LORD PALMERSTON ON THE PRINCE'S VISIT.—At a public banquet in London, Lord Palmerston made allusion to the reception of the Prince of Wales in America:

"You have alluded in an event which has awakened the deepest interest in the mind of every Englishman. I mean the visit of the Prince of Wales to the North American continent. It was to be expected that when the future hope of England visited the subjects of Her Majesty in our North American provinces, he would be received with that enthusiastic affection which becomes a loyal and attached people. Our anticipations have not been disappointed. The reception of the Prince has been worthy of the people who gave it, and honorable to the family of which he is so distinguished a member, and we may hope that visit will cement more closely those ties which, I trust, are long destined to bind together that portion of the Queen's dominions and the mother country. [Hear, hear.] But we had not an equal right to expect that when the Royal Highness visited the United States he should be received with anything more than the cobrtesy which civilized nations accord to distinguished members of the reigning family of another country. But I must say it has been most gratifying to witness the cordiality, the heartfelt kindness, the generous hospitality, and I may say the enthusiastic delight with which that illustrious Prince was welcomed by our cousins in the United States. [Cheers.] They have shown themselves, indeed to be a noble and generous people—they have shown that they have not forgotten the common stock from which they and we have sprung; and, in spite of events, which, if not buried in oblivion, might have produced some slight alienation between us, they received our future Sovereign as one who they knew may long distant—they received the eldest son of our gracious Sovereign, not as if he were a stranger belonging to another land, but as if he had been born in their own country, and had been a citizen of their own Republic."—[Cheers.] I trust, gentlemen, that the remembrance of the generous kindness thus exhibited by the people of the United States will ever be cherished by the people of these kingdoms. I believe the memory of the Prince's visit will long survive in the breasts of the American nation, and these mutual recollections will attend more closely than ever to knit together these two great branches of the same noble, and I will say illustrious stock.—[Cheers]

CALIFORNIA GOLD.—Is the gold of California likely to be exhausted soon? The district where it appears is about five hundred miles long, and from ten to a hundred and fifty miles wide. It is an area equal to the whole of New England, and its riches are scarcely touched as yet. There is more danger that the wheat product will give out, than that the gold harvest will. The hydraulic pipes, fed by six thousand miles of aqueduct, may pour out their wrath without ejeci; the three hundred quartz mills that cost three and a half millions may roar day and night, without fear of draining the yellow crop. It is said by some geologists here, that there are ample quartz veins in the State which contain more gold than is at present in circulation in all the world.

TO ADVERTISERS.—The Pittsburgh DAILY GAZETTE has a large circulation among the business men in this and the surrounding cities—among those who are and who still—and among manufacturers and producers. It may be found in nearly all the counting rooms, store houses, banking houses, hotels, factories and comfortable homes in the two cities, where it is read and carried home to the families for perusal. As a medium for advertising, therefore, it offers inducements which no other paper in Western Pennsylvania can offer, to all who desire to reach the best classes of our citizens. The WEEKLY GAZETTE at the time has a much larger circulation in Western Pennsylvania, Ohio and Virginia among intelligent farmers and merchants than any other secular paper in the section of the State.

The DAILY GAZETTE is the best Newspaper in the West, and having an extensive circulation among the business community makes it the most desirable medium for advertisers to reach the public.

The WEEKLY GAZETTE is issued every Wednesday and Saturday, as a large blanket sheet, and contains in addition to the news of the week, a carefully prepared and reliable report of the Markets, among statistical matters of interest—making it the best Commercial Newspaper in the West

TERMS:
DAILY—$3 Dollars per annum, payable in advance, or 12½ cents per week, payable to the Carriers.
WEEKLY—One Dollar per annum, payable in advance. A copy sent free to persons who get up a club exceeding ten.

Advance payments are strictly required, and no paper will be sent after the time is up to which it was paid.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combination in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed daily in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Inasmuch as all maladies in the list of human ills, it has proved absolutely curative in each of the following complaints, viz:

Debility; Nervous Affections, Emaciation, Dyspepsia; Constipation; Diarrhœa; Dysentery, incipient Consumption, Scrofulous Taints, Boils, Eruptions, Humors, Prostration, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the accumulated diminution of nervous and muscular energy from chronic complaints, one trial of this preparation has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparently incurable consumptions exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron is most necessarily its primary, for, unlike the old tabular, it is vigorously tonic, without being exciting and evacuative; but equally regularly exerting, even in the most obstinate cases of costiveness, a laxative over being a gentle purgative, or inducing a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably efficient and permanent a remedy for Piles—upon which it also appears to exert a distinct and specific action by improving the kind of tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most inveterate cases, including the bilious and Gastromania.

In Cholera and Diarrhœa, even when advanced to Dysentery, sometimes, exciting, and apparently malignant, the Pills have been equally decisive and astonishing.

In the worst pales, loss of flesh and strength, debilitation enough to constitute hectic, which generally indicates incipient Consumption, this remedy has satisfied the fears of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously palatable preparations of iodine, without any of their well known liabilities.

The attention of families cannot be too confidently invited to this remedy and restorative, in the cause peculiarly of strengthening.

In Rheumatism, both chronic and inflammatory—in the latter, however, more; decidedly—it has been favorably well reported, both as alleviating pain and reducing the swelling and stiffness of the joints and muscles.

In Intermittent Fevers it seems necessarily to be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and full restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills; price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, &c., should be addressed to

Dr. CHARLES H. KETCHUM, Wholesale Agent for Western Pennsylvania.

no12w2w ALEX. FORSYTH.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. What ever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this purpose, where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without such sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find in health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Monetary.

DOLLAR SAVINGS BANK
No. 65 Fourth Street.
CHARTERED IN 1855.

OPEN DAILY FROM 9 TO 2 O'CLOCK, also on Wednesday and Saturday evenings, from May first to November first, from 7 to 9 o'clock; and from November first to May first, from 6 to 8 o'clock.

Deposits received in all sums not less than one Dollar and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually, in June and December, since the Bank was organized, at the rate of six per cent a year.

Interest, if not drawn, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year with out troubling the depositor to call or even to send his pass book. At this rate, money will double in less than 15 years, making in the aggregate MORE AND ONE HALF PER CENT a year.

Books containing the Charter, By-Laws, Rules and Regulations furnished gratis at the office.
