MONDAY MORNING, MARCH 4.

Mrs. Lincoln.

A correspondent of the N. Y. Times, who followed Mr. Lincoln on his Eastern tour, says that on the way from Philadelphia to Harrisburg Mr. Lincoln was fatigued, and fell asleep. He continues:—

Mrs. Lincoln, who is moulded in another fashion, did not sleep—catch her. On the contrary, she was very wide awake. With her was the wife of a Springfield friend, and had they been the center of attraction at a Saratoga ball room they could not have been more entirely complaisant, more brilliant or self-possessed. Ladies are fond of reading about each other. They like to know everything concerning each other and particularly the points—the more the better, and I fear that's not the whole of it. Now it so happens, that as all-wise Providence has seen fit to elevate Mr. Lincoln to the Presidential chair, Mr. Lincoln removes his limbs from the desk in his legal office, and goes as per correspondence to the house upon the hill. Of course Mrs. Lincoln with him, and, as nearly as I can judge, the entire female population are in ecstatics of curiosity to know who she was, what she looks like, what her manner is, and if she has presence of the sort necessary in the exalted station to which she will soon be introduced.

Believing that a large part of this curiosity is laudable, and having it in my power to gratify it, I will at once proceed to do so. Certain metropolitan journals, with hatchets to sharpen, have erroneously attributed to Mrs. Lincoln the features of a Juno, the form of a Venus, and the wisdom of Minerva. This we cannot endorse, nor can we agree with certain other unscrupulous newspaper men who accuse Mrs. Lincoln of all that is coarse, ungenial and unrefined. Mrs. Lincoln does not chew snuff, does not dress in outre style, does not walk *a la Zouave*, does not use profane language, nor does she on any occasion, public or private, stick up shindies. These negatives are necessary, because the affirmative of these propositions has been sent broadcast throughout the land. Mrs. Lincoln, as she appears to the humble, and somewhat pedantic individual who presumes on this occasion the dignity of the TIMES—is a middle aged lady, of—well, say forty or perhaps thirty-eight years of age.

On the top of the head, the place where the hair ought to grow—the hair does grow, luxuriantly, too, of a dark brown color, and elastic fiber. Her head is large and well developed and well matured condition. Her forehead is broad, her eye clear and intelligent, and rather than shun grey, her nose likes well and is not too fine a point on it—is not Grecian; her mouth is large, well shaped, and capable of great expression, while her chin rounds gracefully, balances properly, and goes in a quiet way towards the endorsing of our opinion that she is a decided—not obstinate—woman. Her form inclines to stoutness, but is well fashioned and comely; while her hands and feet are really beautiful, indicating, as does the well shaped ear, that she has come from a race of people who were well born. Her carriage is good; her greetings are affable, and, without doubt, her intentions are correct. That Mrs. Lincoln goes to the White House, versed in the goodly knowledge of housewifery and subatantial living, rather than skilled in the cunning tricks of politics, and blazed with the excitements of Washington life, is a feature for congratulation, rather than for deprecation. She started with Mr. Lincoln when he was a poor young man, with no more idea of being called to the Presidency than of being a cannibal, she has pursued a quiet home life, rearing and educating a happy family, cheering the man of her choice as he passed through the stormy scenes of life, and content if in all things she made, what few women do make, a good wife and a competent mother. She has been suddenly called to fill an unaccustomed position. To it she goes, taking with her, her sound, substantial, yet common sense, her natural talents, that great elder of us all; the esteem of all who knew her at old home, and the best wishes of every decent woman in the land.

Sorghum in the West.

