SATURDAY MORNING, FEB. 23.

RELIGIOUS INTELLIGENCE.

——The Rev. Dr. Cobbs Bishop of the Protestant Episcopal Church in Alabama, recently died at Montgomery. He was a High Churchman and highly evangelical; and this is the testimony he left as the grace of the gospel he leaves behind:

"I rest all my confidence with God, tell them that 'Thomas a Kempis' and worthy all acceptation, that Christ Jesus came into the world to save sinners. I have been called a good man, I abhor that, from my soul. I do not say whether justly or otherwise. I have tried to show kindness and sympathy to all, especially to the poor, to the afflicted, and to the bereaved; and I protest that I do not wish ear malice or church unkind feelings towards anybody on the face of the whole earth——But if I have done any kind deeds, or any good works, I am sure I make no claim on that, but cast them all behind my back, and nauseate them, and quit upon them as filthy rags; and counting myself an unprofitable servant, I look only unto Jesus, the author and finisher of our faith," and say,

"In my hand no price I bring,
Simply to my cross I cling."

——The Second Adventists look for the second coming of Christ about about 1867 or 1868.

——The 135,795 Episcopalians of the United States report $1,637,123 12 as the amount of their contributions for missionary and charitable purposes. This gives to each member an average of almost twelve dollars.

——Rev. Robert Baird, D. D., has been elected Secretary of the American and Foreign Christian Union, in the room of Dr. Fairchild, resigned.

——The last Thursday (28th) of February, by the request of the General Assembly, O. S. Presbyterian Church, and other Evangelical bodies, is set apart as a day of prayer for God's blessing upon the youth of the land, and especially upon those convened in Colleges and other institutions of learning.

——According to recent statistics in all North America, the Orthodox Congregationalists have 2,734 churches and 260,389 members.

——The catalogue of the Western Theological Seminary, Allegheny city, just published, gives a list of one hundred and sixty-five students.

——The Presbyterian says:

"Since the last General Assembly, 5 ministers who had served as Moderators in former years, have departed this life. Dr. Neill (1816) Dr. Herron (1827,) Dr. Edgar (1842,) Dr. Murray (1849,) Dr. Van Rensselaer (1857.) The oldest surviving Moderator is Dr. Nott, who presided in 1811."

——The Reformed Church at Bergen, N. J., celebrated its two hundredth anniversary on the 23 of December last.

——The Rev. Dr. Brown, President of the Lutheran Theological Seminary at Newberry, South Carolina, returned to Pennsylvania with his family. The cause may easily be imagined.

——The anniversary of the Tract Society of the M. E. Church was held at Rochester, N. Y., on the 10th and 11th inst. Rev. Bishop Janes, Rev. Drs. Reid, Bragdon, Monroe and Wise took part in the exercises.

——The Charleston *Miscellany* has dropped United States from its title, and is now called the Charleston *Catholic Miscellany*. "There being no 'United States,'" says the editor, "the words omitted would state a falsehood."

——The Wesleyan Normal School (England) is in a prosperous and efficient state. Since the opening of the institution, nearly six hundred have been trained therein, most of whom are now employed in the responsible and successful work of instructing in secular knowledge, based on the principles of Christianity, the rising youth of Methodism.

——A correspondent of the N. Y. *Chronicle* enquires, "Can a licentiate baptize?" The *Chronicle* answers:

"It is not customary among the Baptists of this country to allow unordained ministers to administer baptism."

——The next General Conference of the United Brethren in Christ will convene in Westerville, Ohio, on the second Monday in May next.

——The Welsh Calvinistic Methodists of the United States number 113 churches, 4,851 members, 53 ordained ministers and 36 preachers.

——A Church of England mission to Italian residents in London, has recently been opened with the approval of the Bishop of London.—It is said there are twenty thousand Italian residents in the metropolis.

——The Rev. Mr. Scudder writes that he visited the Missionary College at Basle, Switzerland, and lodged one night in the college. He says:

It is purely of a missionary character. It has eight professors. Ninety-six young men are training there for foreign fields. No one is received who does not intend to be a missionary. It sustains forty-eight male missionaries in India. It has also thirty men in Western Africa, and three in China. It will soon send out fifteen persons by the overland route to India, eight ordained men and seven ladies.

——Three natives have been admitted to the church on Strong's Island, Micronesia, and one has died in christian hope. Several others seem to be truly converted. A Hawaiian helper has been ordained as an evangelist on Ponape.

——The Glasgow *Guardian* says that no class of the community has been more benefitted by the revival spirit of the last eighteen months, and exhibit greater religious earnestness than the mill girls of that city.

——The *Universal* announces the following in reference to Monsigneur, Cœur, Bishop of Soissons, who died recently of apoplexy:

That Mgr. Cœur was designated as the future Patriarch of France, in contemplation of a separation from the See of Rome. The Chapter of Soissons, after the bishop's death, found documents, which left no doubt of this detestable conspiracy, which, however, has been baffled by the act of God.

——The Catholic Bishop of the Diocese of Pittsburgh, has ordered all the faithful who have completed their 21st year, unless legitimately dispensed, to observe the fast of Lent. Only one full meal is allowed a day, excepting Sundays and on Fast days is not to be taken till about noon. Item 9th of the Regulations for Lent reads:

"By dispensation, the use of flesh meat will be allowed at any time on Sundays, and once a day on Mondays, Tuesdays, Thursdays, and Saturdays, with the exception of the Saturday in Ember Week, and the last four days of Lent."

