KANSAS AID MEETING.—In pursuance of a call issued through the city papers, the committee of two from each ward of the cities, and two from each of the adjacent boroughs met at the Controller's office. Judge J. K. Park, of Manchester, was called to the chair, and S. Riddle, of First ward, Allegheny, appointed Secretary. Present—Messrs. J. K. Park, Adams Getty, J. Bissell, J. F. Jennings, S. Riddle, M. McGonigle, McNeal, Lindsey and Dr. A. G. M'Candless.

Mayor Wilson stated the object of the meeting, and Col. Joseph Gardner, of Kansas, gave a brief statement of the urgent necessity for prompt aid to the people of that Territory. The following resolutions was offered by S. Riddle:

Resolved, That the pastors of the various churches of the city and vicinity be requested to have collections taken up on Thanksgiving day, in aid of the sufferers in Kansas, and report the amounts so collected to an adjourned meeting of this committee, to be held in the Controller's office, on Friday, the 30th inst.

On motion of Dr. McCandless, a committee of three was appointed to prepare a brief address to the public, preceding the efforts of the Committee.

On motion, Judge Park and Mayor Wilson were appointed a committee to procure the use of Lafayette Hall; in order that Col. Gardner might address the public in regard to the condition of the Territory, on Monday evening, 25th inst. J. K. PARK, *Chairman*.

S. RIDDLE, *Secretary*.

ADDRESS.

In pursuance of instructions, the undersigned would briefly direct the attention of the public to a few of the causes which have produced the wide-spread suffering which now exists in almost every part of the Territory of Kansas.

Crops of all kinds, with but few exceptions, are an entire failure, owing to a protracted drouth of some *fourteen months'* duration. The matter who has but entered upon the experiment of frontier life, after removing from one of the older States, and perhaps expending his little capital in the purchase of a few rude but necessary implements of agriculture, and the erection of a cabin to shelter his family, is now left without food for his family, provender for his stock, or money to purchase, even if food was to be had for money.

The population of the Territory, on the first of last June, was over 100,000. At least 30,000 of this number must receive immediate aid in provisions and clothing, or die of hunger or perish from cold. The destitution is spread throughout the entire State. Aid Committees are formed in almost every township, and in every county. At a delegate convention held in Lawrence, Nov. 7, a Territorial Executive Committee, consisting of fourteen persons, was appointed, of which Gen. S. C. Pomeroy, of Atchison, is Chairman. The committee appointed to solicit aid in this vicinity, on behalf of these starving fellow creatures, will send all contributions direct to the Chairman of the Territorial Aid Committee, Gen. Pomeroy.

While we are all rejoicing in the possession of plenty, and especially while we are about to unite our voices in singing our annual Thanksgiving Anthems to the author of those bounties, shall such appeals as are now made by our brethren in Kansas be unheeded?

The gentlemen appointed as collectors will call upon our citizens at an early day to receive whatever contributions may be given them, in money, clothing or provisions. Meantime it has been recommended that the pastors of the various churches of the city and vicinity furnish an opportunity to the public on Thanksgiving Day of contributing what they will towards this cause. A. G. MCCANDLESS, *Chairman*.

U. S. CIRCUIT COURT—Judges Grier and McCandless on the Bench.

Saturday, Nov 27th, 1860.—The case of Cohen vs. The City of Pittsburgh was brought to a close. The plaintiff brought action for the recovery of $5,308, the value of coupons from the bonds issued to the Chartiers Valley Railroad Company by the city, including interest thereon, and $1,041, the value of coupons, with interest, from bonds of the second issue of the city to the Pittsburgh and Steubenville Railroad Company. The Court charged the jury this morning, and after a short absence a verdict was rendered for plaintiff for $5,214 72 in one case, and for $1,372,60 in the other.

The Court then adjourned till Monday.

COURT OF QUARTER SESSIONS—Before Judges McClure, Adams and Parke.

Saturday, Nov. 24th, 1860.—The following persons, convicted during the past week, in this Court, were arraigned for sentence:

James Harrison, lately employed as a porter in C. Yeager & Co.'s variety store, on Market street, convicted on Wednesday of the larceny of a lot of goods from his employers, was sentenced by Judge McClure to one year's imprisonment in the penitentiary.

Charles Dougherty, for stealing a lot of bed clothes from a neighbor in the Eighth Ward, was sentenced to two month's imprisonment in the county jail.

