THINGS IN GENERAL.

A brother of Charles Dickens is employed in the land office of the Illinois Central Railroad. He does a little in the literary line.

A DAY widow of thirty, living in Stratford, Canada, lately sued a young man of twenty-one for $10,000 damages for breach of promise of marriage. The jury gave her $300.

ONE of the proprietors of the New Albany (Ind.) Ledger, Mr. J. M. Morrison, was knocked down and robbed of $80 on his way home from the office, on Wednesday night.

IF I am about courting a girl I have but little acquaintance with, how shall I come to a knowledge of her faults? Answer: Praise her among her female acquaintances.

THE Connersville (Ind) Times, says that Nelson Trusler, one of electors, shot a superb gray eagle in the woods near Bentonville, the other day. The bird measured six feet four inches across the wings.

THE Marshal (Ind.) Republican says that two daughters of Dr. Sherman were poisoned last Tuesday by accidental use of extract of belldonna, instead of sarsaparilla. One of them died on Thursday, the other recovered.

A VERDICT of manslaughter has been rendered against a couple of spiritists, Sprague and Barnard, who killed a little child, suffering from scarlet fever, by dashing cold water and salt over its naked body. They are in jail at Sherbrook, C. W.

At Occoquan, Prince William County, Va., where a few months ago some hot-headed fellows cut down a Republican flagstaff, Lincoln received 55 votes, Bell 48, Breckinridge 51, and Douglas 1. Well done for Occoquan.

EDGAR HARPER, sentenced to be hanged on the 26th prox., at Brockville, C. W. on Friday, for the murder of his cousin Morgan Dockstader, attempted to burn the jail, two hours after sentence, by firing his bed but was prevented.

A MOOSE was struck by lightning at Fall River, Mass., on Tuesday, and shattering it in every part. Mrs. Miller was slightly burned in the face; the crockery and glass was shivered and nails and spoons melted.

THE citizens of Fort Wayne, Ind., considering the Gas Company extortionate, secretly turn on the street lamps in the daytime; and so three times as much gas is wasted as would be burned if the lamps were lighted.

CAPT. J. S. WEST, an officer in the Nicaragua army and a friend of Gen. Walker, sailed on Friday for Truxillo, Honduras, to obtain and convey to Nashville, Tennessee, the remains of the filibuster.

AT the late election, thirty young men of Danville, Indiana, who had never before voted for a President, met at the sanctum of the Ledger office and marched to the polls, bearing a banner inscribed, "Our first vote for President—Lincoln and Hamlin."

Hog cholera is prevailing again, and fatally, in portions of Harrison county, Indiana, the Argus says; and the Hessian fly is doing a good deal of damage to the growing wheat in that region. Hardly a farmer is seen but complains of its ravages as unusual for the season.

IN Clark county, Va., a vein of oil coal one thousand feet thick, has been discovered, in a mountain on Hugh's river, a tributary of the Kanawha. The coal, when put on a shovel and held over the fire, melts into oil, so that the discovery is a most important one.

ELECTRICITY, under certain circumstances, produces the same effect upon sugar as fermentation in transforming it into alcohol. M. Niepce de Saint Victor, by passing electric currents through sweet wine, rendering it more alcoholic, some of its sugar was converted into alcohol.

THE late Jacob Harr, an old citizen of Columbus, Ohio, who died on the 3d instant, bequeathed the main bulk of his estate, amounting to about $50,000, to the city of Columbus, for the purpose of forming a charity fund "for the benefit of the poor and unfortunate of the city."

On Sunday night four of the prisoners confined in the Fountain county jail at Covington, Ind., escaped from durance vile. It is thought they had been furnished with false keys. At the time of the escape the jailor was attending church. One of the prisoners, a crazy man, refused to seek liberty in flight.

AN English clergyman recently, during service, observed a gentleman in one of the pews with an open book, and exclaimed, "Shut that book." The gentleman said, "It's the Bible." The command was repeated, and an unseemly conversation occurred between pulpit and pew. At last the gentleman took up the book, and with his wife left the church.

POWER OF A BIRD'S SONG.—When we hear the song of a soaring lark we may be sure that the entire atmosphere between us and the bird is filled with pulses, or undulations, or waves, as they are often called, produced by the little songster's organ of voice. This organ is a vibrating instrument, resembling, in principle, the reed of a clarinet. Let us suppose we hear the song of a lark, elevated to the height of 500 feet in the air. Before this is possible the bird must have agitated a sphere of air 1,000 feet in diameter; that is to say, it must have communicated to 17,888 tons of air a motion sufficiently intense to be appreciated by our organs of hearing.—[Tyndall's Glaciers of the Alps.

IDLENESS NOT HAPPINESS.—The most common error of men and women is that of looking for happiness somewhere outside of useful work. It has never yet been found when thus sought; and never will be, while the world stands, and the sooner this truth is learned the better for every one. If you doubt the proposition, glance around among your friends and acquaintances, and select those who appear to have the most enjoyment through life. Are they idlers and pleasure-seekers, or the earnest workers? We know what your answer will be. Of all the miserable human beings it has been our fortune or misfortune to know, they were the most wretched who had retired from useful employment, in order to enjoy themselves. Why, the slave at his enforced labor, or the hungry toiler for bread, supremely were happy in comparison.

A HIDEOUS AMUSEMENT.—The Paris correspondent of the New York Times writes:—"There is a lot of young men of fortune at Naples, at the present moment, mostly Englishmen and Americans, who amuse themselves by going out by rail every morning to Garibaldi's quarters before Capua, and with valuable guns of long range which they have purchased for the purpose, pick off the men at the outposts of the Royal army all day and return to the city in the evening to boast of the number of game they have 'bagged' during the day. This irregular warfare, carried on for amusement, and by men not enrolled in the army, is nothing less than assassination, and ought to be denounced as such, and arrested. It is a nice distinction to make in certain aspects, but as a moral question it is quite clear."

☞ To ADVERTISERS.—The Pittsburgh DAILY GAZETTE has a large circulation among the business men in this and the surrounding cities—among those who BUY and who SELL—and among manufacturers and producers. It may be found in nearly all the counting rooms, store houses, banking houses, hotels, factories and commission houses in the two cities, where it is read and carried home to the families for perusal. As a medium for advertising, therefore, it offers inducements which no other paper in Western Pennsylvania can offer, to all who desire to reach this large class of our citizens. The WEEKLY GAZETTE at this time has a much larger circulation in Western Pennsylvania, Ohio and Virginia among substantial farmers and merchants than any other secular paper in the section of the State.

☞ THE DAILY GAZETTE is the oldest Newspaper in the West, and having an extensive circulation among the business men, and reaching all classes, it offers inducements to advertisers as the best medium through which to reach the public.

☞ THE WEEKLY GAZETTE is issued every Wednesday and Saturday, on a large blanket sheet, and contains in addition to the news of the week, a carefully prepared and valuable report of the Markets, commercial and monetary affairs—making it the best Commercial Newspaper in the West.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. This scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in its constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This blood corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is compounded from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILIS and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action yields to them as if by magic. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, exerting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use.

When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
