

THE NEW YORK DAY BOOK says:

"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Restoratives, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see paraded in show window cards, and newspaper headings, as hair preparations, are all humbugs of the first water, their real merit, when they possess any, is, that they do no harm. HOOF'S LARD OIL, LARD OIL, SWAYNE'S Hair Restorative, and Coral, make up, when in beautiful wrappers and white flint glass bottles, the smallest character of temple, and when they are costly, are baptized with some trisyllable term, and caught at by verdant young and old of both sexes. Such is not the character of Professor Wood's Hair Restorative. This gentleman comes before the world without any "high falutin" Hieroglyphics, or any other astounding and startling catchpenny terms, to simply advertise a *Hair Restorative*—what it expresses precisely—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, eye, your very brains; apply nothing else; for it may be that you will get some worthless stuff recommended, but of one thing be certain, Professor Wood's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process, Restore Gray Hair to the Original Color,

Will make Hair Grow on Bald Heads,

Will restore the Natural Secretion,

Will remove at once all Itching,

Will remove all Dandruff,

Will cure all complaints of the Scalp Head,

Will make the Hair Soft and Glossy,

Will preserve the Color of Hair to old age,

Will always Restore it and stop its Falling.

And is one of the best Toilet Articles for the Hair now in use.

Manufactured by C. J. WOOD & CO., and sold Wholesale and Retail, at 444 Broadway, New York, and 114 Market st., St. Louis, Mo.

Sold in Pittsburgh by Dr. GEO. H. KEYSER, R. L. FAHNESTOCK & CO., and all Druggists. (aa9dly)

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by Hydrogen, in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexion, tend to become in almost every case, curable and reliable cure. Innocuous in all maladies in which it has been administered, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Lumbago, Consumption, Scrofulous Tubercles, Salt Rheum, Blotches and Pimples, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description can put written attestation would render credible.—Invalids are hereby solicited so to have beneficial forgotten to their own neighborhoods, have suddenly re-appeared in the busy world after ill-just return of from protracted travel to a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, or asthenic exhaustion, certain to terminate in that complication of nervous and dyspeptic aversion to air and exercise, for which the physician has no name.

In Nervous Affections of all kinds, and not unfamiliar to medical men, the operation of this preparation of Iron is truly marvellous. By restoring the blood to a healthy state, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most confirmed cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, in many cases of the most inveterate character.

In dyspepsia, innumerable as are its causes, a single box of DR. MOTT'S CHALYBEATE PILLS has often suffered for the most habitual cases, including the attendant costiveness.

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed, searching, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and manifest hectic, which generally indicate to the client Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the usual effect of the most cunningly balanced preparations of iodine, without any of their well known liabilities.

The attention of families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported. Such an alleviating path and relieving to the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it can not necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for social and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills; price 50 cents per box; for sale by Druggists and dealers. Will be sent free by mail on receipt of price. All letters, orders, etc., should be addressed to

R. ERRETT & CO.,

FIFTH STREET, ABOVE SMITHFIELD.

PITTSBURGH:

MONDAY MORNING, NOV. 19.

HAYTI AND THE EMIGRATION OF FREE BLACKS.—An era of regeneration and progress seems opening before the Republic of Hayti since the Government of President Geffard was established. From an exposition of the general situation of the Republic presented to the Chamber of Representatives on the 27th of Oct. 1860, we learn that peace in all parts has been established; that the finances are attaining a good position; that the culture of lands, long neglected through the disorders in the country, is being resumed with energy; that explorations have been made by the Government, leading to the discovery of new mines, especially coal mines; and that the Government are busily engaged in all the reforms in education and religion tending to advance the people. But the most valuable feature is the encouragement that President Geffard has been and is now extending to the free blacks and Indians in the United States and British North American Provinces to emigrate to Hayti. His offers to each family of emigrants five carreaux of fresh and fertile land, capable of growing all the fruits and staples of the tropics, which will be *gratuitously* given, on the sole conditions that they shall settle on it, and cultivate it, and declare their intentions of becoming citizens of Hayti. To unmarried men, on similar conditions, two carreaux will be granted. The Government, also, will find remunerative work for those of whose means will not permit them to begin immediately an independent cultivation. Board and lodging free of cost, will be furnished to the emigrants for eight days after their arrival in the Island. A number of other inducements, equally favorable, are offered. In Louisiana those offers have already produced effect, and the emigration of free blacks from that State has attained such importance that a steamer has been placed for the first time in the line between New Orleans and Hayti. The New Orleans *Picayune* says this emigration of their free blacks is desirable for the people of the State, and says that the same opinion is entertained in other parts of the South. Says the *Picayune*:

"Now more than ever, the condition of the free blacks in our midst is uncertain, gives rise to constant suspicions which causes annoyance, and makes their position alike painful and unsettled. Between the white master and the black slave, they are ill at ease and they cannot cease to be so. Their place is not among us. Nor are they pleased with the life of the free States; they need our Southern clime, and far from it they cannot live content; we have frequent instances of Southern free blacks emigrating to the North, and, after a few years, seeking to return to their old homes, and when the laws debarred them from entering their native State as freemen, we have even seen some prefer to become slaves rather than be shut out from their dear plantation life. Now, Hayti offers them a Southern climate, and a rich soil, fertile not only in all the products of the South, but in others too numerous to mention, that make of that Island a Garden of Eden."

