...the dreadful fate... The baleful fetter... extraordinary great, and ...of unconscious... the extreme facility with which the ... appears to have been perpetrated. The ...position of the deceased, his great attainments, and his amiable disposition, have added ...to the universal regret felt for his sad fate. We subjoin such additional particulars as have come ...to light. Immediately after the murder was known at the prefecture of police, a special train containing a number of police agents was sent off and they were distributed along the line. From the medical examination made of the body, it appears that no sharp cutting instrument was used in the commital of the crime. The footmarks on the ground where the murderer jumped from the carriage show that he were beatly made boots. M. Lecaille, the examining magistrate, yesterday interrogated several witnesses, and it was stated that, in addition to the person mentioned already, two soldiers belonging to an infantry regiment, and who were in a third class carriage, saw an individual jump from the train when it was near Noisy, and, although the night was dark, they saw him run across the fields. They afterwards informed the guard of the fact, who gave notice of it to the officials at the station. From a new examination of the body made by Dr. Tardieu yesterday, it is certain that, in the accomplishment of the crime, a firearm, probably a revolver, was used; a ball, having been found lodged in the skull; and another ball, as already stated, aimed at the heart, was found in the clothes. The balls are of small dimensions. A circumstance which at first escaped attention has been noticed; on removing the cravat of the victim, marks of violent compression were perceived; and from that circumstance it is assumed that the assasin, after firing, seized M. Poinsot by the throat as he fell on the floor, and held him whilst he struck, probably with the butt end of the pistol, violent blows on the head—as many as twelve cuts or contusions existing on the skull. The object of M. Poinsot's visit to his estate at Chaource was not, as first supposed, to get his rents, but to superintend some planting of trees, in which he took great interest. The law authorities have ordered that all the tickets given for the train in which the crime was committed shall be produced, and be compared with the registers of the men who delivered them to the passengers. If so, is believed, the assasin escaped from the train near Noisy-le-Sec, his ticket will be wanting, and then it can be ascertained at what station he took it. The neck wrapper which the man left behind him in the carriage is of cotton, and of a purple color; very few of the kind are worn in Paris or in the environs. It is said that a man wearing some such wrapper was seen at the station of Troyes previously to the departure of the train by which M. Poinsot left. At the opening of the sitting of the Imperial chamber of the Imperial court, yesterday, M. Bérenger, member of the council of the order of advocates, expressed, in the name of the bar, the regret caused by the melancholy death of their president. This homage rendered to the merit of M. Poinsot met with the unanimous assent of all the auditory.

The section instituted by M. Leymarie against six of the Paris journals for refusing the insertion of a letter in reply to an article published by them, came on for hearing yesterday before the civil tribunal of Paris; the plaintiff was nonsuited and condemned to pay costs, on the ground that the defendants had a right to refuse an insertion which they were not compelled by law to make.

MARRIAGE OF THE PRINCESS ALICE.—The negotiations for the marriage of her royal highness the Princess Alice with Prince Louis of Hesse Darmstadt, which have from time to time been informally mentioned in the newspapers, are now completed, and the wedding is to take place in the spring. The affectionate interest which the public take in all that concerns the happiness of the royal family is in a very slight degree complicated in this instance with considerations of national policy. The little Rhenish court of Hesse Darmstadt, at which we are represented by our minister to the Germanic confederation in his spare hours, is not one likely to draw us into wars, and, if Prince Louis pleases the queen and the young lady he may well please us. Prince Louis stands in the same relation to the reigning Duke of Hesse Darmstadt as the husband of the Princess Royal to the King of Prussia. In each state the sovereign is childless, and each of the two sisters will be the wife of the son of his brother; the heir presumptive Prince Louis, will be twenty-four years of age next September. He has the rank of a captain in the Prussian service, and is titular colonel of a Russian lancer regiment. He is only distantly related to the foolish and tyrannical Elector of Hesse Cassel, who has just dissolved the Hessian chambers, and who will certainly have to join the Duke of Modena and the Grand Duke of Tuscany before he is much older.

THERE ARE FOUR SWORDS BELONGING TO THE CITY OF LONDON.—The "Pearl" sword, presented by Queen Elizabeth when she opened the Royal Exchange in 1571, and named such from being richly set with pearls—this is carried before the Lord Mayor on all occasions of rejoicings and festivity; the "Sword of State," borne before the Lord Mayor as an emblem of his authority; the "Black" sword, used on fast days, in Lent, and at the death of any of the royal family; and the fourth is that placed above the Lord Mayor's chair at the Central Criminal Court.

TO ADVERTISERS.—The Pittsburgh DAILY GAZETTE has a large circulation among the business men in this and the surrounding cities—among those who buy and sell and exchange—and among manufacturers and producers. It may be found to supply all the country stores, banking houses, hotels, factories and commission houses in the two cities, where it is read and carried home to the families for perusal. As a medium for advertising, therefore, it offers inducements which no other paper in Western Pennsylvania can offer, to all who desire to reach the large class of our citizens. The WEEKLY GAZETTE at the same has a much larger circulation in Western Pennsylvania, Ohio and Virginia among substantial farmers and merchants, than any other secular paper in the section of the State.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, attributable to necessity in almost every conceivable case. Indeed, in all maladies in which it has been used, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Enlargements, Salt Rheum, Blamenorrhagia, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this remedy will be proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world or if just return'd from protracted travel to a distant land. Some very signal instances of this kind are resident of Jamaica sufferers, associated victims of apparent consumption, apparent exhaustion, critical changes, and that combination of nervous and dyspeptic avarice to air diseases for which the physician has no name.

Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of ...is eminently beneficial, nay, curative, but, unlike the old ...ineffectual, regularly operates, even in the most ...costiveness, without ever being a gastric ...being a disagreeable sensation.

...ing, among others, which mankind is ...permanent remedy for Piles, ...to exert a chain of and specific ...tendency which forms them. ...ly advanced to Dyspepsia ...ly malignant, the ...suffered for the most ...ot Dandruff ...ing.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing influence of, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food, and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, ULCERS and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, all COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. This particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so combined that disease within the range of their action can scarcely withstand or evade them. Their powerful penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is borne down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and invigorating.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Monetary.

DOLLAR SAVINGS BANK
No. 65 Fourth Street.
CHARTERED IN 1855.

OPEN DAILY FROM 9 TO 2 O'CLOCK, also on Wednesday and Saturday evenings, from May first to November first, from 7 to 9 o'clock; and from November first to May first, from 6 to 8 o'clock.

Deposits received of all sums not less than one Dollar and a dividend of five per cent. declared twice a year, in June and December. Interest has been regularly credited semi-annually, in June and December, since the Bank was organized, at the rate of six per cent. a year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year with out troubling the depositor to call or send to present his pass book. At this rate, money will double in less than 12 years, making in the aggregate more are one hand red dollars a year.

Books containing the Charter, By-Laws, Rules and Regulations furnished gratis, on application at the office.
