FRIDAY MORNING, MARCH 29.

The Trials and Pleasures of Vegetarian Life.

Mr. D. U. Martin, the vegetarian, who rowed a boat from Boston to New York some months since, has lately been experimenting on various kinds of diet. Since his voyage, says the Boston *Journal*, he has lived principally on apples, but has occasionally varied his plan, in order to test the effects of different kinds of food on the system.

At one time he had confined himself to reading very closely, without taking any exercise, till he became somewhat debilitated. Happening to take cold at this time he was threatened with a fever. He then took a few doses of starvation, eating nothing but a small pear from Sunday morning till Friday afternoon, when his pulse was down to thirty-eight; he then ate three common sized apples, and in two hours after his pulse was up to fifty. He had lost some fourteen pounds in this time, and in a week from that time had gained twenty pounds.

He has also camped out in the woods and sometimes in the fields from one to three nights per week, during the fall and winter; lying in the woods on the snow some of the coldest nights—sometimes when the mercury ranged from zero upward. When the ground is damp or covered with snow, he first spreads his rubber coat, then his comforter and blankets, or in the coldest weather two comforters and a blankets lies down on one side, pulls the other over him and sleeps soundly till morning.

Mr. Martin says his voice is better while living on fruit, his teeth clearer, and every indication of health stronger.

True Derivation of the Word Yankee.

I beg leave to commend to Mr. Marsh the following derivation of the word Yankee, which I do not remember to have seen before.

We usually derive this word from the Indian mispronunciation of the word English. I was speaking of this the other day to a Dutch gentleman, who suggested that it was more probably derived from the common nickname given in Europe to the Dutch, who are called "John Kees" (little Johns—pronounced Yankee).

As the Dutch settled New York and the banks of the Hudson, and as the Puritans, many of them, came from England by way of Holland, it is not likely that this nickname—common among the Dutch—came to be applied to the people of New England and New York? It is more exclusively applied to New Englanders, but this was not so originally, I believe. It is certainly a more probable derivation than the common one alluded to above.—*Cor. of World.*

INDUCING FRUIT BEARING.—"An Old Subscriber" writes: "I have tried with most gratifying success a method of promoting fertility in a tree, which was first suggested to me in the Agriculturist. I have a large Bartlett pear tree which has persisted year by year in making a most rampant growth, but which refused to do its duty in the most important matter of fruit bearing. In July last year, I took a stout cord and bound it as tightly as possible, three or four times around the trunk of the tree, and left it there until November. The result is that this year my tree had about three hundred large, fine looking pears upon it, so loading it down that I had to prop up several of the branches to prevent their breaking. The tree at the same time has made a strong, healthy growth of about six inches."

In the Parish of St. George in the East, which has become of late years so familiar to the public, there are other curious customs than those formerly observed in the parish church. On the 1st of May next certain young women, previously approved of, will have an opportunity of drawing lots for a marriage portion of £100, and the lucky drawer will be entitled to receive that amount as soon as she can obtain a husband to share it with her. The dispensers of the bounty are Baine's charity trustees, and the young women who offer themselves as candidates must have been educated in Mr. Baine's school, and have attained the age of 22 years. They must also have continued members of the Church of England since they left the school. They are admitted as candidates on the 5th of March.

ANOTHER CURE BY DR. SCHENCK.—I called on Dr. Schenck some time ago in one of his visits to Pittsburgh, at the office of Dr. Keyser, No. 140 Wood st. He was examining patients with lung disease. One of my lungs and all the bronchial tubes were found to be badly diseased. Oftentimes when I coughed I expectorated blood and matter in large quantities. I had night sweats and a great cough, and was greatly debilitated. Dr. Schenck prescribed for me his "PULMONIC SYRUP," "SEAWEED TONIC" and "MANDRAKE PILLS," and after taking them one month I have so far recovered that I do not spit any more blood or matter, and the cough has nearly left me. I live in Connellsville, formerly, Unity township, Ohio, where I am well known. You may publish this if you wish.

