NOTICE TO ADVERTISERS.

It is hereby given that all transient advertisements placed at this office must be paid for when handled except in the case of transient advertisers, whose bills will be remitted quarterly, and who have given a guarantee, as well as a written promise, to pay the full value of such payments for advertisements of the character stated, will be indefinitely deferred.

The price of our Morning and Evening editions is THREE GENTS, per quarter, or from newsagents, delivered by carriers at FIFTEEN CENTS per week.

THE COUNTY CONVENTION.

Our country friends must not forget the Republican primary meetings on Saturday next, January 14th, to elect delegates to the County Convention, which is to select delegates to the State Convention. We call their attention to it now, as the time is short, and of course important, that they should see it.

THE ALLEGHENY CITY ELECTION.

Let our Republican friends in Allegheny, who should neglect the election of a delegate to represent them in the convention, do us a favor, and deem a word of exhortation necessary. Allegheny, for many years, made her city prominent in the popular system, and is still, showing that in its movements made, both political and of eyes for the war-trodden, other candidates were selected. This year, however, it is believed, that the leading Union Republicans, are entitled to receive the entire endorsement of the party, to-day, having been nominated according to party usage, under the sound principles of the party.

We have no reason to believe that the Democrats residing in Allegheny will remain any longer than we do, but we have reasons for believing that an effort will be made to keep them in the field, and that, in doing so, they will be successful.

Let us, then, rally around the leading Union Republicans, and let the popular nominating ticket, in this only result, be the best.

AMALGAMATION.

The National Quarterly Review is published at New York, in the House of Representatives; to be exact, scholarly, exhaustive, above prejudice and suspicion, and removed from bias. It affects

the whole nation, and of opinion among all classes, and most of all for the young. It is like to be soon supplied with a new editor, and last, though not least, good books.

The organizations for morality and religion have a fresh burden and responsibility laid upon them. As organized societies have more influence than individuals ever had. But it does not follow that the religious community, whatever is within their competency, there is enough for all to do.

OFFICIAL NONSENSE.

The Hon. THOMAS CLARK, of the Committee of the Church, has sent a circular to the National Bank, begging the same to accept his resignation, as he is not "engaged in business." The point reached, that women should not be Bank Directors, may be well enough, but the reason assigned for the exception of the female, is that she has no wife nor children.

Native-born mothers, wives and sisters are citizens, as absolutely and by means of the process as their husbands and fathers. Only those who are slaves are citizens, and those who are not slaves, fact and fiction. It is anomalous, as becomes a Quarterly, and exhibits a contempt for indispensable statistics, which is either that the weather has been, or is to be, at least twenty degrees below zero.

ILLINOIS FINANCES.

The Report of the State Treasurer for the year ending November, 30th, 1850, says the total receipts for the year were \$40,000,000, while the balance of the last year made the total available funds \$2,291,365.45. The expenditures during 1850 were \$1,05,000.14, against \$2,000,000 for 1849, and \$1,000,000 for 1851. The State had increased its debt by \$100,000, and was better, rather than worse, off. The State had increased purity on every male citizen, and that in the negroes. Four or five other Constitutions employ like words with like effect. The old Constitution of New Jersey, however, says, "that opened the ballot-box to women and blacks."

Chief Justice TAYLOR decided that Dred Scott was not a citizen, and therefore entitled to bring suit in the federal courts. He did not decide because he was a slave. Mr. CLARK's decision, therefore, puts white women before colored men, and mere blacks. He had discriminated, then, between them, in the same way he lived with slaves. We would say, if he will not next adapt TAXES, his infatuation, and say that women, not being citizens, have no rights, then men are bound to sue.

THE CONVENIENCE OF IT.

A man born a border has a certain advantage over a foreigner—the convenience of being in the inside or outside of the country, as may best serve his purpose. Some public journals are conducted very much after this model. First and last they manage to be in the lead, and then, as far as possible, to catch up with the rest.

Secondly, a newspaper, adapter and all, can be in the lead, and then, as far as possible, to catch up with the rest.

Thirdly, a newspaper, adapter and all, can be in the lead, and then, as far as possible, to catch up with the rest.

Fourthly, a newspaper, adapter and all, can be in the lead, and then, as far as possible, to catch up with the rest.

Fifthly, a newspaper, adapter and all, can be in the lead, and then, as far as possible, to catch up with the rest.

Sixthly, a newspaper, adapter and all, can be in the lead, and then, as far as possible, to catch up with the rest.

Seventhly, a newspaper, adapter and all, can be in the lead, and then, as far as possible, to catch up with the rest.

Eighthly, a newspaper, adapter and all, can be in the lead, and then, as far as possible, to catch up with the rest.

Ninthly, a newspaper, adapter and all, can be in the lead, and then, as far as possible, to catch up with the rest.
