Three Blind Rats

Contemptously inscribed, without permission, to Messrs. Cobb, Floyd, and Thompson.

Rats leave a sticking ship, they say
Would God the rats on us did!
The rats know best how long to stay,
They helped to make the leak.

The vermin's flight let noon dismay,
Let none from duty shrink;
All hands to work, the leak to stay!
THE GOOD SHIP SHALL NOT SINK!

Gold and Coal.

The production of gold from the California mines, for a number of years, has been, on an average, about fifty millions of dollars a year. The yield does not fall off, so that there is no apprehension of exhaustion. But, at the same time, it does not increase, and it seems probable that about fifty millions a year is the maximum of the gold product of the State of California.

The production of anthracite coal from the mines of Pennsylvania, last year, was about 8,500,000 tons. The production of bituminous coal was about 3,000,000 tons; making 11,500,000 tons as the total coal crop of Pennsylvania for one year. The average market price of this coal may be stated at $3 50 per ton, making it worth $40,250,000. At the present rate of increase in the mining of coal in Pennsylvania, the yield in the year 1870 may be estimated at not less than 22,000,000 tons, anthracite and bituminous, which will be worth $77,000,000. The gold crop of California remaining stationary, as it seems likely to do, judging from the past ten years, it will be observed that the coal crop of Pennsylvania will exceed it in value more than fifty per cent. But as the field of gold is likely to diminish, the excess of the value of the coal of Pennsylvania will probably be much greater than fifty per cent.

The capital invested in the mining and marketing of coal in Pennsylvania greatly exceeds that invested in the mining and marketing of gold in California, as any one may judge who thinks for a moment of the character of the two products. The coal of Pennsylvania is really the most practically beneficial to the community, because the mining and handling of it give employment to so large a number of persons. From the moment that the miner lays his pick or drill upon the black mass, up to the time it is put into the furnaces of the manufacturer, Pennsylvania coal is performing a beneficent office in one way or the other. The miner, the engineer, the boatman, the sailor, the stockholder in the railroad or canal, the mechanist, the coal merchant, the laborer, and the carter, all derive advantage from the coal, at one stage or other of its existence. Gold, on the other hand, after it is once reduced from the ore, is chiefly advantageous only to the express companies and the bankers. Its small bulk in proportion to its value, makes it of little benefit to the working part of the world.

Let no one then, dispise the coal of Pennsylvania, whose actual value per annum is advancing so rapidly, and whose benefit to the mass of the people is so immense. It is continually rising in dignity and importance, and it is a source of wealth to our State that may already be compared to the wealth of California in gold. —[Philadelphia Bulletin.

The British Steam Frigate Warrior.

This mammoth and formidable iron cased frigate was safely launched into the Thames, on 29th ult. She measures 6,177 tons, British builders' measurement, and is the largest man-of-war ever built. She is also the largest vessel in the world, after the Great Eastern. She is generally considered in England as considerably surpass the famous French war ship La Gloire. Her dimensions are—extreme length over all 420 feet; ditto breadth, 58 feet; depth, from spar deck to keel, 41 feet 6 inches.

The walls of the Warrior are of five inch iron plates, backed by twenty inches of solid teak, which Mr. Whitworth, the celebrated artillery-man, deem invulnerable. This tremendous coat of armor, however, does not cram the whole vessel, as with such an entire covering the Warrior would scarcely float at all. Only the middle of the broadside, for a length of 213 feet, and going down five feet under the water line, is thus protected. This seems a serious fault in the plan of the vessel. To compensate for the absence of this armor, both the stem and stern are crossed and recrossed in every direction with water-tight compartments, and the outer iron plates are 1 1-4 inch thick and backed up by 25 inches of teak. Thus the whole vessel is subdivided in at least 20 places by water tight bulkheads of the most solid description.

The "nose" or beak of the ship is one immense slab of iron 30 feet long, by no less than 10 inches thick, and weighs nearly 20 tons.

☞ THE DAILY GAZETTE is the oldest Newspaper in the West, and having an extensive circulation amongst the business men, and reaching all classes, it offers inducements to advertisers as the best medium through which to reach the public.

SPALDING'S PREPARED GLUE

Spalding's Prepared Glue!

Spalding's Prepared Glue!

SAVE THE PIECES!

ECONOMY! 'SPATCH!

☞ "A STITCH IN TIME SAVES NINE." ☜

As accidents will happen, even in well-regulated families, it is very desirable to have some cheap and convenient way for repairing Furniture, Toys, Crockery, etc

Spalding's Prepared Glue

meets all such emergencies, and no household can afford to be without it. It is always ready, and up to the sticking point. There is no longer a necessity for limping chairs, splintered veneers, crockless dolls, and broken cradles. It is just the article for scrap, shell, and other ornamental work, so popular with ladies of refinement and taste.

This admirable preparation is used cold, being chemically held in solution, and possessing all the valuable qualities of the best cabinet-makers' Glue. It may be used in the place of ordinary mucilage, being vastly more adhesive.

"USEFUL IN EVERY HOUSE."

N B.—A Brush accompanies each bottle.

Price, 25 Cents.

Wholesale Depot, No. street, New York.

Address— HENRY C. SPALDING & CO., Box No. 5,600, New York.

Put up for Dealers in Cases containing Four, Eight, and Twelve Dozen, a beautiful Lithographic Show-Card accompanying each package.

☞ A single bottle of SPALDING'S PREPARED GLUE will save ten times its cost annually to every household.

Sold by all prominent Stationers, Druggists, Hardware and Furniture Dealers, Grocers, and Fancy Stores.

Country merchants should make a note of SPALDING'S PREPARED GLUE, when making up their list. It will stand any climate.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose of this Compound Extract is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so compound that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The following is handed is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Headache arising from, Biliousness, Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where the virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, confirmed benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combination to Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pain and others as sickly complexions indicate its necessity in almost every conceivable case. Inducing in all maladies in which it has been found, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Rheumatism, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittant Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible—Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just return-d from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for nervous familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old exhibitions, it is vigorously tonic, without being exciting and overheating, and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, Invaluable as are its cures, a single box is frequently sufficient to show its superiority to all other known liabilities.

The attention of families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported. Both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully reparative effects as this. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and close-of-fice exercises, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills; price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

Dr. GEORGE H. KEYSER, Wholesale Agent for Western Pennsylvania.

R. B. LOCKE & CO., General Agents,

Cheap Letter and Writing Paper

oct29:lydaw for sale at Dr. KEYSER'S, 140 Wood st.

THE

ONLY DISCOVERY

WORTHY OF ANY CONFIDENCE FOR

RESTORING

The Bald and Gray.

Many, since the Great Discovery of Prof. WOOD, have attempted—but only to imitate his Restorative, but to have discovered something that would produce results identical; but they have all come and gone, having certified away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:

Prof O J Wood & Co: Gents—The letter I wrote you in 1854, concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. These inquiries are: first, it's a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably, yes. My hair is even better than in any stage of my life for forty years past, more soft, thrifty and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care were used by wiping to a tacit in close contact with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; and as there is so much fraud in the manufactures had sale of various compounds as well as this, it has, no doubt, been busily imitated and been used not only without benefit, but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and bunsiness have attended it with surprise, as I am now 51 years old and not a gray hair in my head or on my face, and to prove this fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful; I gave it to my friends and thereby induced them to try it, many were skeptical until after trial and then purchased and used it with universal success. I will ask as a favor, that you send me a last by which