Henry Woods, convicted of larceny, on Tuesday, was sentenced to one month's imprisonment in the county jail.

Having no other business to dispose of, the Court adjourned.

CAUGHT FIRE.—Some furniture belonging to Mr. Hastage, in a room over the "Fifth Avenue Restaurant," in Morton's block, on Fifth street, caught fire on Saturday night, from some burning soot falling down the chimney on the floor, and but for an accident might have ended in a disastrous conflagration, as the wind was blowing fearfully strong at the time. Mr. Barnard, the proprietor of the above mentioned saloon, was sitting near the stove conversing with some friends, about 11½ o'clock, when suddenly the party were startled by the dropping of plastering from the wall towards the *Chronicle* building. Before they had formed any idea as to what was causing it, the flooring above partially gave way and some burning furniture fell through. The party, headed by Mr. Barnard, promptly repaired up stairs to the door of the room, and breaking it open, went in. Seeing the imminent danger of the building they tore up the flooring and succeeded, after a good deal of trouble, in putting out the fire.

DEATH FROM EXPOSURE.—Coroner Bostwick held an inquest Saturday morning on the remains of a middle aged woman, named Catharine Devaney, at Jack's Run, in Ohio township, who came to her death Friday night from exposure during the terrible storm which prevailed on that night. She and her husband, an Isabelle looking man, are vagrants, and have been loitering around the settlement for some time, begging food and clothing from the farmers, behind drinking whiskey when they could get money to buy it with. According to the story her husband gave before the jury, they had been drinking considerable that evening, and about 9 o'clock she had left the house and gone into the open air. It was very cold and stormy and he did not see her again until the next morning, when he found her lying dead a short distance off. The remains were taken to the county jail, where a post-mortem examination was held by Dr. Murdoch. The jury being convinced that no violence had been used, rendered a verdict of "death from intemperance and exposure." The unfortunate woman was buried yesterday afternoon by the city authorities.

SEVERAL oil wells have been sunk in M'Lean county Kentucky, which promise to be as rich as those in Pennsylvania.

In the county of Cambria the discovery of oil is reported; and several companies are forming to sink wells, to determine the truth of the report.

When the discovery of an oil, that oozed out of the earth, and which was equal to coal or lard oil for illuminating, and superior to whale, first became known, the excitement consequent upon the discovery became very great: hundreds rushed into oil speculation; lands containing oil or supposed to contain it, were sold at fabulous prices, and the proprietor of many a barren acre in these fortunate counties, found himself an unexpected master of an uncleuss ElDorado.—The excitement passed away, and the oil traffic is slowly becoming as much a constituent of our internal commerce as corn or coal.

TAX TAX CONVENTION.—The following delegates were elected on Saturday evening to the Anti-Tax Convention called by the County Commissioners, at the Court House, Wednesday. Several wards did not elect, and the late hour at which the result was known prevented our getting the balance of those that did elect. We did not receive any returns from the townships:

PITTSBURGH.

Third ward—1st precinct: Sam'l. M. Kerr, David Stamm, George W. Leonard, Robt. Allibone; 2d precinct: Rev. Campbell, Jr., James Glides, C. W. Lewis. These delegates are instructed to go in for compromise.

Eighth ward—George Beatty, David Hutchison, Joseph Litz, C. W. Smith.

BOROUGHS.

Lawrenceville—Col. Harry McCullough, Henry Snowden, Dr. Jas. Robinson & H. Keller.

THEATRE.—The star sisters, Misses Ada and Emma Webb, appear for the first time in this city to night at the "Old Pittsburgh." "The Rose of Killarney" and "In and Out of Place," are the plays announced, in the latter of which Miss Ada sustains six characters.

BOARD OF HEALTH REPORT.—The following is the report of Dr. A. C. Murdoch, Physician for the Board of Health, of the mortality in the city from Nov. 12th to Nov. 20th, 1860: Males, 9; Females, 6—total 15.

THAT FENCING MATCH, between Surgeon C. A. De Villiers, of the Chicago Zouaves, and a Mr. Fred Horn, of this city, about which the *Chronicle* asked for information some time since, came off Friday evening last, at Chapin's Hall, in Cleveland.

