THE SOUTHERN THREE-SIDED CONFLICT.—The following is a specimen of many similar articles on the secession crisis in the Louisville Democrat:

"WHY SO we attack South Carolina, and no other Southern State has acknowledged, that Virginia and Kentucky ought to be taken into consideration; that the interests of Missouri, Kentucky, Virginia, Maryland, Delaware, Tennessee, and North Carolina ought to be included; because this movement of the Cotton States is purely and entirely selfish; that they have not even mentioned Kentucky. We civilly and respectfully note that this State of Kentucky, is the grandest over which the heaven folds; that its waters whisper sweetest music, and its winds blow purer; that its belles, from fairest eyes, look on a more glorious land than other folks; that the truest, best and bravest spirit, is that which actuates a Kentuckian, and is irradiated at at Bucna Vista, or lives to die, on a more glorious field for the Union.

Are we to submit to pennyworth States just out of short clothes? Are Virginia and North Carolina to beg pardon of Florida, for whom they paid blood and treasure? Who are cheated by the South? Are they to request Texas not to drag them by the neck, with a knot under the ear, when the Texas corn is ripened with the blood of her children at the Alamo? Maybe Kentucky, like a gray, old, spectacled grandmother, beseech Louisiana to give her the mouth at the Gulf? No; Louisiana and Texas will be the outposts in a Southern Confederacy, let us demand the best position, not second fiddle."

On Friday afternoon an elegantly dressed lady was observed to be in the act of passing the corner of Ualvert and Saratoga streets; rumors ran which a Palmetto flag had been thrown to the breeze. The gentlemen who were standing on the pavement moved, in order to allow her to pass, when the lady in question suddenly halted, and looking up at the emblem of disunion, remarked with emphasis, "I will not pass under such a flag—it is treachery," and deliberately walked through the mud in the street, to pass. From the above it will be seen that Baltimore ladies are in favor of the "Stars and Stripes," and not of "Palmetto."

THE Moniteur de l' Armee says: "Among the numerous details we have received from our correspondents in China, we find it mentioned that the road from Tien-tsin to Pekin is entirely macadamized, and has the advantage over roads of the same kind in Europe, of not retaining water on the surface, so that it is quite dry in a few minutes after the rain passes. The inhabitants declared to our correspondent that all the principal roads in China are made in the same manner, and have been for centuries."

A rat in Yorkshire took strychnine three times, but it failed to kill it. At last it was killed by a terrier dog, which died from the effect of the poison contained in the rat's fur, in three hours. It was supposed that the sagacious animal had wiped the poison from the bread and butter which had been spread to kill it, with its fur.

GLORIFY a lie, legalize a lie, arm and equip a lie, consecrate a lie with solemn forms and awful penalties, and after all it is nothing but a lie. It rots a land and corrupts a people like any other lie and by and by the white light of God's truth shines clear through it, and shows it to be a lie.

CAPT. BERRY, of South Carolina, is a fierce patriot, as can easily be seen from the remark he made, viz: "I would rather be hung in South Carolina," said he, "than die a natural death in any other State."

THE woman of the world turns the loose soil of learning, and is christened "accomplished;" while she who digs down to the deep wells of knowledge, is dubbed by society "blue-stocking."

GARIBALDI, before leaving Naples, published the following notice: "The public is hereby informed that I will not receive any letters at Caprera that are not postpaid.—G. GARIBALDI."

☞ To ADVERTISERS.—The Pittsburgh DAILY GAZETTE has a large circulation among the business men in this and the surrounding cities—among those who BUY and who SELL—and, among manufacturers and producers. It may be found in nearly all the counting rooms, store houses, banking houses, hotels, factories and commission houses in the two cities, where it is read and carried home to the families for perusal. As a medium for advertising, therefore, it offers inducements which no other paper in Western Pennsylvania can offer, to all who desire to reach the buying class of our citizens. The WEEKLY GAZETTE at the time has a much larger circulation in Western Pennsylvania, Ohio and Virginia among substantial farmers and merchants than any other secular paper in this section of the State.

☞ THE DAILY GAZETTE is the oldest Newspaper in the West, and having an extensive circulation amongst the business men, and reaching all classes, it offers inducements to advertisers at the last medium through which to reach the public.

☞ THE WEEKLY GAZETTE is issued every Wednesday and Saturday, on a large blanket sheet, and contains in addition to the news of the week, a carefully prepared and reliable report of the Cincinnati, commercial and monetary affairs—making it the best Commercial Newspaper in the West.

TERMS:

DAILY—Six Dollars per annum, payable in advance, or $3 54 cents per week, payable to the Carrier.

WEEKLY—Two Dollar per annum, payable in advance. A copy sent free to persons who get up a club according to law.

☞ Advance payments are strictly required, and no paper will be sent after the time is up to which it was paid.

DR. MOTT'S
CHALYBEATE RESTORATIVE
PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by Combustion in Hydrogen; sanctioned by the highest Medical Authorities in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it for the relief and cure of that depression of vital energy, pale and otherwise sickly complexions so fashionable in many fashionable society ladies of to-day, which are indicative of nervous debility, and a host of other complaints, which are too numerous and tedious to mention here. Suffice it to say, that in all maladies in which it has been administered, it has proved absolutely curative in each of the following complaints, viz.:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Unexplained Consumptions, Scrofulous Tuberculosis, Salt Rheum, Stomach Derangement, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued dissolution of nervous and muscular energy from chronic complaints, a trial of this restorative has proved successful to an extent which no description can write. Attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just return d from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent consumption, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic severities so air and attractive for which the physician has no name.

In nervous Affections of all kinds, and are reasons familiar to medical men, the operation of this preparation will necessarily be salutary, for, unlike the old critics, it is vigorously tonic, without being exciting and over heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gentle purgative, or inducing a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them. In Dyspepsia, innumerable as are its forms, a single box of these (Mott) boxes Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and continual hectic, which generally indicate Incipient Consumption, their remedy has stayed the alarm of friends and physicians, in several very gratifying and instructing instances.

In Scrofulous Tuberculosis, this medicament has had far more than the good effect of the most cautiously balanced preparations of Iodine, without any of their objectionable influences.

The attention of Families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly suffering from it.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well remarked. Both in alleviating pains and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and enable protracted, and its progress in the new settlements of the West, will probably be one of high importance and interest.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative influence over the digestive functions, regularity of the bowels, with an unusual disposition for active and beneficial exercise, immediately follow its use.

The up to read and mated forms containing 50 Pills (price 50 cents per box) for sale by Druggists and Country Merchants generally. Will be sent per express on receipt of price. All letters, orders, etc., should be addressed to

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disorders of Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, confirmed benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Monetary.

DOLLAR SAVINGS BANK
No. 65 Fourth Street.

CHARTERED IN 1855.

OPEN DAILY FROM 9 TO 2 O'CLOCK, also on Wednesday and Saturday evenings, from 6½ to 8½ o'clock, and from 10 to 12 o'clock, on the first Monday in November first, from 7 to 9 o'clock, and from November first to May first, from 6 to 8 o'clock.

Deposits received of all sums not less than one Dollar, and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually, in June and December, since the Bank was organized, at the rate of six per cent. a year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding thus a year with out troubling the depositor to call or even to present his book. At this rate, money will double in less than 12 years, making it the advantage of every one to HAVE HIS OWN A FARM.

Rules, containing the Charter, By-laws, Rules and Regulations furnished gratis, on application at the office.

President—GEORGE ALBERT.

VICE PRESIDENTS.