Pittsburgh, August 27, 1850. MARTIN KOCH.

N. B. Since the above was written, Mr. Koch has entirely recovered, and continues well, having regained his usual health.

I, WILLIAM W. ALEXANDER, residing on Ann street, Allegheny city, do hereby certify that I have been a sufferer from severe cough and pain in the breast for about eight years. During the whole of this time I have had general debility and distraction of spirits. I tried every nostrum I could hear of, but nothing took hold of my disease. I heard of Doctor Schenck's "PULMONIC SYRUP," but knowing no one personally that it had cured, I had no confidence in it. In April, 1850, I took a severe cold, accompanied with a violent cough, difficulty of respiration, and night sweats, which so prostrated me that I was confined to my room for two months.

Several of my friends who called to see me, spoke in very high praise, as they knew what it had done for others. My prostrated condition discouraged me considerably, and I made up my mind to waste no more money for doctors or medicine, but would take the chances, live or die, as I had been so long sick that I felt completely discouraged. However, after reading several advertisements in the "Pittsburgh Dispatch" I felt inclined to give Dr. Schenck's medicines a trial, and now, scarcely two years afterwards, I am in good health, by the blessing of God, and the use of Dr. Schenck's medicines. I unhesitatingly state that it has made a perfect cure of me. I am a well man, and I attribute my good health and vigor of constitution entirely to Dr. Schenck's medicine. I enjoy better health to-day, Feb. 8th, 1851, than I have done for twenty years past. If persons knew the value of Dr. Schenck's inestimable medicine, they would not hesitate to call on him in his visits to this place. I feel like advising every person to call on him, as I have the utmost confidence in his medicines. Any person wishing to know the facts as here stated can call on me at my place of business, at W. M. Fisher's, Machinist, in this city, or at my residence, Ann street, Allegheny city.

Weekly Review of the Pittsburgh Market.

[Reported specially for the Pittsburgh Gazette.]

PITTSBURGH, TUESDAY, March 25, 1851.

The week which has just closed is as not been marked by any more important feature, so far as trade in Pittsburgh was concerned. The general markets have been quiet and rather dull, with but few changes to make in quotations.

Flour has been steady with a fair local demand, while prices are firm and well maintained. Grain continues dull and inactive at former figures, while Groceries remain steady but unchanged. Provisions have been quiet but firm with a regular local demand, while rates remain as before.

The money market continues quiet and has undergone no material change. Our banks have not as yet resumed specie payments, nor are we able to state when they will. The late movement of some of our business men in endeavoring to drive out Western currency, by refusing to take it while not being allowed the usual discount—4 @ cent—has not as yet had the desired effect. A large portion of the mercantile community still receive and pay it out as currency. The weekly bank statements show a large falling off in loans and discounts, but no other new feature.

[NOTE.—The quotations given in the following Review, it must be understood, are the wholesale prices, except where otherwise specified, and that in all cases in the filling of small orders to the retail trade, an advance of three to five per cent will be charged over these rates.]

APPLES—continue in fair demand, with a limited supply in market. We note a fair amount of sales at prices ranging from $1.75 to $2.25, as to quality.

ASHES—quiet and dull. Sales of Pearls at 5½; Pots range from @4¼.

ALE—Pittsburgh ale, featured continues in fair demand, with steady shipments to all parts of the country. The sales obtained rates at present are:

	bbls.	half bbls.
Kennett	$3	$1.50
Crown	5	2.50
X	6	3.00
XX	7	3.50
Porter	8	4.00

BAGS—the price current of Messrs. Rhett & Barker, for printed bags is as follows: flour sacks, 12¼ lbs, $25@37.50 @ 100; 25 lbs $30@45; 50 lbs $55@72; 96 lbs $100@130; salt bags—6 lbs $12@16; 10 do $22.50@28; 14 do $30@35; 20 do $35@40; 25 do $32@45. Ham and beef bags—10 lbs $5 @ 100; 15 do $7.50; 25 do $10@15. Grain bags—5 bush, muslin, $10 @ 100; 2 do, drilling, $15; 2 do, Osnaburg's, $14 @ 18; 3 do do, $18@22.