From recent conversations we have had with persons perfectly intelligent, and well posted in regard to the manufacture of Syrup from the Chinese Sugar Cane the past year, in this county, we are satisfied that the aggregate amount would not fall below 1,000 barrels of 40 gallons each, or 40,000 gallons. We hear of one farmer manufacturing some sixty or seventy barrels, others fifty, and a great many of less amounts. At 50 cents a gallon this would effect a saving to the country in the matter of "sweetening" alone, of $20,000 in one year. That the amount planted the coming year will be greatly increased we have no doubt. The present Southern troubles will stimulate the production of the Chinese Sugar Cane all over the North where it can be grown at all.—*Rockford (Ill.) Register.*

Ever since the government has existed, there have been two frightful sources of corruption—extravagance and dishonesty—which the patriotic statesmen of Montgomery have wisely banished from the new Government.—*N. O. Delta.*

As Cobb and Floyd are Secessionists, we think the *Delta* assumes too much. The one bankrupted the Treasury, and the other stole seven millions of dollars, and both are high in the confidence of the rebels. Simply passing from the government to another does not usually transform knaves into honest men.

ANOTHER CURE BY DR. SCHENCK.—I called on Mr. Schenck some ago in one of his visits to Pittsburgh, at the office of Dr. Keyser, No. 140 Wood st. He was examining patients with long flannels. One of my lungs and the bronchial tubes were found to be badly diseased. Ulceration when I coughed I expectorated blood and matter in large quantities. I had night sweats and a great cough, and was greatly debilitated. Dr. Schenck said he was the inventor of "Pulmonic Syrup," "Seaweed Tonic" and "Mandrake Pills," and after taking these one month I have so far recovered that I do not spit very much blood, my cough and night sweats have left me. I live in Co. Hollow, Allegheny county, thirty miles, Ohio, where I can well be found. You may publish this if you wish.

Pittsburgh, Nov. 27, 1860. MARTIN KOCH.

P. S. Since the above was written, Mr. Koch has called and informed me that he is entirely well, having regained his natural health.

I, William W. Alexander, residing on Ohio street, Allegheny city, do hereby certify that I have been a sufferer from severe cough and pain in the breast for about eight years. During the whole of this time I have had general debility and depression of spirits. I tried every remedy that I could hear of, but nothing took hold of my case. I heard of Dr. Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills, and purchased a bottle of each. I commenced using them, and in a few days I felt relieved. In the course of six weeks I was entirely restored to health, which was pronounced a perfect cure by my physician, who had been attending me. I have no hesitation in saying that I owe my restoration to health entirely to the use of Dr. Schenck's medicines, and I consider my life was saved by them. I have since been using them in my family, and find them to be the best medicines I ever used. I am willing to answer any inquiry that may be made of me in relation to the above statement. Yours, &c.,

WILLIAM W. ALEXANDER.

Witness—JOHN H. SHERWOOD.

Dr. Schenck will be professionally at his principal office, No. 15 North Fifth street, Philadelphia, every Saturday. He will be at his office in Pittsburgh, at No. 140 Wood street, (Dr. Keyser's,) on the first Monday of every month, and will remain one week.

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Pure Sarsaparilla, so combined with other substances of still greater efficacy, in power, as to afford an effectual antidote for the disease. Sarsaparilla is reputed to cure. It is well known that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

CHALYBEATE RESTORATIVE

PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and carbon by connection to Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pain and otherwise sickly complexions indicate its necessity in almost every conceivable case. Invigorates in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Cachexia, Salt Rheum, Rheumatism, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are known to the proprietor, whose physician has prescribed it extensively in the treatment of sufferers, enfeebled victims of apparently incurable, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of Iron must necessarily be salutary. Unlike the old Iron, it does not, if its vigorously took, without being exciting and overheating, speedily, regularly speed, tone and brace the whole constitution, and to those mental or bodily powers are prostrated through over use, either of the mind or body, and we desire it to be distinctly understood that in all cases of Debility, Nervousness, and Want of Appetite, the disease should be treated, and rendered less dangerous.

Coughs and Colds, which are of such frequent occurrence, and which so often lay the foundation of diseased lungs, bronchitis and consumption, may all be at once cured by this Iron and Cough Pills.

In all chronic diseases, such as Dyspepsia, Weak Stomach, Constipation, Liver Complaints, Piles, Female Debility, and irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Salt Rheum, and other old eruptions, the case has specifics from years of application will afford a cure in almost every instance. Often the cure of a single chronic difficulty, such as Dyspepsia, Piles or Catarrh, Headache or Female Weakness, has more than paid for the case ten times over.