In connection with this subject, the remarkable exodus of negroes from South Carolina should be noted. The stringent legislative enactments in that State made against the free negro of late years, and the John Brown raid, reducing them virtually to a state of slavery if they remained in the State, has caused this exodus. Up to Nov. 1st more than seven hundred and ninety free persons of color departed from the port of Charleston alone. Some came to this City, others made Philadelphia their destination. It would be well for these people like those from Louisiana, to emigrate to Hayti. Some of them doubtless have the means and others not. The friends of Colonization have now an opportunity for good, and it should be embraced.

LITERARY MISHAP.—Valuable works have often victims to ignorant avariciousness. The niece of Pierre Bayle, "the attorney general of the republic of letters," refused to allow the letters addressed to him by the most eminent scholars of the age to be published, because she found them useful as fuel. Mr. Warburton's servant used up a collection of old plays, many of which were unique specimens of our Elizabethan dramatists for the bottoms of tarts and lighting the fire, for which ignoble purpose the records of the Hospital of St. Cross were applied by its ignorant housekeeper; and Bishop Cowper's wife, disgusted with his studious habits, destroyed in a few moments the results of eight years labor. sometimes authors have been stolen enough to commit literary suicide. Colardeau, when dying, dragged himself to the fire, and sacrificed his translation of Tasso. Raleigh is said to have destroyed the concluding volumes of his history of the World. James Montgomery burned a novel; the composition of which had delighted the hours of his imprisonment. Moore put Byron's diary to the fire. D'Orsay did the same office for his own, which must have been worth reading; and Col. Stanhope, friend of Dugald Stewart, not only destroyed his own manuscripts, which he calculated had cost him three years of his life, but what was of considerable more consequence, burned his father's incomplete Philosophy of a Man as a Member of a Political Association, his Edinburg lectures on Political Economy, and a continuation of Encliopedia Britannica, Dissertation, unmindful of Milton's aphorism, that "he who destroys a good book kills Reason itself."

STRENGTH OF THE DISUNION STATES.—The white population of the States in which the secession sentiment is active, was followed by the United States Census of 1850, as follows:

South Carolina	264,563
Mississippi	295,718
Georgia	521,572
Florida	47,203
Alabama	426,518
Total	1,555,570

There is little less than the total population of the State of Illinois at the present time. The increase in the five States named during the last ten years, would probably give a total white population now of about 2,000,000, which is about 700,000 less than the present population of Ohio. The total colored population of those States, which certainly adds nothing to their strength should they embroil themselves in war, was by the census of 1850, 1,458,698—being nearly equal to the total white population.

The State of South Carolina, in which the secession fanatic appears to be most rampant, had a white population, in 1850, of 274,563, and a colored population of 384,984. Her present white population is about double that of Cook Co., Illinois, and about equal to that of Hamilton county, Ohio, or of Kings county, New York. The colored population of Mississippi, in 1850, exceeded by some thousands that of the whites. There are many counties in the free States which have five times as large a white population as the State of Florida.—*Chic. Trib.*

HUNGARY NEXT.—The Paris correspondent of the New York *Tribune* writes:

"Garibaldi, after having, on the 15th, reviewed the English volunteers, who, on their arrival at Naples, were at once sent to the Volturno, made on that occasion some important remarks; and, seeing there the Hungarian Legion, he turned to them, and, in a few words, expressed his thanks to the Hungarians: 'It is our duty now to take up their cause,' he said, 'as our own cause; and, when the hour of liberation strikes for this sister country, we must be ready to assist her, and by the Almighty we shall do it. Hurrah for Hungary!'"

"This sentence was spoken with a prophetic feeling, for it seems that Austria is meditating an attack upon the Legations within the next few weeks, which must lead to an outbreak in Hungary. She knows her danger, and, therefore, as we are informed by telegraph on the 21st ult., granted concessions and a constitution to Hungary. We do not, as yet, know the details of this new comedy; but Hungary wants not a constitution, she wants her constitution, and, well aware that Austria never can grant it, she wants a complete separation from that ill assorted empire."

This speech of Garibaldi and the enrollment of a Hungarian legion in the Italian army is significant of coming events.

TAKEN OF BADLY.—The Sheboygan *Journal*, a Douglas paper, seems to feel rather worse than ugly, of its yoke-fellows, over the result of the Presidential election. Hear how it rails at Mr. Buchanan and the South, for declining to support Douglas:

Well, Old Malignity and his tools, and the Southern Secessionists have done the work—defeated the Democracy and elected Lincoln. They, and they alone are responible and accountable for whatever mischief or disaster to the country comes of the result. Let the worst come—Democrats can stand it as well as their opponents.

But the South, of all others, should be the last to whine. To them belong all their heads let them be heaped thick. We have no sympathy for them. If they have slave insurrections, and rapine and murder stalk through their midst, so be it—They alone have persistently sought such a state of things.

TEXAS is a prospect that the Bell House, Columbus, will be rebuilt. The work will not be commenced before the spring.

TRANQUILIZING THE SOUTHERN MIND.—The Washington correspondent of the *Journal of Commerce* makes the following suggestion:

"The conservative men of New York might do something towards tranquilizing the Southern mind by an appeal, not to the South, but to the Republican North. Let the Legislatures of the Northern States, which have enacted laws obstruct