BACON—is rather better request but rates remain unchanged. The current rates are 6½@6¾c for hams; 6¾@10c for Sides, 10½@10½c for plain Hams and 7½@7¾c for Shoulders.

BUCKWHEAT FLOUR—continues exceedingly dull—in fact there has not been a sale during the week that we could hear of. We quote nominally at $1.75@1.87½ @ cwt.

BULK MEATS—The market rules pretty firm, with a fair amount of sales on private terms.

BROOMS—The market is well supplied and prices have a declining tendency. We note sales at $1.75, $2.25 and $3.00 for common, medium and fancy.

BUCKEYE WARE—the better descriptions (cash, per inch) at Fullston and New Brighton @ 8c; Bucket @ $3.50; and Tubs, $4.75@5.25 @ doz. From store, buckets @ 9c; tubs, small way at $1.75@2.00.

CRANBERRIES—We note a fair number of sales at $7@8 @ bbl.

CORN MEAL—dull, with sales of prime sifted at 45c @ bushel.

CHEESE—quiet with a regular demand for the local trade. The current rates now are 5½c for W R and 10½@11c for Cheshire and Dairy.

DRIED BEEF—in moderate demand with occasional sales at 12@12½c @ lb.

DRIED FRUIT—Peaches are in fair request, at prices ranging from $1.75 to $2.25 @ bush—according to quality. Apples dull at 1@2c.

FISH—in rather better request, without however any change in rates. We quote No 2 Large Mackerel at $5.50; No 2 do at $4.12½@4.25; White Fish $4.75; Trout $4.25, and Lake Herring $3.50 @ half bbl. Baltimore Herring $5 @ bbl.

FEED—remains quiet and dull, with no sales of any importance. Prices unchanged.

FLOUR—has improved a little and prices are firmer. The demand is principally for a local character, as the sales consequently were in the small way. The following are the current rates from store: Extra, $5.00@5.25; Extra Family $5.25@5.50; Fancy $5.50@5.75. Extra Spring Wheat for Spring Wheat. There is no superfine offering but little in market. The receipts both by rail and river have been more liberal during the past few days.

GRAIN—Oats are more active but unchanged—23@25c from first hands and 25@28c from store. Rye in moderate request at 38@40c from first hands and store. Barley is not steady at 50c for Spring and 60c for Fall. Corn dull and lower at 30@32c from first hands and store. Wheat in fair request at $1.10@1.18 @ bush.

GROCERIES—Sugar steady but unchanged at prices ranging from 6¾ to 7¼c, as to quality. Molasses more inquiried after with a fair local demand at prices ranging from 25 to 27½c. Coffee is fair request and firm at 9 to 9½c @ lb, as to quality.

FEATHERS—are very dull. Prices are held at 45@50c; mixed 30@40; Pure Geese at 50c; Chicken do.

LUMBER—The prospects for a brisk season in the lumber business are not so flattering as we could wish. There has been but comparatively few rafts sent down yet, and the difficulty appears to be in the lumbermen up the Allegheny. It is to be hoped such still times get better. As the market is unsettled, we omit quotations.

LIME—unchanged. Sales of Louisville at $1.25 @ bbl. There is no Maryland lime in market.

LARD—continues to meet with a light demand at prices ranging from 6¾ to 7½c, as to quality.

MESS PORK—very dull and we quote nominally at $15. County Mess is held at $16.

OILS—Linseed is also scarcely and in moderate local demand at 45@50—cash and time. Duck Creek Lake boiling is selling at 50c, and Allegheny Rock is held at 39@42c, according to gravity.

