THURSDAY MORNING, JAN. 17.

A VOICE OF THE LOYAL NORTH.

BY OLIVER WENDELL HOLMES.

We sing "Our Country's" song to-night
With saddened voice and eye;
Her banner droops in clouded light
Beneath the wintry sky.
We'll pledge her once in golden wine
Before her stars have set;
Though dim one reddening orb may shine,
We have a Country yet.

Pause vain to sigh o'er errors past,
The fault of sires or sons;
Our soldier heard the threatening blast
And spiked his useless guns;
He saw the star-studded ensign fall
By mad invaders torn;
But saw it from the battlewall will
That laughed their rage to scorn.

What though their angry cry is flung
Across the howling wave—
They can't die air with life to sting
The gathering storm who braves;
Enough of speech! the trumpet rings;
Be silent, patient, calm—
God help them if the tempest swings
The pine against the palm!

Our holiness years have made us tame;
Our strength has slept unbid;
The furnace fire is slow to flame
That bids our plowshare melt;
'Tis hard to lose the bread they win
In spite of Nature's frown—
To stop the iron treads we spun
That weave our web of towns.

To see the rustling tyrbines stand
Before the emptied flumes,
To fold the arms that flood the land
With rivers from their looms—
But harder still for those who learn
The truth forget so long;
When once their slumbering passions burn,
The peaceful are the strong!

The Lord have mercy on the weak,
And calm their frenzied ire,
And save our brothers as they shriek
"We played with Northern fire!"
The eagle hold his mountain height—
The tiger seek his den!
Give all the country such his right!
God keep us all! Amen!

National Post, January 4, 1861.

MARTIN VAN BUREN'S OPINION OF LINCOLN.—At a late dinner party in New York city, ex President Van Buren related that in his western tour, while President, one Lincoln, a lawyer, of some local repute, was chairman of the reception committee; and in their formal interview he was so much impressed with him that he called to his own room, afterwards, for more intimate discourse. He had often thought of that interview and that man; and failing to hear of him in public life he has set it down that a brilliant intellect was lost to the world under the insatiate leveling of the gigantic west. Two years ago, however, that man emerged, and was heard of in a senatorial contest that aroused the interest of the whole country. To-day he was heard of again as the President elect. And that man was Abraham Lincoln, of Springfield, Ill. Mr. Van Buren gave it as his testimony from the remembrance of more than twenty years ago, that he was "endowed with talents to adorn the station."

STEPHEN GIRARD'S THEORY OF ADVERTISING.—The example and precept of one of the most successful business men America has ever seen, may be worthy of attention at the present time. Mr. Girard wrote, "I have always considered advertising liberally and long, to be the great medium of success in business, and prelude to wealth. And I have made it an invariable rule, too, to advertise in the fullest times, long experience having taught me that money thus spent is well laid out; as, by keeping my business continually before the public, it has secured me many sales that I would have otherwise lost."

DEAN SWIFT ON MATRIMONY.—Dean Swift, with his characteristic sneer, gives the following receipt for courtship:

Two or three dears, and two or three sweets,
Two or three balls or two or three treats,
Two or three serenades given at a time,
Two or three oaths how much they endure,
Two or three messages sent in one day,
Two or three times lad out from the play,
Two or three tickets for two or three times,
Two or three love letters writ all in rhymes,
Two or three months keeping strict to these rules
Can never fail making a couple of fools.

THE AMERICAN SLAVE TRADE.—The price paid by a regular Cuban trader on the African coast is now $50 to $80 for a negro, which being paid in barter, reduces the cost fully 10 per cent. They sell for $1,000 a piece in Cuba, thus realising a clear profit of 900 per cent. The crews of the slave vessels generally get $8 per head for every slave landed in Cuba, and in some of the large vessels will thus make $1,500 or $2,000 on a single voyage, besides making a venture in a few negroes themselves.

EMERSON'S CONDUCT OF LIFE.—For pure, unadulterated stupidity, the articles in the English literary journals on this book are unexcelled by anything we have met in the annals of literary criticism. Misconception and misrepresentation are their characteristics. It would almost seem as if Grub street had engaged in a new conspiracy against genius, and had selected an American writer, and thinker as the first object of their attack.—*Boston Transcript.*

OLD Lord Elphinstone was asleep, at church, while the minister, a very prosy preacher, was holding forth. At length, the parson stopped, and cried, "Wankin my Lord Elphinstone! A great, and then, "Wha, no, no, sleepin' instead o' "Sleepin, am sleepin', I wager to dinna ken what I said last!" "Ye said wauken, my Lord Elphinstone?" Ay, ay, but I wager ye dinna ken what I said last afore that." "I wager ye dinna ken yoursel."

