IMPRESSIVE PERORATION.—[Rev. Dr. Spring, of New York, lately preached his fiftieth anniversary sermon, and closed his discourse as follows:

The half century is gone; gone like some star that has been twinkling in the curtain of the night; gone like the dying cadence of distant minstrelsy, wait vanishes into air, gone like the word just spoken, for good or for evil, never to be recalled; gone like the clouds which disappear after they have exhausted their treasures upon the earth; gone like the leaves of autumn, that are scattered to the winds as they wither; gone like the phantom which, in pursuit, had a semblance of reality, but which, in the retrospect, is melted away—gone, as yesterday has gone. Why do I say gone, gone? Nothing is gone whose influence remains. The man, the woman, the Sabbath, the prayers, the weeks, the months, the years some of us have beheld vanish, one by one, in the mysterious past, live still in God's universe. The past! What is past? Whatis the momentous present—this now, this accepted time?—What is never ending future? They are but parts that make up the grand noit of eternity—eternity, that was, and is, and ever will be. All time is a unit, where the angel at Heaven's high court records as well the responsibilities of preachers, and where the great Witness and Judge will render to every man according to his works."

SENSIBLE FOR ONCE.—Herschel V. Johnson, of Georgia, the Douglas candidate for Vice-President, joins Alexander H. Stephens on the seventy-four members of the Legislature, in which the grievances of the South are calmly considered, and the expediency of secession emphatically denied. Mr. Johnson declares that the election of Lincoln is not sufficient cause for secession.

THE SLAVE TRADE.—The West African Herald affirms that from a single district, including St. Paul, Lagos and South Coast, 12,000 Africans have been carried off, in spite of the cruisers, between the 1st of January and the 1st of August, 1860; and the inference is that the entire number of Africans actually shipped for Cuba during the present year is not far from 60,000.

THE plan of using shingles in the bottom of shoes, originated about thirteen years ago, the use of paper and straw boards began about the same time. To give some idea of the extent of this branch of business the past year, five or six acres of heavy pine timber have been used for wood filling, nearly all by the manufacturers of Natick, and the adjoining towns, in the soles of brogans.

☞ **To Advertisers.**—The Pittsburgh DAILY GAZETTE has a large circulation among the business men in this and the surrounding cities—among those who have and who want—and among manufacturers and producers. It may be found in nearly all the counting rooms, store houses, banking houses, hotels, factories and commission houses in the cities, where it is read and sent home to the families for perusal. As a medium for advertising, therefore, it offers inducements which no other paper in Western Pennsylvania can offer, to all who desire to reach the best class of our citizens. The WEEKLY GAZETTE at this time has a much larger circulation in Western Pennsylvania, Ohio and Virginia among substantial farmers and merchants than any other weekly paper in this section of the State.

☞ *THE DAILY GAZETTE is the oldest Newspaper in the West, and having an extensive circulation among the business men, and reaching all classes, it offers inducements to advertisers to reach the best markets through which to reach the public.*

☞ *THE WEEKLY GAZETTE is issued every Wednesday and Saturday, on a large blanket sheet, and contains in addition to the news of the week, a carefully prepared and reliable report of the Markets, commercial and monetary affairs—making it the best Commercial Newspaper in the West*

TERMS:

DAILY—Six Dollars per annum, payable in advance, or 50¢ cents per week, payable to the Carriers.

WEEKLY—One Dollar per annum, payable in advance.

A copy sent free to persons who get up a club exceeding ten.

☞ Advance payments are strictly required, and no paper will be sent after the time up to which it was paid.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

A N APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation has ever been so completely adapted with the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every consecutive case. Tasteless in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation; Dyspepsia, Constipation, Diarrhœa, Dysentery, incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Rheumatism, Whites, Chlorosis, Liver Complaint, Chronic Headache, Jaundice, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of the vital and muscular energy from chronic complaints, one trial of this remedy will be sufficient to satisfy the most skeptical of its extraordinary restorative qualities. Certificates of this character are written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly appeared in the busy world at first return from protracted travel in a distant land. Some very signal instances of this kind are attached of female sufferers, wasted victims of years of nervous, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic anarchon to all and nameless for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron is instantaneously beneficial, for, unlike the old article, it is vigorously tonic, without being exciting and overheating and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gentle purgative, or inducing a disagreeable sensation.

It is this latter property, possessed by others, which renders it remarkably efficient and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific medicine, by depositing the local tendency which fathers them.

In Dyspepsia, lamentable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhœa, even when attended by Dysentery, continued, emaciating, and apparently malignant, the effects have been almost equally certain and astonishing.

In the local pales, free of flesh and strength, debilitating cough, and resistless hectic, which generally indicates Incipient Consumption, this remedy has allayed the alarming irritation and phenomena, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had for more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known disabilities.

The addition of Iodine cannot be too confidently invited to the tonic and restorative, in the cases peculiarly indicating them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Leucorrhœa, Female Irregularities, and in a great variety and energetic restorative, and its progress in the new settlements of the West, will probably be one of high value and beneficence.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and healthy restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills price $1 each or per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcerations, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their actions speedily yields to its influence, and restores to health. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. In consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what remedy to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DOLLAR SAVINGS BANK
No. 65 Fourth Street.
CHARTERED IN 1855.
OPEN DAILY FROM 9 TO 2 O'CLOCK, also on Wednesday and Saturday evenings, from *May* first to November first, from 9 to 9 o'clock; and from *November* first to *May* first, from 9 to 2 o'clock.
Deposits received of all sums not less than one Dollar and a dividend of the profits declared twice yearly, in January and December, since the Bank was organized, in June and December, since the Bank was organized, at the rate of six per cent. a year.
Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first of January and July succeeding. Interest ceases to be paid from such principal, the deposits to call or even to present his pass book. All this rate, money will double in less than 12 years, making in the aggregate SIXTY AND ONE HALF PER CENT a year.
Books containing the Charter, By-Laws, Rules and Regulations furnished gratis, on application at the office.
President—GEORGE ALBERT.