ONIONS—dull with occasional sales at 40@45c @ bush.

PIG METAL—remains quiet and inactive, with no transactions beyond some small lots for immediate use. An improvement is it thought will soon take place.

POTATOES—in fair demand with but a limited supply in market. The current rates are from 31½ to 50c @ bushel, according to quality.

RYE FLOUR—quiet but steady. The current rates now are $3.62½@3.75 @ bbl.

SALT—The demand has fallen off but prices are unchanged. Sales of No. 1 at $1.20, and No. 2 Extra at $1.25 @ bbl. Coarse Ashton at $1.25@1.30 @ 56 lbs.

SEEDS—Clover is in demand at $4.25@4.50; Timothy is held at $2.25@2.50, and Flax at $1.10@1.20.

STEARINE—dull and has declined. We quote at 9½@9½c @ lb.

River News.

The weather yesterday was mild and clear and eighty at meridian, with a fair stage of water. The river, under the influence of the late rains commences to swell a little yesterday, and last evening the play mark indicated 7 feet and a fraction of 12 or 13 inches. The arrivals since our last were the Minerva from Wheeling, Eunice from Louisville and Hastings from Memphis, all with fair trips. The Argonaut from St. Louis was due last night and will doubtless be found at the wharf this morning. The departures were the Eunice for Louisville and Keene for the Upper Mississippi. The former had an excellent trip being loaded down to the guards with freight and crowded with passengers.

As will be seen by card, Capt Robinson announces the favorite Hastings for Memphis on Tuesday next. Mr. Bears, a gentleman long and favorably known on the river, retains charge of the office, where he can be found at all times.

The J. B. Ford, Capt. J. B. Devenny, is receiving for Cincinnati and Louisville and will leave on Saturday at 4 P. M.

The J. W. Hallman, Capt. W. W. Martin, is ready to receive freight and passengers for the Missouri River, or to also the Florence, Capt. Bissell, for the Illinois. They are both first first-class boats and in charge of careful, courteous and attentive officers.

The Bay City, Capt. Caswell, is announced for St. Louis and the Upper Mississippi on Monday next.

RISE IN THE ALLEGHENY.—The low boat Gen. Lorimer which came down the Allegheny last evening reports the river rising at Franklin. It is probable that a boat will leave for Franklin and Oil Creek this evening. There is said to be a large amount of freight here awaiting shipment up.

The Cincinnati Commercial of yesterday says:

The steamer Gen. A. R. Hamilton, Keating and Leonora arrived from Pittsburgh.——The Hamilton passed down for St. Louis with a full cargo. Secretary Webb will follow suit soon.——The Westmoreland leaves for Pittsburgh to-day.——The St. Louis and Wheeling Packet left for Pittsburgh, and are loaded deep.——The Meteorite departed for Pittsburgh with 200 tons of freight and 40 cabin passengers.——The St. Louis has 150 bales of the Silver Moon and Prairie Rose cotton.

MONETARY AND COMMERCIAL.

NEW ORLEANS MARKET, March 21.—Flour continues dull, and prices a shade easier; sales of 3,000 bbls at $5.25@5.37½ for common to choice. Corn dull and prices declining; small sales at 45@46c for mixed. Oats dull and prices drooping, but not quotably lower; bbl 28@30c for Mississippi. Bacon dull at 5½c for shoulders, and 10@10½c for Sides. Bulk Meats unchanged and selling at 6½@6¾c for shoulders, and 8¾c for sides. Corn dull, owing to large receipts, and prices are lower, closing easy at 44c for mixed. Coffee in good demand, and the market firm at 12c for prime. Sugar unchanged and steady at 5¾@6¾c for fair to prime. Molasses unchanged; no prime in market; fermenting 34c.