Those who saw the Zouave battalion here will not fail to remember Surgeon De Villiers. During the visit of the Zouaves last summer, he divided with Col. Ellsworth the honor of being "the observed of all observers" and won hosts of warm friends by his *distingue* military air and his hearty soldier's greeting. He is the very impersonation of the brave, dashing, invincible soldier. He comes honestly by all commendations, too, for he was in the French service in Africa seven years and has been through all the wild excitement of a soldier's life.

He is small of stature, but finely built, and has a cast of features and a general cast of countenance which can be rollicking one moment, and fierce as a tiger the next. He has been in this country eight years, and, with hearty emphasis pronounces himself no Frenchman, now, but "a true American, sir." He wears with pride, upon his breast, the medal of the Legion of Honor, and numerous medals from military organizations in this country.

Mr. Horn, his opponent, is said to be the most practised gymnast in the country, and is considered a superior fencer.

At 8 o'clock, the men took their places, J. R. Sanford acting as De Villiers' second, and J. Sweeny as Horn's. The rounds were fought, in which De Villiers made 151 thrusts and Horn 18. At the close of the tenth round, the latter withdrew, yielding the match and the stakes gracefully to De Villiers.

After the contest was ended, Surgeon De Villiers was presented with an elegant silver snuff-box from the Cleveland Light Guards.

SUDDEN DEATH.—Up to Saturday evening an old lady, 75 years of age, named Sarah Love, resided in a house in a court off Seventh street, above Smithfield, occupying, with her son, rooms on the second and third floors. The old lady had been complaining of illness during Saturday, and about half-past eight in the evening, the son left her down stairs, washing herself, and went to his room, advising her to retire also. On Sunday morning, when he came down, he found her lying upon the floor, dead. She had, it was evident, been suddenly taken ill, and died shortly after the son had left her. Dr. Reiter gave it as his opinion that her death was caused by an apoplectic fit. Coroner Bostwick held an inquest yesterday morning, and the jury returned a verdict in accordance with the facts.

AT a meeting of the stockholders of the Franklin Bank of Washington, held on Monday, 19th inst., the following named gentlemen were chosen to serve as Directors for the ensuing year: O. M. Reed, A. W. Acheson, H. W. Wilson, Dr. James Stevens, H. H. Clark, George Kuntz, Geo. Black, William Brownlee, Joseph Henderson, William M'Kennan, John Johnson, John Carter and Joshua Wright.

ARRESTED.—A boy well known to the police, named Clark Allinder, was arrested Saturday night about 9½ o'clock, by officer A. J. Moon, of the Central Police, on suspicion of being one of the gang of burglars who recently broke into the variety store of a man named McCullough, on Wood street. The accused will have a hearing before the Mayor this morning.

PERSONAL.—The Hon. Carl Schurz, of Wisconsin, passed through the city Saturday evening, en route for Washington, via Philadelphia. He stopped over until the 1:30 eastern train left, and took supper at the Mansion House, Liberty street.

HIGH PRAISE.—The National Agriculturist for December, is now out, and we clip from its pages the following complimentary notice of Dr. Keyser's Pectoral Syrup, made and sold by that gentleman at his drug and medicine store, 140 Wood street:

Keyser's Pectoral Syrup.—We have always been cautious in recommending anything in the above line, unless fully warranted by facts. Although we have used Keyser's Pectoral Syrup in our family for years, we were never so clearly and fully convinced of its excellent curative qualities as when we had tried it ourselves. Having been afflicted for several days with a cold and sore throat, so bad we could not speak audibly, we took a few doses of the Pectoral two or three times, according to directions, were entirely relieved and cured, and have no hesitancy in recommending it as the best medicine for the purpose in use.

FAIRBANKS' PATENTED MUSTERING SIX RECRUITS.—This magnificent engraving, together with the Cosmopolitan Art Journal for a year, a season ticket of admittance to the Gallery of Paintings, and a chance in the drawing for several hundred valuable paintings and works of art, for only three dollars; and for every two dollars additional paid by members of the Cosmopolitan Association entitles them to a beautiful $10 engraving, such as "Shakspeare and his Friends" or "Wilkie Bleasmith," an additional chance in the drawing and season ticket of admission to the gallery of paintings. Books are now open for subscriptions, at Hunt & Miner's.

SHINGLES.—The shingle market is very dull just now, and prices have a declining tendency. This decline is ascribed by a great many to the supply being more than equal to the demand, but the real cause may be found in the fact that the demand is not so great as in former years, shingle roofs not being thought of when "Greggon's celebrated Asphalt Roofing Felt" can be obtained. The agent for this excellent material can be found at his office, Laughlin's building, Canal bank, near the city Water Works.