IGNORANCE IS BLISS.—Rev. Dr. Lacy, president of Davidson College, North Carolina, declined to serve on a committee on chaplains at the late meeting of his synod, and gave as a reason that he did not read a political newspaper for several years past, and did not know that the Union of the States was in danger until he reached the place of meeting of the synod, and heard that such was the fact from some of the members of the synod.

$10 LIBRARIES OF
The American Sunday School Union,
FOR DISTRIBUTION.

THE $10 SUNDAY SCHOOL LIBRARIES for distribution as per Legacy in Will of the late CHAS. BREWER, will be ready for delivery on and after July 10th, 1860.

The Sunday Schools entitled to these Libraries are those established in Allegheny Co., Pa., since March 21st, 1850.

Applicants will be required to mention, to obtain a preference, location, and date of organization of the School; name and post-office address of Superintendent; average number of teachers and scholars in attendance, and amounts then contributed for support of School.

Reasonable evidence, by amount of contributions and otherwise, of the permanency of the School, will be required.

Apply to F. H. EATON, of EATON, GEE & MACKEN, jy4 6awT No. 17 Fifth street, Pittsburgh.

SPALDING'S PREPARED GLUE

Spalding's Prepared Glue!

Spalding's Prepared Glue!

SAVE THE PIECES!

ECONOMY! —SPATCH!
"A STITCH IN TIME" "SAVE."

As accidents will happen, even in well-regulated families, it is very desirable to have some cheap and convenient way for repairing Furniture, Toys, Crockery, etc.

Spalding's Prepared Glue

meets all such emergencies, and no household can afford to be without it. It is always ready, and up to the sticking point. There is no longer a necessity for limping chairs, splintered veneers, headless dolls, and broken cradles. It is just the article for cone, shell, and other ornamental work, so popular with ladies of refinement and taste.

This admirable preparation is used cold, being chemically held in solution, and possessing all the valuable qualities of the best cabinet-makers' Glue. It may be used in the place of ordinary mucilage, being vastly more adhesive.

"USEFUL IN EVERY HOUSE."

B. B.—A Brush accompanies each bottle.

Price, 25 Cents.

Wholesale Depot, No. street, New York.

Address— HENRY C. SPALDING & CO.,
Box No. 4,600, New York.

Put up for Dealers in Cases containing Four, Eight, and Twelve Dozen, a beautiful Lithographic Show-Card accompanying each package.

A single bottle of SPALDING'S PREPARED GLUE will save ten times its cost annually to every household.

Sold by all prominent Stationers, Druggists, Hardware and Furniture Dealers, Grocers, and Fancy Stores.

Country merchants should make a sale of SPALDING'S PREPARED GLUE, when making up their list. It will stand any climate.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being the nutrient fluid, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ERYSIPELAS, PIMPLES, PUSTULES, BOILS, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATION OR IMPURITY OF THE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human system, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility, speedily finds that his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their virtues and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use.

When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While, many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Miscellaneous.

THE
ONLY DISCOVERY
WORTHY OF ANY CONFIDENCE FOR
RESTORING
The Bald and Gray.

Many, since the Great Discovery of Prof. WOOD, have attempted not only to imitate his Restorative, but profess to have discovered something that would produce results identical, but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:

MOUNT PLEASANT, Westmoreland Co., Pa., April 25th, 1859.

PROF O J WOOD & Co.—Gents—The bottle I wrote you in 1856, containing your valuable Hair Restorative, which you have published in this vicinity and elsewhere, has given the to numerous inquiries touching the fac s in the case. The inquiries are: first, is it as represented? Secondly, and haste, as stated in the communication, second, is it true of all therein contained; third view my hair still continues to be in good order and of natural color. I still use it and do answer invariably, yes. My hair is even better than in my stage of my youth for I only use it once, more or less, daily and better colored; the sense in tone of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when it can be re-used by wiping to a face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if