——The Buffalo *Advocate* referring to the ministerial labors of Rev. H. Gratiam Guinness at Hochmarport, Mass., says that his congregation are occasionally startled with the expression of some antiscriptural theory. For instance, in one of his sermons, he affirmed that the "Ten Commandments," were given to the Jews exclusively, and were abolished with the Ceremonial law." The expression of sentiments so utterly at variance with the concurrent opinion of all the evangelical Churches, and so imperiled a doctrine as of the present and permanent authority of the Decalogue will do much to prevent the good which might otherwise flow from his labors.

——It is reported on apparently reliable testimony, that the Roman Catholic Priesthood is rapidly on the increase in England. The accessions are mainly from the Established Church.

——Freeman's *Journal* (Catholic) says: "Legate is now at the Capital, Port-au-Prince, Hayti, arranging for an Archiepiscopal See, and for the general control of that country. Special protection is to be accorded to that Church by the government; the Bishops are to be sustained by the public funds; and the nomination of the prelates is to be with the President subject to the approval of the Pope. If the *Journal* is correct, the Protestant colored population of other countries will not be likely to hasten their migration to Hayti.

——The "Revue des Mondes," a Roman Catholic periodical of Paris, thus discourses:

"Much may be said on Protestant divorce and polygamy, but one fact remains certain: it is, that in those where the Bible circulates and is read have prevented a strong, deep and enduring religious faith; while in countries where it is prohibited, one is obliged to deplore a moral and superficiality and want of principles, for which the splendid uniformity of rites cannot compensate.

——It is supposed that two-thirds of the inhabitants of Holland are Protestant. Among the Catholics is a peculiar sect of Jansenists, who claim to be the pure Catholic Church. Excommunicated by the Pope, they still persist in their claims, and maintain the forms of the Roman Catholic Church, but recommend the reading of the Bible, of which they have a version of their own.

——George Whitefield's last words were: "I am dying." It is said he desired to die suddenly. At a dinner table in Princeton, says the *Methodist*, he remarked, "I shall die silent; it has pleased God to enable me to bear so many testimonies for him during my life, that he will require none from me when I am dying."

Mississippi Sentiment.

[From the Natchez Courier]

The Free Trader of the 6th, speaks of Natchez as "a blaze with excitement," and as rejoicing over the new reign. Never were wilder words spoken, or more injudicious paragraphs sent forth. They were intended not for home consumption, but for abroad influence. We owe it to the truth, (and we regret the necessity to do so,) to deny any such public sentiment here.

So far from the news of the appointment of Mr. Davis as Provisional President, being received with alacrity, it was received with regret. Neither in character nor in politics, has he any hold upon the confidence of the people. He has at least attained what he has been struggling for for ten years past—a Presidency. We may admire the ingenuity with which he has attained his object, and yet despise the tricks by which he has crawled to it.

There was no sound of rejoicing here at Natchez, either on account of the formation of such a Southern Confederacy, or the appointment of such rulers. The word sprang too often from one another, "Are we to have no showing? Are the people to have no choice? Can a Convention utter Constitutions? Impose taxes? appoint Constitution-makers? inaugurate Presidents? Are they oligarchy, and are we nothing?" and each citizen had to confess that there was no reply to these questions. We live under an oligarchy that has not yet dared to trust the people with a say as to its consent. Right as the South is upon the great question at issue, its position has been compromised by the events of the last two months. The consent of the governed is an essential element of Government. The people of the Southwest might have voted for all that has been done, but their consent has not yet been either asked or obtained.

The Scramble for Office.

The new "Confederacy" is in trouble. Everybody wants office. The Georgians are the most clamorous, and next to them come the patriots of Alabama. A letter in the Baltimore American, dated at Montgomery, tells the story:

"As I have hitherto predicted, it is evident that Georgia will have the greatest share of honor and offices in the new nationality—one of Governors, Howell Cobb, is President of the Provisional Congress. Georgia, I begin to think, is a little too greedy. She aspires to too much of the plunder. Thus far she has had more than her share; but unsatisfied with the lion's portion, she would with her energy swamp all the slower craft. Already the Georgians are flocking to the capital with the smell of fat offices in their nostrils—and to make the object seem more attainable, like Vandals, they will try to carry off the Capitol to their own State.

"Next foremost in the hunt for office stands Alabama. This, however, is but natural and to be expected, since the sessions of the Congress are held at the Capital of that State."

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of, still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which foster in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become a synonym with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combination in Hydrogen, recommended by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pain and others unsightly complexions indicate its necessity in almost every conceivable case. Reluctance in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Consumption, Diarrhœa, Dysentery, Antipathetic Consumption, Scrofulous Tuberculosis, Salt Rheum, Blemishes on the Skin, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism; Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description can warrant attestation would render credible—Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent gaseous and profuse exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and no resource familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old exploded, it is vigorously tonic, without being exciting and consequently debilitating, and all that class of cases so fearfully fatal if unattended to in time called fame's weaknesses or irregularities. Also, liver derangements so frequent in this climate, liver complaints, dise-se of the kidneys, scalding or incontinence of the urine, or any general or local disorder of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed so many symptoms it's which rob them of their beauty—for beauty cannot exist without health, and health cannot exist while the above distressing maladies continue. Then, again, the Orchid is a perfect mother's cordial. Take a month or two before the final trial, she will pass the dreadful period with perfect safety and vitality. There is no mistake about it, this Orchid is all we claim for it. Mothers, try it. Now, I do not wish to accept to detect the illness or decline not only of your daughters before it is too late, but also your sons and husbands; for while the former, from false delicacy, often go to premature graves rather than let their condition be known to time, the latter are often so misled up with the excitement of business, that if it were not for you, they too would press to the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Orchid and Blood Renovator as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York; 114 Market street, St. Louis, Mo.; and sold by all good Druggists. Price One Dollar per bottle.