NEW ORLEANS MARKETS—WEEKLY REVIEW.—Sugar—In our last weekly report we noticed that both the supply and demand had been to a fair extent, fair to fully fair ruling throughout the week at 4¾@5¾c @ lb. Since then the movement has exhibited no material change, though the better qualities and clarified have been in moderate demand. Since then the supply and demand have been fair, but the assortment on sale has been poor, consisting only of fermenting and rebelled, and consequently confining the business to these descriptions.

The total sales of the week thus embrace 7300 hhds, taken mostly for the West, the city trade and our neighboring ports; the market closing with a fair demand at the following quotations:

Inferior and Rebelling	3 @3¼
Common to Good Common	3¾@4¼
Fair to Fully Fair	4¾@5¼
Prime to Choice	5¼@5¾
Centrifugal and Clarified	6 @6¾

Week's receipts, 6,218 hhds, 177 bbls; exports 971 hhds, 19 bbls.

Molasses—We noticed in our last weekly report that the receipts had been to a fair extent, but considered mostly of inferior quality. This remains the case this week, and with only a moderate demand prices ruled in favor of buyers, inferior and fermenting closing at 18@22c, and prime at 26 @ gall. The sales of the week amount to 1,750 bbls and 550 hhds, the market closing with a fair demand at the following figures:

Inferior	18@22
Common and fermenting	20@22
Prime	24@
Half bbls	24@

Week's receipts, 1,801 bbls; exports 2,335.—Delta, 23d.

PHILADELPHIA CATTLE MARKET, March 25.—The offerings of Beef Cattle were lighter this week than last, and 1,325 head were received and sold at from $7 to $7½ the 100 lbs, the latter for extra quality, prices ranging from $6 to $7 on previous quotations, and the market dull. The following are the particulars of the sales made public to-day at the Avenue yard:

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by Galvanism, and approved certificates from the highest Medical Authorities, both in Europe and the United States, and published in their practice.

The great success this compounds daily proves that no preparation of Iron can be compared with it. Impurities of the blood, deficiency of vital energy, pain and otherwise sickly complexions indicate the necessity of using a tonic and aperient combination. Inaction in all maladies in which it has been tried, (except one) it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Impaired Digestion, Sick Headache, Consumption, Scrofula, Salt Rheum, Rheumatism, Weakness, Whites, Chlorosis, Liver Complaints, Chronic Diseases of the Skin, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids of so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted travel to a distant land. Some have even regained the use of limbs long afflicted of female sufferers, emaciated victims of apparent decrepitude, exhausted nervous systems, critical changes, and that complication of nervous and dyspeptic severities to all and exercises for which the physician has no sense.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this combination of iron must necessarily be salutary, for, unlike the old cathartic, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, without the unphysiological case of costiveness, without ever being a gastric purgative, and yet a most reliable evacuative.

It is liable better property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also apparently and in moderate local demand at its $50—cash and time. Duck Creek Lake boiling is selling at 50c, and Allegheny Rock is held at 39@42c, according to gravity.

ONIONS—dull with occasional sales at 40@45c @ bush.

PIG METAL—remains quiet and inactive, with no transactions beyond some small lots for immediate use. An improvement is it thought will soon take place.

POTATOES—in fair demand with but a limited supply in market. The current rates are from 31½ to 50c @ bushel, according to quality.

RYE FLOUR—quiet but steady. The current rates now are $3.62½@3.75 @ bbl.

SALT—The demand has fallen off but prices are unchanged. Sales of No. 1 at $1.20, and No. 2 Extra at $1.25 @ bbl. Coarse Ashton at $1.25@1.30 @ 56 lbs.

SEEDS—Clover is in demand at $4.25@4.50; Timothy is held at $2.25@2.50, and Flax at $1.10@1.20.

STEARINE—dull and has declined. We quote at 9½@9½c @ lb.

TALLOW—has declined. Sales of rough at 7½@8c, and country rendered at 8@8½c.