☞ DENTISTRY.—Dr. C. Sill, No. 246 Penn street, attends to all branches of the Dental profession.

☞ INFANTILE CORDIAL.—We would request particular attention to the advertisement of Messrs. George W. Leonard, Rebt. Allibone & Co's "Mother's" INFANTILE CORDIAL or DR. EATON'S medicine of great celebrity, and the standing of its manufacturers will be a sufficient guarantee of the care taken in its preparation, and its unvarying purity. The "BLOOD FOOD" is for a class of disease unfortunately very prevalent in this vicinity, and its high reputation should secure a ready sale.—*Williamsville (Conn.) Journal.*

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Sulphur and Carbon by Hydrogen, sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every possible case. Consumption in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Stimulant-Stomach Diseases, Chlorosis, Liver Complaints, Chronic Headache, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the constitutional diminution of nervous and muscular energy from climate complaints, the trial of this tonic will be proved successful to an extent which no description nor written attestation could render credible. For aid in curing bad habits—as to those becoming dissipated in their own neighborhoods, have suddenly reappeared in the busy world as if from Africa—it has effected wonders in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent but erroneous confinement. Dissolution, or local changes, and that complication of nervous and dyspeptic ailments so alarm and exercise for which the physician has no name.

In Nervous Affections of all kinds, and more especially familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vegetable and, without being exciting, gradual, healing and gently, regularly aperient, even to the most delicate cases of costiveness, without ever being a gastic purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a direct and specific influence, by dispersing the local tendency which forms them.

In dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often suffered for the most inveterate cases, including the Aldermen Gutterman.

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed, emaciating, and apparently confluent, the effects have been equally speedy and remarkable.

In the local pains, loss of flesh and strength, debilitating cough, and constant fever, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculous, this as directed long has had far more than the good effect of the most cautiously balanced combination of iodine, without any of their well known liabilities.

In these complaints, families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly self-citing them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the painful and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic tonic, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered to the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid accumulation of strength, with an universal disposition to active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills; price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, or communications to be addressed to

RIVER NEWS.

Saturday and Sunday by common consent were pronounced by far the coldest days of the season. Indeed it was observed by a merchant coming to his office that he could see no less than twenty vessels, chained and stirred in the boat manner. The river was covered with floating ice, but not heavy enough to seriously impede navigation, the ice as yet, being formed in the eddies, and partially disposed to break up. Should the weather, however, of the past two days continue 48 hours longer, we should not be surprised to see the river completely closed, and navigation entirely suspended. If the Kentucky remains open, the coal trade will take place, as it is rather too early in the season for a closed river.

The departures on Saturday were the Mollenkie for New Orleans, Clara Poe for Nashville, Mary Clark for Louisville and Jessie Gordon for Cincinnati. The W J Mussey and Commercial from St. Louis, and Minerva from Wheeling, were the only arrivals. The EMMA GRAHAM from Zanesville, was due last night, and will be found at the wharf this morning. She will leave on her return trip to-morrow evening.

The river is about a alimony with 6 feet by the pier mark. The Iowa, Capt Sloan, is rapidly completing her trip and will be off for New Orleans to-morrow or next day.

The HAWKINS, Capt. Robison, is announced to leave for Cincinnati this afternoon at 4 o'clock.

The Cincinnati Commercial of Saturday says:

The Sunny Side and Diadem from Pittsburgh; Bostonia No 2 from Wheeling; and Harmony and Economy from St Louis, with fair trips constitute the arrivals, outside of the local packets. ——The Keoka from Louisville, passed up for Pittsburgh with a full cargo. ——The Rocket from Pittsburgh, passed down for Memphis with a full cargo in the forward and after hatches, having taken a small portion of the Quarrier's freight. ——The Madison cleared for New Orleans with 500 tons, with engagements for 500 bbls flour at Madison ——The Ben Franklin, St. Clara Poe, J S Ford and Sunshine from Pittsburgh: Poland from Nashville; Wallace and Mary Emma Duncan, from St Louis; Rogers, from Illinois River; Great Western; St Cloud and Universe from New Orleans are due to-day and to morrow ——Freights are offering in considerable lots for Pittsburgh, Parkersburgh and Nashville, with a light trade for St Louis, Memphis and New Orleans.