WINDOW GLASS—prices are firm, and we repeat our quotations for the small sizes, city make—6x8 and 7x9, $3.50; 7x11 and 8x10, $3.75; 8x10, 8x12, 9x10, 9x12 and 10x12, $3.75; 9x15 and 10x16, $3 @ box of 50 feet—10 @ cent discount off.

WHITE LEAD—firm and in steady demand at $6.50 @ keg for pure in oil, and dry at 6½ @ lb; subject to the usual discount. Red lead 6½@6½, ext, and Litharge 6½.

WHISKY—in rather better request. Sales of 100 bbls Raw was made yesterday at 18½c, and 53 bbls Rectified at 17c. Old Rye is held at from 75c to $1.50 @ gall—according to age and quality.

Miscellaneous.

A Card to the Public.

THE amount of bodily and mental misery arising from a neglect of small complaints is incalculable, and it is therefore of the utmost importance that a strict attention to the least and most trifling bodily ailments should be had; for diseases of the body invariably affect the mind. DR. MOFFAT'S VEGETABLE LIFE MEDICINES, in every instance where they have been in roughly used, have TRIUMPHED OVER DISEASE in almost all its diversified forms. The salutary effects of the Life Medicines have, in fact, been so universally experienced, that they have become fully established as the most easy, safe and perfect mode of treatment ever offered to the public

THESE MEDICINES

Have now been before the public for a period of 30 YEARS, and during that time have maintained a HIGH CHARACTER in almost EVERY PART OF THE GLOBE for the extraordinary curative properties which they possess.

IN MANY THOUSANDS

of cases of instances, they have EVEN RESCUED SUFFERERS from the very VERGE OF AN UNTIMELY GRAVE, after all the deceptive nostrums of the day have invariably FAILED. To great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and exciting them with renewed tone and vigor, that they were indebted for their name.

MOFFAT'S LIFE PILLS!!!

Are composed of VEGETABLE INGREDIENTS EXCLUSIVELY, as can be ascertained by CHEMICAL TESTS. Their prominent qualities are those of an active and searching though perfectly mild and agreeable detergent aperient; of a gentle sopoific, promoting the insensible perspiration; of a pleasant diuretic, invigorating the kidneys and bladder; and of a delightful tonic cardiac, exciting appetite by the demands of active digestion, and cheering the mind with that grateful sense of renovated health which is one of the most felicitous feelings of our nature.

THE PHŒNIX BITTERS!!!

So denominated from their astonishing power of creating new life and strength, as it were from the very ashes of the most dilapidated constitutions—are more strongly tonic and more immediately invigorating than the Pills containing the same choice vegetable extracts as the latter, in a different modification. Although less cathartic than the LIFE PILLS, they nevertheless begin to cleanse the alimentary canal much sooner, generally slightly operating within three or four hours, and producing a decided sense of relief to the first dose and Stomach, and exhilerating the Mind, even in less than this time.

MOFFAT'S LIFE PILLS!!!

Is Affections of the Head, Sick Headache or Nervous Affections, these Pills will be found to possess the most salutary efficacy.

MOFFAT'S PHŒNIX BITTERS!!!

Have been happily used for the cure of FEVER AND AGUE, with INVARIABLE SUCCESS!

BILIOUS COMPLAINTS, AND A MODE OF CURE!!!

SEA well-regulated and proportionate quantity of bile upon the stomach is always requisite for the promotion of sound health. Certain stimulus digestion and keeps the natural canal free from all obstructions. When there is a deficiency of bile, the body is constantly costive. On the other hand, an overabundance of bile causes frequent nausea in the stomach, and often promotes very severe attacks of disease, which sometimes end in death.

Dr. Moffat's Life Medicines!!!

Should be taken in the EARLY STAGES of Bilious complaints and if persevered in strictly according to directions, will POSITIVELY EFFECT A CURE!

PILES! PILES! PILES!

As a remedy for this most distressing and obstinate malady, the
